College of San Mateo

Makerspace Library Tour and Activity

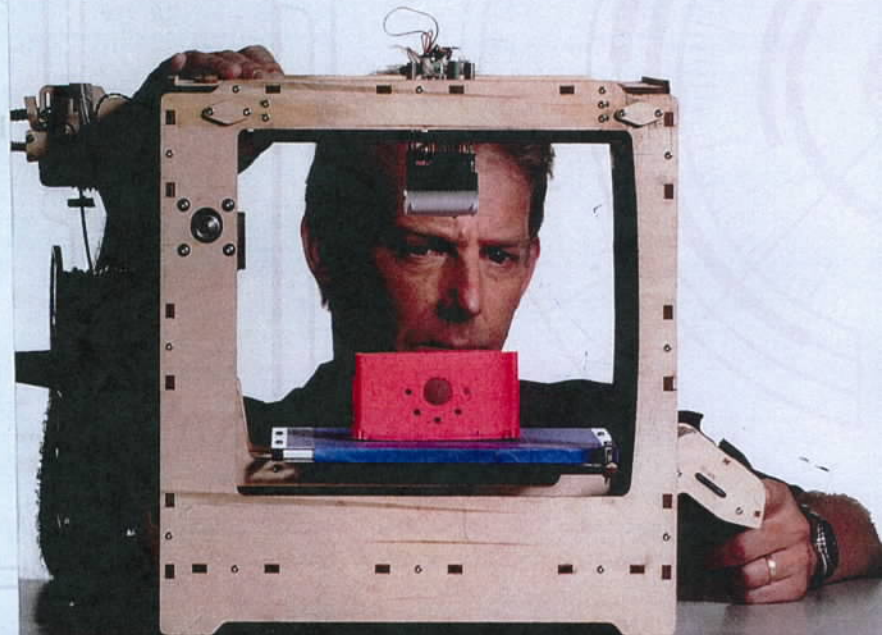

Tuesday, May 14th 2-3pm

The CSM Library's "Making the Future: Makerspace Incubation Project" is designed to introduce the culture of "Making" at the College of San Mateo and to stimulate the College's imagination in re-visioning the role of academic libraries in the 21st century. Makerspaces are a logical next evolutionary step in a traditional role of providing access to people, information, and technological resources that support discovery, teaching, learning, creativity, and application of new knowledge.
