Mission & Values Statements and Student Learning Outcomes

Mission and Values Statements

College Mission & Diversity Statement

College of San Mateo is committed to addressing the broad educational needs of the local and world community. We foster success and ensure equitable opportunities for all our students, while celebrating the diversity of our campus.

Value Statements

Equity

As a Hispanic Serving Institution, we are committed to creating a socially just campus climate wherein everybody is welcome and celebrated, and wherein everybody is an integral part of the campus. We believe that all students are entitled to a safe learning environment that celebrates their intersectional identities, fosters their agency, and develops their capacity for self-advocacy.

Academics

CSM takes great pride in its commitment to academic excellence. Our goal is to facilitate engaged, informed leadership and successful, satisfying careers for our students. We see our campus as a vibrant hub of intellectual rigor and relevance. As such, we embrace mindful learning, information literacy, and independent thinking to ensure a dynamic, innovative workforce and transfer population.

Community

Consistent with our commitment to equity, CSM strives for a vibrant, inclusive and safe college community. In support of this, we must recruit and retain a diverse faculty and staff and foster professional development informed by critical pedagogy and aligned with our college mission. Together, we aim to create an environment that fosters collegiality and empowers our students to reach their full potential inside and outside the classroom.

Governance

Because the college's success is intricately linked to the collective wisdom and values of its students, faculty, staff, and administrators, we strive for an inclusive, collaborative, and transparent decision-making process and governance. To this end, we strive to ensure that communication is multidirectional and incorporates feedback from the entire campus community.

Approved by Institutional Planning Committee, April 3, 2018

Approved by Board of Trustees, October 24, 2018

Institutional (General Education) Student Learning Outcomes

The General Education SLOs are the expected outcomes for students who complete a GE sequence at the College of San Mateo by either receiving an Associate degree or completing a GE pattern for transfer.

Effective Communication

The ability of students to write, read, speak, and listen in order to communicate effectively. Students will be able to:

- Comprehend, interpret, and analyze written and oral information;
- Express ideas and provide supporting evidence effectively in writing and in speaking;
- Communicate effectively in a group or team situation.

Quantitative Skills

The ability of students to perform quantitative analysis, using appropriate resources. Students will be able to:

- Solve a variety of problems that require quantitative reasoning;
- Interpret graphical representations of quantitative information.

Critical Thinking

The ability of students to analyze information, reason critically and creatively, and formulate ideas/concepts carefully and logically from multiple perspectives and across disciplines. Students will be able to:

- Develop and evaluate arguments;
- Assess the validity of both qualitative and quantitative evidence;
- Apply diverse disciplinary approaches and perspectives;
- Employ the scientific method.

Social Awareness and Diversity

The ability of students to recognize cultural traditions and to understand and appreciate the diversity of the human experience, past and present. Students will be able to:

- Identify the benefits of diversity and respect the range of diversity;
- Work effectively with others of diverse backgrounds;
- Recognize the importance and analyze the interconnectedness of global and local concerns, both past and present.

Ethical Responsibility/Effective Citizenship

The ability of students to make judgments with respect to individual conduct, based on systems of values. Students will be able to:

- Recognize ethical principles;
- Identify possible courses of action in response to ethical dilemmas and evaluate their consequences;
- Behave ethically and respectfully when working with students, instructors, and the campus community.

General Information

The San Mateo County Community College District

Starting with just 35 students when it first opened its doors at the Baldwin campus in downtown San Mateo in 1922, San Mateo County Community College District has grown to a complex of three modern campuses serving more than 25,000 day and evening students from throughout San Mateo County.

In early years, the District consisted only of the area within the San Mateo Union High School District. In 1937, the Jefferson Union and Half Moon Bay high school districts were included. Sequoia Union High School and South San Francisco Unified School Districts became part of the College District in the 1960s; La Honda-Pescadero Unified School District joined in 1976.

First classes were held in a building shared with San Mateo High School in downtown San Mateo. In 1923, the College moved to a large house on the Kohl Estate, in what is now San Mateo's Central Park. Four years later, the high school occupied a new campus and the College moved back to the Baldwin campus.

In 1939, a new CSM campus went into operation at North Delaware Street and Peninsula Avenue, San Mateo, but because of World War II, development of the site was curtailed. When the war ended, the College leased the Merchant Marine Cadet School at Coyote Point, San Mateo, and added those facilities to the classrooms at the Baldwin and Delaware campuses, conducting classes simultaneously at three separate locations.

In 1957, the Board of Trustees developed a 25-year District master plan based on the recommendations of a citizens' advisory committee, and the same year submitted a \$5.9 million bond issue to voters that was approved by a three-to-one margin.

The bond issue victory cleared the way for prompt acquisition of the present College of San Mateo campus and also provided funds for purchase of a 111-acre site west of Skyline Boulevard and south of Sharp Park Road in San Bruno. A third site, of 131 acres west of the Farm Hill subdivision on the Redwood City-Woodside line, was purchased in 1962.

The current College of San Mateo campus was opened in 1963, followed by Cañada College, Redwood City, in 1968, and Skyline College, San Bruno, in 1969. Construction of Cañada and Skyline was made possible in large part from proceeds from a second bond issue of \$12.8 million approved by District voters in 1964.

SMCCCD Mission

Preamble

The Colleges of the San Mateo County Community College District, Cañada College, College of San Mateo, and Skyline College, recognizing each individual's right to education, provide the occasions and settings which enable students to develop their minds and their skills, engage their spirits, broaden their understanding of social responsibilities, increase their cultural awareness and realize their individual potential. The District actively participates in the economic, social, and cultural development of San Mateo County. In a richly diverse environment and with increasing awareness of its role in the global community, the District is dedicated to maintaining a climate of academic freedom in which a wide variety of viewpoints is cultivated and shared. The District actively participates in the continuing development of the California Community Colleges as an integral and effective component of the structure of public higher education the State.

SMCCCD Mission

In an atmosphere of collegiality and shared responsibility, and with the objective of sustaining open access for students and being responsive to community needs, the Colleges of the San Mateo County Community College District will fulfill the following mission with excellence:

- Provide a breadth of educational opportunities and experiences which encourage students to develop their general understanding of human effort and achievement; and
- Provide lower division programs to enable students to transfer to baccalaureate institutions; and
- Provide career and technical education and training programs directed toward career development, in cooperation with business, industry, labor, and public service agencies; and
- Provide basic skills education in language and computational skills required for successful completion of educational goals; and
- Provide a range of student services to assist students in attaining their educational and career goals; and
- Provide self-supporting community education classes, contract education and training and related services tailored to the human and economic development of the community; and
- Provide leadership in aligning educational programs and services offered by all local educational institutions and community service organizations; and
- Celebrate the community's rich cultural diversity, reflect this diversity in student enrollment, promote

it in its staff, and maintain a campus climate that supports student success.

To fulfill this educational mission, the District is committed to effective institutional research that supports the evaluation and improvement of programs, services, and student outcomes. Shared governance is practiced through processes that are inclusive with regard to information sharing and decision making, and that are respectful of all participants. The District plans, organizes and develops its resources to achieve maximum effectiveness, efficiency, equity and accountability.

The Mission is evaluated and revised on a regular basis.

Reviewed and approved May 16, 2012

Statement on Academic Freedom

The San Mateo County Community College District is dedicated to maintaining a climate of academic freedom encouraging the sharing and cultivation of a wide variety of viewpoints. Academic freedom expresses our belief in inquiry, informed debate and the search for truth; academic freedom is necessary in order to provide students with a variety of ideas, to encourage them to engage in critical thinking and to help them understand conflicting opinions.

Academic freedom encompasses the freedom to study, teach and express ideas, including unpopular or controversial ones, without censorship or political restraint. Academic freedom, rather than being a license to do or say whatever one wishes, requires professional competence, open inquiry and rigorous attention to the pursuit of truth.

The District's faculty have the right to express their informed opinions which relate, directly or indirectly, to their professional activities, whether these opinions are expressed in the classroom, elsewhere on campus or at college-related functions. In a search for truth and in a context of reasoned academic debate, students also have the right to express their opinions and to question those presented by others.

Employment by the District does not in any way restrict or limit the First Amendment rights enjoyed by faculty as members of their communities. Faculty members are free to speak and write publicly on any issue, as long as they do not indicate they are speaking for the institution.

Protecting academic freedom is the responsibility of the college community. Therefore, in a climate of openness and mutual respect, free from distortion and doctrinal obligation, the District protects and encourages the exchange of ideas, including unpopular ones, which are presented in a spirit of free and open dialogue and constructive debate.

The College

College of San Mateo, the oldest of the three colleges in San Mateo County Community College District, is located on a 153-acre site that provides a panoramic view of the north Bay Area.

Completed at a cost of almost \$19.5 million, the campus opened in its current College Heights location in 1963 and currently serves approximately 10,000 day and evening students. It enrolls students from the entire District, although its chief service area is central San Mateo County.

In 2001, voters approved a \$207 million bond measure and \$468 million in 2005 to repair and modernize College of San Mateo, Skyline College and Cañada College. In 2010, CSM opened the doors to its new Allied Health and Wellness/Aquatics Center, which houses dental assisting, cosmetology, nursing and the San Mateo Athletic Club. In 2011, the College completed its construction of the new College Center which is the new location for the administration offices, Bookstore, cafeteria, Digital Media, Public Information office, Social Science division and Student Services.

The College's main educational structures are built along a north-south axis provided by the main pedestrian mall. A second mall, running east and west, connects the Fine Arts Center with the Library. In addition to three main lecture halls, the College has a three-building science center, an engineering building, a planetarium, a center which houses dental assisting, cosmetology and nursing, and one complex which houses electronics and aeronautics.

To assist students in profiting from their education, the College helps them explore their interests and abilities, choose their life work, and plan an educational program which will prepare them for that work. It offers this assistance through a formal program of guidance and counseling, and through informal student-teacher relationships which are among the most distinctive and valuable of its services. The College recognizes the educational value of organized student activities and encourages students and faculty participation in these activities.

Situated close to San Francisco and several fine colleges and universities, College of San Mateo is part of a colorful community which enjoys many cultural advantages. Many College of San Mateo graduates transfer to the University of California, California State Universities, and other major public and private colleges and universities. Because the needs of these students who transfer for upper division work are carefully provided for in the curriculum, the College enjoys a fine reputation among the universities of the State. CSM graduates have consistently had a pattern of success in transfer educational institutions. Many College of San Mateo students, having temporarily completed their formal education with the Associate in Arts or the

Associate in Science degree, find employment in business and industry.

Accreditation

College of San Mateo is accredited by the Accrediting Commission for Community and Junior Colleges of the Western Association of Schools and Colleges, (10 Commercial Boulevard, Suite 204, Novato, CA 94949, (415) 506-0234), an institutional accrediting body recognized by the Commission on Recognition of Postsecondary Accreditation and the U.S. Department of Education.

Complaint Policy

Students and members of the public who desire to file a formal complaint to the Commission about one of its member institutions should become familiar with the requirements for doing so prior to contacting the Commission. The Commission's Policy on Student and Public Complaints Against Institutions along with the appropriate forms can be found on the [Accrediting Commission for Community and Junior Colleges \(accjc.org\)](http://accjc.org) website. This information will assist the user in understanding the issues the Commission can and cannot address through its complaint process.

High School Diplomas

The College does not issue high school diplomas. Students who wish to complete requirements for the diploma should consult the high school they last attended to determine graduation requirements. Students who are unable to make arrangements with their previous high schools can contact the office of the high school district in which they now reside. Counseling/advising services for high school diplomas may be obtained by residents of the San Mateo Union High School District by telephoning the SMUHSD Adult School at (650) 558-2100.

Admission

Eligibility Requirements

Graduation from high school or successful completion of the California High School Proficiency Examination, the General Education Development Examination (GED), or the TASC - Test Assessing Secondary Completion is a prerequisite for admission for a person under 18 years of age. Any person who is 18 years of age or older and is able to benefit from the instruction offered is eligible to attend this public community college.

The policy of this district is that, unless specifically exempted by statute or regulation, every course, course section, or class, reported for state aid, wherever offered and maintained by the district, shall be fully open to enrollment and participation by any person who has been admitted to the college(s) and who meets such prerequisites as may be established pursuant to regulations contained in Article 2.5 (commencing with Section 55200) of Subchapter 1 of Chapter 6 of Division 6 of Title 5 of the California Code of Regulations.

Procedures for Admission

Student Success and Support Program Enrollment/Registration Process (SSSP)

There are two different admission/enrollment paths. One path is for students who intend to complete a certificate, associate degree, or transfer to a university, or may be undecided but considering one of the aforementioned goals. Students on this path are **NON-EXEMPT** and are required to follow the SSSP enrollment steps as listed below.

The second path is for students who are enrolling at College of San Mateo for personal enrichment only and do not plan to achieve a certificate, associate degree, or transfer, or students who are matriculated at another college or university and enrolling at College of San Mateo only to meet the requirements of their home institution. The students are referred to as **EXEMPT**.

To register for classes all students (**NON-EXEMPT & EXEMPT**) must:

1. [Apply Online \(collegeofsanmateo.edu/apply\)](http://collegeofsanmateo.edu/apply).
2. NON-EXEMPT students must complete assessment for English or ESL and mathematics. In addition to placement tests, there are alternate means of assessment including high school transcripts, external exams, and an assessment questionnaire. EXEMPT students who wish to take a course that has an English or math prerequisite must also complete assessment.**
3. NON-EXEMPT students and EXEMPT students who wish to use Counseling Services must complete the College of San Mateo College Orientation, either in person or in [WebSMART \(collegeofsanmateo.edu/webSMART\)](http://collegeofsanmateo.edu/webSMART).
4. NON-EXEMPT students must meet with a counselor and complete an abbreviated Student Educational Plan (SEP).
5. All students register for classes through WebSMART. Enrollment fees may be paid through WebSMART or in person at the Cashier's Office.
6. All students must use the assigned my.smccd.edu email. This college email is the communication method used by professors and the College.

NON-EXEMPT students must complete Steps 1-4 to be eligible to register for classes.

EXEMPT students are eligible to register on their assigned registration date once they have applied for admission. Registration dates may be viewed in WebSMART.

NON-EXEMPT students who have completed the SSSP enrollment requirements have higher registration priority for enrollment in future semesters.

**Students who have successfully completed a math or English course at another college or university should see the [Prerequisites, Corequisites and Recommended Preparation \(collegeofsanmateo.edu/prerequisites\)](http://collegeofsanmateo.edu/prerequisites) website for more information on their course placement.

Students planning to enroll in the Cosmetology, Dental Assisting or Nursing program, must file a separate application to the program in addition to the College admission application.

Using Transfer Credit and The Transcript Evaluation Service (TES)

Non-exempt Students who have completed coursework at colleges and universities outside of San Mateo County Community District (SMCCCD) should use the Transcript Evaluation Service (TES) within the first semester of enrollment at College of San Mateo. Through TES previous college level lower division coursework is reviewed, analyzed, and applied as appropriate to educational goals at College of San Mateo: certificates, associate degrees, CSU GE Certification (California State University system GE), and IGETC Certification (CSU/UC Intersegmental General Education Transfer Curriculum). The TES evaluation is visible on the students DegreeWorks audit and serves as the official response from the District in regards to how

prior completed coursework is applied in SMCCCD. More information about the Transcript Evaluation Service (TES) is available on [San Mateo County Community College District \(smccd.edu/transeval\)](http://San Mateo County Community College District (smccd.edu/transeval)) website. The Request a Transcript Evaluation form is on [WebSMART \(collegeofsanmateo.edu/websmart\)](http://WebSMART (collegeofsanmateo.edu/websmart)) under the **student** tab.

Residence Requirements

It is not necessary to be a resident of California (as defined in the Education Code) in order to attend College of San Mateo. California State law requires that each student enrolled in or applying for admission to a California Community College provide such information and evidence as deemed necessary to determine his/her residence classification. The burden of proof to establish residence is on the student. For more information, visit the [Admissions and Records \(collegeofsanmateo.edu/admissions/residency.asp\)](http://Admissions and Records (collegeofsanmateo.edu/admissions/residency.asp)) website (College Center Building 10, Room 360; 574-6165).

High School Students / College Connection Concurrent Enrollment Program

Students attending high school may register concurrently for CSM classes with the approval of the Dean of Enrollment Services. Interested students must submit a College Connection / High School Concurrent Enrollment Application, available on the [College Connection Concurrent Enrollment Program \(collegeofsanmateo.edu/ce\)](http://College Connection Concurrent Enrollment Program (collegeofsanmateo.edu/ce)) webpage, with the required recommendation.

Concurrently enrolled high school students are exempted from payment of the Enrollment Fee and Health Fee if registered for less than 11 units. However, students who enrolled for 11.5 units or more are responsible for paying ALL the fees associated with the enrollment. Because of enrollment limitations, high school students may not be permitted to enroll in classes in certain impacted programs.

College Connection Concurrent Enrollment Program students receive college credit for all course-work successfully completed. In addition, students may request that a transcript be sent to their high school registrar to be considered toward high school graduation. For more information, visit the [High School Enrollment Programs \(collegeofsanmateo.edu/highschool\)](http://High School Enrollment Programs (collegeofsanmateo.edu/highschool)) website (College Center Building 10, Room 462, 574-6646).

Veterans and Veterans' Dependents

College of San Mateo offers approved instruction to veterans, service members, dependents and survivors of veterans and to other eligible persons, and is authorized by the Department of Veterans Affairs to certify students

who are working toward an AA/AS degree program, or certain certificate and transfer programs, for benefits under Chapter 30, 33 (Veterans), Chapter 31 (Vocational Rehabilitation), Chapter 35 (Veterans' Spouses or Dependents), and Chapter 1606 (Selected Reserve). All students, except those under Chapter 31, buy their own books and supplies. Those interested in attending College of San Mateo under any of these chapters should contact the Veterans' Assistant in the Office of Admissions and Records (Building 10, Room 360) to apply for benefits.

Honorably discharged veterans with at least 30 days of active military service may be eligible for educational benefits for a period of ten years following discharge. Benefits are also available to members of the active reserve who pursue approved college studies.

To initiate benefit payments, an eligible student must request that certification of enrollment be sent to the Department of Veterans Affairs. See the Veterans' Assistant in the Office of Admissions and Records. Those who have previously attended college must file official copies of all college transcripts with Admissions & Records.

College policy regarding Academic Probation (explained on page 14) applies to all students. Veteran students placed on Academic Probation for failure to maintain a 2.0 grade point average must improve their GPA within the following two semesters or the College is required to report a termination of veteran's benefits due to unsatisfactory academic progress (as defined by the Department of Veterans Affairs). More information is available from the Veteran's Assistant.

Military Service Credit

For academic credit purposes, a veteran is defined as an honorably discharged member of the United States Armed Forces who was on active duty for one year or longer. Upon presentation of separation or discharge papers, veterans are exempted from the Physical Education requirement for the AA/AS degree. They are also granted six units of elective credit toward the AA/AS degree.

In addition, veterans who qualify may receive credit for military service schools toward the Associate in Arts/ Science degree upon presentation of proof to the Office of Admissions and Records. They must have completed a minimum of 12 units with a grade-point average of 2.0 at College of San Mateo. Units of credit for military service (six units) and military service schools will be recorded and so annotated on the student's academic record.

For further information contact the Office of Admissions and Records (574-6165) or csmadmission@smccd.edu.

Former Students of College of San Mateo

Former students of College of San Mateo are normally eligible to return. However, if they have less than a

2.0 grade point average or less than 50% completion rate in courses taken at College of San Mateo or in the SMCCC District, they will be readmitted according to the college reinstatement process. For more information and to find Reinstatement Petition form visit [Counseling & Advising Forms \(collegeofsanmateo.edu/forms/counseling.asp\)](http://collegeofsanmateo.edu/forms/counseling.asp) webpage. Prior to being readmitted, former students must clear any holds on their records due to unpaid fees, fines, etc.

International Students

College of San Mateo is authorized under Federal law to enroll non-immigrant international students. College of San Mateo does not normally admit persons who enter the United States as visitors (B-1/B-2 visa) to its International (F-1 visa) Student Program. In order to be admitted to the program, an international student must:

1. complete the equivalent of an American high school education;
2. demonstrate sufficient command of English to profit from instruction at the college. A minimum score of 56 (internet based) on TOEFL is required;
3. present evidence of sufficient funds to cover tuition fees and living expenses while attending College of San Mateo. the tuition fee for the 2018-2019 academic year is \$233 per unit of credit, \$46 per unit enrollment fee and \$8 per unit capital outlay fee;
4. and purchase the health insurance offered through SMCCCD

International students are required to complete 12 units of class work each semester to maintain their status. Additional fees are payable at the time of registration.

Under certain circumstances of unforeseen financial hardship, continuing international students may petition to pay the tuition in three installments. This does not apply to students enrolling for their first semester at College of San Mateo.

A required international student application is available through the [SMCCD International \(smccd.edu/international/apply\)](http://smccd.edu/international/apply) website.

For priority admission processing, applications for the Fall semester must be filed by July 1. Applications for the Spring semester must be filed by November 15.

For more information contact 574-6525 or csminternational@smccd.edu.

Choice of College

Residents of the District may elect to attend College of San Mateo, Cañada College or Skyline College.

Enrollment Management

A Student Responsibility

At the College of San Mateo, it is the student's responsibility to manage his/her enrollment. This includes updating personal information records via WebSMART, registering and dropping for classes in a timely manner, adhering to all deadlines listed on the Important Dates page in the Schedule of Classes (in particular late registration, withdrawal from classes, payment of fees, retrieving grades), and monitoring academic standing.

WebSMART Registration and Services for Students

Your student WebSMART account is the vehicle to use to manage enrollment, view academic records, and maintain up to date student information. Using [WebSMART \(collegeofsanmateo.edu/webSMART\)](http://collegeofsanmateo.edu/webSMART) you can:

- Register for Classes
- Sign in and use your assigned my.smccd.edu email
- View the Catalog
- View the Schedule of Classes, and search for classes by category/time
- Schedule a math/English assessment appointment
- Check your registration status
- Add/Drop classes (anytime within published deadlines)
- Print your schedule of classes
- Pay your fees by credit card
- Purchase a parking permit
- Apply for Financial Aid information/review application status
- View your grades
- View math/English placements scores
- Request an official transcript
- Submit a request for transcript evaluation for college transcripts from outside of SMCCCD
- Print an unofficial transcript
- Update personal information
- Update educational goal
- View DegreeWorks Degree/Certificate Progress Completion
- View DegreeWorks Student Educational Plan (SEP)
- Apply for Degree & Certificate

DegreeWorks is a tool to help students monitor progress toward degree and certificate completion and CSU GE and IGETC certification. DegreeWorks looks at the program requirements found in the College of San Mateo, Cañada, and Skyline catalogs and the coursework completed to produce an easy to read audit. In addition, it includes a "what if" tool that allows students to view their progress toward the full range of our San Mateo County Community College District educational goals. DegreeWorks includes information about progress

toward educational goals, academic history, a GPA calculator, and a Student Educational Plan (SEP). Students can work with a counselor who will complete an SEP that is stored in DegreeWorks for an important academic planning resource for students. Students are encouraged to review DegreeWorks information and work with a counselor to engage in academic and career planning.

Unit Load Limitations

A normal class load for a full-time student for fall and spring semesters is between 12 – 19 units. For summer session a full time load is considered to be 6 units. Students are not permitted to take more than 19 units during the fall and spring semesters or more than 11 units during the summer session without approval from a College of San Mateo counselor. To request approval, students follow the directions on the Petition to Enroll in Beyond the Maximum Units available on the [Forms \(collegeofsanmateo.edu/forms/counseling.asp\)](https://collegeofsanmateo.edu/forms/counseling.asp) webpage. A program of 12 units or more during fall and spring terms is considered a full-time load for athletic eligibility, financial aid, international students with F-1 visa, veterans' benefits, social security benefits, and most other benefits which are dependent upon student enrollment status.

Program Changes

Adding Classes

Students may add classes up to one day prior to the start date of the class by using WebSMART. Once the class begins (1st class meeting), students may add classes by attending class, obtaining the instructor's admission to add authorization, completing registration and paying fees within published timelines.

In order to add a semester-long class, a student must be in attendance in the class by the second week of instruction. In evening classes which meet twice a week, a student must be in attendance by the third class meeting. To add a short course or a summer course, a student must be in attendance in the course within the first 12% of the class meetings.

When utilizing WebSMART to register for classes, students should print a schedule summary as a receipt of their registration.

Wait Lists

Students wishing to add classes which have reached the enrollment limit may use WebSMART to add themselves to the waitlist. If seats become available in the class, the student will be notified by email. If the student fails to enroll in the class within 24 hours, s/he will be removed from the waitlist. Students who are on waitlist for classes that have established prerequisites are required to complete prerequisite requirements prior to enrolling.

(Refer to the [Schedule & Catalog \(collegeofsanmateo.edu/schedule\)](https://collegeofsanmateo.edu/schedule) website for more class schedule information.)

Dropping and Withdrawing from Classes

Classes may be dropped without the instructor's approval. Withdrawal from a class or classes must be initiated by the student by the appropriate deadline date by using WebSMART, in person at the Office of Admissions and Records, by mail, or by fax at 574-6506 (including the student's signature). Withdrawal requests must be postmarked or faxed by the appropriate deadline date as published in the Schedule of Classes.

When utilizing WebSMART to drop a class, it is important to print a copy of the transaction as a receipt.

A student who stops attending a class may not be dropped from the roll by the instructor, and therefore may receive a penalty grade of F or NP. It is the student's responsibility to withdraw officially following prescribed timelines and procedures. A student who does not withdraw in accordance with established procedures will receive a grade of F or NP.

A student may withdraw from a semester length class during the first three weeks of instruction and no notation will be made on the student's academic record. In courses of less than a regular semester's duration, a student may withdraw prior to the completion of 20% of the scheduled class meetings and no notation will be made on the student's academic record.

After the third week of instruction, a student may withdraw from a semester-length class, whether passing or failing, at any time through the end of the fourteenth week of instruction (or 75% of a term, whichever is less); a W grade will be recorded on the student's academic record. In courses of less than a regular semester's duration, a student may withdraw prior to the completion of 75% of the scheduled class meetings; a W grade will be recorded on the student's academic record.

A student who must withdraw for verifiable extenuating circumstances after the deadline (i.e., personal illness, automobile accident, death or severe illness in the immediate family or other severe physical or emotional hardship, which is beyond the control of the student) may submit a petition to the Office of Admissions and Records for an exception to this policy. Any extenuating circumstance must be verified in writing (i.e., letter from physician, official accident report, obituary notice, etc.). Petition forms are available on the [CSM Forms \(collegeofsanmateo.edu/forms/admissions.asp\)](https://collegeofsanmateo.edu/forms/admissions.asp) website and should be submitted to the Office of Admissions and Records, Building 10, Room 360 (574-6165).

The academic record of a student who remains in class beyond the time periods set forth above must reflect an authorized symbol other than W (see Index: "Grades, Grade Points"). A student failing to follow established

withdrawal procedures may be assigned an F or NP grade by the instructor.

Audit Policy

The Colleges of the District allow auditing of courses with the exception of courses in programs that require special preparation and/or program admissions on a limited basis. A student may audit a course only under the following circumstances.

1. The student must have previously enrolled for credit for the maximum number of times allowed for the particular course.
2. The instructor of record for the course must approve the enrollment as an auditor.
3. The student must be in good academic standing.
4. If the course is a variable unit class, the student must enroll for the maximum number of units available.
5. The student must enroll as an auditor immediately following the published late registration period and pay the auditing fee.

A student may enroll as an auditor the week after the late registration period is concluded because those students taking the course for credit have first priority for all classroom space. Enrollment as an auditor is a manual process and the student should obtain an [Audit Course Request form \(collegeofsanmateo.edu/forms/admissions.asp\)](https://collegeofsanmateo.edu/forms/admissions.asp) from the Office of Admissions and Records. No student auditing a course shall be permitted to change his or her enrollment to receive credit for the course. An auditing fee as established by California Education Code is payable at the time of enrollment as an auditor, with the exception of students enrolled in ten (10) or more semester units.

Prerequisites, Corequisites, and Recommended Preparation

The Board of Trustees of the San Mateo County Community College District requires colleges to establish prerequisites, corequisites, and recommended preparation for courses and educational programs. Prerequisites and corequisites must be determined to be necessary and appropriate and must be established in accordance with Title 5 regulations in the California Administrative Code. They are designated in course descriptions in the college catalog and appear in the class schedules.

A **Prerequisite** is a condition of enrollment that a student is required to meet in order to demonstrate current readiness for enrollment in a course or program. As an example, students must successfully complete elementary algebra (Math 110), prior to enrolling in intermediate algebra (Math 120). So, Math 110 is a prerequisite for Math 120. A prerequisite course must be completed successfully to enroll in the course which

follows. Successful completion is defined as earning a grade of "C" or better. Placement test results can also be used to verify prerequisite skill levels.

A **Corequisite** is a course that a student is required to take simultaneously in order to enroll in another course. Corequisites are designated in course descriptions in the catalog.

Recommended Preparation for a course or program is a condition that a student is advised, but not required, to meet before enrollment. Recommended preparation is designated in course descriptions in the catalog. A number of courses list ENG 105 and READ 400 as recommended preparation which alerts students to the writing and reading skills that are important to student success in a class.

Computerized Prerequisite Checking

The San Mateo County Community College District enforces all prerequisite and corequisite requirements. Most classes have computerized prerequisite checking in place. When attempting to register for a course that has a prerequisite, the computer registration system searches the San Mateo County Community College District student data base for one of two things: 1) the successfully completed prerequisite course(s) or 2) placement test results from testing completed within the last two years that identify the appropriate skill level prerequisite requirements. If neither prerequisite identifier is in place, registration for the class is not completed. If a student is currently enrolled in the prerequisite course(s) within the San Mateo County Community College District, the system allows registration into the next level course. However, if the in progress prerequisite course is not successfully completed, the student will be administratively withdrawn from the course.

How Can Students Meet Prerequisite Requirements?

There are four ways students can meet prerequisite requirements:

1. complete the prerequisite course(s) within the San Mateo County Community College system, with a grade of "CR/P or C" or higher; or
2. complete placement tests or Alternate Assessment in the San Mateo County Community College District within the last two years with results that indicate the prerequisite skill level; or
3. *complete the prerequisite course at another college/university in the United States;
4. *meet prerequisites through an approved external exam (AP, CAASPP HLIB)

** For 3 and 4, students must use the Prerequisites Equivalency form to secure approval. Prerequisite Equivalency forms are available on the [Prerequisites, Corequisites and Recommended Preparation \(collegeofsanmateo.edu/prerequisites\)](https://collegeofsanmateo.edu/prerequisites) website. If a student has not completed a course or test to meet prerequisite requirements but has other experience that meets*

the prerequisite skill level then the prerequisite challenge process is the means to determine course eligibility.

How Can Prerequisites and Corequisites Be Challenged?

A prerequisite or corequisite may be challenged on one or more of the following grounds. Documentation is required.

- The student has the knowledge or ability to succeed in the course despite not meeting the prerequisite.
- The prerequisite or corequisite was established in violation of district policies or Title 5 regulations.
- The prerequisite or corequisite is unlawfully discriminatory or applied in an unlawfully discriminatory manner.
- The prerequisite or corequisite has not been made reasonably available and the student is subject to undue delay in goal attainment.

Students who wish to challenge prerequisites or corequisites must, within the established time frame, complete the Prerequisite Challenge Petition and attach documentation. For semester length courses, petitions with documentation must be submitted at least five working days prior to the last day of the published late registration period. For courses that are not semester length, the petition with documentation must be submitted prior to the first day of the class. It is the responsibility of the student to provide compelling evidence to support the challenge. For comprehensive information about prerequisites visit the *Prerequisites, Corequisites and Recommended Preparation* website.

Fees

Note: The fees listed in this Catalog are those in effect at the time of publication. Fees are subject to change at any time by action of the State Legislature, Board of Governors of the California Community Colleges, or District Board of Trustees. To view a current listing of fees, visit the [Fees website \(collegeofsanmateo.edu/fees/\)](http://collegeofsanmateo.edu/fees/).

Audit Fee

The Colleges of the District allow auditing of courses with the exception of courses in programs that require special presentation and/or program admissions on a limited basis. See the [Audit Policy webpage \(collegeofsanmateo.edu/registration/audit.asp\)](http://collegeofsanmateo.edu/registration/audit.asp).

An auditing fee as established by California Education Code is payable at the time of enrollment as an auditor. The fee is \$15 per unit. If the course is a variable unit class, the student must enroll for the maximum number of units available. Students enrolled in ten (10) or more semester units for credit can audit up to three additional units free of charge.

Enrollment Fee

A State-mandated enrollment fee of \$46 per unit is payable at the time of registration.

The Board of Governors of the California Community Colleges has established a grant program to help low income students pay the enrollment fee. Information on eligibility requirements and application deadlines, as well as application forms, are available in the Financial Aid Office.

In addition to other costs, students classified as non-residents of the state of California must pay a tuition fee and Capital Outlay fee. See details under Non-Resident Tuition Fee.

Health Services Fee

All students, except concurrently enrolled high school students enrolled in less than 12 units or those registering only for off-campus classes or weekend classes, are required to pay a \$21 health services fee each fall and spring semester at the time of registration for day or evening classes. For the summer session, the health services fee is \$18. In addition to campus health services, the fee provides accident insurance coverage which is in effect when the student is on campus or attending a College-sponsored event.

Students who depend exclusively upon prayer for healing in accordance with the teachings of a bona fide religious sect, denomination, or organization may be exempted from paying the health services fee. A petition for health

services fee exemption can be obtained from Health Services, Building 1, Room 147 (574-6396).

Inclusive Digital Access Fee

The Inclusive Access - Digital Textbooks program is a textbook model created in collaboration with top publishers and the College of San Mateo Bookstore that converts books into dynamic digital content that lowers the cost of course materials for all students in the course. The fee varies by course. The digital content also includes interactive learning platforms, interactive abilities with CANVAS and other benefits:

- Automatically billed to your WebSMART account at the beginning of the semester for enrolled students
- Discounted access for digital content
- Discounted print book upgrade (if available) at the bookstore.

To opt out and not participate in the program for courses that are part of the Inclusive Access program, please visit the [College of San Mateo Bookstore website \(collegeofsanmateo.edu/bookstore\)](http://collegeofsanmateo.edu/bookstore), click on Inclusive Access, and follow the instructions on that page.

Student Representation Fee

A representation fee of \$1 per student per semester was established by an election of the student body at College of San Mateo. Under applicable provisions of the Education Code, the students established the representation fee by a two-thirds majority of students who voted in the election.

The money collected through this fee will be expended to provide support for students or their representatives who may be stating their positions and viewpoints before city, county, and district government and before offices and agencies of the local, State and Federal government.

A student has the right to refuse to pay the student representation fee for religious, political, moral or financial reasons. This refusal must be submitted in writing to the Center for Student Life & Leadership Development. The fee is not covered by financial aid.

Parking Fee

All persons driving motor vehicles onto campus and utilizing the parking facilities during regular class hours, including final examinations, are required to pay a parking fee. Parking permits are not required for students enrolling in telecourses, off-campus or weekend classes. Student parking permits for motor vehicles (except motorcycles) are available for \$58 each for the fall and spring semesters or \$106 for a two-term (fall/spring) permit, and \$27 for

the summer session. Parking permits for students with California College Promise Grant (CCPG) waivers are \$30 for the fall and spring or \$60 for a two-term (fall/spring) permit, and \$25 for summer. If a semester length parking permits is lost or stolen, replacements are available at full price. Students may purchase parking permits only online using WebSMART. Permits may be ordered and paid for online and mailed to the student's residence.

Students may also order a permit online from computers located on the third floor of Building 10 (Admissions and Records Office and Cashiers Office) and then pay for the permit and pick it up at the Cashiers' counter. Parking is on a first-come, first-served basis. A permit is not a guarantee of a parking space.

Student Body Fee

The optional student body fee is \$15 per semester and is assessed at the time of registration. This entitles the student to a photo ID student body card, which can be obtained at the Center for Student Life & Leadership Development during regular office hours. This photo identification card entitles students to special discount of 10% to 40% at participating local businesses, movie theaters, shops and restaurants. On-campus discounts are available at the Cosmetology salon, CSM Bookstore (non-book items), and all athletic events. Funds collected from the student body fee help support numerous programs and services on campus including scholarships, emergency student loans, child care, athletics, guest speakers and concerts.

Non-Resident Tuition Fee

No tuition is charged to legal residents of California. In 2017–2018, students who have not been residents of California (as defined in the Education Code) for one year or longer prior to the beginning of a term are required to pay a non-resident tuition fee of \$265 per unit (\$265 per unit for foreign students) and Capital Outlay fee of \$8 per unit at the time of registration in addition to the \$46 per unit enrollment fee. Residency status is determined by the Office of Admissions and Records.

In general, an unmarried minor (a person under 18 years of age) derives legal residence from his/her father (or his/her mother if the father is deceased), or, if the case of permanent separation of the parents, from the parent with whom the minor maintains his/ her abode. The residence of a minor cannot be changed by an act of the minor or an act of the minor's guardian while the minor's parents are living.

An adult must take steps to establish legal residency in California at least one year prior to the beginning of the term in order to be classified as a resident student for that term. Information concerning acceptable documentation of intent to establish and maintain California residency is available in the Office of Admissions and Records.

Other Expenses

Students must purchase their own textbooks and supplies. A considerable saving is possible through the purchase of used texts from the on-campus College of San Mateo Bookstore. The San Mateo County Community College District offers a textbook rental program to assist students with textbook costs. Special equipment is needed for certain programs such as Electronics, Drafting, Nursing, Cosmetology, Engineering, Art and Architecture, involving an additional initial outlay ranging from \$100 to \$600. Please refer to course descriptions for special costs.

Non-Payment of Fees

San Mateo County Community College District policy requires students to pay all fees at the time of enrollment. The policy states that students will be dropped from classes for non-payment of fees. Upon registering for classes, all payment deadline information will be sent immediately to the student's my.smccd.edu email account. For more important information, visit the [Fees webpage \(collegeofsanmateo.edu/fees/\)](http://collegeofsanmateo.edu/fees/). If students are unable to pay their fees, they are encouraged to enroll in an inexpensive payment plan via WebSMART, apply for financial aid (www.fafsa.gov) at least five days prior to registering for your classes, or complete the Board of Governors Fee Waiver via WebSMART to prevent being dropped from classes. If students need financial assistance after exhausting all options listed above, they may contact the Vice President of Student Services at csmvps@smccd.edu.

Students who have unpaid fees on their record will not receive grade reports or other records of their work, and will be denied registration unless all outstanding fees have been paid.

Payment Policy

CSM accepts cash, check, credit card and debit cards. Third-party payments are not accepted. Checks are to be made payable to College of San Mateo.

* A listing of additional fees can be found on the [CSM Fees Website \(collegeofsanmateo.edu/fees/\)](http://collegeofsanmateo.edu/fees/).

Credit and Refund Policy

Enrollment Fee / Nonresident Tuition Fee / Health Services Fee / Parking Fee

Students who officially withdraw from all courses, or reduce their program prior to the first class meeting or by the course deadline date will receive credit toward future fees for the full amount of all fees paid for those classes. To view deadline date, check course in WebSMART. A \$10 processing fee (plus an additional \$50 processing fee for nonresident tuition) will be retained by the College if a refund is issued to a student withdrawing from all classes. For all courses dropped after the deadline, these fees are not refundable unless an action of the College (e.g., class cancellation) prevents a student from attending class. Parking permit fees are not refundable.

Student Body Fee and Student Representation Fee

Students enrolling during the normal registration period in semester-long classes may request a waiver or a refund of the Student Body Fee and/or the Student Representation Fee through the last day to drop semester-long classes (see Important Dates). Students enrolling after the end of this deadline may request a waiver or a refund of these fees within one (1) week of completing registration. Students enrolled only in short courses have until the first class session to request a waiver or refund of these fees. Students requesting a waiver or a refund of the Student Body Fee and/or the Student Representation Fee must do so in-person at the Center for Student Life & Leadership Development in Building 17.

Variable Unit Courses

No enrollment fee or non-resident tuition refund or credit will be available to students enrolled in variable unit courses who earn fewer units of credit than the number for which they originally registered. Students earning additional units will be charged accordingly.

Important Notes:

1. Credit balances remain on student accounts for a maximum of five (5) years.
2. A student may either choose to maintain a credit balance on account or contact the Business Office (Building 10, Room 360, 574-6412) to arrange for a refund.
3. Refunds are NOT issued automatically and are subject to a \$10 processing fee if the student withdraws from all classes. Refunds of nonresident tuition are subject to an additional \$50 processing fee.
4. Fees paid by personal check require 30 days for bank clearance before refunds can be processed.
5. To be eligible for a credit or refund, a student must officially withdraw from a course within the stated deadline. To view deadline date, check course in WebSMART. A withdrawal initiated by an instructor may NOT result in a credit or refund.
6. Fees will be credited or refunded if an action of the College (e.g., class cancellation) prevents a student from attending.
7. Student records, including transcripts, are withheld until all debts to the District colleges have been cleared.

Grades and Scholarship

Units of Work and Credit

A unit of college credit normally represents one hour each week of lecture or three hours of laboratory, or similar scheduled activity, during one full semester.

Grades, Grade Point Average and Grading Symbols

The grade is the evaluative symbol awarded to the student and is determined by the instructor. In calculating the grade, the instructor has the option of using plus/minus grades indicated in the table below. The grading criteria (for example if the instructor will use the plus/minus grades or not) will be listed in the course syllabus.

The Grade Point Average (GPA) is determined by dividing the total number of grade points earned by the total number of units attempted. Grades earned in non-degree applicable courses are not counted in calculating a student's grade point average. Non-degree applicable courses are identified with a # next to the grade on the transcript.

Grade	Definition	Grade Points
A	Excellent	4.0
A-	Excellent	3.7
B+	Good	3.3
B	Good	3.0
B-	Good	2.7
C+	Satisfactory	2.3
C	Satisfactory	2.0
D+	Passing, Less than Satisfactory	1.3
D	Passing, Less than Satisfactory	1.0
D-	Passing, Less than Satisfactory	0.7
F	Failing	0
*EW	Excused Withdrawal	0
*I	Incomplete	0

Grade	Definition	Grade Points
*CR	Credit - equivalent to C grade or higher	0
*P	Pass - equivalent to C grade or higher	0
*NC	No Credit	0
*NP	No Pass	0
*W	Withdrawal	0
*MW	Military Withdrawal	0
*RD	Grade report delayed	0
*IP	In Progress	0
*H	No grade issued	0

*P/NP are used in courses in which grades of Pass or No Pass are given or the option is selected by the student. The units earned with a grade of Pass count as units completed. No Pass means the student is not charged with units attempted and is not credited with units completed. The P/ NP grades are not used in the calculation of the GPA.

The determination of the student's grade by the instructor shall be final in the absence of mistake, fraud, bad faith, or incompetency. Procedures for the correction of grades given in error shall include expunging the incorrect grade from the record.

The following non-evaluative symbols are used in the San Mateo Community College District:

EW - Excused Withdrawal

An "Excused Withdrawal" will be authorized when a student withdraws from a course(s) for reasons beyond their control. A student may request to use an "EW" for only one course or all courses in a term depending on the reason for the request. In accordance to Title 5, section 55024 (e), an EW symbol may be requested by the student any time during the semester and no later than one year following the end of the term in which the EW symbol is requested in accordance with the District grade change policy. Upon verification of the extenuating circumstance, a notation of "EW" will be placed on the student record.

Excused Withdrawals are not counted in the probation or dismissal calculations. In addition, the "Excused Withdrawal" should not be counted towards the permitted number of withdrawals or counted as an enrollment attempt. An EW is acceptable when a student withdraws from a course(s) due to reasons beyond their control, which include but are not limited to, the following:

- Job transfer outside the geographical region
- Illness in the family where the student is the primary caregiver
- An incarcerated student in a California State Prison or County Jail is released from custody or involuntarily transferred before the end of the term (In the case of an incarcerated student, an excused withdrawal cannot be applied if the failure to complete the course(s) was the result of a student's behavioral violation or if the student requested and was granted a mid-semester transfer)
- The student is the subject of an immigration action
- Death of an immediate family member
- Chronic or acute illness
- Verifiable accidents
- Natural disaster directly affecting the student

The financial aid eligibility of a student may be affected depending on individual circumstance. A student should consult with the financial aid staff regarding any impact.

I - Incomplete

This symbol is used in case of incomplete academic work for unforeseeable, emergency and justifiable reasons. Conditions for removal are set forth by the instructor in a written record which also indicates the grade to be assigned in the event that the student fails to meet the stated conditions. The student will receive a copy of this record, and a copy will be filed by the Dean of Enrollment Services. A final grade will be assigned by the instructor when the stipulated work has been completed and evaluated. In the event that the work is not completed within the prescribed time period, the grade previously determined by the instructor will be entered in the permanent record by the Dean of Enrollment Services.

An Incomplete must be made up no later than one year following the end of the term in which it was assigned. Established College procedures may be utilized to request a time extension in cases involving unusual circumstances. The I shall not be used in the computation of grade point average.

MW - Military Withdrawal

Military withdrawal may be requested when a student who is a member of an active or reserve United States military service receives orders compelling a withdrawal from courses. Upon verification of such orders, a military withdrawal symbol (MW) will be assigned for each course

if the withdrawal occurs after the period during which no notation is made for withdrawals on the student's record. Military withdrawals are not counted in progress probation and dismissal calculations. Students granted military withdrawal may request refund of the enrollment fee. The entire enrollment fee will be refunded unless academic credit has been awarded.

RD - Report Delayed

This symbol is used only by the Dean of Enrollment Services for the purpose of indicating that there has been a delay in reporting the grade due to circumstances beyond the student's control. It is replaced by a permanent symbol as soon as possible.

The RD is not used in the computation of grade point average.

W - Withdrawal

See Index: "Withdrawal from Classes"

Pass/ No Pass Option

Updated Title 5 regulations eliminate the Credit/No Credit (CR/NC) option and replace it with Pass/No Pass (P/NP). The new designators, P/NP, are weighed in the same manner as the former CR/NC designators. Students electing to use the PASS/NO PASS option for a course should use the student WebSMART account to make this designation. After students have registered for a class, on WebSMART find "grade mode." "Grade mode" allows students to select either a letter grade or pass/no pass grading option if the option exists. (Not all courses offer the P/NP option.)

Students may also submit the appropriate form to the Office of Admissions and Records within the first 20% of the term. See current Schedule of Classes for deadlines. Changes will not be permitted after this time.

Each division of the College may designate courses in which a student may elect to receive a letter grade or be graded on a Pass/No Pass basis.

Grade option courses allow students to explore various fields of study and to broaden their knowledge, particularly outside their major field, without jeopardizing their grade point average. Courses in which such option exists will be so designated by the Division Dean in consultation with appropriate members of the division faculty.

All courses applied to the major or a certificate should be completed with a letter grade if the letter grade option exists. The utilization of courses graded on a P/NP basis to satisfy major or certificate requirements must be approved by the Division Dean. A maximum of 12 units toward an Associate degree or 6 units toward a certificate may be applied from courses in which the student has elected a Pass/No Pass option. Additionally, each division of the

College may determine certain courses in which all students are evaluated on a Pass/No Pass basis only. These courses will be so identified in the class schedule and are exempt from the above 12/6 unit limitation.

For university transfer all major preparation courses should be completed with a letter grade. Four-year colleges and universities vary widely in the number of units of Pass/No Pass courses they accept. Students should consult the catalog of the college to which they may transfer for its regulations in this regard.

Final Examinations

Final examinations are required and will be given in accordance with the final examination schedule. The final examination schedule is printed in the class schedule so that students may plan their programs to avoid conflicts or an excessive load.

Grade Reports

A student is held responsible for his/her own academic progress. Final grades are not mailed to students. Dates of grade availability for specific semesters are published in the Schedule of Classes. Final grades are available to students via [WebSMART \(collegeofsanmateo.edu/webSMART\)](http://collegeofsanmateo.edu/webSMART) on the dates as published.

Change of Grade

After a grade has been issued, only the instructor has the authority to change the grade per California Education Code Section 76224. A student wishing to have a posted grade changed must submit appropriate documentation to the instructor who issued the grade. The instructor must deliver the grade change to Admissions and Records. There is a deadline of one year from the date that the grade is posted to initiate a grade change.

Responsibility for monitoring personal academic records rests with the student.

Transcripts

Official transcripts of a student's academic records can be sent to colleges, universities, employers and other institutions upon a formal request of the student. Transcripts may be requested using the student WebSMART account. On WebSMART, under "Student Records," find "Request Official Transcript" link for this purpose. Students may request official copies to be sent to them by noting "issue to student." All courses completed or in progress at Cañada College, College of San Mateo, and/or Skyline College appear on the transcript. Transcripts from high school and other colleges are not forwarded from CSM to other institutions because our district colleges are authorized to send San Mateo County Community College transcripts only. The first two official transcripts requested

by a student are free; thereafter a charge of \$5 for each transcript is imposed*. If a student wants a transcript processed immediately there is an additional "rush" service charge of \$10.

Students may access unofficial transcripts on their Student WebSMART account. This WebSMART transcript reflects courses taken during or after Summer 1981*.

*For current fees information, please visit our [Fees \(collegeofsanmateo.edu/fees\)](http://collegeofsanmateo.edu/fees) webpage.

Honors

Dean's List Recognition

Students who qualify for Dean's List status at the end of the fall and spring semesters and summer session will be notified by letter. The student will be honored by the college (College of San Mateo, Cañada College, or Skyline College) from which the majority of the units in any given semester are earned.

Full-time students must complete twelve (12) or more units of letter-graded classes and achieve a term GPA of 3.30 or better in any given semester or summer session.

Part-time students must initially qualify by accumulating twelve (12) or more letter graded units at a college or colleges within the District. Once qualified, in a subsequent semester the part-time student must enroll in and complete at least six (6) units but no more than eleven and one-half (11.5) units with a term GPA of 3.30 or better in any given semester or summer session.

Once a student has qualified for either the full-time or part-time Dean's List, the student may go back and forth between the full-time and part-time Dean's List status, depending upon the number of units completed in any given semester.

Honors at Graduation

Honors are awarded at graduation (A.A./A.S. degree) as follows, based upon GPA in all degree-applicable courses taken at College of San Mateo, Cañada College and Skyline College, together with GPA of degree-applicable coursework completed at other accredited institutions.

3.30 - 3.49	Cum Laude
3.50 - 3.99	Magna Cum Laude
4.0	Summa Cum Laude

Students are required to submit all official college transcripts to Admissions and Records for GPA calculation and determination of honors at graduation.

In every case, the student's cumulative GPA in degree-applicable courses taken only at College of San Mateo,

Cañada College and Skyline College must equal or exceed the minimum required GPA for the honors category for which the student is being considered.

Honor Societies

Alpha Gamma Sigma

College of San Mateo is affiliated with the California Community College Honor Scholarship Society, Alpha Gamma Sigma. The local chapter is the Eta Chapter. Alpha Gamma Sigma maintains academic standards for induction, continued membership and permanent membership. Membership during a semester in AGS is based upon the student's GPA as of the previous semester at CSM or elsewhere. New members must have completed a minimum of 12 graded college units and achieve a semester GPA of 3.30 or higher to be invited to join the local chapter. Continuing members must maintain a cumulative GPA of 3.0 or higher. There is no unit requirement for continuing membership. There are two avenues to permanent membership: 1) a 3.25 cumulative GPA, 60 units and two semesters of local chapter membership; or 2) a 3.50 cumulative GPA, 60 units and at least one semester of local chapter membership. For more information, contact Rachel Cunningham at cunninghamrachel@smccd.edu or visit the [Alpha Gamma Sigma website \(collegeofsanmateo.edu/ags/\)](http://collegeofsanmateo.edu/ags/) (College Center Building 10, Room 220D, 574-6571).

Phi Theta Kappa

College of San Mateo is affiliated with Phi Theta Kappa, the international honor society of the two-year college, which recognizes the scholarly achievements of over 1.5 million students throughout all 50 states, U.S. territories, Canada, and Germany. The local chapter is the Beta Xi Eta Chapter. Phi Theta Kappa maintains academic standards for both induction and continued membership. New members must complete at least 12 credit hours and attain a GPA of 3.5 or better. Continuing members must maintain at least a 3.25 GPA. For more information, contact Ron Andrade at andrader@smccd.edu or visit the Phi Theta Kappa website (College Center Building 10, Room 220D, 574-6571).

Academic Policies

Academic Standards Policy

The Academic Standards Policy of College of San Mateo and the San Mateo County Community College District is based on a cumulative grade point average of C (2.0), the minimum standard required for graduation or transfer. A grade point average of less than 2.0 is considered deficient.

Grade point average (GPA) is determined by dividing the total number of grade points earned by the total number of GPA units.

Academic standing, including determination of probation or dismissal status, is based upon all course work completed at Cañada College, College of San Mateo, and/or Skyline College.

Probation

A student is placed on academic probation under the following criteria:

1. Academic Probation based on grade point average: A student who has attempted at least 12 semester units, as shown by official records, is placed on academic probation if the student has earned a cumulative grade point average below 2.0.
2. Academic probation based on failure to maintain satisfactory progress: A student who has enrolled in a total of at least 12 semester units, as shown by official records, is placed on academic probation when the percentage of all units in which a student has enrolled for which entries of W, I and NP/NC are recorded reaches or exceeds 50 percent. (See Calendar of Important Dates for withdrawal.)

The two probation criteria described above are applied in such a manner that a student may be placed on probation under either or both systems and subsequently may be dismissed under either or both systems.

Removal From Probation

A student on academic probation on the basis of grade point average is removed from probation when his/her cumulative grade point average is 2.0 or higher.

A student on academic probation on the basis of failure to maintain satisfactory progress is removed from probation when the percentage of units in this category exceeds 50 percent.

Dismissal

A student on probation is subject to dismissal if in any two subsequent semesters either or both of the following criteria are applicable:

1. The student's cumulative grade point average is less than 1.75 in all units attempted.

2. The cumulative total of units in which the student has been enrolled for which entries of W, I and NP/NC have been recorded reaches or exceeds 50 percent. (See "Withdrawal")

Normally, a dismissed student must remain out of day and evening classes for one semester before petitioning for reinstatement.

To be considered for reinstatement, a dismissed student must attend a Reinstatement Workshop and complete a Reinstatement Petition with the assistance of a college counselor. The completed petition is to be submitted to the Office of the Dean of Counseling for review. Once Reinstatement petitions are reviewed, students are notified by email of their reinstatement status.

Academic Renewal Policy

Previously recorded substandard academic performance (grade of "D+", "D", "D-", "F", or "NP") may be disregarded if it is not reflective of a student's demonstrated ability.

- A student may file a petition with the Office of Admissions and Records seeking grade alleviation of substandard work.
 - A maximum of 36 units of course work with substandard academic performance may be alleviated.
 - A period of at least one year must have elapsed since the course work to be alleviated was completed.
 - To be eligible to apply for academic renewal a student must have completed 9 units of course work with a 3.5 cumulative grade point average, or 15 units with a 3.0 cumulative grade point average, or 21 units with a 2.5 cumulative grade point average, or 24 units with a 2.0 cumulative grade point average since the course work to be alleviated was completed.
 - Substandard course work to be alleviated must have been completed at Canada College, College of San Mateo, or Skyline College. However, the course work upon which the application for alleviation is based may be completed at a regionally accredited college or university that is accepted by SMCCCD.
 - The academic renewal policy may be applied when alleviation of prior course work is necessary to qualify a student for financial aid or admission to a program or transfer

to another institution or for completion of a certificate or degree program.

- To request Academic Renewal, a student must file a formal petition to the Office of Admissions and Records.
- Courses alleviated still reflect a course attempt for the purposes of the repeat policy.

When academic course work is alleviated from the computation of the grade point average, the student's permanent academic record shall be properly annotated in a manner to ensure that all entries are legible, providing a true and complete academic history.

Attendance Regulations

Students are required to attend the first class meeting of each class in which they register. If they cannot attend, they should notify the instructor in advance. Without prior notification, they may be dropped by the instructor and a waiting student admitted in their place.

Regular attendance in class and laboratory sessions is an obligation assumed by every student at the time of registration. **When repeated absences place a student's success in jeopardy, the instructor may drop the student from class.**

In all cases it is the instructor's prerogative to determine when absences are excessive. An instructor has the right to drop a student from class when such absences jeopardize the student's opportunity to successfully complete the class work or to benefit from the instruction. Absence means non-attendance and includes non-attendance for illness or personal emergency.

Absences due to a student's participation in a school-sponsored activity are to be considered as excused absences, but it is the student's responsibility to notify the instructor in advance of the absence, and the student is responsible for all work missed. It is noted again that it is the instructor's prerogative to determine when such absences are excessive.

Extended Absence

Students who will be absent from any class or classes for one week or longer for any health reason should request notification to instructors by Health Services (574-6396).

Students who will be absent from any class or classes for one week or longer for other personal emergencies should request notification to instructors by the Dean of Counseling, Advising and Matriculation (see Index: "Attendance Regulations").

If a medical or personal emergency requires absence of more than one week, the student should consult with his/her instructors and counselor/advisor regarding the advisability of continuing in classes.

Open Enrollment

Every course offered at College of San Mateo (unless specifically exempted by legal statute) is open for enrollment and participation by any person who has been admitted to the College and who meets the prerequisites of the course provided that space is available.

Enrollment Limitations: Multiple and Overlapping Enrollments

- A college district may not allow a student to enroll in two or more sections of the same credit course during the same term.
- A college district may not allow a student to enroll in two courses that overlap unless the following requirements are met.
 1. The student must provide sound justification other than mere convenience,
 2. An appropriate district official must review justification and enrollment for approval,
 3. The college must collect documentation that shows how the student made of the hours of overlap under the supervision of the instructor of the course.

Enrollment Limitations: Limit of Withdrawals

- Students are limited to receiving no more than three "W"s from the same credit course.
- A "W" shall not be assigned or may be removed if the student withdrew due to discriminatory treatment or retaliation for alleging discriminatory treatment.

Sequential Courses

A student may not enroll in or receive credit for a course that is lower in a sequence of courses after successful completion of a course that is higher or more advanced. As an example, after successful completion of Spanish 120, a student cannot enroll in a lower course (i.e., Spanish 110) in the sequence. Also, a student may not enroll in or receive credit for a course taken after successful completion of an equivalent course— e.g. French 111 cannot be taken after successful completion of French 110.

Credit by Examination

External Examinations: Advanced Placement test (AP), International Baccalaureate Examination (IB) and College Level Examination Program (CLEP)

The chart on pages 73-79 shows how College of San Mateo award credits based on the results of the Advanced Placement tests, the International Baccalaureate Examinations, and College Level Examination Program (CLEP). The student is responsible for sending official AP, IB or CLEP results to College of San Mateo Admissions and Records Office.

Credit by Examination for College of San Mateo Courses (CBE)

A currently enrolled student in good standing may be permitted to obtain credit for courses if he/she is especially qualified through previous training or instruction and can demonstrate such qualifications by successfully completing an examination approved by the faculty and dean of the appropriate division. College of San Mateo faculty determine which courses are eligible for CBE and if an examination can be provided. They determine if an examination can adequately measure mastery of the course content as set forth in the course outline of record. Credit may be awarded for prior experience or prior learning only in terms of individually identified courses for which faculty approve credit by exam. A student may challenge a course for credit by examination only one time. The student's academic record shall be clearly annotated to reflect that credit was earned by examination. Grading shall be according to the regular grading system. Students shall be offered a "pass/no pass" option if that option is ordinarily available for the course. A maximum of 12 units toward the Associate degree or 6 units toward the certificate may be earned by courses for which credit has been earned by examination. Units for which credit is given shall not be counted in determining the 12 semester units in residence required for the associate degree.

Academic Review Committee

The Academic Review Committee considers requests for waivers and/or exceptions with respect to academic policies. Inquiries should be directed to the Office of Admissions and Records.

Course Repetition Regulations

Course Repetition Definition

A "course repetition" occurs when a student attempts a course and receives an evaluative or non-evaluative symbol for the course (i.e. A, A-, B+, B, B-, C+, C, D+, D, D-, F, W, P/NP, CR/ NC, RD, I) and wishes to enroll again in the same course. Course repetition includes the following components. (Title 5 Section 55040)

Course Repetition To Alleviate Substandard Work

A student who has earned a substandard grade (D+, D, D-, F, NP, NC) may repeat the course to improve the grade. A student may attempt a course a maximum of three times. All course attempts in a student's academic history count toward this enrollment limitation. The first or first and second substandard grades and units are excluded in computing the student's GPA and the grade and units of the final attempt are included in the student's GPA. (Title 5 Section 55042)

Course Repetition as a Result of a Withdrawal

A "W" counts as a course attempt. A student may attempt a course a maximum of three times. All course attempts in a student's academic history count toward this enrollment limitation. (A student, with a combination of substandard grades and W's, cannot attempt a course more than three times.)

A Student Earning A Satisfactory Grade May Not Enroll In The Same Course Again Unless One Of The Following Five Exceptions Applies

- *Significant Lapse of Time* - A student may enroll for one additional attempt if he/she successfully completed the course and a significant lapse of time of more than 36 months has occurred since the student was awarded a grade in the course and the district has established a recency prerequisite for the course or an institution of higher education to which the student seeks to transfer has established a recency requirement that applies to the course. (Example: Biology 250 was completed with a grade of C in Fall 2011. The student is preparing to apply to a nursing program that requires Biology 250 to be completed within the last three years. The student is eligible to repeat the course in Spring 2015 with documentation of the recency requirement.) The grade and units from the first course completion will be disregarded in computing the GPA. (Title 5 Section 55043)
- *Variable Unit Courses* - A student may enroll in a variable unit course as many times as necessary to complete one time the entire curriculum and unit value of the course. However, a student may not repeat any portion of a variable unit course that has already been completed and evaluated. (Title 5 Section 55044)
- *Extenuating Circumstances* - A student may enroll for one additional attempt only if documentable extenuating circumstances exist that match the dates of the course for the previous enrollment. Examples of extenuating circumstances are natural disaster, accident, illness, or other extraordinary documentable experience beyond the student's control. (Title 5 Section 55045)
- *Students with Disabilities Repeating a Special Class* - A student with a verifiable disability may repeat a special class for students with disabilities any number of times based on achieving progress in the class and an individualized determination that such repetition is required as a disability-related accommodation for that student. (Title 5 Section 55040)
- *Legally Mandated Course* - A student may repeat a course determined to be legally mandated and required by statute or regulation as a condition of paid or volunteer employment or licensure. A student must provide evidence and documentation

that the course is legally mandated or that licensure standards require course repetition. Such courses may be repeated for credit any number of times. (Title 5 Section 55000)

Courses Related in Content

Course Attempts within Subject Families (Studio Art, Music, Dance, Kinesiology/Physical Education) - District policy limits enrollment of students in courses that are active participatory courses in physical education/ kinesiology, and visual or performing arts. In this regard, the colleges have established "families" of similar educational activities. Kinesiology activity courses and some visual and performing arts have established "families" and are subject to enrollment limitations. A course cannot be repeated, but a student may attempt up to 4 courses in a subject "family." Some subject families offer more than 4 courses but a student may enroll in a maximum of four courses within a family. All course attempts in a student's academic history count toward this enrollment limitation within a "family" of courses. The limitation applies even if the student receives a substandard grade or a "W." Enrollment limitations are monitored district wide for a subject "family." Continuing students who have previously taken a course within a family must progress to the next level. (Title 5 Section 55040)

Limitations on Enrollment Attempts in Physical Education/Kinesiology, Dance, and Visual and Performing Arts Courses

District policy limits enrollment of students in courses that are active participatory courses in physical education/ kinesiology, and visual or performing arts. (Title 5 Section 55040)

The majority of these types of courses offered by the San Mateo County Community College District are now leveled to show progression from the most fundamental (level 1) to the most advanced (level 4). Course levels can be identified by a .1, .2, .3, or .4 system or by the course title. Because the course levels are typically scheduled simultaneously, students are advised to enroll initially at the fundamental level (.1) regardless of previous experience and be placed at the appropriate level based on instructor assessment. Adapted Physical Education and intercollegiate sports related courses are not affected by the repeatability legislation.

Students are limited to a maximum of four course attempts per family. A course attempt means enrollment that results in any evaluative or non-evaluative symbol (any letter grade, P/NP, CR/NC, or W). See course families listed below. If there is more than one course in a particular family, a student may only enroll in a maximum of four total courses within that family. After four courses within a family have been attempted, a student has the option to audit should they wish to continue enrolling in courses within that family. Accepting course audits is up to the faculty member teaching the course. Also, units and subject

credit for courses that are audited do not count toward GPA or degree or certificate completion. For information about how to audit, students should refer to the audit policy in the catalog and find the Audit Form on the [Forms \(collegeofsanmateo.edu/forms\)](https://collegeofsanmateo.edu/forms) webpage.

A course previously attempted by a student, prior to course leveling within the identified family, counts as a course attempt and limits future enrollments of courses within that family to a maximum of four combined. Below is a matrix which identifies the previous courses and the equivalent with levels. This limitation on enrollment applies to all coursework attempted by the student.

Repeatable Courses - Three Types of Courses May be Designated as Repeatable

These courses are identified as repeatable in the college catalog. (Title 5 Section 55041)

- *Intercollegiate Athletics* - Courses in which student athletes enroll to participate in an organized sport sponsored by the district or a conditioning course which supports the organized competitive sport may be designated as repeatable. (Title 5 Section 55040/55041)
- *Intercollegiate Academic or Vocational Competition* - Courses that are specifically for participation in non-athletic competitive events between students from different colleges may be designated as repeatable. The course must be tied to the student's participation in the competition. The event must be sanctioned by a formal collegiate or industry governing body.
- *Required by CSU or UC For Completion of a Bachelor's Degree* - Repetition of the course is required by CSU or UC for completion of the bachelor's degree. Courses are limited to four attempts and this enrollment limitation applies even if the student receives a substandard grade or a "W." (Title 5 Section 55041)

Audit Policy

Because of restrictions in course repeatability, review the Audit Policy page.

Course Families

List Of Kinesiology Families Across The San Mateo County Community College District 2019-20

The majority of courses offered by the San Mateo County Community College District are now leveled to show progression from the most fundamental (level 1) to the most advanced (level 4). Course levels can be identified by a .1, .2, .3, or .4 system or by the course title. Course levels may be scheduled simultaneously. Students are advised to enroll initially at the fundamental level (.1) regardless of previous experience and be placed at the appropriate level based on instructor assessment. Adapted Physical Education and intercollegiate sports related courses are not affected by the repeatability legislation.

Kinesiology activity courses are subject to repeatability limitations. Students are now limited to a maximum of four courses per family listed below. If there is more than one course in a particular family, a student may only enroll in a maximum of four total courses within that family. After four courses within a family have been taken, a student has the option to audit should they wish to continue enrolling in courses within that family. Students who audit do not count toward meeting local minimum enrollment requirements. Thus, a class may be cancelled if enough credit seeking students are not enrolled no matter how many students wish to audit. For information about how to audit, students should refer to the audit policy in the catalog.

A course previously taken by a student, prior to course leveling within the identified family will count as a repeat and limit future enrollments of courses within that family to a maximum of four combined. Below is a matrix which identifies the previous courses (based on the 2012-2013 catalog) and the equivalent with levels. This limitation on enrollment applies to all coursework attempted by the student. Students not having previously taken a Kinesiology or Dance activity course may have the opportunity to enroll in courses within a particular family for a maximum of four times.

Music

Music activity courses are subject to repeatability limitations. Students are now limited to a maximum of four courses per family. A family of courses may contain more than four courses. If there are more than four courses in a particular family, a student may only enroll in a maximum of four total courses within that family. A course previously taken by a student (prior to the legislation) within the identified family will count as a repeat and limit future enrollments of courses within that family to a maximum of four.

Music activity courses are offered in levels by progression. Courses are listed by title; for example, Piano, Guitar, etc., and then by level. Level I is beginning; Level II is intermediate; Level III is intermediate/advanced; and Level IV is advanced. The course number also indicates the level. For example, a beginning Piano class would be listed as MUS. 301.1, Piano I while an advanced Piano class would be MUS. 301.4, Piano IV.

New students are advised to enroll in the beginning level and be placed by their instructor upon assessment. Continuing students who have previously taken a course within a family, must progress to the next level.

List Of Music Families:

	Previous/Equivalent Courses(S)	Leveled/Current Courses
MUS.1 - Piano Family:		MUS. 301, 301.1, 301.2, 301.3, 301.4 MUS. 302, 303, 304

Theatre Arts

Theatre Arts activity courses are subject to repeatability limitations. Students are now limited to a maximum of four courses per family. A family of courses may contain more than four courses. If there are more than four courses in a particular family, a student may only enroll in a maximum of four total courses within that family. A course previously taken by a student (prior to the legislation) within the identified family will count as a repeat and limit future enrollments of courses within that family to a maximum of four.

Theatre Arts activity courses are offered in levels by progression. Courses are listed by title; for example, Acting, Rehearsal and Performance, etc., and then by level. Level I is beginning; Level II is intermediate; Level III is intermediate/advanced; and Level IV is advanced. The course number also indicates the level. For example, a beginning Acting class would be listed as DRAM 201.1, Acting I while an advanced Acting class would be DRAM 201.4, Acting IV.

New students are advised to enroll in the beginning level and be placed by their instructor upon assessment. Continuing students who have previously taken a course within a family, must progress to the next level.

List Of Theatre Arts Families:

	Previous/Equivalent Courses(S)	Leveled/Current Courses
DRAM1 - Acting Family:	DRAM 201.1, 201.2, 203	DRAM 201, 201.3, 201.4, 202
DRAM2 - Rehearsal and Performance Family:	DRAM 300	DRAM 300.1, 300.2, 300.3, 300.4

College Policies

Crime Awareness and Campus Security Policy

In order to make College of San Mateo a safe and pleasant environment for students and employees, the College has established procedures in compliance with Federal Public Law 101-542 (Student Right-to-Know and Campus Security Act). CSM is an extremely safe campus, a fact confirmed by the most recent FBI reported data. (For more information, please contact CSM's Office of Planning, Research and Institutional Effectiveness at 574-6196 or csmplanning-research@smccd.edu). Persons seeking information concerning CSM campus law enforcement procedures, crime prevention efforts, and crime statistics should contact Public Safety, Building 1, Room 100 (738-7000).

The Act also requires institutions to make available the completion or graduation rate of certificate or degree-seeking full-time students. Persons seeking information concerning completion or graduation rates specified by the Act should contact the Office of Planning, Research and Institutional Effectiveness at 574-6196 or csmplanning-research@smccd.edu. CSM data is also available at srtk.cccco.edu/index.asp.

Política de Conocimiento de Crimen y Seguridad del Campus

Para asegurar que College of San Mateo siga siendo un lugar seguro y agradable para estudiantes y empleados, se han establecido procedimientos de acuerdo con la Ley Pública Federal (Acta sobre la Seguridad y sobre el Derecho al Acceso a Información para Estudiantes). CSM tiene un campus segurísimo, hecho respaldado por el reporte de datos distribuidos por el FBI. (Para mayor información sobre CSM, diríjase a la Office of Planning, Research and Institutional Effectiveness a 574-6196 o csmplanning-research@smccd.edu). Para informarse sobre los procedimientos legales de CSM, las iniciativas de prevención de crímenes, y la estadística de datos criminales, diríjase a la Public Safety, Building 1, Room 100 (738-7000).

El Acta también exige que se facilite el acceso a los datos sobre el número de estudiantes que cumplen su programa y se gradúan o sacan un certificado. Para mayor información sobre los datos de cumplimiento y graduación especificados por el Acta, diríjase a la Office of Planning, Research and Institutional Effectiveness a 574-6196 o csmplanning-research@smccd.edu. Estos datos también están disponibles por la red en srtk.cccco.edu/index.asp.

Gainful Employment Disclosure Information

Final regulations published in the Federal Register on October 29, 2010, [75 FR 66665 and FR 66832], by the U.S. Department of Education, require all institutions that participate in the student financial assistance programs authorized under Title IV of the Higher Education Act of 1965, to report certain information about students who enrolled in Title IV - eligible educational programs that lead to gainful employment in a recognized occupation. College of San Mateo's report on educational programs leading to gainful employment is available on the [Gainful Employment Disclosure Information \(collegeofsanmateo.edu/degrees/gainfulemployment.asp\)](http://collegeofsanmateo.edu/degrees/gainfulemployment.asp) webpage.

Drug-Free Campus Policy

It is the policy of the San Mateo County Community College District and College of San Mateo to maintain a drug-free workplace and educational environment for its employees and students in accordance with the requirements of the Federal Drug-Free Workplace Act of 1988 and Drug-Free Schools and Communities Act Amendments of 1989.

In addition to this policy, the District continues to maintain its employee and student policies pertaining to the possession and use of alcohol and drugs on District property. Employees and students who are under the influence of an intoxicant while on District property are subject to disciplinary action, pursuant to current policies which regulate employee and student conduct.

The unlawful manufacture, distribution, dispensation, possession, or use of alcohol or a controlled substance in the workplace or educational facilities and on any District property is strictly prohibited. "Controlled substance," as defined in the Act, does not include distilled spirits, wine, malt beverages or tobacco.

It is the responsibility of each District student to adhere to the regulations of this drug-free policy. Students found to be in violation of this policy by the unlawful manufacturing, distributing, dispensing, possessing or using alcohol or a controlled substance on District property will be subject to disciplinary measures up to, and including expulsion, pursuant to District policy.

Persons seeking further information concerning this policy or the health risks and effects associated with alcohol and narcotics or other dangerous or illegal drugs should contact the Health Services coordinator, Public Safety and Medical Services Building 1, Room 147 (574-6396).

Política de Campus Libre de Drogas

De acuerdo con las actas federales enmendadas para el mantenimiento de sitios laborales libres de drogas (1988) y para escuelas y comunidades libres de drogas (1989), rige una política en el San Mateo County Community College District y en College of San Mateo que mantiene un sitio laboral y un ambiente académico libre de drogas tanto para sus empleados como para sus estudiantes.

Adicionalmente el Distrito sigue manteniendo una política para empleados y estudiantes con referencia al uso y a la posesión de alcohol y drogas en sitios pertenecientes al Distrito. Todo empleado o estudiante bajo influencia de un embriagante mientras se encuentra en sitios pertenecientes al Distrito será sujeto a acción disciplinaria de acuerdo con la política vigente sobre la conducta de empleados y estudiantes.

Es ilegal manufacturar, distribuir, dispensar, poseer o consumir alcohol o cualquier sustancia controlada en el sitio laboral, en cualquier sitio destinado a fines educativos, o en cualquier sitio perteneciente al Distrito. La definición de «Sustancia controlada» en el Acta no incluye tabaco ni bebidas alcohólicas destiladas, malteadas, o vino.

A todo estudiante del Distrito le incumbe obedecer los reglamentos de esta política antidroga. Por manufacturar, distribuir, dispensar, poseer o consumir alcohol o una sustancia controlada en sitios pertenecientes al Distrito los estudiantes serán sujetos a medidas disciplinarias conforme a la política del Distrito, las cuales pueden llevar a la expulsión.

Para mayor información sobre esta política o los riesgos médicos y efectos asociados con el uso de alcohol, narcóticos, y otras drogas ilícitas o peligrosas diríjase al coordinador de Servicios de Salud, Public Safety and Medical Services Edificio 1, Oficina 147 (574-6396).

Student Success and Support Program (SSSP)

In Fall 2018, the State Chancellor's Office combined program funding for the Student Success and Support Program (SSSP), the Student Equity Program and the Basic Skills Initiative to create the new Student Equity and Achievement Program (SEAP). Although, the State Chancellor's Office is no longer referring to SSSP as a separate program, however, SSSP requirements remain as a mandate. The purpose of SSSP is to increase California community college student access and success through the implementation of core matriculation services, including assessment and course placement, orientation, counseling/advising, and other educational planning services, with the goal of providing students with the support services necessary to assist them to achieve their educational goal and complete their identified course of study.

All students who plan to complete a certificate or associate degree, a university transfer program, or who are undecided but considering one of the aforementioned goals must actively participate in SSSP requirements and use the services noted below as part of the enrollment steps to register at College of San Mateo. Also, all students who participate in the College of San Mateo financial aid program, and veterans who plan to receive GI benefits while attending the College must comply with the enrollment steps and actively participate in SSSP services.

Students who participate in the SSSP services of assessment, orientation, and engage in academic planning with a counselor and maintain a comprehensive student educational plan receive higher registration priority than students who do not participate in SSSP.

Student Success and Support Program Services:

1. **Assessment Services** – Provided by Assessment Services, measures students' abilities in English, reading, mathematics, learning and study skills. Assessment results are used to determine course selection, honors eligibility and referral to specialized support services.
2. **Orientation Services** – Available for new and returning students through the Welcome Center and online through the student portal. Provides students with an introduction to the College, information regarding possible educational goals, and use of Counseling and other Student Services.
3. **Counseling Services** – Provided by the Office of Counseling, Advising and Matriculation through Counseling Support Services, or for students affiliated with a special program such as the Extended Opportunity Program and Services (EOPS) or the Disability Resource Center (DRC). Counseling services are available to all students who participate in the SSSP and complete assessment and orientation.
4. **Student Educational Plan (SEP)** - Students are provided assistance to develop a comprehensive SEP that includes required courses and resource referrals needed to meet an educational goal.
5. **Follow-up Services and Programs** – Students receive continued support, and assistance to define course of study and development of comprehensive SEP. Other services and programs include, but are not limited to, counseling services, career services, transfer services, financial aid, EOPS, DRC, Multicultural and Dream Center, veteran's support services, foster youth support services, student success and counseling workshops, Learning Center and tutorial services, SMCCCD Transcript Evaluation Service.
6. **Intervention Activities and Support** - Students who fall out of good academic standing or are otherwise experiencing academic difficulty, or are

determined to be at-risk students are provided support through the OnTRAC Program.

More information about the CSM Student Success and Program Report is available on the [Institutional Planning Documents \(collegeofsanmateo.edu/prie/planningdocs.asp\)](http://collegeofsanmateo.edu/prie/planningdocs.asp) webpage.

Nondiscrimination Policy

College of San Mateo is committed to equal opportunity regardless of age, gender, marital status, disability, race, color, sexual orientation, religion, national origin, or other similar factors, for admission to the College, enrollment in classes, student services, financial aid, and employment in accordance with the provisions of Title VI of the 1964 Civil Rights Act, Title IX of the Educational Amendments of 1972 (45CRF 86), Section 504, Rehabilitation Act of 1973 (P.L. 93-112), and the Americans With Disabilities Act of 1990.

It is important that students, staff, and all others associated with the College understand the importance of reporting concerns about possible violations of this policy. The College's commitment to equal opportunity demands full investigation of possible violations and an opportunity for a fair and impartial hearing on any matter relating to these laws and policies.

Any person seeking information concerning these laws and policies or claiming grievance because of alleged violations of Title VI of the 1964 Civil Rights Act and Section 504 of the Rehabilitation Act of 1973 and the Americans with Disabilities Act of 1990 should contact the Office of the Vice Chancellor, Human Resources and Employee Relations at (650) 358-6883.

All grievances will be reviewed in terms of Title VI and Title IX law, and persons involved will be advised of the provisions of the law and their legal rights. If normal channels are not available or fail to meet legal requirements, the necessary action will be initiated. The office will maintain a record of all Title VI and Title IX grievances.

Política Antidiscriminatoria

El Colegio de San Mateo se compromete a proporcionarles a todos la misma oportunidad de ingresar en el colegio, de matricularse en las clases y de recibir servicios, ayuda financiera y empleo estudiantil, sin que se tenga en cuenta la edad, el sexo, el estado civil, la incapacidad física o mental, la raza, el color, la orientación sexual, la religión, el origen u otro factor similar. Nuestra política se basa en las disposiciones de las leyes referidas en los siguientes títulos reglamentarios, a saber: Title VI of the 1964 Civil Rights Act; Title IX of the Educational Amendments of 1972 (45CRF 86); Section 504, Rehabilitation Act of 1973 (P.L. 93-112); Americans with Disabilities Act of 1990.

Es importante que todo estudiante, empleado o individuo asociado con el Colegio aprecie lo importante que es el reportar cualquier caso que parezca ser una infracción de esta política. El Colegio se propone ofrecerles las mismas oportunidades a todos y por eso facilita la investigación exhaustiva de posibles infracciones y asegura el establecimiento de un foro legal para la vista justa e imparcial de cualquier asunto relacionado con las leyes y nuestra política. Cualquier persona que necesite obtener más información sobre estas leyes o esta política o que quiera hacer una reclamación basada en la infracción alegada de los títulos susodichos — Title VI of the 1964 Civil Rights Act y Section 504, Rehabilitation Act of 1973 — debe dirigirse a la Oficina del Vice Canciller de Recursos Humanos y Relaciones del Personal al teléfono (650) 358-6883.

Conforme a las leyes en los títulos citados anteriormente, se estudiará cada reclamación y a todas las personas a quienes concierna se les informará sobre las disposiciones de las leyes y los derechos legales pertinentes. Si por la manera prescrita resulta imposible ejecutar el proceso susodicho, o si no se cumple con los requisitos prescritos por las leyes, se iniciará la acción legal necesaria. Se compilará un registro de todas las reclamaciones basadas en los títulos mencionados.

Privacy Rights of Students Policy

The Family Educational Rights and Privacy Act (FERPA) affords students certain rights with respect to their education records. These rights include:

1. **The right to inspect and review the student's education records within 45 days of the day the College receives a request for access.** Students should submit to the registrar, dean, head of the academic department, or other appropriate official, written requests that identify the record(s) they wish to inspect. The College official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the College official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.
2. **The right to request the amendment of the student's education records that the student believes are inaccurate or misleading.** Students may ask the College to amend a record that they believe is inaccurate or misleading. They should write the College official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading. If the College decides not to amend the record as requested by the student, the College will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.
3. **The right to consent to disclosures of personally identifiable information contained in the student's education records,** except to the extent that FERPA authorizes disclosure without consent. One exception, which permits disclosure without consent, is disclosure to school officials with legitimate educational interests. A school official is a person employed by the College in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the College

has contracted (such as an attorney, auditor, or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

4. **The right to file a complaint with the U.S. Department of Education** concerning alleged failures by the College to comply with the requirements of FERPA.

The Act provides that the College may release certain types of "Directory Information" unless the student submits a request in writing to the Dean of Enrollment Services that certain or all such information not be released without his/her consent. Currently enrolled students may request that "Directory Information" be withheld by notifying the Dean of Enrollment Services in writing each term or semester.

External entities have access to only the following directory information (1) student's name and city of residence; (2) email address; (3) participation in recognized activities and sports; (4) dates of enrollment; (5) degrees and awards received; (6) the most recent previous educational agency or institution attended; and (7) height and weight of members of athletic teams.

Appropriate college personnel as noted in No. 3 above have access to full address information.

The Federal Solomon Act requires colleges to release full directory information (including address) to U.S. Armed Forces.

A copy of the Family Educational Rights and Privacy Act (Sec. 438, P.L. 93-380) is available in the Office of Admissions & Records, Building 10, Room 360, during normal business hours.

La Política de los Derechos de los Estudiantes

El Family Educational Rights and Privacy Act (FERPA) les concede a los estudiantes ciertos derechos con referencia a sus historiales académicos. Se incluyen los siguientes:

1. El derecho de inspeccionar y revisar el historial académico del estudiante dentro de 45 días después de que el College recibe la petición de acceso. El estudiante debe entregarle la petición escrita al registrador, el decano, el encabezado de departamento académico u otro oficial apropiado, identificando los documentos que desea revisar. El College hará lo necesario para facilitar la revisión y le confirmará al estudiante cuándo y dónde tendrá lugar. Si los documentos no están accesibles al oficial contactado por el estudiante, ese oficial le

indicará al estudiante la persona a quien se tiene que dirigir.

2. El derecho de pedir la enmendación de las entradas del historial académico que el estudiante estima erróneas o de falsas apariencias. Se debe escribirle al oficial responsable por el documento, identificando claramente la parte que desean enmendar, y especificando por qué la considera errónea o engañosa. Si el College decide no conceder lo pedido por el estudiante, le notificarán al estudiante y le informarán de su derecho a un juicio sobre su petición por una enmendación. Se le dará al estudiante información más detallada cuando se le avise del derecho al juicio.
3. El derecho del consentimiento para revelar información personal identificable contenida en el historial académico, con la excepción de lo que FERPA autoriza sin consentimiento. Un ejemplo de tal excepción es el caso de los oficiales de la escuela que tienen legítimo interés educativo. Un oficial de la escuela es un empleado del College que ocupa un puesto administrativo, supervisorial, académico, investigador, o de otro servicio de apoyo (incluyendo el personal de seguridad y de salud pública); una persona contratada por el College (como un abogado, un monitor o un colector de deudas); una persona que sirve en la Junta de Fiduciarios; o un estudiante que sirve en un comité oficial (como el disciplinario o el de reclamos), o que ayuda a un oficial del colegio en el desempeño de su cargo. Un oficial de la escuela tiene legítimo interés educativo si necesita revisar un historial académico a fin de cumplir con su responsabilidad profesional.
4. El derecho de reclamar con el U.S. Department of Education el caso alegando que el College ha fallado en su deber de cumplir con los requisitos de FERPA.

El Acta concede que el College revele ciertos tipos de "Información de Directorio" a menos que el estudiante entregue una petición por escrito que estipula que no se revele sin su consentimiento. Los estudiantes ya matriculados pueden dirigirse por escrito al Dean of Enrollment Services, pidiendo de semestre en semestre que no se revele esa información de directorio.

Entes ajenas al College tienen acceso únicamente a los siguientes datos de información de directorio: (1) el nombre del estudiante y su domicilio; (2) su dirección de correo electrónico; (3) su participación en actividades y deportes reconocidos; (4) fechas de matrícula; (5) diplomas y premios recibidos; (6) la agencia educativa o instituto educativo donde estudió más recientemente; y (7) la estatura y el peso de miembros de equipos atléticos.

El personal apropiado del College (explicado en el párrafo 3 arriba) tienen acceso a la dirección completa del estudiante.

El Federal Solomon Act requiere que el College revele toda la información de directorio (inclusive la dirección) a las Fuerzas Armadas de los Estados Unidos. Una copia de FERPA (Family Educational Rights and Privacy Act, Sec. 438, P.L. 93-380) está disponible durante las horas laborales normales en la Office of Admissions and Records, edificio 10, oficina 360.

Sexual Assault Policy

It is the policy of the San Mateo County Community College District to educate all students, faculty, and staff on the prevention of sexual assault. The District and Colleges will provide information to all faculty, staff, and registered students on the definition of sexual assault, how to prevent it, and how to report it if assaulted.

"Sexual assault" includes but is not limited to rape, forced sodomy, forced oral copulation, rape by a foreign object, sexual battery, or threat of sexual assault.

Any sexual assault or physical abuse, including, but not limited to, rape, as defined by California law, whether committed by a student, faculty, staff, administrator, visitor, or invitee of College of San Mateo, occurring on College property, or on an off-campus site or facility maintained by the College, or on grounds or facilities maintained by a student organization, is a violation of College policies and regulations, and is subject to all applicable punishment, including criminal procedures and employee or student discipline procedures.

Information and literature is available in the office of the Vice President, Student Services, Health Services and Public Safety.

Any faculty, staff member, or student who has been sexually assaulted should immediately contact Health Services, 574-6396, or the Public Safety Office, 738-7000.

Additional Redress

In addition to and concurrently with the filing of a written grievance, a student has the right to file a complaint or charges with other appropriate governmental agencies such as the Equal Employment Opportunity Commission, the Office for Civil Rights, the Department of Fair Employment and Housing, the Chancellor's Office of the California Community Colleges, or state or federal court.

Política del Atentado Sexual

En el San Mateo County Community College District rige una política de educarles a todos los estudiantes, el profesorado, y los empleados sobre la prevención del atentado sexual. El Distrito y cada College les proveerán a todos —profesorado, empleados, estudiantes matriculados— información sobre la definición oficial del atentado sexual, cómo prevenirlo, y cómo reportarlo en caso de asalto.

El «atentado sexual» incluye pero no se limita a la violación, la sodomía forzada, la cópula oral forzada, la violación por objeto ajeno, la agresión sexual, o la amenaza de agresión sexual.

Es una contravención de la política y los reglamentos del College cualquier atentado sexual o abuso físico, inclusive pero no limitado a la violación, de acuerdo con la definición asignada por la ley de California, ya sea por un estudiante, profesor, empleado, administrador, visitante, o huésped invitado de College of San Mateo, y ya sea en el campus, u otro sitio usado o mantenido por o perteneciente al College o a un grupo estudiantil. Tal contravención será sujeta a todo castigo aplicable, inclusive procedimientos criminales y disciplina para estudiantes y empleados.

Para mayor información diríjase a la oficina de la Vicepresidenta, Student Services, el Health Center y Public Safety.

Cualquier estudiante, empleado o profesor que haya sufrido un atentado sexual debe contactar inmediatamente Health Services, 574-6396, o la Public Safety Office, 738-7000.

Remedio adicional

Adicionalmente y al mismo tiempo que un reclamo oficial por escrito, el estudiante tiene el derecho de iniciar un reclamo o una acusación con apropiadas agencias gubernamentales tales como la Equal Employment Opportunity Commission, la Office for Civil Rights, el Department of Fair Employment and Housing, la Chancellor's Office of the California Community Colleges, o con la corte estatal o federal.

Sexual Harassment Policy

It is the policy of the San Mateo County Community College District and the College of San Mateo to provide an educational and work environment free from unwelcome sexual advances, requests for sexual favors, and other verbal or physical conduct or communications constituting sexual harassment. **The District promotes zero tolerance for behaviors which constitute sexual harassment in its educational and workplace environment for both employees and non-employees.**

This policy defines sexual harassment and sets forth a procedure for the investigation and resolution of complaints of sexual harassment by or against any faculty member, staff member, Board member or student within the District. Sexual harassment violates State and Federal laws, as well as this policy, and will not be tolerated. It is also illegal to retaliate against any individual for filing a complaint of sexual harassment or for participating in a sexual harassment investigation. Retaliation constitutes a violation of this policy.

It is the responsibility of each District employee and student to maintain a level of conduct that is in compliance with District policy. Employees who violate this policy

may be subject to disciplinary action up to and including termination. Students who violate this policy may be subject to disciplinary measures up to and including expulsion.

The District provides both informal and formal complaint resolution procedures; considers as serious matters all complaints of sexual harassment; is committed to full investigation and resolution; and takes steps to ensure that persons complaining of sexual harassment will not be subjected to retaliation or reprisals of any kind.

Students or staff seeking further information concerning this policy or claiming grievance because of alleged violations of this policy should contact the Vice-Chancellor of Human Resources and Employee Relations, 358-6883.

Additional Redress

In addition to and concurrently with the filing of a written grievance, a student has the right to file a complaint or charges with other appropriate governmental agencies such as the Equal Employment Opportunity Commission, the Office for Civil Rights, the Department of Fair Employment and Housing, the Chancellor's Office of the California Community Colleges, or state or federal court.

Política de Acoso Sexual

Es la política del San Mateo Community College District y de College of San Mateo fomentar un ambiente laboral y académico libre de propuestas sexuales inoportunas, peticiones para obtener favores sexuales, y cualquier otra conducta o comunicación verbal o física que constituye el acoso sexual. **El Distrito no tolera en absoluto ninguna conducta designada acoso sexual en el sitio laborable y educativo, ya sea por empleados o estudiantes.**

Esta política define el acoso sexual y establece el proceder para la investigación en el Distrito. El acoso sexual no es sólo una contravención de la ley estatal y federal, sino también de esta política, y no se tolerará. También es ilegal vengarse de la persona que inicie el proceso legal o de la que participe en la investigación de un caso de acoso sexual. La represalia es una contravención de esta política.

Precisa que todo empleado y estudiante del Distrito mantenga una conducta que cumple con esta política del Distrito. Al empleado que contravenga esta política le incumben medidas disciplinarias que pueden llevar a la terminación de empleo. Al estudiante que la contravenga le incumben medidas disciplinarias que pueden llevar a la expulsión.

El Distrito dispone de procedimientos formales e informales para resolver los reclamos; estima de grave cualquier reclamo de acoso sexual; se empeña en realizar una investigación a fondo hasta resolver el caso; y hace lo posible por evitar que la persona que inicia la demanda no llegue a ser víctima de represalias de ningún tipo.

Cualquier empleado o estudiante que desee mayor información sobre esta política o que inicie un reclamo

alegando contravención puede dirigirse al Vicecanciller de Human Resources and Employee Relations, 358-6883.

Remedio adicional

Adicionalmente y al mismo tiempo que un reclamo oficial por escrito, el estudiante tiene el derecho de iniciar un reclamo o una acusación con apropiadas agencias gubernamentales tales como la Equal Employment Opportunity Commission, la Office for Civil Rights, el Department of Fair Employment and Housing, la Chancellor's Office of the California Community Colleges, o con la corte estatal o federal.

Smoking Policy

It is the policy of San Mateo County Community College District to provide a safe learning and working environment for both students and employees. It is recognized that smoke from cigarettes, pipes and/or cigars is hazardous to health. There is also evidence that vapor from e-cigarettes may be harmful. Therefore, it is the intent of the District to provide a smokefree environment to the greatest extent possible. To achieve this goal, smoking will be limited to parking lots only except in Socrates Lot 4 where smoking is also prohibited.

1. "Smoking" means engaging in an act that generates smoke or vapor, such as possessing a lit pipe, a lit hookah pipe, electronic cigarettes or other imitation cigarette devices, a lit cigar, or a lit cigarette of any kind.
2. This policy shall apply to all owned or leased District facilities and all owned or leased District vehicles.
3. Smoking is prohibited in all indoor locations within the District.
4. District managers are responsible for publicizing the policy to students, employees and visitors, and are responsible for the posting of signs. Notification about the policy on smoking will be included in employee and student publications, newsletters and in other written materials as appropriate. In addition, materials which are used to publicize District public events will include policy notification to the general public.
5. To assist in the implementation of this policy, the District will provide education and training in the areas of smoking dangers and smoking cessation. Contact the CSM Health Services at 574-6396 for more information.
6. It is the responsibility of all students and employees to observe the policy and guidelines on smoking. Failure to comply with the policy on smoking will be treated in the same manner as other violations of District Rules and Regulations and may result in disciplinary action.
7. It is the responsibility of College and District Office managers to enforce the policy on smoking.

Disputes over the interpretation of the policy or complaints about individuals violating the policy should be brought to the attention of the person's supervisor, the Vice-President of Student Services at the College level, or the Vice-Chancellor of Human Resources and Employee Relations in the District Office. When the evidence is non-persuasive on either side, such disputes will be settled in favor of the nonsmoker(s) in recognition of the policy of the District to provide a smoke-free environment. Such disputes shall be settled at the lowest management level.

8. This policy does not supersede more restrictive policies which may be in force in compliance with State or Federal regulations.

Política de No Fumar

La política del San Mateo County Community College District provee un ambiente laboral y académico seguro para los estudiantes y empleados. Se reconoce que el humo de cigarrillo, pipas y cigarros es dañino para la salud; también hay evidencia que el vapor de cigarrillos electrónicos puede ser dañino, por eso el Distrito se empeña en asegurar al máximo un ambiente libre de humo. A ese fin se permite fumar únicamente en los estacionamientos, con la sola excepción del Lote 4 (Sócrates).

1. "Fumar" significa participar en un acto que genera humo o vapor, tal como posesión de una pipa encendida, una pipa de hookah encendida, cigarrillos electrónicos o cualquier tipo de dispositivos de imitación del cigarrillo, un cigarro encendido o un cigarrillo encendido de cualquier tipo.
2. Esta política se aplicará a todas las instalaciones propias o alquiladas del Distrito y todos los vehículos de alquiler o de propiedad del Distrito.
3. Se prohíbe fumar dentro de todos los edificios del Distrito.
4. Los gerentes del Distrito publican la política para estudiantes, empleados y visitantes, y se responsabilizan por ubicar los letreros. Se publicará la política también en impresos apropiados de los empleados y estudiantiles, tales como folletos y noticieros. Adicionalmente se incluirá una notificación de la política en los anuncios para eventos públicos organizados por el Distrito.
5. Para implementar la política el Distrito ofrecerá seminarios y otras oportunidades de entrenamiento sobre lo peligroso del fumar y cómo cesar. Para mayor información diríjase a CSM Health Services at 574-6396.
6. Todos los estudiantes y empleados tienen la responsabilidad de cumplir con la política y los reglamentos relativos al fumar. La persona

que contravenga esta política será sujeta a la misma acción disciplinaria que por cualquier otra infracción de District Rules and Regulations.

7. Los gerentes del College y del Distrito se encargan de administrar la política de no fumar. Cualquier disputa sobre la interpretación de los reglamentos o queja sobre la persona que supuestamente contravenga la política debe ser reportada al supervisor del individuo, o a la vicepresidenta de Student Service al nivel del campus, o al vicedirector de Human Resources and Employee Relations al nivel de la oficina del Distrito. Cuando no convence la evidencia por una u otra parte, se decidirá a favor de la persona no-fumadora debido al principio de proveer un ambiente libre de humo.
8. Esta política del Distrito puede ser superada por una política más restrictiva que se conforma con requisitos estatales o federales.

Video Surveillance

In order to deter crime, prevent vandalism and maintain a safe and secure environment for students and staff, the District employs electronic surveillance in and around buildings, parking lots and roadways.

Student Rights and Responsibilities

The principle of personal honor is the basis for student conduct. The honor system rests on the sincere belief that College of San Mateo students are mature and self-respecting, and can be relied upon to act as responsible and ethical members of society. Each individual has the obligation to observe the College rules and regulations.

Social or other functions using the name of the College are thereby identified as College functions and become subject to the same standards of conduct and of supervision, whether conducted on or off the campus.

Social or other functions for which no College staff member is listed as a sponsor are not considered College functions. Further, no off-campus organizations may use the name of the College of San Mateo or imply College sponsorship in any publicity or other information.

Derechos y responsabilidades estudiantiles

La base de la conducta estudiantil reside en el principio de la honradez personal. El sistema de honor se respalda en la creencia sincera de que los estudiantes de College of San Mateo tienen madurez y respeto por sí, y que no vacilan en comportarse como miembros responsables y éticos de nuestra sociedad. Cada individuo tiene la obligación de respetar las reglas y los reglamentos del College.

Funciones sociales o de otro propósito que opten por usar el nombre del College por lo tanto se identifican como funciones del College y están sujetas a las mismas normas de conducta, que el evento sea en el campus o en otro lugar.

Las funciones sociales o de otro propósito que no supervisados por un empleado del College no se consideran funciones del College. Además, no puede usar el nombre de College of San Mateo ninguna organización fuera del campus, ni implicar el apoyo del College en su publicidad u otra información.

Student Conduct

All members of the San Mateo County Community College District community share the responsibility for preserving the freedom to learn. The College's policies and procedures are designed to safeguard this freedom. Students attending any college in the San Mateo County Community College District will have full access to the Board policies under which these colleges operate and will be assured due process in instances when a regulation allegedly is violated.

Students enrolled in the Colleges of the District are expected to conduct themselves as responsible citizens and in a manner compatible with the District and College function as an educational institution.

Students are also subject to civil authority and to the specific regulations established by each College in the District. Violators shall be subject to disciplinary action, as defined in Board Procedure 7.69.2 and may be denied future admission to the Colleges of the San Mateo County Community College District.

A system of derived authority provides the basis for the regulation of the conduct of students of the San Mateo County Community College District. Authority for the public educational system in California rests with the state. The state legislature has full authority, subject only to the limits placed upon it by the Constitution of the United States and the State of California, and fulfills its duty as follows:

By creating laws to regulate public education – these are to be found principally in the Education Code.

By delegating authority to local agencies such as the Board of Trustees of the San Mateo County Community College District, which, in turn, may delegate its administrative authority.

1. The following actions are prohibited and may lead to appropriate disciplinary action:

1. Disruptive behavior, continued disruptive behavior, continued willful disobedience, habitual profanity or vulgarity, the open and persistent defiance of the authority of, or persistent abuse of, College/ District personnel, or violating the rights of other students.

2. Assault, battery or any threat of force or violence to a student or District/College personnel on District/College premises or at any time or place while under the supervision of District/College personnel.
3. Causing, attempting to cause, or threatening to cause physical injury or threat of force or violence to the person, property or family of any member of the College community, whether on or off College/ District premises as defined below, except in self defense.
4. Aiding or abetting, as defined in Section 31 of the Penal Code, the infliction or attempted infliction of physical injury to another person.
5. Harassing, intimidating or threatening a student who is a witness in a school disciplinary proceeding, administrative proceeding or law enforcement investigation for the purpose of preventing the student from being a witness or retaliation for being a witness.
6. Causing or attempting to cause, threatening to cause or participating in an act of hate violence, as defined in Education Code Section 233(e).
7. Disorderly conduct, engaging in intimidating conduct or bullying against another student through words or actions, including direct physical contact; verbal assaults, such as teasing or name-calling; social isolation or manipulation; and cyberbullying.
8. Engaging in physical or verbal disruption of instructional or student services activities, administrative procedures, public service functions, or authorized curricular or co-curricular activities or prevention of authorized guests from carrying out the purpose for which they are on campus.
9. Terroristic threats against school officials, students or school property as defined in Education Code Section 48900.7(b).
10. Theft of, damage to, or threat of damage to property belonging to or located on College/District controlled property or facilities, or to the private property located on College/District premises.
11. Knowingly receiving stolen property belonging to the College District.
12. Participation in hazing.
13. Unauthorized entry into, or use of, or misuse of College/District owned or operated facilities.
14. Forgery, alteration, or misuse of College/District documents, records, or identification.
15. Misrepresentation of oneself or of an organization as an agent of the College District.
16. Dishonesty (such as cheating, plagiarism, or knowingly furnishing false information to the College and its officials).
17. Infringement or violation of copyright laws.
18. Disorderly conduct or lewd, indecent, or obscene conduct or expression including profanity or vulgarity; any expression which is obscene, libelous or slanderous according to current legal standards or which so incites students as to create a clear and present danger of the commission of unlawful acts, or the substantial disruption of the orderly operation of the Community College on any College/District-owned or controlled property or at any College/District-sponsored or supervised function.
19. Extortion or breach of the peace on College/District property or at any College/District-sponsored or supervised function.
20. Unlawful use, sale, possession, offer to sell, furnishing, or being under the influence of any controlled substance (listed in the California Health and Safety Code), alcohol, or an intoxicant of any kind, or a poison classified by laws defining controlled substances while on College/District property, or at College/ District functions; or unlawful possession of, or offering, arranging or negotiating the sale of any drug paraphernalia.
21. Possession, sale, use, or otherwise furnishing of explosives, dangerous chemicals, deadly weapons or other dangerous objects on College/District property or at a College/District function without prior authorization of the Chancellor, College President, or authorized Designee. Possession of an imitation firearm, knife or explosive on College/ District property with the intent to threaten, frighten or intimidate.
22. Smoking in any area where smoking has been prohibited by law or by regulation of the College/ District. This includes e-cigarettes and other vapor products.
23. Failure to satisfy College/District financial obligations.
24. Failure to comply with directions of College/ District officials, faculty, staff, or campus security officers who are acting within the scope of their employment. Continued and willful disobedience or open and persistent defiance of the authority of College/District personnel providing such conduct as related to District/College activities or College attendance or on College/District property.
25. Failure to identify oneself when on College/District property or at a College/ District-sponsored or supervised event, upon request of a College/ District official acting in the performance of his/ her duties.
26. Stalking, defined as a pattern of conduct by a student with intent to follow, alarm, or harass another person, and which causes that person to reasonably fear for his or her safety, and where the student has persisted in the pattern of conduct after the student has been told to cease the pattern of conduct. Violation of a restraining order shall constitute stalking under this policy.

27. Gambling: Betting, wagering or selling pools; playing card games for money; using District resources (telephones, computers, etc.) to facilitate gambling.
 28. Committing sexual harassment as defined by law or by District policies and procedures.
 29. Engaging in harassing or discriminatory behavior based on nationality, religion, age, gender, gender identity, gender expression, race or ethnicity, medical condition, genetic information, ancestry, sexual orientation, marital status, physical or mental disability, or on any basis prohibited by law.
 30. Persistent, serious misconduct where other means of correction have failed to bring about proper conduct or where the presence of the student causes a continuing danger to the physical safety of students or others.
 31. Failure to adhere to safety rules and regulations as directed.
 32. Violation of other applicable Federal, State and Municipal statutes and District and College rules and regulations in connection with attendance at programs or services offered by the College/District or while on College/District property or at College/ District sponsored activities.
 33. Unauthorized computer usage, including: unauthorized entry into a file to use, read, or change the contents, or for any other purpose; unauthorized transfer of a file; unauthorized use of another individual's identification and password; use of computing facilities to interfere with the work of another student, faculty member, or District official; use of computing facilities to send obscene or abusive messages; use of computing facilities to interfere with the normal operations of District computing.
2. Definitions: When used in this policy:

1. Student – any person taking or auditing classes at a College in the District or who has been admitted to any of the Colleges within the District.
2. District premises – any building or grounds owned, leased, operated, controlled or supervised by the District.
3. District or School Property – includes both personal and real property owned or controlled by the District.
4. District or College sponsored activity – any activity on or off the District or College premises that is directly initiated or supervised by the District or a District organization.
5. Weapon – any object or substance designed or used to inflict a wound or cause injury.
6. Reckless – conduct which one should reasonably be expected to know would create a substantial risk of harm to a person or property or which

would otherwise be likely to result in interference with normal College/District sponsored activities.

7. Will and Shall – are used in the imperative sense.

3. Disciplinary Action while criminal charges are pending: Students may be accountable both to law enforcement and to the District for acts that constitute violations of law and of this policy. Disciplinary action at the College/ District will normally proceed during the pendency of criminal proceedings, and will not be subject to challenge on the ground that criminal charges involving the same incident have been dismissed or reduced.

4. No student shall be suspended from a College unless the conduct for which the student is disciplined is related to College/ District activity or attendance. Any violation of law, ordinance, regulation or rule regulating or pertaining to, the parking of vehicles, shall not be cause for removal, suspension, or expulsion of a student.

I. Non-Expulsion Disciplinary Process

These procedures are designed to provide uniform standards to assure due process when a student is charged with a violation of the San Mateo County Community College Student Code of Conduct, as defined in Board Policy 7.69 and 7.70. All proceedings held in accordance with these procedures shall relate only to an alleged violation of established standards.

Disciplinary Officer: Each president will designate an administrator to serve as the College's Disciplinary Officer. The Disciplinary Officer shall be responsible for investigating and processing the alleged violation of the Student Code of Conduct.

Step 1. Incident Occurs

Within twenty (20) days* from the time that the Disciplinary Officer is informed of allegations which may constitute a violation of the Student Code of Conduct, the Disciplinary Officer shall conduct a fact-finding investigation to determine whether to pursue an Administrative Conference or a Student Disciplinary Hearing.

For the purpose of evaluating whether the student's conduct is a violation of the Student Code of Conduct, no consideration shall be given to the student's actual or perceived disability unless such disability is being asserted by the student as a defense to, in mitigation of a potential violation.

Immediate Interim Suspension: In cases where the alleged violation is deemed by the Disciplinary Officer to pose an imminent threat to the health and safety of the college community, the student may be suspended immediately pursuant to Education Code 66017, provided that a reasonable opportunity is afforded a suspended person for a hearing within ten (10) days*.

Step 2. Administrative Conference or Student Disciplinary Hearing

Based on the review of the alleged code of conduct violations, the Disciplinary Officer shall determine if the matter goes to an Administrative Conference or to a Student Disciplinary Hearing.

Administrative Conference

The Disciplinary Officer shall schedule a meeting with the student involved to inform the student of the alleged offense. The student will be notified of charges/alleged violations and the basis for the charges. Based on the information at the Conference, the Disciplinary Officer may either dismiss the charges for lack of merit or notify the student of one or more disciplinary actions being taken (described in Step 3). The student may request the opportunity for a Student Disciplinary Hearing.

Student Disciplinary Hearing

Hearing Notice: A notice of the hearing will be sent to the student and shall specify the date, time, and place of the hearing, a statement of the charges against the student, and the date, time, and location that the tangible evidence will be made available for inspection and (when applicable). A copy of the disciplinary procedures shall also be enclosed.

Student Disciplinary Board: The Disciplinary Board shall include: one (1) student selected from the pool submitted by the Associated Student Organization governing body, one (1) faculty member selected from the pool submitted by the Academic Senate and one staff member from a pool submitted by CSEA and the Management Group. A Judicial Officer will also be appointed to assure the process is followed.

No person shall serve as a member of the Disciplinary Board if that person has been personally involved or could otherwise not act in a neutral manner. The student may request the names of the Disciplinary Board members and may challenge for cause any member of the Disciplinary Board by addressing the challenge to the Disciplinary Board Chairperson, who shall determine whether the cause for disqualification has been shown.

The scope of the duties of the Disciplinary Board is to weigh the evidence presented in relation to the alleged violation and, based on the evidence, submit a recommendation to the Disciplinary Officer regarding the student's responsibility for violations of the Code of Conduct.

Formal Hearing Process:

Absence of the Student: The hearing shall proceed in the absence of the student.

Chairperson: Prior to the hearing, the Board shall select a Chairperson. The chairperson shall preside over the hearing.

Behavior: Disruptive behavior will not be tolerated and will result in exclusion of individuals.

Hearing Process: A document describing the process for conducting disciplinary hearings will be distributed to all members of the Disciplinary Board. The Judicial Officer will assure the process is followed.

Charges: The Chairperson shall distribute copies of the charges and incident reports to the members of the Board, read the charges aloud, and ask the student if the charges have been received.

Representation: The disciplinary hearing is an internal due process hearing conducted by the colleges of the San Mateo County Community College District. Parties are not allowed to be represented by legal counsel at any time during the hearing process.

Participants: A student may be accompanied by a person of his or her choice who is an observer only. Each person present will be asked to identify themselves by name.

Witnesses: Each side shall be entitled to call witnesses. All witnesses shall be excluded from the hearing process except when testifying.

The Disciplinary Board may accommodate concerns for the personal safety, well-being, and/or fears of confrontation of the accused student and/or witnesses during the hearing if direct confrontation of witnesses creates an unreasonable risk of psychological or physical harm. Accommodations of such concerns may be addressed by providing separate facilities, providing participation by telephone, videophone, videoconferencing, videotape, audio tape, written statement, or other means, as determined in the judgment of the Disciplinary Officer. Any testimony of a witness that is not subject to the direct examination of an accused student shall only be admitted if the witness signs under penalty of perjury that the testimony is true and accurate.

Plea: The student shall admit or deny responsibility for each charge. If the student admits each charge and wishes to present no evidence of mitigating circumstances or other defense, the Board shall retire to make its decision. If the student denies any or all of the charges, or wishes to present evidence of mitigating circumstances, the hearing shall proceed.

Recording: The hearing may be recorded by the college and shall be the only recording made. The recording shall remain the property of the college. If recorded, no witness who refuses to be recorded may be permitted to give testimony. Committee deliberations shall not be recorded.

Information: Formal rules of evidence shall not apply. All relevant information is admissible, including but not limited to testimony of witnesses, physical objects, police or security officer reports, photographs, and copies of documents. Any and all information will be entered for the record.

Disciplinary Board Deliberation: The Disciplinary Board shall retire to deliberate in closed session with only the members of the Board and the Judicial Officer present.

The Disciplinary Board shall reach its decision based only upon the evidence presented and shall not consider matters outside of the record. The Board shall recommend disciplinary sanctions to the Disciplinary Officer based upon its findings.

Step 3. Disciplinary Action(s) Recommended

If a student is found responsible for violating the Student Code of Conduct, either through the Administrative Conference or Disciplinary Hearing process, one or more of the following types of disciplinary actions may be recommended, based on Board Procedure, 7.69.2.

- **Warning:** An oral statement to the student that he/she is violating the Student Code of Conduct; that continuation or repetition of the conduct may be cause for further disciplinary action.
- **Reprimand:** A written notice of violation of the Student Code of Conduct.
- **Disciplinary Probation:** Formal written notice by the Disciplinary Officer of violation of the Student Code of conduct which includes exclusion from participation in specified activities or locations for a period not to exceed one (1) calendar year. Further violation of the Student Code of Conduct will result in more severe sanctions.
- **Restitution:** Formal action by the Disciplinary Officer to require the reimbursement for damage to or misappropriation of property. This may take the form of appropriate service or other compensation.
- **Removal from classes/program/activity:** (Note: This disciplinary action may occur at any time.) Exclusion of a student by an instructor or an administrator from a class and/or facility for the day of the offense and/or the next class meeting or day. An instructor removing a student from class shall make written report or meet with the appropriate Division Dean and/or Disciplinary Officer to discuss the cause for the removal. Any college instructor, for good cause, may remove a student from the classroom for the day of the incident and the next regular class meeting. For removal from class, the following process should be followed:
 1. Before ordering the removal of any student from class, the instructor shall first give or make reasonable efforts to give the student an oral or written notice of the reasons for the proposed removal.
 2. Immediately following the removal from class, the instructor shall document the removal and notify the Division Dean and/or Disciplinary Officer of the action.
 3. If the student is a minor, the parents or legal guardian shall, within 48 hours, be notified in writing by the Disciplinary Officer
- **Suspension:** Exclusion of the student from all colleges, programs, and activities in the District for a definite period of time. An administrative hold shall be placed on the

student's electronic record, but shall not be reflected on the academic transcript.

1. **Short term Suspension - Exclusion of the student** by the Vice President, Student Services, for good cause from one or more classes for a period of up to ten consecutive days of instruction.
2. **Long-term Suspension - Exclusion of the student** by the Vice President, Student Services, for good cause from one or more classes for the remainder of the school term, or from all classes and activities for one or more terms.

• **Expulsion:** Permanent exclusion of a student from all colleges, programs and activities in the District for an indefinite time period, including all rights and privileges. **Expulsion Disciplinary Process -** Students who have been accused of violating the Code of Conduct go through the Steps 1-4 listed above. If, in Step 3, the recommendation is for Expulsion, the following describes the additional process for that sanction. Expulsion of a student is the indefinite termination of student status and all attending rights and privileges.

Expulsion of a student is accomplished by action of the Board of Trustees on recommendation of the College President and the Chancellor. An expelled student shall not be allowed to register in any subsequent semester without the approval of the College President. The process is as follows:

- a. The College President shall forward to the Chancellor a letter of recommendation for expulsion which includes a brief statement of charges and a confidential statement of background and evidence relating to the charge(s).
- b. The Chancellor shall review the recommendation for expulsion with the Office of County Counsel.
- c. The Chancellor, as Secretary for the Board of Trustees, shall forward a letter to the student by certified mail advising him/ her of the charges and the intention of the Board of Trustees to hold a closed session to consider his/ her expulsion. Unless a student requests a public hearing in writing at least 48 hours prior to the scheduled hearing, the hearing shall be conducted in closed session.
- d. The student is entitled to be present during presentation of the case and may be accompanied by a representative. If the student chooses to be represented by an attorney, the student must so notify the Chancellor no later than five working days prior to the hearing. The student has the right to examine any materials upon which charges against him/her are based, and shall be given the opportunity to present his/her evidence refuting the charges to the Board of Trustees. The student or his/her representative may cross-examine any witness. The district bears the burden of proof.
- e. The report of final action taken by the Board of Trustees in public session shall be made a part of the public record and forwarded to the student. Other documents and

materials shall be regarded as confidential and will be made public only if the student requests a public hearing.

- **Withdraw of Consent to Remain on Campus:** Withdraw of consent by the Vice President, Student Services, or Chief of Public Safety for any person (non-student) to remain on campus in accordance with California Penal Code Section 626.4 where the Vice President, Student Services or Chief of Public Safety has reasonable cause to believe that such person has willfully disrupted the orderly operation of the college. If consent is withdrawn by the Vice President, Student Services, or Chief of Public Safety, a written report must be promptly made to the College President.

The person from whom consent has been withdrawn may submit a written request for a hearing on the within the period of the withdrawal. The request for the hearing shall be granted not later than seven days from the date of receipt of the request. The hearing will be conducted in accordance with the provisions of this procedures relating to interim suspensions.

The action to withdraw consent from campus cannot exceed 14 days from the initial date that action was initiated.

Any person as to whom consent to remain on campus has been withdrawn who knowingly reenters the campus during the period in which consent is withdrawn, except to come to a meeting or hearing, is subject to arrest (Penal Code 626.4).

Any level of sanction may also include a behavioral contract; community service, and/or any other directives to make amends and/or reduce the likelihood of repeating prohibited behavior.

Step 4. Written Decision

1. Within five (5) days* following receipt of the Disciplinary Board's recommendation, the Disciplinary Officer shall make a written decision.
2. The Disciplinary Officer may adopt the recommendations made or make changes.
3. The Disciplinary Officer should then promptly send a copy of the decision to the student by certified mail. A copy will also be sent to the President. If the student is a minor, the report shall be sent to the parent or guardian. If the recommended disciplinary action is expulsion, the recommendation for this action will be made to the Board of Trustees. Expulsion proceedings will be completed upon action by the Board of Trustees.
4. A student may appeal the decision using the process outlined in Step 5.
5. The President shall notify the District Chancellor of any decision to suspend a student.
6. **Disciplinary Records:** The Disciplinary Officer shall maintain all records of a disciplinary hearing. Disciplinary files shall be retained for at least five (5) years from the time of a final determination.

Step 5. Appeal to the President

1. A student may appeal to the College President within two (2) days of the delivery of the decision to the student. Because suspended students are not allowed on District property such appeals shall be submitted in writing by email or letter to the College President within two days after receipt of the written decision.
2. The student may request the College President to review findings or a sanction recommended as a result of the Student Disciplinary Hearing only if it addresses either 1) due process or 2) new information.

- **Due Process:** Specific instances or conduct that the accused student claims resulted in a Student Disciplinary Hearing that was not conducted fairly in light of the charges and information presented, and that denied the student a reasonable opportunity to prepare and to present a response to the allegations.
- **New Information:** If there is new information sufficient to alter a factual finding or recommendation not brought out in the original hearing, because such information was not known to the student at the time of the original Student Disciplinary Hearing. Information shall not be considered "new information" if the student could have learned of the information by avenues reasonably available to him/her.

3. The decision on appeal shall be reached within five (5) days* after receipt of the appeal documents. Copies of the College President's appeal decision shall be sent to the student and the Chairperson of the Disciplinary Board.

Step 6. Appeal to the Chancellor

1. The student may appeal, in writing, to the Chancellor-Superintendent within five (5) calendar days* after receipt of the decision of the President of the college. The Chancellor, or his/ her designee, shall provide the student with a hearing, if requested, and shall review the appeal. A written notice of the decision of the Chancellor shall be provided to the student within ten (10) calendar days* of the review of the student's written appeal. The student shall be advised in writing of his/her further rights of appeal.
 2. The student may request the Chancellor to review findings or a sanction recommended as a result of the Student Disciplinary Hearing only if it addresses either 1) due process or 2) new information.
- **Due Process:** Specific instances or conduct that the accused student claims resulted in a Student Disciplinary Hearing that was not conducted fairly in light of the charges and information presented, and that denied the student a reasonable opportunity to prepare and to present a response to the allegations.
 - **New Information:** If there is new information sufficient to alter a factual finding or recommendation not brought out in the original hearing, because such information was not known

to the student at the time of the original Student Disciplinary Hearing. Information shall not be considered "new information" if the student could have learned of the information by avenues reasonably available to him/her.

3. The decision on appeal shall be reached within five (5) days* after receipt of the appeal documents. Copies of the Chancellor's appeal decision shall be sent to the student and the Chairperson of the Disciplinary Board.

Step 7. Appeal to the Board of Trustees

The student may appeal, in writing, to the Board of Trustees, or its designee, within five (5) days* after receipt of the decision of the Chancellor. The Board of Trustees shall provide the student with a hearing, if requested, and shall review the appeal. A written notice of the decision of the Board shall be mailed to the student and to appropriate staff members, within twenty (20) calendar days* following the review. The decision of the Board of Trustees is final.

II. Expulsion Disciplinary Process

Students who have been accused of violating the Code of Conduct go through the Steps 1-4 listed above. If, in Step 3, the recommendation is for Expulsion, the following describes the additional process for that sanction. Expulsion of a student is the indefinite termination of student status and all attending rights and privileges. Expulsion of a student is accomplished by action of the Board of Trustees on recommendation of the College President and the Chancellor. An expelled student shall not be allowed to register in any subsequent semester without the approval of the College President. The process is as follows:

1. The College President shall forward to the Chancellor a letter of recommendation for expulsion which includes a brief statement of charges and a confidential statement of background and evidence relating to the charge(s).
2. The Chancellor shall review the recommendation for expulsion with the Office of County Counsel.
3. The Chancellor, as Secretary for the Board of Trustees, shall forward a letter to the student by certified mail to the address last on file with the District, at least three days prior to the meeting, advising him/ her of the charges and the intention of the Board of Trustees to hold a closed session to consider his/her expulsion. The letter shall include the date, time and place of the Board's meeting. Unless a student requests a public hearing in writing at least 48 hours prior to the scheduled hearing, the hearing shall be conducted in closed session.
4. The student is entitled to be present during presentation of the case and may be accompanied by a representative. If the student chooses to be represented by an attorney, the student must so

notify the Chancellor no later than five working days prior to the hearing. The student has the right to examine any materials upon which charges against him/her are based, and shall be given the opportunity to present his/her evidence refuting the charges to the Board of Trustees. The student or his/her representative may cross-examine any witness. The district bears the burden of proof.

5. The report of final action taken by the Board of Trustees in public session shall be made a part of the public record and forwarded to the student. Other documents and materials shall be regarded as confidential and will be made public only if the student requests a public hearing.

Definitions:

Party – The student or any persons claimed to have been responsible for the student's alleged grievance, together with their representatives. "Party" shall not include the Grievance Hearing Committee or the College Grievance Officer.

Student – A currently enrolled student, a person who has filed an application for admission to the college, or a former student. A grievance by an applicant shall be limited to a complaint regarding denial of admission. Former students shall be limited to grievances relating to course grades to the extent permitted by Education Code Section 76224(a).

Respondent – Any person claimed by a grievant to be responsible for the alleged grievance.

Judicial Officer – Member of the Student Disciplinary Board of Trustees responsible for ensuring that the Formal Hearing process is followed according to established procedures.

***Day** – Unless otherwise provided, day shall mean a day during which the college is in session and regular classes are held, excluding Saturdays and Sundays.

Records Maintenance

The facts of the disciplinary action shall be documented in the student's disciplinary record, subject to access, review, and comment by the student as authorized by the Family Educational Rights and Privacy Act (10 USC Section 2332g) and Education Code Section 76200 et seq. All access to or release of such records to members of the public shall also be in accordance with state and federal law.

Upon closure of a disciplinary investigation, conference or hearing, all student disciplinary records shall be maintained in the Office of the Vice President of Student Services at each college, in accordance with the Records Retention requirements of the California Education Code.

Student Grievances and Appeals

Students are encouraged to pursue their academic studies and become involved in other college sponsored activities that promote their intellectual growth and personal

development. The college is committed to the concept that, in the pursuit of these ends, students should be free of unfair and improper actions on the part of any member of the academic community. If, at any time, a student feels that he or she has been subject to unjust actions or denied his or her rights, redress can be sought through the filing of a grievance, or an appeal of the decision/action taken in response to a grievance, within the framework of policy and procedure set forth below.

Informal Resolution: Initial College Review

Each student who has a grievance shall make a reasonable effort to resolve the matter on an informal basis prior to pursuing a formal grievance which includes a grievance hearing, and shall attempt to solve the problem with the person with whom the student has the grievance, that person's immediate supervisor, or the local college administration. The student may also seek the assistance of a friend in attempting to resolve a grievance informally.

The chart below summarizes the appropriate college channels to be utilized by any student wishing to seek redress. For further information concerning any aspect of student grievances or rights of appeal, students should contact the Office of the Vice President, Student Services. Students may elect to grieve any decisions or actions taken. All grievances, or appeals of the decision/action taken in response to a grievance, will be dealt with in a timely manner.

Section A: Formal Process for NonAcademic Grievances (excluding grade grievances)

Note: For grade grievances, see Section B, Process for Academic and Grade Grievances. For parking citations, refer to Section C: Parking Citation Appeal.

Step 1. Filing a Grievance

a. Any student who believes, after the informal process, that he or she continues to have a grievance shall file a Statement of Grievance available on the college website or from the Office of the Vice President, Student Services. The form shall be filed with the Grievance Officer or Vice President of Student Services (Vice President of Instruction for grade or academic grievances) within one year of the incident on which the grievance is based. In presenting a grievance, the student shall submit a written statement to include, where appropriate, the following information:

1. A statement describing the nature of the problem and the action which the student desires taken.
2. A statement of the steps initiated by the student to resolve the problem by informal means.
3. A description of the general and specific grounds on which the grievance is based.
4. A listing, if relevant, of the names of all persons involved in the matter at issue and the times, places, and events in which each person so named was involved.

b. The Statement of Grievance must be filed whether or not the student has already initiated efforts at informal resolution, if the student wishes the grievance to become official.

Step 2. Review of Grievance

Within five (5) days* following receipt of the Statement of Grievance Form, the Vice President, Student Services shall advise the student of his or her rights and responsibilities under these procedures, and assist the student in the final preparation of the grievance, and determine whether the grievance will be remanded to a hearing of the Grievance Committee.

a. In general, the requirements for the Statement of Grievance to present sufficient grounds for a hearing shall be based on the following:

- The statement contains facts which, if true, would constitute a grievance under these procedures;
- The grievant is a student which includes applicants and former students;
- The grievant is personally and directly affected by the alleged grievance;
- The grievance was filed in a timely manner;
- The grievance is not clearly frivolous, clearly without foundation, or clearly filed for purposes of harassment.
- For a grade grievance, the grade given to a student shall be the grade determined by the instructor. In the absence of mistake, fraud, bad faith or incompetency (according to Education Code 76224) the grade issued by the instructor may not be changed. The appropriate Division Dean and Vice President of Instruction will assist in determining if the student's grievance meets the criteria established by the Education Code. For the specific steps for filing grade grievances, see Section B, Grade Grievances.

b. If at the end of ten (10) days* following the student's first formal meeting, there is no informal resolution of the complaint which is satisfactory to the student, the student shall have the right to request a grievance hearing. The hearing will be scheduled within fourteen (14) days* following the decision to grant a Grievance Hearing. All parties to the grievance shall be given not less than four (4) days* notice of the date, time and place of the hearing.

Step 3. Grievance Hearing Process Grievance Committee

Membership: The Grievance Committee shall consist of one faculty member, one staff member and one student. Faculty members for the pool will be identified by the Academic Senate, students will be identified by the Associated Students and staff members will be identified by CSEA and the Management Group. No person shall serve as a member of a Grievance Committee if that person has been personally involved in any matter giving rise to the grievance, has made any statement on the matters at issue, or could otherwise not act in a neutral manner. Any party to the grievance may challenge for cause any member of the hearing committee prior to the beginning of the hearing by addressing a challenge to the Vice President, Student Services.

Grievance Officer: The Vice President, Student Services shall appoint a staff member to serve as the Grievance Officer for the Grievance Committee. This individual shall not serve as a member nor vote. The Grievance Officer shall serve to assist all parties and the Grievance Committee to facilitate a full, fair and efficient resolution of the grievance.

Hearing Process

a. Prior to the scheduled Grievance Hearing, the Grievance Committee shall meet in private and without the parties present to select a chair and review the grounds for a hearing.

b. The grievant, respondent, and members of the Grievance Committee shall be provided with a copy of the grievance, any written response provided by the respondent, and any other pertinent materials or documents before the hearing begins.

c. Each party to the grievance may call witnesses and introduce oral and written testimony relevant to the issues of the matter.

d. Any relevant information shall be admitted. Formal rules of evidence shall not apply.

e. **Participants:** Each party to the grievance represents himself or herself, and may also be accompanied by a person of his or her choice who is an observer only. Each person present will be asked to identify themselves by name.

f. Parties are not allowed to be represented by legal counsel. Faculty or staff may request to be accompanied by a union representative.

g. Hearings shall be closed and confidential.

h. **Witnesses:** In a closed hearing, witnesses shall be present at the hearing only when testifying.

i. **Recording:** The hearing may be recorded by the college and shall be the only recording made. If recorded, no witness who refuses to be recorded may be permitted to give testimony.

j. Attendance: If the individual filing the grievance fails to appear at the hearing, only the written information will be used to make a recommendation.

k. Committee Recommendation: Within five (5) days* following the close of the hearing, the Grievance Committee shall prepare and send to the Vice President, Student Services a written decision. The decision shall include specific factual findings regarding the grievance, and shall include specific conclusions regarding whether a grievance has been established as defined above. The decision shall also include a specific recommendation regarding the relief to be afforded the grievant, if any. The decision shall be based only on the record of the hearing, and not on matter outside of that record. The record consists of the original grievance, any written response, and the oral and written evidence produced at the hearing.

l. Within ten (10) days* following receipt of the Grievance Committee's decision and recommendation(s), the Vice President, Student Services shall send to all parties his or her written decision.

m. The student may choose to appeal if he/she meets the criteria in Step 4.

Step 4. Appeal to the College President

a. The student may appeal to the College President. Such appeals shall be in writing and postmarked within five (5) days* of the delivery of the decision to the student.

b. The College President shall provide the student with a hearing, if requested, and shall review the appeal. The appeal shall be limited to a review of supporting documents and based only on the following:

- Due Process: To determine whether the Grievance Committee was conducted fairly in light of the charges and information presented, and in conformity with prescribed procedures giving the complaining party a reasonable opportunity to prepare and to present information and that all parties were given a reasonable opportunity to prepare and to present a response to those allegations. Deviations from designated procedures will not be a basis for sustaining an appeal unless significant prejudice results.
- New Information: To consider new information, sufficient to alter a decision, or other relevant facts not brought out in the original hearing, because such information and/or facts were not known to the person appealing at the time of the original Grievance Committee.

c. A written notice of the President's decision shall be provided to the student within ten (10) days* of the hearing.

Step 5. Appeal to the Chancellor

The student may appeal, in writing, to the Chancellor within five (5) days* after receipt of the decision of the College President. The Chancellor, or his/ her designee, shall provide the student with a hearing, if requested, and

shall review the appeal. A written notice of the decision of the Chancellor-Superintendent shall be provided to the student within five (5) days* of the review of the student's written appeal.

Step 6. Appeal to the Board of Trustees

The student may appeal, in writing, to the Board of Trustees, or its designee, within five (5) days* after receipt of the decision of the Chancellor. The Board of Trustees shall provide the student with a hearing, if requested, and shall review the appeal. A written notice of the decision of the Board shall be mailed to the student and to appropriate staff members, within twenty (20) days* following the review. The decision of the Board of Trustees is final.

Definitions:

Party – The student or any persons claimed to have been responsible for the student's alleged grievance, together with their representatives. "Party" shall not include the Grievance Hearing Committee or the College Grievance Officer.

Student – A currently enrolled student, a person who has filed an application for admission to the college, or a former student. A grievance by an applicant shall be limited to a complaint regarding denial of admission. Former students shall be limited to grievances relating to course grades to the extent permitted by Education Code Section 76224(a).

Respondent – Any person claimed by a grievant to be responsible for the alleged grievance.

Grievance Officer – Member of the Grievance Committee responsible for ensuring that the Formal Hearing process is followed according to established procedures.

*Day – Unless otherwise provided, day shall mean a day during which the college is in session and regular classes are held, excluding Saturdays and Sundays.

Section B: Process for Academic and Grade Grievances

Grades can only be grieved according to the criteria outlined in Education Code 76224.

Before initiating formal appeal procedures, the student shall attempt to resolve the academic or grade dispute informally with the instructor. If the dispute is not resolved, the student may initiate a grade grievance with the appropriate division dean. If the grievance is not resolved at the division dean level, the student may appeal to the Vice President of Instruction. The decision of the Vice President on grade-related grievances is final. There is a deadline of one (1) year from the date that the grade is posted for a student to initiate a grade change.

In the absence of mistake, fraud, bad faith or incompetency (according to Education Code 76224) the grade issued by the instructor may not be changed.

Informal Resolution

a. Any student who has a grievance shall make reasonable effort to try to resolve the matter on an informal basis prior to pursuing a formal grievance, and shall attempt to solve the problem directly with the instructor. The student may bring a person of his/her choosing who is only an observer to meet with the instructor. The observer may not be an attorney.

b. If the grade grievance is not resolved with the instructor, the student may meet with the appropriate division dean.

c. The student should be prepared to provide a written statement to the division dean to include the following information:

1. A statement describing the nature of the problem and the action which the student desires taken.
2. A statement of the steps initiated by the student to resolve the problem with the instructor.
3. A description of the general and specific grounds on which the grievance is based. The student must be able to demonstrate mistake, fraud, bad faith or incompetency in accordance with Education Code 76224. In the absence of mistake, fraud, bad faith or incompetency, the grade issued by the instructor may not be changed.

d. A written notice of the division dean's decision shall be provided to the student within twenty (20) days* of the student's meeting with the division dean or as soon as the division dean has completed his/her investigation. The written notice shall be accompanied by the procedures for filing a formal grievance.

Formal Process for Grade Grievances

Step 1. Filing a Grievance

a. Any student who believes, after the informal process, that he or she continues to have a grievance shall file a Statement of Grievance Form available on the college website or from the division dean. The form shall be filed with the Vice President, Instruction within one year from the date the grade was issued. The student should attach to the Grievance Form any documentation to support the grievance.

b. The Statement of Grievance must be filed whether or not the student has already initiated efforts at informal resolution, if the student wishes the grievance to become official.

Step 2. Review of Grievance

a. Within five (5) days* following receipt of the Statement of Grievance Form, the Vice President, Instruction shall advise the student of his or her rights and responsibilities under these procedures.

b. In general, the requirements for the Statement of Grievance to present sufficient grounds for a hearing shall be based on the following:

- The grievance shall allege specific facts, which, if true, show that the grade was issued based on mistake, fraud, bad faith, incompetence;
- The grievant is a student which includes applicants and former students;
- The grievant is personally and directly affected by the alleged grievance;
- The grievance was filed in a timely manner;
- The grievance is not clearly frivolous, clearly without foundation, or clearly filed for purposes of harassment.
- For a grade grievance, the grade given to a student shall be the grade determined by the instructor. In the absence of mistake, fraud, bad faith or incompetency (according to Education Code 76224) the grade issued by the instructor may not be changed. The appropriate Division Dean and Vice President of Instruction will assist in determining if the student's grievance meets the criteria established by the Education Code.

c. The Vice President of Instruction will schedule a Hearing with the Grievance Committee within fourteen (14) days* following receipt of the Statement of Grievance Form. All parties shall be given not less than four (4) days* notice of the date, time and place of the hearing.

Step 3. Grievance Hearing Process

Grievance Committee

Membership: The Grievance Committee shall consist of three faculty members and two students. Faculty members for the pool will be identified by the Academic Senate and students will be identified by the Associated Students. No person shall serve as a member of a Grievance Committee if that person has been personally involved in any matter giving rise to the grievance, has made any statement on the matters at issue, or could otherwise not act in a neutral manner. Any party to the grievance may challenge for cause any member of the hearing committee prior to the beginning of the hearing by addressing a challenge to the Vice President, Instruction.

Grievance Officer: The Vice President, Instruction shall appoint a staff member to serve as the Grievance Officer for the Grievance Committee. This individual shall not serve as a member nor vote. The Grievance Officer shall serve to assist all parties and the Grievance Committee to facilitate a full, fair and efficient resolution of the grievance.

Prior to scheduling the Grievance Hearing, the Vice President, Instruction shall collect the following information:

1. The Statement of Grievance Form filed by the student
2. A written response to the grievance by the instructor who issued the grade. The instructor will provide this to the Vice President, Instruction, within five (5) days* of the request.
3. Any materials relating the division dean's review and decision.

Copies of these materials will be provided to the student, the instructor and members of the Grievance Committee.

Hearing Process

- a. Prior to the scheduled Grievance Hearing, the Grievance Committee shall meet in private and without the parties present to select a chair and review the grounds for a hearing.
- b. The members of the Grievance Committee shall be provided with a copy of the grievance filed by the student, the written responses provided by the instructor and the division dean's review and decision before the hearing begins.
- c. Each party to the grievance may call witnesses and introduce oral and written testimony relevant to the issues of the matter.
- d. Any relevant information shall be admitted. Formal rules of evidence shall not apply.
- e. Participants: Each party to the grievance represents himself or herself, and may also be accompanied by a friend of his or her choice who is an observer only. Each person present will be asked to identify themselves by name.
- f. Parties are not allowed to be represented by legal counsel. The instructor may request to be accompanied by a union representative.
- g. Hearings shall be closed and confidential.
- h. Witnesses: In a closed hearing, witnesses shall be present at the hearing only when testifying.
- i. Recording: The hearing may be recorded by the college and shall be the only recording made. If recorded, no witness who refuses to be recorded may be permitted to give testimony.
- j. Attendance: If the individual filing the grievance fails to appear at the hearing, only the written information will be used to make a recommendation.

Step 4. Decision

- a. Committee Recommendation: Within five (5) days* following the close of the hearing, the Grievance Committee shall prepare and send to the Vice President, Instruction a written decision. The decision shall include specific factual findings regarding the grievance, and shall include specific conclusions regarding whether a grievance has been established as defined above. The decision shall be based only on the record of the hearing, and not on matter outside of that record. The record consists of the original grievance, any written response, and the oral and written evidence produced at the hearing. In the absence of mistake, fraud, bad faith or incompetency (according to Education Code 76224) the grade issued by the instructor may not be changed.
- b. A written notice of the Vice President's decision shall be provided to the student within ten (10) days* of receipt of the Grievance Committee's recommendation. The decision of the Vice President, Instruction, is final.

Definitions:

Party – The student or any persons claimed to have been responsible for the student's alleged grievance, together with their representatives. "Party" shall not include the Grievance Hearing Committee or the College Grievance Officer.

Student – A currently enrolled student, a person who has filed an application for admission to the college, or a former student. A grievance by an applicant shall be limited to a complaint regarding denial of admission. Former students shall be limited to grievances relating to course grades to the extent permitted by Education Code Section 76224(a).

Respondent – Any person claimed by a grievant to be responsible for the alleged grievance.

***Day** – Unless otherwise provided, day shall mean a day during which the college is in session and regular classes are held, excluding Saturdays and Sundays.

Section C: Parking Citation Appeals

Parking citations may be contested by completing a request on the [pticket \(pticket.com/csm\)](http://pticket.pticket.com/csm) website. Anyone may contest a citation within 21 calendar days of the issue date of your citation. Once on the site, select where the citation was issued (Cañada, CSM or Skyline). The appeal will start with a "1st Level Initial Review". There is no fee to contest the citation at this level. Request a "1st Level Initial Review" by following the instructions below:

1. Enter the citation # and press SEARCH. If the citation qualifies for an appeal, a CONTEST ONLINE link to the contesting form will appear to the right of the citation number.
2. Indicate the reason(s) why the citation was issued in error.
3. Include any documentation to support the claim
4. Include the citation or reminder notice
5. Include full name
6. Include mailing address
7. Make copies of all documents for your records (documents will not be returned)
8. Mail all information to: Office of Parking Violations
SMCCD College of San Mateo PO Box 9003 Redwood City, CA 94065-9003

The student, staff, or person will receive a written response from the citation processing agency reflecting the results of the appeal.

If the individual is dissatisfied with the results of the appeal, the individual may obtain an administrative hearing. The directions for obtaining an administrative hearing are included on the written response to the citation appeal. A written response from the citation reflecting the results

of the administrative hearing will be provided by the processing agency.

If dissatisfied with the outcome of the administrative hearing, a hearing before a judge can be obtained. The directions for obtaining a judicial hearing are included on the written response to the administrative hearing.

Guidelines Addressing Cheating and Plagiarism

Introduction

College of San Mateo Catalog states, "The principle of personal honor is the basis for student conduct. The honor system rests on the sincere belief that College of San Mateo students are mature and self-respecting, and can be relied upon to act as responsible and ethical members of society."

Although instructors may hope that students will act responsibly and ethically at all times, situations will arise in which it is clear, beyond a reasonable doubt, that a student cheated or plagiarized. The following sections provide guidelines for such situations by providing specific definitions of cheating and plagiarizing, and addressing the related instructor responsibilities, student responsibilities and sanctions.

Definitions

"Cheating" refers to unauthorized help on an assignment, quiz, or examination as follows: (1) a student must not receive from any other student or give to any other student any information, answers, or help during an exam; (2) a student must not use unauthorized sources for answers during an exam, must not take notes or books to the exam when such aids are forbidden, and must not refer to any book or notes while taking the exam unless the instructor indicates it is an "open book" exam; and (3) a student must not obtain exam questions illegally before an exam or tamper with an exam after it has been corrected.

"Plagiarism" means submitting work that is someone else's as one's own. For example, copying material from a book or other source without acknowledging that the words or ideas are someone else's, and not one's own, is plagiarism. If a student copies an author's words exactly, he or she should treat the passage as a direct quotation and supply the appropriate citation. If someone else's ideas are used, even if it is paraphrased, appropriate credit should be given. Lastly, a student commits plagiarism when a term paper is purchased and/or submitted which he or she did not write.

(Note: the above two definitions are adapted from Tools for Teaching, by Barbara Gross Davis, Jossey-Bass, Inc., 1993, p. 300).

Instructor Responsibilities

1. At the beginning of every semester, the instructor shall [should] ensure that students understand the above-stated definitions of cheating and plagiarism. Instructors should focus on those

aspects of these definitions which will probably be most relevant in their particular courses. Issues of plagiarism will clearly be more relevant in classes which require students to write papers. Issues of cheating will probably be most relevant in classes which use multiple-choice and true-false type questions. Instructors are encouraged to make reference to these guidelines in their course syllabi.

2. The instructor should minimize opportunities for cheating and plagiarizing
3. Before applying sanctions, the instructor must be able to establish, beyond a reasonable doubt, that the alleged incident actually occurred. For example, a student may admit to cheating or plagiarism, eyewitnesses may corroborate the instructor's account, or an original source of ideas may prove that a student's ideas and/or words are not original. Additionally, instructors must document the details of the alleged incident.
4. The instructor should report the violation to the Division Dean and Vice President, Student Services for disciplinary action using the Notice of Student Violation of Guidelines Addressing Cheating and Dishonesty.

Student Responsibilities

Students are expected to complete assignments to the best of their ability without resorting to cheating or plagiarizing, as defined above.

Sanctions

Among academic sanctions an instructor may choose to utilize are the following:

1. Warn the student, if the infraction is not intentional or flagrant, that any future violation will be dealt with in a more severe manner.
2. Assign the student an "F" grade (no credit) on that exam or assignment. Students should also be warned that a more serious sanction will be applied should another violation occur in the future.

The instructor shall report the violation to the Vice President, Student Services, whose office maintains such information. The instructor should complete the Notice of Student Violation of Guidelines Addressing Cheating and Dishonesty which includes the following: 1) name and identification number of the student, 2) the specific nature of the violation, 3) the date of its occurrence, 4) how the violation was determined, and 5) any additional comments that the instructor wishes to include.

The Vice President will determine the College-level discipline that is appropriate based on the magnitude and severity of other documented reports related to the same student. Note that disciplinary actions are not part of the academic record, and disciplinary actions are not recorded on student transcripts. All disciplinary information is maintained only

in the Office of the Vice President, Student Services, and is confidential in nature.

Nothing in these guidelines shall be construed to restrict a student's right to appeal through the appropriate process described in the "Student Grievances and Appeals" section of the college catalog

Time, Place and Manner of Speech

Students, employees and members of the public shall be free to exercise their rights of free expression, subject to the requirements of this policy and College procedures on Time, Place and Manner of Speech. The Student Life and Leadership Manager and Vice President of Student Services or designee are responsible for adherence to the Time, Place and Manner of Speech policy and procedures.

College of San Mateo is considered a nonpublic forum, except for those areas that are generally available for use by students, employees or members of the public, which are limited public forums. Use of the limited public forums shall be regulated by the following procedures regarding time, place and manner of speech.

Individuals or groups wishing to make use of College space for making retail products or services available are subject to the On Campus Vendor Policy, available through the Center for Student Life & Leadership Development.

The College is a non-public forum, except for designated areas generally available to students, employees or members of the public as follows:

- The areas generally available to students, employees or members of the public are designated public forums. The College reserves the right to revoke that designation for areas when they are no longer generally open to students, employees or members of the public and apply a nonpublic forum designation.
- The College reserves the right to designate areas as not a public forum as necessary to prevent the substantial disruption of the orderly operation of the college. Areas of the college that are not a public forum include but are not limited to instructional and administrative buildings and outdoor instruction areas.

The use of areas generally available to students, employees or members of the public is subject to the following:

- Persons using areas generally available to students, employees or members of the public and/or distributing material in the areas generally available to students, employees or members of the public shall not impede the progress and/or the ingress or egress of passersby, shall not block entrances and exists to campus buildings, nor shall they force passersby to take material.

- No person using the areas generally available to students, employees or members of the public shall touch, strike or impede the progress of passersby, except for incidental or accidental contact, or contact initiated by a passerby.
- Persons using areas generally available to students, employees or members of the public shall not use any means of amplification that creates a noise or diversion that disturbs or tends to disturb the orderly conduct of the campus or classes taking place at that time.
- No persons using the areas generally available to students, employees or members of the public shall solicit donations of money, through direct requests for funds, sales of tickets or otherwise, except where he or she is using the areas generally available to students, employees or members of the public on behalf of and collecting funds for an organization that is registered with the Secretary of State as a nonprofit corporation or is an approved Associated Students Organization or club.

Guidelines for campus assembly procedures:

1. Any public meeting, demonstration, or rally on campus will be governed by the regulations of the College of San Mateo as to time, place, and manner of speech.
2. Students have the full right to express their views on any matter, subject to college regulations in regard to time, place, and manner of speech.
3. Disruptive behavior is defined as any action which interferes with the functions or activities of the College to the point where such functions or activities can no longer effectively continue. Examples of such functions or activities are classroom activities, athletic events, administrative activities, approved assemblies, meetings and programs, and construction work. Examples of disruptive activities are blocking access to college facilities, disrupting classroom activities to the point where the instructor, in his/her opinion, is no longer able to continue the class, heckling an assembly speaker so that the speaker cannot continue talking, and unauthorized use of sound equipment.

Distribution of Materials

All persons using the areas of the college generally available to students, employees or members of the public shall be allowed to distribute petitions, circulars, leaflets, newspapers, and other printed matter. Such distribution shall take place only within the areas generally available to students, employees or members of the public. Material distributed in the areas generally available to students,

employees or members of the public that is discarded or dropped in or around the areas generally available to students, employees or members of the public other than in an appropriate receptacle must be retrieved and removed or properly discarded by those persons distributing the material prior to their departure from the areas generally available to students, employees or members of the public that day. Placing fliers, leaflets, or other materials on vehicles parked in CSM parking lots is prohibited; violators will be charged with the costs related with cleaning such materials left in campus parking lots. (San Mateo City Ordinance 10.40.030)

Campus Posting

The College provides bulletin boards and other designated locations for use in posting materials. All materials shall conform to the guidelines set forth by the Campus Posting Instructions, available from the Center for Student Life & Leadership Development and included below.

General Posting Instructions – Applies to all on-campus posting:

- All materials posted on campus must clearly indicate the group or organization sponsoring the event, activity or service being advertised.
- No items may be posted on doors, on painted or varnished surfaces, in restrooms, on lamp posts, or on any glass surfaces.
- Posting is not permitted in the College Center (Building 10).
- No posting is allowed on the outdoor bus stop or the Redi-Wheels stop.
- Posting of lawn signs on grass or landscaped areas is prohibited.
- Duplicates of the same posting in the same area are subject to removal.
- Placing fliers, leaflets, or other materials on vehicles parked in CSM parking lots is prohibited; violators will be charged with the costs related with cleaning such materials left in campus parking lots. (City of San Mateo Ordinance 10.40.030)

College Posting Instructions – Applies to all college-affiliated groups, including departments, students groups, etc.

All general posting instructions apply. In addition:

- All postings by college-affiliated groups must have a “Date to Be Removed” stamp from the Center for Student Life & Leadership Development before being posted.
- Posting is allowed on all interior bulletin boards not designated for a specific purpose.
- Posting is not allowed in the Theatre Lobby (Building 3), College Center (Building 10) or the Library (Building 9) without permission from the administrators in charge of those buildings.

- Posting on outdoor railings or balconies is not permitted without permission from the administrators in charge of those buildings.

Community Posting Instructions – Applies to all postings by non-college affiliated groups and organizations.

All general posting instructions apply. In addition:

- Posting on any interior bulletin boards, including bulletin boards in classrooms, is prohibited.
- Posting is only allowed on outdoor bulletin boards.

Exceptions

Exceptions to any of the above policies require the approval of the Administrator responsible for the specific location in question.

Revision of Regulations

Any regulation adopted by the administration of College of San Mateo will be considered an official ruling and will supersede regulations on the same subject which appear in this Catalog and other official publications, provided that the new regulation has been officially announced and posted.

Learning Support

Academic Support and Learning Technologies

CSM Learning Center

The CSM Learning Center (LC) is host to a variety of services and resources to assist students in acquiring the skills and knowledge to achieve academic success. The LC offers academic peer tutoring, supplemental instruction student success workshops and access to computers with course software in Digital Media, CIS, Accounting, and Assistive Technology. In addition to electronic resources, the LC has a textbook reserve program, plus provides a quiet space for individual and group study.

For more information, visit the CSM [Learning Center website \(collegeofsanmateo.edu/learningcenter\)](http://collegeofsanmateo.edu/learningcenter) (College Center Building 10, Room 220, 574-6570)

When using the CSM Learning Center, students will:

1. Have knowledge of the CSM Learning Center resources, including how to use them.

CSM Library

The CSM Library, an organizational unit under the division of Academic Support and Learning Technologies, provides human, material, and technological resources to support the Mission and Strategic Goals of College of San Mateo. The Library collections include a well-balanced selection of print, electronic, and microform resources that have been specifically selected to support the academic, workforce development, and basic skills curriculum of the college and to encourage the development of life skills that foster success beyond the academy.

When classes are in session, faculty librarians are available to provide research assistance in person, by phone, email, chat, text, and via other social media networks during all of the Library's open hours.

The online catalog represents nearly 64,000 items in the CSM Library and information about the collections of the 32 other libraries in the Peninsula Library System (PLS). Specialized holdings include a small collection of academic level books in the Spanish language for several disciplines and a variety of resources to support ESL students. Additionally, laptops, tools, and other equipment are available for loan.

A delivery system within PLS makes it convenient for faculty and students to request that items located in other PLS libraries be sent to the CSM Library for pickup. Also, items that have been checked out from any other library in the

PLS system can be returned to the CSM Library. A book drop, located near the accessibility ramp in front of the Library, is available for dropping off materials when the Library is closed.

The Library also provides free access to thousands of subscription and fee-based online information resources that are usually not available without a charge on the open Internet. This includes access to more than 322,000 e-book titles, as well as academic journal articles, streaming videos, high quality art images, and more. While on campus, faculty, students, and staff can easily access the Library's online resources from any computer that is connected to campus networks.

Many Library services and most online information resources are also available away from campus 24 hours a day via any computer that is connected to the Internet. A current Peninsula Library System (PLS) library card and PIN or an alternate remote authentication process is required for off-campus access to subscription or fee-based online databases and information resources.

The Library provides students with access to over 50 open access computers: 44 Windows PCs, 2 Apple Macintosh desktop workstations, and 9 Windows PC laptops. In addition to providing open access to the Internet, the Library's computers are loaded with Microsoft Office software. Computers are also loaded with website and advanced graphic design software including Adobe Dreamweaver, Photoshop, Illustrator, InDesign, and Acrobat Professional. Assistive technology is available on select computer workstations. Students can print in black and white or color from library workstations or from their own personal laptops. Alternatively, students may make digital scans of books, or other printed material and save to a USB personal storage device or email. The Library also offers a tool and equipment lending library, 3-D printing services and laser engraving and cutting services at its Makerspace.

Collaboration and Support for Classroom Instructors

CSM librarians are members of the faculty and are always interested in working with classroom faculty to support curriculum and student success. Librarians are available to present Library information literacy orientations or instructional workshops specifically tailored to support a course's overall objective or a particular research or class project. Orientations generally take place in the Library classroom, which is equipped with computer workstations and a projection unit.

Librarians welcome opportunities to collaborate with faculty in academic, workforce development, and basic

skills programs to design learning activities that foster development of core information research competencies.

Librarians can create online library research guides (LibGuides) expressly for classes or programs. Examples of librarian created research guides can be found at the [Library website \(libguides.collegeofsanmateo.edu/\)](http://Library website (libguides.collegeofsanmateo.edu/)).

To inquire about scheduling an instruction session or requesting the development of a research guide, please contact the Library Reference Desk at extension 6232 or email csmlibrary@smccd.edu. One can also schedule an orientation online by filling out the request form on the Faculty Services page on the Library website. Special arrangements can be made to schedule orientations for evening, Saturday, and distance education classes.

Librarians can collaborate with faculty to create assignments that will help students produce better papers and projects. The Library also solicits faculty input in reviewing Library collections in their teaching areas and making recommendations for additional resources.

Privileges and Services for Faculty

- **Borrowing Privileges:** The Library extends a special loan privilege to classroom faculty. Faculty members may borrow most books in the CSM circulating collection for an extended loan period of up to one semester. Extended loan requests must be made in person. Faculty must present a PLS Library Card to borrow all Library materials. The Library also waives CSM fines and fees for faculty.
- **College Reserves:** To improve student access to supplementary material or materials with limited availability, the Library maintains the College Reserves Collection. College Reserves help students by enabling instructors to place copies of textbooks, past exams, quizzes, solution manuals, article reprints, etc., in a restricted access collection held behind the circulation desk. Borrowing limits for these materials are set by classroom instructors.

The Library encourages faculty to request copies of course textbooks from publishers for the Library's College Reserves Collection. To learn more about placing materials on reserve, please contact the Circulation Desk at extension 6548. The [Course Reserves Request form \(smccd-czqfp.formstack.com/forms/csmlibrary_reserve_request\)](http://Course Reserves Request form (smccd-czqfp.formstack.com/forms/csmlibrary_reserve_request)) is available online. Copies of the form are also available in the Library. Bring your item(s) and a completed Course Reserves Request form to the Circulation desk near the entrance of the Library.

- **Intra-Library Loan:** The PLS integrated Online Public Access Catalog and delivery system enables easy access to materials available in all public and community college libraries in San Mateo County. Faculty and students with a valid PLS library card can place a hold on almost all circulating items at any PLS library and ask that it be sent

to CSM for pickup. For more information, see "Requesting Library Items (Placing Holds)" on the [Circulation FAQ \(collegeofsanmateo.edu/library/circ_faqs.php\)](http://Circulation FAQ (collegeofsanmateo.edu/library/circ_faqs.php)) webpage.

- **Inter-Library Loan (ILL):** The Library can also borrow materials from public and academic libraries that are not in the PLS system. The CSM [WorldCat catalog \(csm.worldcat.org/\)](http://WorldCat catalog (csm.worldcat.org/)) provides an easy interface to search for items in PLS libraries and to extend the search to libraries throughout the world. Visit the [Library Faculty Services \(collegeofsanmateo.edu/library/interlibrary.php\)](http://Library Faculty Services (collegeofsanmateo.edu/library/interlibrary.php)) webpage to locate forms to request books, articles, or other resources that are not available in the PLS system. You may also call the Library Reference Desk at extension 6232 for assistance.
- **Recommending Items for Purchase:** The Library welcomes faculty input and suggestions for additions to collections to support the curriculum. The Library does not purchase materials to support post-graduate level academic research but can aid researchers in borrowing material through ILL. Please contact the Director of Library and Learning Services or visit the online purchase suggestion link on the [Library Faculty Services \(collegeofsanmateo.edu/library/purchaserequest_form.php\)](http://Library Faculty Services (collegeofsanmateo.edu/library/purchaserequest_form.php)) webpage.

Library and Information Competency

As of Fall 2010, Information Competency is a graduation requirement for all CSM students. Information about courses, tutorials, and information competency is available on the Library website. The Library offers for-credit courses, orientations, and online tutorials that promote student success through information competency.

Courses from any division that meet the criteria developed by the Curriculum Committee can satisfy the college's information competency graduation requirement. Courses that satisfy the requirement are listed on the [Information Competency \(collegeofsanmateo.edu/library/info_comp.php\)](http://Information Competency (collegeofsanmateo.edu/library/info_comp.php)) website. Faculty that are interested in modifying an existing course or creating a new course that can satisfy the requirement should contact their division's representative on the Curriculum Committee.

For information about Library services, policies, resources, classes, programs and current hours visit the [Library website \(collegeofsanmateo.edu/library\)](http://Library website (collegeofsanmateo.edu/library)) (Building 9, 574-6100).

Business and Technology Centers

Business Computer Lab

The Business Computer Lab provides both classrooms for the Microcomputer Applications classes and for open lab sessions for Business, Business Computer, and Accounting students to use in improving their computer skills in a variety of applications (e.g., MS

Word, Excel, PowerPoint, Access, etc.). During open lab hours this resource is available to any student registered at CSM. For more information, visit the [Business Computer Lab website \(collegeofsanmateo.edu/labs/businesscomputercenter.asp\)](http://collegeofsanmateo.edu/labs/businesscomputercenter.asp) (South Hall Building 14, Rooms 101, 103, and 105; 574-6489).

When using the Business Computer Center, students will:

1. Have knowledge of the Business Computer Center resources, including how to access them.

CIS Computer Lab

The CIS Computer Lab is used for both instruction and open lab sessions. As a support resource, it offers CIS students an opportunity to meet with faculty one on one or to receive assistance from instructional aides or student assistants. The software taught in the CIS courses is available at this location to support the students working on problems/projects or working to improve their skills. When classes are not being held in this lab, it is open to all students registered at CSM. (Emerging Technologies Building). For more information, visit the [CIS Computer Lab website \(collegeofsanmateo.edu/labs/cis.asp\)](http://collegeofsanmateo.edu/labs/cis.asp) (Emerging Technologies Building 19, Rooms 124 and 126; 574-6327).

When using the CIS Computer Lab, students will:

1. Have knowledge of the CIS Computer Lab resources, including how to access them.

Creative Arts and Social Science Center

Digital Media Computer Lab

The Digital Media Computer Lab is available during open lab for any student registered at CSM. Priority is given to Digital Media (DGME) and Electronic Music students. The lab offers students an opportunity to meet with faculty one on one or to receive assistance from an instructional aide. The software used in DGME and Electronic Music courses is available to support the students working on class projects or to improve their skills. For more information, visit the [Digital Media Computer Lab website \(collegeofsanmateo.edu/labs/digitalmedia.asp\)](http://collegeofsanmateo.edu/labs/digitalmedia.asp) (College Center Building 10, Room 161; 574-6446).

When using the Digital Media Computer Lab, students will:

1. Have knowledge of the Digital Media Computer Lab resources, including how to access them.
2. Be able to utilize computers to prepare and complete projects in media classes that support classroom instruction.
3. Be able to collaborate and learn from each other in a studio/lab setting.

Language Arts Centers

Communication Studies Center

The Communication Studies Center offers resources for students enrolled in Communication Studies courses. Students receive assistance in topic selection and development, outlining, delivery, and critiquing of presentations. Video recording and playback of speeches are available for students. For more hours and location information, visit the [Communication Studies Center website \(collegeofsanmateo.edu/communicationstudies/resourcecenter.asp\)](http://collegeofsanmateo.edu/communicationstudies/resourcecenter.asp) (College Center Building 10, Learning Center, Room 220; 574-6257).

When using the Communication Studies Center, students will:

1. Have knowledge of the Communication Studies Center resources, including how to access them.
2. Be able to rehearse and deliver effective dyadic, small group, or one-to-many oral presentations.
3. Be able to view and evaluate recordings of dyadic, small group, or one-to-many oral presentations.
4. Be able to demonstrate mastery of course concepts through completion of lab modules.

ESL Center

The ESL Center offers individualized instruction for multilingual students who are interested in improving their writing, listening and speaking, and reading skills. Individual and small-group instruction address students' specific needs, while a variety of resources (books and other print materials as well as computer programs) provide opportunities for language practice. The ESL Center also offers Peer Tutoring and is available as a general study space for multilingual students.

When using the Reading and ESL Center, students should:

1. Have knowledge of the Reading and ESL Center resources, including how to access them.
2. Be able to demonstrate improvement in listening, speaking, reading, and/or writing skills.

Writing Center

The Writing Center offers diagnosis in writing skills; tutorial instruction in grammar, sentence structure, and essay composition; tutorial assistance in composing papers for a CSM class; and assistance in completing assignments from any CSM English composition class. For more information, visit the [Writing Center website \(collegeofsanmateo.edu/writing\)](http://collegeofsanmateo.edu/writing) (North Hall Building 18, Room 104; 574-6436).

When using the Writing Center, students should:

1. Have knowledge of the Writing Center's resources, including how to access them.
2. Demonstrate mastery of specific writing skills after completion of tutorials.

3. Be able to identify, understand, and incorporate the writing skills that they need to work on after completing conferences with faculty.
4. Acquire a greater understanding and control of their writing process.

Math and Science Centers

Anatomy and Physiology Lab

The Anatomy and Physiology Lab provides study resources for students of anatomy and physiology at CSM. The lab is staffed by experienced anatomy and physiology instructors, and peer tutors who are available to tutor, demonstrate structures, answer questions and provide study skills training. Models, specimens, reference books and internet access are available for use by students. For more information, visit the [Anatomy and Physiology Lab website \(collegeofsanmateo.edu/anatomy\)](http://collegeofsanmateo.edu/anatomy). (Science Building 36, Room 217; 574-6252)

When using the Anatomy and Physiology Center, students will:

1. Have knowledge of the Anatomy and Physiology Lab resources, including how to access them.
2. Demonstrate awareness of study strategies for anatomy and physiology courses.
3. Express increased optimism about their abilities to pursue science learning.

Science Center

The Science Center is the home of the MESA Center and METaS Student Support. The Science Center provides a study support environment to help CSM students succeed in their science courses. Staffed with faculty, peer tutors, MESA support staff, the Science Center offers a friendly, comfortable atmosphere, accessible to and popular with students. It provides students the opportunity to consult with faculty, meet with tutors, work with other students in study groups, work individually in an academically stimulating environment, and participate in MESA and METaS activities.

The resources in the Science Center are targeted to students enrolled in any math or science course at CSM. This includes Astronomy, Biology, Chemistry, Engineering, Geology, Health Science, Math, Nursing, Oceanography, Paleontology, and Physics.

The Science Center occupies two connected spaces. One space is a large room with 9 tables seating a total of about 45 students, science textbooks, anatomy and chemistry models, geology samples, specific course textbooks and supplements, and a faculty desk. Food is allowed in this first space and a microwave, sink and refrigerator are available for student use. The second space is a smaller room with 20 computers for student coursework and printing. Food is not allowed in this space. The smaller space also contains

a microscope, a 3D printer, and a collection of historic instruments.

For business hours and more information, visit the [Science Center website \(collegeofsanmateo.edu/labs/isc.asp\)](http://collegeofsanmateo.edu/labs/isc.asp) (Science Building 36, Room 110; 574-6688).

When using the Integrated Science Center, students will:

1. Have knowledge of the Integrated Science Center resources, including how to access them.
2. Demonstrate awareness of study strategies for science courses.
3. Express increased optimism about their abilities to pursue science learning.

Math Resource Center

The Math Resource Center (MRC) provides assistance to students enrolled in CSM Math classes and with other math-related questions. The MRC is staffed by an instructional aide, student tutors and math faculty. The MRC is open 5 days a week. Hours are posted at the start of each semester. Within the MRC students may use computers loaded with math software and math resources materials. For more information, visit the [Math Resource Center website \(collegeofsanmateo.edu/mrc\)](http://collegeofsanmateo.edu/mrc) (North Hall Building 18, Room 202; 574-6540).

When using the Math Resource Center, students will:

1. Have knowledge of the MRC resources, including how to access them.
2. Be able to show improvement with the specific skills or in understanding course content for which they have requested assistance.

Nursing Skills Lab

The Nursing Skills Lab provides instructional space for all of the nursing lab courses. In addition, Nursing 816, 817, 818, and 819, are offered during designated hours each week. Hours are posted in and outside of the lab. The lab houses 8 patient suites, including 2 designated simulation suites. Students have the opportunity to practice skills, demonstrate competencies, complete simulation scenarios, view media, study, and complete a variety of other assignments. For more information, visit the [Nursing Skills Lab website \(collegeofsanmateo.edu/labs/nursing\)](http://collegeofsanmateo.edu/labs/nursing) (Health and Wellness Building 5, rooms 360 and 380, 574-6213/6218).

When using the Nursing Skills Lab, students will:

1. Have knowledge of the Nursing Skills Lab resources, including how to access them.
2. Appraise own professional performance accurately.
3. Evaluate professional learning needs and take steps to meet them.

Special Academic Programs

ACCEL

ACCEL (Adult-Education College and Career Educational Leadership) is a support program which provides additional support services for current and former adult school students. This program focuses on students enrolled in the ESL and GED/HSE programs at the local adult schools. This program unites CSM and San Mateo Adult School together in a joint effort to support students as they make the transition to the community college and the workforce. We strive to provide education about college opportunities to the students as well as create innovative pathways so that students have the opportunity and feel more confident about attending college. For more information, contact Kelsey Harrison at harrisonk@smccd.edu or visit the [ACCEL website \(collegeofsanmateo.edu/accel\)](http://collegeofsanmateo.edu/accel). (College Center Building 10, Room 437, 378-7245).

Athletics

College of San Mateo participates as a member of the Coast Conference in the following intercollegiate sports: Baseball, Men's and Women's Basketball, Men's and Women's Cross-Country, Women's Softball, Men's and Women's Swimming, Men's and Women's Track and Field, Beach Volleyball, Women's Volleyball, and Women's Water Polo. For the sport of football, CSM is a member of the Northern California Football Conference. In order to be eligible a student must adhere to the California Community College Athletic Association Constitution and Coast Conference eligibility rules and regulations.

The following is a summary of eligibility regulations:

1. In order to be eligible, a student-athlete must be actively enrolled and attending in a minimum of 12 units during the season of sport of which 9 of those units must be non-activity courses. Such eligibility is required for non-conference, conference, and postconference participation.
2. To be eligible for the second season of competition, the student-athlete must complete and pass 24 semester units with a cumulative 2.0 grade point average and have passed a total of 6 units in their preceding full-time semester. These units must be completed prior to the beginning of the semester of the second season of competition. The student/athlete must also have a Student Educational Plan on file in DegreeWorks. All units must be completed and passed at a regionally accredited post-secondary institution.
3. A student transferring for academic or athletic participation, who has previously participated in intercollegiate athletics at another California Community College, must complete 12 units in

residence prior to the beginning of the semester of competition. A maximum of 8 units may be earned during the summer session.

4. In order to continue athletic participation in any sport, the student-athlete must maintain a cumulative 2.0 grade point average in accredited post-secondary course work computed since the start of the semester of first participation.
5. The 12-unit residency rule for previous participants will be waived for a student-athlete who has not competed at a post-secondary institution in the past two years.
6. In meeting the unit requirements, courses in which grades of D, F, or NP were received may be repeated.

Student athletes who plan to transfer should meet with their counselor/advisor and verify eligibility status for transfer based on past work and test scores from high school.

Upon completion of the two-year eligibility at a California Community College, students who wish to seek financial assistance (athletic scholarship) and be eligible for competition at the four-year level must meet minimum NCAA requirements. Students are encouraged to contact the college to which they wish to transfer. Contact the Athletic Director for more information on athletic eligibility. Phone: 574-6462.

College of San Mateo observes all recruiting regulations of the CCCAA, the governing body of California Community College intercollegiate athletics. In accordance with these regulations, athletic recruitment of any individual residing outside the state of California recruiting boundaries is prohibited. Likewise, any student of another California community college, regardless of residence, shall not be athletically recruited.

Student athletes who reside outside the state of California recruiting boundaries of College of San Mateo must make "first contact" with the College.

For more information, visit the [Athletics website \(collegeofsanmateo.edu/athletics\)](http://collegeofsanmateo.edu/athletics) (Health and Wellness Building 5, Room 343, 574-6420). For more information on athletic eligibility and rules pertaining to intercollegiate athletics, please visit the [CCCAA website \(www.cccaasports.org/services/constitution\)](http://www.cccaasports.org/services/constitution).

MESA (Mathematics, Engineering, Science Achievement)

The MESA Community College Program supports students to successfully transfer to four-year universities in science, technology, engineering and math (STEM) majors. Students

must meet economically and educationally disadvantaged requirements to be eligible for the program. The MESA Community College Program is a partnership between MESA and the [California Community Colleges Chancellor's Office](#). The CSM MESA program is 1 of 36 MESA Community College program sites in California.

Main components include:

- **Academic excellence workshops.** Workshops in specific core math and science classes where students are taught how to successfully master complex technical ideas and principles through a collaborative approach.
- **Orientation.** New students learn skills to excel as math, science and engineering majors.
- **Academic advising/counseling.** Students receive individualized academic guidance and develop multi-year plans so they can take courses in the most effective sequence and transfer in a timely manner.
- **Student study center.** This dedicated multipurpose space is the hub for study, workshops, special activities and information sharing. It is a key element in building a close learning community. The MESA Student center is part of the Science Center located in Building 36 Room 110.
- **Assistance in the transfer process.** MESA provides counseling, workshops and visits to four-year universities.
- **Career development.** Students learn specifics about various STEM majors and job experiences. Industry mentors, job shadowing opportunities, career fairs, internships, scholarships and field trips to companies are also offered.
- **Links with student and professional organizations.** These resources provide mentors, guest speakers and tours of companies.
- **Professional development.** Through workshops and mock job fairs, students learn soft skills, corporate culture, resume writing and interviewing skills. MESA conferences include a MESA Leadership Retreat and more.
- **Industry partnerships.** The MESA program offers valuable connections between students and industry leaders. Corporate representatives, including MESA alumni, participate on boards and provide scholarships, strategic planning, summer internships, field trips, scholarships, employment opportunities and other resources.

For more information, visit the [MESA website](#) (collegeofsanmateo.edu/mesa) (Science Building 36, Room 115, 574-6601).

METaS

The METaS team supports on-campus opportunities and resources for Latino/a or low-income students who are interested in pursuing STEM majors (science, technology,

engineering, and math). We are committed to helping students reach their goals through programs that foster an inclusive learning environment. Services include:

- **Tutoring:** Drop-in tutoring in the Integrated Science Center (ISC), the Math Resource Center (MRC), the Learning Center, and other study spaces on campus
- **Math and Science Jams:** One week of math and science workshops before the start of each semester designed to sharpen students' math skills
- **Science-In-Action Speaker Series:** Semester-long speaker series to inspire, encourage, and educate prospective and current STEM students
- **Supplemental Instruction:** Peer-lead classroom support for designated math and science courses
- **Study Halls:** Extended study hours in the Integrated Science Center (ISC) during the last two weeks of each semester to help students prepare for finals
- **Internships and Opportunities:** Promotion of STEM-related internships and scholarships along with workshops to support the application process
- **Outreach:** Organized events throughout the year to promote and celebrate the STEM field

In addition, METaS funds the remodeling of specific classroom spaces, curriculum and technology updates, and faculty professional development opportunities.

The METaS team office is located in Central Hall Building 16, Room 151. More information can be found on the METaS [website](http://collegeofsanmateo.edu/metas/) (collegeofsanmateo.edu/metas/).

This program is funded by the HSI-STEM grant (Hispanic-Serving Institution).

San Mateo Middle College

San Mateo Middle College is an alternative education collaboration between the San Mateo Union High School District and College of San Mateo. The program's primary goal is to provide a supportive and challenging environment, along with the opportunity for academic success and career exploration, to students whose needs are not met first-generation college.

The program includes 130 high school juniors and seniors, all of whom were selected from among the district's seven schools. While these students are perceived as bright, creative and in some cases gifted, their grades and behavior may not yet reflect this potential.

As part of the Middle College program, these students take three SMUHS-approved classes taught by SMUHS instructors on the CSM campus; they round out their schedules with CSM courses. In many cases, students can earn both high school credits and college units. The Middle College program also includes comprehensive academic and career advising and access to all of CSM's support services. Cabrillo Unified School District students may be eligible and should contact their guidance counselor for information. For

information, contact middlecollege@smuhsd.org or visit the [Middle College website \(collegeofsanmateo.edu/middlecollege\)](http://Middle College website (collegeofsanmateo.edu/middlecollege)) (Building 12, Room 206, 574-6101).

Study Abroad

The San Mateo County Community College District Study Abroad Program offers students of all ages the opportunity to study and live abroad. Students can earn up to 12 units towards an A.A./A.S. degree which are transferable to the California State University System, the University of California System and most private colleges and universities. Upcoming study abroad destinations include:

- **Semester Abroad Program:** Fall 2019 semester in Barcelona, Spain; Spring 2020 semester in Florence, Italy; and Fall 2020 semester in London, England.
- **Short-Term Study Abroad Courses:** Italy, South Africa, and Spain in June 2020.
- **Global Internships:** Chile, Czech Republic, Hong Kong, Germany, Ireland, New York, France, San Francisco, South Africa, and Spain in Summer 2020 for two months.
- **Campus France:** Students who complete an A.A./A.S. in Business or a related field from College of San Mateo may be eligible to transfer to the Rennes School of Business to finish their B.A. in one year in France.
- **Community Travel:** Not-for-credit educational travel tours for adults and lifelong learners – September 2019 in Ireland, February 2020 in India, March 2020 in Italy, and October 2020 in Japan.

Financial aid and scholarships are available for eligible students for Semester Abroad, Short-Term Study Abroad, Global Internships, and Campus France Transfer Programs. Early planning is advisable. For more information and eligibility requirements, visit www.smccd.edu/studyabroad (www.smccd.edu/studyabroad/) or email studyabroad@smccd.edu.

Student Services

Assessment Services

CSM Assessment Services conducts the college assessment program which includes English, Reading, ESL, and Mathematics assessment components. Assessment Services no longer utilizes placement tests for English and Math placement due to the Passage of Assembly Bill (AB) 705. AB 705 allows students to be placed into transfer-level English and math courses using multiple measurements, which include external exams, high school GPA and coursework, guided self-placement. The goal AB 705 is to maximize the probability that a student will enter and complete transfer-level coursework in English and math within the first year at CSM.

Students are advised to discuss course placement results with a counselor so that they can assist with the development of a student educational plan (SEP). For High School Seniors and Graduates: The [English & Math Assessment Form \(collegeofsanmateo.edu/forms/docs/counseling/EnglishMathAssessmentForm.pdf\)](https://collegeofsanmateo.edu/forms/docs/counseling/EnglishMathAssessmentForm.pdf) lists a variety of assessments such as US high school GPA/coursework, AP, SAT, ACT and completed English and math courses from other US colleges which may be used for course placement at CSM. This form can be submitted to the CSM Welcome Center / Assessment Services in person, by email or by fax (see form for details). For Concurrent/ Dual/Middle College Students: The [Concurrent Enrollment English & Math Placement Form \(collegeofsanmateo.edu/forms/docs/highschool/CEEnglishMathPlacementForm.pdf\)](https://collegeofsanmateo.edu/forms/docs/highschool/CEEnglishMathPlacementForm.pdf) asks for current math and English coursework grades by semester for course placement. There are a variety of other assessments such as AP, SAT, ACT that can be used as well. This form can be submitted to the CSM Welcome Center/ Assessment Services in person, by email or by fax (see form for details).

For English as a Second Language (ESL) there is computerized testing. To take a computerized assessment test, [schedule an assessment appointment \(collegeofsanmateo.edu/assessment/scheduleassessment.asp\)](https://collegeofsanmateo.edu/assessment/scheduleassessment.asp) or call 650-574-6175.

Complete a Prerequisite Equivalency Form

If you have already successfully completed English and/or math courses at another college or university within the United States and are planning to enroll in an English or math course or a course that has an English or math prerequisite, then your previous coursework must be approved. Visit the [Prerequisites website \(collegeofsanmateo.edu/prerequisites/\)](https://collegeofsanmateo.edu/prerequisites/) for more information and to obtain the [Prerequisite Equivalency Form \(collegeofsanmateo.edu/forms/docs/counseling/PrerequisiteEquivalencyForm_Fillable.pdf\)](https://collegeofsanmateo.edu/forms/docs/counseling/PrerequisiteEquivalencyForm_Fillable.pdf).

Bookstore

The CSM Bookstore is located in College Center Building 10 on the Second Floor. The bookstore is open one week prior to the start of each term and when classes are in session.

Textbooks are available in store and online one week prior to the start of each term. The bookstore hosts a textbook buyback during final exams week each term. Rental books and items are due on or before the last day of final exams in the term that they were rented.

For hours and dates of operation, placing orders, or more information, visit the [CSM Bookstore website \(collegeofsanmateo.edu/bookstore\)](https://collegeofsanmateo.edu/bookstore). (College Center, Building 10, Second Floor, 574-6367)

CalWORKs Program

Additional services are available to students who are currently receiving TANF (Temporary Aid to Needy Families). CalWORKs (California Work Opportunity and Responsibility to Kids) is a state funded program designed to assist students complete their educational goal in order to obtain financial stability. Support services include: child care, books, transportation, work-study, academic counseling, career planning, and assistance meeting county requirements.

For more information, visit the [CalWORKs website \(collegeofsanmateo.edu/calworks\)](https://collegeofsanmateo.edu/calworks) (Building 10, Room 112, 574-6155).

CARE Program/EOPS

The CARE Program (Cooperative Agencies Resources for Education) assists EOPS students who are single parents and are also receiving CalWORKs. The program is designed to help students increase their educational skills and to become more confident and self-sufficient. Support services include: child care, transportation, tutoring, peer advising, parenting workshops, books, and supplies.

For more information, visit the [CARE/EOPS website \(collegeofsanmateo.edu/eops\)](https://collegeofsanmateo.edu/eops) (Building 10, Room 110, 574-6154).

Career Services

Located in the Counseling Support Center, College Center, Building 10, Room 340D, Career Services assists students in exploring college majors and career options. For more information, visit the [Career Services website \(collegeofsanmateo.edu/career\)](https://collegeofsanmateo.edu/career) (Building 10, Room 340D, 574-6296).

Self-Assessment and Career Services

Career Services offers students self-assessment tools to assess potential college majors, occupational interests, personality traits, values and skills. These tools create profiles unique to each person that are helpful with the process of exploring college majors and career options. Self-assessment tools are available on our website for free and in Counseling (COUN) and Career classes (CRER); these classes may have small materials fees. Students are also welcome to schedule an appointment with a Career Counselor for free Myers-Briggs and Strong Interest Inventory assessment. Call 574-6400 to schedule an appointment with a career counselor. Information on careers, salaries, and employment outlook can be found on our website.

Student Employment

College Central Network is the online job board for students who are looking for full-time and part-time jobs, internships, and volunteer opportunities. This system also has a resume and portfolio creator, and a career documents library and podcast library. In the fall semester, Career Services has a Major Fair, where students can network with professionals who have majors and careers students are interested in. In the spring semester, Career Services has a Job Fair to connect students with local employers. There is also ongoing individual campus recruitment in the College Center, Building 10 by the main doors near the Learning Center, during the fall and spring semesters.

Center for Student Life and Leadership Development

College of San Mateo has a vibrant student life, supported through the Center for Student Life & Leadership Development, which provides students the chance to extend their learning outside the classroom. These activities allow students the opportunity to learn and develop skills in leadership, inter-personal communication, advocacy, and event planning.

Through the Associated Students, CSM's student government, students participate in the governance of the college. Members of student government also develop, promote, and implement programs and services that are of benefit to the general student population. Student clubs and organizations provide students the opportunity to interact with individuals who have shared interests and shared cultural backgrounds. Clubs and organizations also have the opportunity to sponsor campus-wide events and activities.

The Center is also one of the locations on campus where students and the general public are welcome to ask questions about any of the College's programs and services. The Center also provides services such as on-

and off-campus referral services; local transit information, information regarding campus posting; and deals with issues related to on-campus vending machines.

For more information, visit the [Center for Student Life & Leadership Development website \(collegeofsanmateo.edu/studentlife\)](http://collegeofsanmateo.edu/studentlife) (Building 17, 574-6141)

Special services provided for students by the Center include:

Student Activities Event Planning

The Student Life and Leadership Development Manager is available to assist campus organizations in the development, planning and approval of special campus programs and events. College policy questions, facilities reservations, security planning, audio visual requests, insurance requirements, health and safety reviews, risk management planning, publicity and other considerations for special events are coordinated through this office.

Student Government & Club Information

Information concerning any aspect of student government, student activities or clubs may be obtained in the Center. This office also provides these groups with duplicating and publicity services.

Referral Services

The Center maintains current referral listings of services available through the College and community agencies. The Center assists students through referrals to the campus Health Services, Personal Counseling & Wellness Services, Child Development Center, and community agencies for such services as legal assistance, family planning, and women's services.

Transportation Information

Bus tokens, bus and train schedules, maps, and general transportation information is available through the Center.

Campus Posting

All signs, flyers, or similar materials must follow campus policies and instructions regarding campus postings. Copies of these regulations are available in the Center.

Vending Refunds

If campus food vending machines are not vending properly, refunds are available from the Center.

Associated Students

The Associated Students of College of San Mateo (ASCSM) is the official representative student government organization at College of San Mateo. The Associated Students organization is charged with the responsibility of assessing and meeting student needs and of providing student input into the decision making process of the college. The Student Senate and its committees, the Advocacy Board and the Programming Board, carry out the activities of the organization. The Advocacy Board is primarily concerned with researching legislative bills and advocating on behalf of students. The Programming Board is responsible for all of the cultural, social, and co-curricular events sponsored

by the Associated Students. The Inter Club Council (ICC), which is also part of the Associated Students, coordinates and promotes all of the student organizations on campus.

Major elected and appointed officers and representatives of the association are: President, Vice President/Senate Chairperson, Secretary, Finance Director, and Student Senators.

In addition, students are selected by the Student Senate to serve on College and District committees, including College Council, various Institutional Planning Committees, and District shared governance committees. A complete list of committees is available from the Center for Student Life & Leadership Development.

Further information about the Associated Students can be obtained by contacting current student officers through the Center. Meeting times for Associated Student groups are available through the Center in Building 12, Room 211.

Student Senate

The Student Senate is responsible for the administrative affairs of the association including the monitoring of programs approved by the Student Senate and the representation of the association's viewpoint in college-wide matters.

The Student Senate is comprised of students elected at-large in an annual campus-wide election.

Advocacy Board

The Advocacy Board is responsible for researching and advocating for legislation at the local, state, and national level that impacts CSM students and the community college system. The group meets with elected officials to express the student voice and promote issues of importance to students.

Cultural Awareness Board

The Cultural Awareness Board is responsible for planning, coordinating, and executing activities that celebrate, highlight, and bring attention to issues of equity, social justice, and diversity.

Programming Board

The Programming Board is responsible for planning, coordinating, and executing social, cultural, and co-curricular activities. The group plans events that will enhance students' college experience and that provide a sense of community on campus.

Inter-Club Council

The Inter-Club Council is comprised of representatives from each student club on campus. Its purpose is to provide an information exchange between clubs, coordinate events sponsored by more than one club, and has a very important role in advising the Student Senate regarding support for club activities.

Associated Student Body Card

All students who have completed registration and paid the \$15 student body fee are entitled to a photo I.D. student

body card. After classes have begun, you may obtain your Student Body Card at the Center for Student Life & Leadership Development. This photo identification card entitles you to special discounts from 10% to 40% off at local businesses, movie theaters, shops and restaurants. On-campus discounts are available at the cosmetology salon and all athletic events. The funds collected from the student body fee help support numerous programs and services on campus including: scholarships, emergency student loans, child care, athletics, guest speakers and concerts. If you would like more information about the student body card benefits, or would like the student body fee reimbursed, please contact the Center at 574-6141 before the last day to drop semester-long classes.

Student Clubs and Organizations

College of San Mateo encourages students to augment their formal education by participating in extracurricular activities and events. Among the opportunities available is the privilege of starting and/or being a member of a formally recognized student club or organization. Each group elects its officers and plans its own program for the semester. The activities of each group depend largely upon the enthusiasm of its membership. Anyone interested in joining or starting a club or organization is welcome to stop by the Center for Student Life & Leadership Development (Building 12, Room 211, 574-6141) for more information. In order to establish a new organization, there must be a minimum of six interested students, an approved faculty/staff advisor, and a constitution that meets college requirements.

Sororities and fraternities and other secret organizations are banned on community college campuses under the Education Code of the State of California.

A list of currently active clubs is available at the [Clubs \(collegeofsanmateo.edu/clubs\)](http://collegeofsanmateo.edu/clubs) website.

Student Organizations

The general purpose of all student groups as organized, recognized, and approved under the supervision of the college administration shall be in conformity with the provisions of California Education Code and the educational objectives of the College. All student organizations are subject to the regulations of and derive their authority from the California Education Code, the San Mateo County Community College District Board Policy and its Rules and Regulations, and College Regulations, in that order.

Denial of membership in any organization or of participation in any activity on the basis of sex, race, religion, sexual orientation or national origin is prohibited. Membership in secret societies is prohibited.

Permanent Student Organizations

A. Definition: A recognized student organization is defined as a group which:

1. Operates under the advisory of a member of the college staff.

2. Maintains in the Center for Student Life & Leadership Development a constitution which has been approved by the members of the organization and the Student Life and Leadership Manager, and a current list of officers. Membership is limited to registered students at College of San Mateo.
3. Holds meetings regularly which are open to all students and announces its meetings through the Center for Student Life & Leadership Development and publications of general circulation on campus.
4. Deposits all organizational funds in a college account as required by the California Education Code and established college procedures.

B. Privileges: The privileges of recognized student organizations include:

1. The use of the name of College of San Mateo.
2. The use of the buildings, grounds, equipment and services of the college when available and officially scheduled.
3. Publicity through appropriate college channels.
4. Appropriate advice and assistance from the Center for Student Life & Leadership Development.

Ad-Hoc Student Organizations

A. Definition: An ad-hoc student organization is defined as a group which:

1. Is organized for a specific and temporary purpose that is compatible with the educational objectives of the college.
2. Operates under the advisory of a member of the college staff.
3. Files a statement of purpose with the Center for Student Life & Leadership Development and a roster of at least six (6) student members.
4. Normally operates for a period not to exceed thirty (30) school days.
5. Is composed entirely of students currently enrolled in the college.

B. Privileges: An ad-hoc student organization will be granted all the privileges of recognized student organizations and must follow the procedural requirements outlined above.

Campus Facility Use by Student Organizations

Student organizations, as defined above, may request use of college facilities for events and activities as outlined below.

A. Procedure for the presentation of programs:

1. Programs intended for members of recognized student organizations require approval from the faculty advisor and the Student Life and Leadership Development Manager.
2. The presentation of programs by recognized student organizations require that the sponsor

adhere to the following Center for Student Life & Leadership Development procedures:

- a. In order to obtain authorization to present the program, the sponsor is required to furnish the Student Life and Leadership Development Manager with appropriate details regarding the planned program. The information provided is to include the nature of the program, date and time, anticipated attendance, services needed (e.g., custodial, ushering, security, publicity, audio visual, etc.), equipment required, proposed facility to be utilized and all details regarding admission charges or other funds to be collected in conjunction with the program. Upon review of this data and if the event is approved, the Student Life and Leadership Development Manager will begin the necessary paperwork to reserve the facility and place the event on the Campus Events Calendar. If approval is denied, the Student Life and Leadership Development Manager's decisions in this regard are subject to appeal and review by the Vice President, Student Services.
- b. Program plans must demonstrate that the program will not present or create an undue health or safety risk to students, staff, or the public. The Vice President, Student Services may deny or cancel programs that cannot meet this requirement.
- c. Programs must be presented in appropriate authorized areas.
- d. Programs will end by 1:00 pm, unless approval to extend the program time is granted by the College President.

3. Sponsors of events that involve professional performers, speakers, artisans, or such may pay these individuals for their services. This rate will be established by agreement between the performer, the sponsor, and the Student Life and Leadership Manager prior to the date of the event.
4. Groups and individuals may be required to furnish a certificate of liability insurance as required by District and College policies.

B. Reservation of facilities for meetings or other purposes by student groups:

1. The sponsor of an approved program must reserve the desired facility in accordance with established procedures. When necessary, the Student Life and Leadership Development Manager or

their designee will work with the appropriate departments to determine availability of facilities. A list of available facilities is available from the Center for Student Life & Leadership Development.

2. Public facilities and classrooms are normally available for special program use at during normal college business hours. Times outside of normal business hours must receive prior approval from the Vice President, Student Services.
3. Requests for reservations for college facilities by student organizations are to be made through the Center for Student Life & Leadership Development. Details of the program being proposed must accompany the request for facilities and be submitted to the Student Life and Leadership Development Manager for review. Once the program plans have been reviewed and the availability of the facility has been established, the facility reservation will be confirmed with the college Facilities Rental Office through the use of a facilities contract form.
4. Programs must be produced in such a manner so as not to constitute interference with the instructional program. Only at times when classes are not in session may sound amplification equipment be used out of doors. Exceptions to this policy may be granted by the Vice President, Student Services or his/her designee under any of the following specific instructions:
 - a. The program includes a prominent speaker or presentation of campus-wide interest.
 - b. The program is a response to an imminent or continuing national or local crisis.
 - c. The program is of campus-wide interest and significance.
5. Before a request for an exception may be submitted to the Vice President, Student Services, the sponsor of the program must make every effort to schedule the program into authorized facilities during hours when classes are not in session. Sponsors must also verify that it is impossible to do so.

Off-Campus Organizations

Individuals or groups wishing to make use of College space to exercise their right to free speech may do so in accordance with the Time, Place and Manner of Speech policies outlined in the College Policies section.

Individuals or groups wishing to make use of College space for making retail products or services available are subject to the On-Campus Vendor Policy, available through the Center for Student Life & Leadership Development.

Individuals or groups wishing to make use of College space for events and activities must contact the Facilities Rental

Office (College Center Building 10, Room 439; 574-6220) for policies and pricing.

The Center for Global Engagement

The Center for Global Engagement (CGE), home of the International Education Program, serves our campus through a variety of global initiatives for students, faculty, and staff. As the campus hub for global initiatives and activities on campus; the center supports international students, global and cultural events, study abroad, global internships and campus globalization activities. We encourage a multicultural community that reflects and affirms global diversity and a rich cultural exchange where all of us learn from each other's experiences and perspectives.

The International Education Program, located in the CGE, welcomes and supports our international student population, offering an efficient admissions process, welcoming orientation, ongoing social and academic advising and transfer support as well as clubs and programming for international students from over 50 countries. The International Education Program also hosts the International Student Ambassador program, which offers peer support to our international student population, organizes events and activities, and provides information and tours for international visitors. We are committed to addressing the broad educational needs of the world community.

The Center for Global Engagement offers a meditation room, student lounge, meeting room, and main lobby that are open to all members of the CSM community.

For information, visit the [International Education Program website \(collegeofsanmateo.edu/international/\)](http://collegeofsanmateo.edu/international/) (College Center Building 10, Rooms 380-393, 574-6525).

Child Development Center

The Mary Meta Lazarus Child Development Center provides an equal opportunity child care program for children two and one-half through five years old who have a parent attending CSM, Skyline or Cañada.

Families may be eligible for financial assistance. Fees for subsidized child care services are based on family size, gross monthly income and need for child care in accordance with criteria set by California Department of Education.

Fees for non-subsidized child care are based on the age of the enrolled child and the individual schedule (full-day or part-day). In addition, there is a registration fee charged each semester. Breakfast, lunch, and an afternoon snack are provided. Meals meet the nutritional guidelines of the

USDA and the California Department of Education Child Nutrition Services.

Full tuition families are charged a \$50.00 registration fee each semester. All fees are assessed based on your child's regular schedule. You will be charged for days regularly scheduled including any days your child does not attend. Full days are defined as more than five (5) hours. Part days are defined as less than five (5) hours.

Full tuition family fees are based on a daily rate as follows:

Child's Age	Full Day	Part Day
2 1/2-3 years	\$72	\$62
3-5 years	\$60	\$55

**Fees subject to change. Please visit the [Child Development Center Fees \(collegeofsanmateo.edu/childcenter/fees.asp\)](http://collegeofsanmateo.edu/childcenter/fees.asp) webpage for current info.*

The following options are available for our full tuition families:

Full Day	Part Day
Monday-Friday	Monday-Friday
Monday-Thursday	Monday-Thursday

The Child Development Center is open for the six-week summer session from 7:30 am to 5 pm, Monday through Friday. For more information, visit the [Child Development Center website \(collegeofsanmateo.edu/childcenter/\)](http://collegeofsanmateo.edu/childcenter/) (Building 33, 574-6279).

Counseling Services

The College of San Mateo offers integrated services in the areas of academic, transfer, and career counseling. Available to all enrolled students, counseling services are designed to:

1. introduce students to educational options
2. help students make decisions and set educational and career goals
3. provide assistance with academic program planning to complete certificates, associate degrees, and/or university transfer requirements
4. acquaint students with campus services and resources
5. teach students about skills, strategies, and techniques to enhance academic and personal success
6. work with students to resolve personal concerns that may interfere with the ability to succeed in college

Counseling services are provided in "stages". The first stage of counseling services provides foundation information about college processes and policies, educational goals, and introduces students to educational planning. Counseling workshops also are an important component of counseling services. Through workshops students can learn more about their targeted goals. Workshop topics vary but always include details about preparing to transfer, how to select a college major, and how to maximize the use of Degree Works to engage in academic and career planning. In one-on-one counseling appointments students meet with a counselor for an in-depth discussion of goals and interests and to create a student educational plan in Degree Works. The student educational plan is an essential tool and maps out, semester by semester, the courses necessary to complete specific educational goals. For more information, visit the [Counseling Services website \(collegeofsanmateo.edu/counseling\)](http://collegeofsanmateo.edu/counseling) (College Center Building 10, 3rd Floor, Room 340; 574-6400).

For personal counseling, please visit the [Personal Counseling & Wellness Services \(collegeofsanmateo.edu/personalcounseling\)](http://collegeofsanmateo.edu/personalcounseling) website.

Disability Resource Center (DRC)

The Disability Resource Center provides academic adjustments and support services for students who have a verified disability to ensure equal access to an education. The DRC serves all disabilities including (but not limited to) deaf/hard of hearing, blind/low vision, physical, autism spectrum disorder, acquired brain injury, attention deficit hyperactivity disorder, learning differences, and mental health. Also provided are accommodations for temporary disabilities such as a broken leg or arm, a pregnancy-related disability condition/childbirth or recuperation from surgery. The DRC provides academic accommodations such as note taking, test proctoring, textbooks in alternate formats (Braille, e-text, audio, or large print), reader/scribe for tests, interpreting services, and assistive technology services based on individual need.

Students who may benefit from disability-related academic support services are encouraged to contact the DRC. To schedule an intake appointment email csmdrc@smccd.edu. For more information, visit the [Disability Resource Center website \(collegeofsanmateo.edu/drc\)](http://collegeofsanmateo.edu/drc).

Learning Disability Assessment is an opportunity for students who have a history of learning difficulties, but do not have prior documentation, the possibility of completing diagnostic testing to determine eligibility for support services. Students who complete this evaluation process will learn about individual strengths, weaknesses, and strategies to utilize strengths while supporting weaknesses. Support services may include study and test-taking strategies.

Assistive Technology Services offers specialized instruction to enhance and support learning based on individual need. One-on-one instruction for DRC students in addition to DSKL courses utilizing a variety of text-to-speech, speech-to-text, and note taking software and/or hardware is available. Textbooks in alternate format are available for those who qualify for these services.

Counseling services include educational planning – class selection, disability management, transfer, and accommodation needs. Our counselor teaches a one-unit Counseling 111 - College Planning & Counseling 122 - Study Skills courses.

Adaptive Physical Education Wellness program is designed for anyone who may have a disabling or limiting condition. We tailor our classes to help you achieve your fitness goals in a safe and successful environment. The objective of the program is to provide classes that increase cardiovascular fitness, muscular strength, improve overall flexibility and to provide a great place for socialization. Our ultimate goal is to improve the quality of your life through appropriate physical activity. For more information please contact Paul Sacomano at sacomano@smccd.edu (Building 5, Room 170; 378-7219).

Distance Education

College of San Mateo is committed to meeting the evolving needs and expectations of its students and community through the expansion of alternative means of delivering instructional and student support services.

Distance education courses consist of online and hybrid courses. Online courses are conducted through a class website, and some courses may require an on-campus orientation meeting and proctored exams. Hybrid courses are conducted mostly online but do have of face-to-face instructional hours with online work. Most CSM distance education courses are applicable toward associate degree credit, and many satisfy transfer course requirements. Additionally, students enrolled in distance education courses have the same access to financial aid as those enrolled in on-campus courses.

Distance education courses may not be right for all students. They give students greater freedom of scheduling, but they also require more self-discipline than on-campus courses. How well distance education courses fit into your educational and career goals depends on many factors. It is important for first-time distance education students to review the information available on the [Distance Education \(collegeofsanmateo.edu/distanceeducation\)](http://collegeofsanmateo.edu/distanceeducation) website. For those students who are able to create the right environment, have the right study habits, and understand the technical and academic requirements, CSM's distance education courses can be as effective as on-campus courses in terms of student learning.

The Instructional Technologist and Distance Education Coordinator are available to assist students and answer questions in order to ensure College of San Mateo students have a successful distance learning experience. For more information, visit the [Distance Education website \(collegeofsanmateo.edu/distanceeducation\)](http://collegeofsanmateo.edu/distanceeducation) (Building 18, Room 18-206E, 574-6279).

DREAM Center

The CSM DREAM Center is a safe haven designed to holistically support and nurture the academic, social, emotional, and financial well-being of our undocumented community by providing counseling services, workshops, and connections to on and off campus resources. For more information, contact DREAM Center office located at Building 10, Room 180 (574-6463) or visit [DREAM Center website \(collegeofsanmateo.edu/dreamcenter\)](http://collegeofsanmateo.edu/dreamcenter). See also [Multicultural & DREAM Center](#).

Extended Opportunity Programs and Services (EOPS)/CARE

EOPS provides support services to low-income and educationally eligible students attending the College of San Mateo. The mission of EOPS is to assist students to achieve their educational goals, which include earning: a certificate, an associate degree, and/or transfer to a four-year university.

Eligible students will receive "over and above" support services that include: priority registration, individual counseling, book service, tutoring, academic success and life skills workshops, transportation assistance, computer and printing access, transfer application fee waivers, and university tours. The program is funded by the State of California and the San Mateo County Community College District.

In order for a student to be considered for the EOPS program, the following criteria must apply:

1. Full-time (12 units) enrollment, unless authorized for less.
2. Qualification to receive the California College Promise Grant (CCPG), formerly known as the Board of Governors Fee Waiver (BOGFW).
3. Completion of fewer than 70 college-level units.
4. Meet the educational and income criteria determined by the EOPS guidelines.

For more information, visit the [CSM EOPS/CARE website \(collegeofsanmateo.edu/eops/\)](http://collegeofsanmateo.edu/eops/) (College Center, Building 10, Room 110, 574-6154).

Financial Aid/Scholarships

The Financial Aid Office at College of San Mateo is dedicated to the concept that no individual should be denied an

education solely for financial reasons. Financial aid can assist students in paying for enrollment fees, books, transportation, room and board, and other educational expenses. Any student applying for admission to the College who has a financial need for assistance is urged to apply for aid.

The Financial Aid Office administers the Scholarship program and several federal grant, loan, and work-study programs. There are four types of financial aid:

1. Grants
2. Scholarships
3. Employment
4. Loans

There are two primary sources of financial aid - the Federal government and the State of California. For a full list of financial aid options, see the chart on the Types of Financial Aid page.

For more information, visit the [District Financial Aid website \(smccd.edu/finaid\)](http://smccd.edu/finaid) (College Center Building 10, Room 360, 574-6146). Applications for small emergency loans are available through the Financial Aid Office.

Repayment of Federal Funds For Students Who Withdraw From School

College of San Mateo will determine the amount of federal financial aid that a student has earned in accordance with federal law. Students who receive federal financial aid and do not attend any classes will be required to repay all of the funds they received. Students who withdraw from all classes prior to completing more than 60% of the semester will have their financial eligibility recalculated based on the percentage of the semester completed and will be required to repay any unearned financial aid they received.

At College of San Mateo a student's withdrawal date is:

1. The date the student officially notified the Admissions Office of his or her intent to withdraw
2. The midpoint of the semester for a student who leaves without notifying the college
3. The student's last date of attendance at a documented academically-related activity

Learning Communities

Learning Communities are cohort-based programs that link instructors across disciplines and connect people who share common academic goals and attitudes. CSM's learning communities offer an innovative and exciting approach to learning designed for student success. While each program is unique, common features include:

- Two or more classes working together with common themes, content, and materials
- A group of students and faculty working collaboratively in a friendly, supportive atmosphere
- An exploration of the connections between disciplines
- Specialized counseling and transfer support, free tutoring, mentoring, and academic support
- Enrichment activities like university field trips, cultural events, and guest speakers
- Community involvement and internships

We offer Cultural Communities (Mana, Puente Project and Umoja), Interest Communities (Honors Project and Writing in the End Zone) and a Transitional Community (Project Change). For more information, please visit the [Learning Communities \(collegeofsanmateo.edu/learningcommunities\)](http://collegeofsanmateo.edu/learningcommunities) website.

With **Honors Project**, students accepted into this unique interdisciplinary community will join a dedicated group of faculty and students working together to create a rich, intellectual experience at CSM. Students will earn honors credit in selected transfer courses by developing and successfully completing advanced research projects. Students are required to concurrently enroll in an Honors Project research seminar. Students must be accepted into the Honors Project before registering for seminars. For more information, contact David Laderman at laderman@smccd.edu or visit the [Honors Project \(collegeofsanmateo.edu/honorsproject\)](http://collegeofsanmateo.edu/honorsproject) website.

Mana is a transfer and support program with the goal of increasing proficiency in culturally responsive communication skills for success in college, work, and life. The Mana program focuses on the Pacific Islander American student experience and is open to all students. The three primary components of the program are Ethnic Studies, Communication Studies, and Academic Support. For more information, contact Finausina Tovo at tovof@smccd.edu or visit the [Mana website \(collegeofsanmateo.edu/mana\)](http://collegeofsanmateo.edu/mana).

Project Change is the first learning community to provide wrap-around student support services and direct access to postsecondary education for current and formerly incarcerated youth. This program unites CSM and San Mateo County community organizations together in a joint effort to help students make the transition to community college. For more information, contact Katie Bliss at blisskatie@smccd.edu or visit the [Project Change website \(collegeofsanmateo.edu/projectchange\)](http://collegeofsanmateo.edu/projectchange).

The **Puente Project** is a transfer support program with English, Counseling and mentoring components. This learning community focuses on Latino literature and experiences and spans two semesters. Students are required to enroll in the English and Career classes concurrently each semester as well as attend out of class field trips and activities. Interested students must first attend a Puente Project Orientation for registration access. For more information, contact Jennifer De La Cruz at delacruzjen@smccd.edu (<mailto:delacruzjen@smccd.edu>) or visit the [Puente Project website \(collegeofsanmateo.edu/puente\)](http://collegeofsanmateo.edu/puente).

Umoja is a transfer support program that focuses on the African American experience through the study of culture, history, literature, and identity. The courses offered through this program are Ethnic Studies, English, and Counseling. Students must enroll in Ethnic Studies 105 in the fall and Ethnic Studies 288 in the spring. Students are also strongly encouraged to enroll in designated Umoja English and

Counseling courses. For more information, contact Jeramy Wallace at wallacej@smccd.edu or visit the [Umoja website \(collegeofsanmateo.edu/umoja\)](http://collegeofsanmateo.edu/umoja).

Writing in the End Zone (WEZ) is an interest-based learning community that links collegiate football and English composition. While exploring the demands and rewards of being student-athletes, WEZ students will strengthen their reading, writing, and critical thinking skills. All WEZ students enroll in sections of ENGL 105 and ENGL 110, which are linked to fitness and theory of football classes associated with active participation in the College of San Mateo football program. For more information, contact Teeka James at james@smccd.edu or Bret Pollack at pollack@smccd.edu or visit the [Writing in the End Zone website \(collegeofsanmateo.edu/wez\)](http://collegeofsanmateo.edu/wez).

Multicultural & DREAM Center

The Multicultural & Dream Center (MCCDC) is a one-stop student services program that provides a culturally relevant community space for underrepresented students. The MCCDC provides resources and programming for a variety of students including English language learners, former foster youth, and LGBTQIA+ students. The MCCDC is a safe haven designed to holistically support and nurture the academic, social, emotional, and financial well-being of our AB540 & undocumented community by providing counseling services, workshops, and connections to on and off campus resources. For more information, visit the [Multicultural Center \(collegeofsanmateo.edu/multicultural\)](http://collegeofsanmateo.edu/multicultural) and [DREAM Center \(collegeofsanmateo.edu/dreamcenter\)](http://collegeofsanmateo.edu/dreamcenter) websites (Building 10, Room 180, 574-6120).

Promise Scholars Program

Students have the opportunity to apply for consideration to be accepted to the Promise Scholars Program beginning in the fall, 2019. The program is geared towards first-time, full-time, California residents, looking to attain their associates degree or certificate at the College of San Mateo. The Promise Scholars Program serves 750 students annually at the College of San Mateo and looks to support students completion of an associates degree or certificate.

Transcript Evaluation Service

The Transcript Evaluation Service is available to students who are currently registered in 6 or more units in the

San Mateo Community College District. A transcript evaluation provides important information to the student and counselor about how course work completed at other colleges and universities will be applied to the following College of San Mateo educational goals.

1. California State University General Education Certification – CSU GE
2. Intersegmental General Education Transfer Curriculum – IGETC Certification
3. College of San Mateo Associate Degree General Education requirements
4. College of San Mateo Major or Certificate Requirements

Detailed instructions for students on how to use this service can be found on the [District Transcript Evaluation website \(smccd.edu/transcript\)](http://smccd.edu/transcript) or in-person (College Center, Building 10, Room 310; 574-6234).

Transfer Services

Located within the Counseling Center in College Center Building 10, Room 340, transfer services provide important services to assist students in planning for transfer to a four-year college or university. Information and workshops are offered on transfer requirements, transfer planning, writing the application essay, choosing a college, and completing transfer admission applications. Transfer Services also schedules representatives from other universities and colleges, including UC, CSU and private universities, to meet with students on a regular basis. CSM has Transfer Admission Agreements with a number of four-year institutions which can guarantee transfer admission. For more information, visit the [Transfer Services website \(collegeofsanmateo.edu/transfer\)](http://collegeofsanmateo.edu/transfer) (College Center Building 10, Room 340, 358-6839).

Veterans Services

College of San Mateo offers instruction to veterans, service members, dependents and survivors of veterans and to other eligible persons, and is authorized by the Department of Veterans Affairs to certify students' educational programs for veterans benefits. Honorably discharged veterans with at least 18 months of active military service are eligible for educational benefits for a period of 10 years following discharge. Benefits are also available to members of the active reserve who pursue approved college studies.

To initiate benefit payments, an eligible student must complete the college enrollment process and request that certification of enrollment be sent to the Department of Veterans Affairs. For more information, visit the [Veterans Resource & Opportunity Center \(VROC\) website \(collegeofsanmateo.edu/veterans\)](http://collegeofsanmateo.edu/veterans) (Building 16, Room 150, 574-6675).

Wellness Center

SparkPoint/Free Groceries

SparkPoint at College of San Mateo offers students and members of the public access to financial coaching, public benefits enrollment, and free weekly groceries. Meet with a financial coach to create a budget, develop your credit, eliminate debt, and/or sign up for benefits like CalFresh or MediCal. The SparkPoint free groceries program offers a variety of canned foods, dairy products, bread and cereal, fresh fruit and vegetables, and frozen meat, including poultry. Interested individuals must complete a one-time self-declaration form. There is no proof of income or citizenship required. SparkPoint is located in Building 1, Room 155 and is open Monday-Friday, generally between 8:30 am – 5:00 pm. *Summer hours vary. Walk-ins and appointments are welcome. For additional information, visit the [SparkPoint at College of San Mateo website \(collegeofsanmateo.edu/sparkpoint/\)](http://collegeofsanmateo.edu/sparkpoint/).

Health Services

The Health Services Center is located in Building 1, room 147, ext. 6396, and is open Mondays through Thursdays from 8:30 am - 6:00 pm during fall and spring semesters. Summer hours may vary. Free health center services include: confidential consultation, information and counseling on health questions, nurse or physician evaluation of symptoms, first aid treatment, over the counter medications, referrals to health or social agencies when needed or requested. Free screening procedures include: hearing testing, vision screening, TB skin testing, and blood pressure & blood sugar screenings. Additional services that are offered for a minimal fee: physicals, gynecological exams, lab work, and prescription medications. For additional information visit our website (<https://collegeofsanmateo.edu/wellnesscenter/medicalservices.asp>).

Accidents on campus should be reported to the Health Services Center in Building 1, room 147, ext. 6396 and to Business Services, located in the College Center, room 439, ext. 6220. Limited campus insurance coverage is offered for student injuries on campus or on a college-sponsored trip.

Personal Counseling

Personal Counseling offers free confidential counseling to students at College of San Mateo. Counseling regarding crisis, stresses, personal issues, and decisions enables students to continue successfully in college. Referrals to other on and off campus resources are also available. Appointments are made through Health Services, Building 1, Room 147, or by calling 574-6396. For more information, visit the Personal Counseling & Wellness Services website (<https://collegeofsanmateo.edu/personalcounseling/>)

Application of External Exams (AP, IB, CLEP) to GE Areas

Application of External Exams (AP, IB, CLEP) to General Education Areas IGETC, CSU GE, Associate Degree GE 2019-2020

Important Note to Students

If you plan to complete an associate degree and/or CSUGE or IGETC certification within the San Mateo County Community College District you must submit official AP, IB, or CLEP exam results to the Admissions and Records Office. **College courses (taken before or after external exams) may duplicate content. Where duplication exists between the exam course content and the college course content, students do not get credit/units for both the external exam and the college course. (Find more information under Additional Information located at the end of the document.) Not all external exams generate general education credit. Only exams that generate GE credit are listed in this chart.**

Cañada College, College of San Mateo and Skyline College apply external exam credit to associate degree general education requirements in the same manner as CSU applies external exam credit to CSU general education requirements. External exam results are applied to **General Education Area Requirements only**. External exam evaluation results appear on student Web SMART Degree Works audit. The responsibility for researching if or how an external exam may be applied toward specific subjects or major requirements rests with the student.

Students are encouraged to use the following resources for additional information, limitations, and restrictions applied to external exams: The California State University Office of the Chancellor Coded Memorandum ASA-2019-03 dated January 28, 2019; CSU Executive Order 1036, Section 1.2.4; Standards, Policies & Procedures for Intersegmental General Education Transfer Curriculum Version 1.9, Section 7.0 Credit By Exam dated May 2018, SMCCD Transcript Evaluation website at www.smccd.edu/transeval (www.smccd.edu/transeval).

Defense Language Proficiency Test (DLPT)

Utilizing the American Council on Education (ACE) recommendations as described below, College of San Mateo will award three lower division semester units for students who have achieved a passing score on a Defense Language Proficiency Test (DLPT) in CSU GE AREA C2 and in the local associate degree general education area E5c. The following documents may be accepted to award DLPT GE credit.

- Official Defense Language Institute Foreign Language (DLIFLC) transcripts.
- Official Joint Services Transcripts (JST)
- Defense Manpower Data Center (DMDC) DLPT Examinee Results
- DA Form 330 Language Proficiency Questionnaire

Additional Information on External Exams

Although AP credit for a subject is not considered “the same” as a specific college course, below find a list of some college courses that will invalidate AP credit because the content in the AP course and the content in the college course overlap. If the student takes the course the student will not receive AP credit. Also note, many universities will not accept AP credit for major course requirements. Please read notes #1 through #12 below.

AP Art History (*meets IGETC Area 3A or CSU GE Area C1*) – ART 101,

AP Biology (*meets IGETC Area 5B & 5C and CSU GE Area B2 & B3*) – BIOL 110,

AP Chemistry (*meets IGETC Area 5A & 5C and CSU GE Area B1 & B3*) – CHEM 210,

AP Chinese (*meets IGETC Area 3B and CSU GE Area C2*) – CHIN 111-134,

AP Macroeconomics (*meets IGETC Area 4 and CSU GE Area D*) – ECON 100,

AP Microeconomics (*meets IGETC Area 4 and CSU GE Area D*) – ECON 102,

AP English Language and Composition (*meets IGETC Area 1A and CSU GE Area A2*) – ENGL 100 or 105,

AP Literature and Composition (*meets IGETC Area 1A OR 3B and CSU GE Areas A2 and C2*) – ENGL 100 or 105 and ENGL 110,

AP Psychology (*meets IGETC Area 4 and CSU GE Area D*) – PSYC 100,

AP Statistics (*meets IGETC Area 2A and CSU GE Area B4*) – MATH 200,

AP Spanish (*Meets IGETC 3B and 6A and CSU GE Area C2*) – SPAN 110 and 120.

1. Issues around credit for external exams are complex. Where there is common use for general education areas as noted above, the use of external exams to meet major requirements is complex and specific to the receiving transfer institution. It is up to the student to thoroughly research this information.
2. The chart does not provide information about transfer credit generated by external exams for the purpose of admissions.
3. Students who have earned credit through AP, IB, and/or CLEP should not take a comparable college course because credit will not be granted for both the external examination and the comparable college course. (See #12 below)
4. The chart does not provide information about if or how external exam results apply to major course requirements. Applying AP, IB, or CLEP credit to meet major requirements is determined by each transfer institution.
5. At Cañada College, College of San Mateo, and Skyline College, each instructional division determines IF OR HOW AP, IB, and/or CLEP credit is applied to associate degree major or certificate requirements. Talk to a counselor for assistance.
6. Students earning an AP score of 3, 4, or 5 in the physical and biological science examinations meet IGETC Area 5 and the IGETC laboratory activity, Area 5C, requirements. AP exams in Biology, Chemistry, and Physics B allow California community colleges to apply 4 semester units to IGETC area certification to cover both the science lecture and science lab unit requirements for IGETC Area 5. However, for Environmental Science, Physics C: Mechanics, and Physics C: Electricity/magnetism, only 3 semester or 4 quarter units are applied to IGETC area 5A and 5C certification which means that students who complete these AP exams are required to complete a 4 semester or 5 quarter unit course to satisfy the minimum required units for IGETC Area 5.
7. Actual AP transfer credit awarded for AP exams for admission is determined by the CSU and UC. The [UC Policy for AP credit \(admission.universityofcalifornia.edu/counselors/files/ap-satisfy-admission-and-igetc-req.pdf\)](https://admission.universityofcalifornia.edu/counselors/files/ap-satisfy-admission-and-igetc-req.pdf) can be found online.
8. The CSU has a system-wide policy for AP and other exams for awarding transfer credit for admission. The CSU policy for AP can be found on the [CSU \(calstate.edu/app/general-ed-transfer.shtml\)](https://calstate.edu/app/general-ed-transfer.shtml) website.
9. Actual IB transfer credit awarded for IB exams for admission is determined by the CSU and UC. The UC Policy for IB credit can be found on the [UC \(admission.universityofcalifornia.edu/counselors/exam-credit/ib-credits/index.html\)](https://admission.universityofcalifornia.edu/counselors/exam-credit/ib-credits/index.html) website.
10. The CSU has a system-wide policy for IB exams for awarding transfer credit for admission. The CSU policy for IB can be found on the [CSU \(calstate.edu/app/general-ed-transfer.shtml\)](https://calstate.edu/app/general-ed-transfer.shtml) website.
11. External exam policies for UC and CSU are subject to periodic modifications.
12. External exam credit CANNOT be applied to IGETC Area 1B and CSU GE Area A3 (Critical Thinking areas of GE).

Alternate Assessment

CSM Assessment Services conducts the college assessment program which includes English, Reading, ESL, and Mathematics assessment components. These assessments are intended to measure skills which research has shown to be closely related to academic success. These multiple measurements represent student strengths and capabilities. There are multiple options for assessing English and math course placement.

1. CSM English and Math Assessment Questionnaires
2. English and Math Alternate Assessment Form
3. Computerized testing for English, Mathematics and English as a Second Language (ESL)
4. Paper/Pencil Testing for English
5. Complete a Prerequisite Equivalency Form

CSM uses both Accuplacer and Aleks computerized test for English, ESL and mathematics.

- Aleks Mathematics Test
- ACCUPLACER - ESL Reading Skills, ESL Sentence Meaning, ESL Language Use and ESL Listening (Computerized Placement Tests) (The College Board)

Interpreting course placement results. Alternate assessment and placement tests are intended to measure skills in English and Math. Students are advised to discuss course placement results with a counselor so that they can assist them to develop an educational plan.

Refer to the course listing in this catalog for titles, descriptions and prerequisites for the courses in the following placement charts. Students are encouraged to consult with a counselor/advisor regarding course selection and planning.

Alternate Assessment/Placement Test Results to Meet Course Prerequisites

MATH placement results, for the purpose of course placement and prerequisite skill level assessment, are valid for two years only. Math placement test results "time out" after two years from the date completed.

ENGLISH/ESL placement results, for the purpose of course placement and prerequisite skill level assessment do not "time out" and remain valid indefinitely. If, however, a significant amount of time has passed since the English or ESL test was completed, the student may select to repeat the placement test to secure an accurate assessment of current skill level.

Alternate Assessment used for Course Placement and/or Credit:

If English or math course placement has been identified through the use of one of the alternate methods listed below, visit the [Prerequisites \(collegeofsanmateo.edu/forms/prerequisites.asp\)](https://collegeofsanmateo.edu/forms/prerequisites.asp) forms page and complete the English and Math Alternate Assessment Form to allow for registration in the approved math or English courses.

For Placement into English 100:

1. CAASPP English results allow for eligibility for English 100. However, the student must enroll in English 100 in the summer or fall immediately following completion of the senior year in high school for the CAASPP results and placement to be valid.
2. IB Language A1/English HL (International Baccalaureate Exam) results with a score of 4 or higher.
3. SAT results with Critical Reading score of 500 or higher or Writing Subject score of 660 or higher.
4. ACT English (Usage/Mechanics, Rhetorical Skills) with score of 22 or higher.
5. CSU English Placement Test with a score of 147 or higher.

For Placement into English 110 or 165:

1. AP Exam, English Language and Composition, with a score of 3 or higher
2. AP Exam, English Literature and Composition, with a score of 3 or higher

For Placement into Math Courses:

1. CAASPP Math results allow for placement into MATH 125, 130, 145, 200 or 241. Results cannot be "conditional."
2. AP Math CALC AB* results: with a score of 3 you are eligible for Math 251; with a score of 4 or 5 you are eligible for Math 252 and/ or Math 268.
3. AP Math CALC BC* results: with a score of 3 your are eligible for Math 252 and/or Math 268; with a score of 4 or 5 you are eligible for Math 253 and/or Math 270.
4. IB Math HL (International Baccalaureate Exam) results with a score of 4 or higher meet the associate degree math competency requirement and allow placement into Math 125, 130, 145, 200, or 241.

*Although AP results allow eligibility to enroll, be advised that if your college major requires Math 251, 252, and 253, your AP results may not meet major requirements for the associate degree and/or transfer. There are many instances when AP results will not be used to meet major course requirements. Meet with a counselor for course selection assistance.

Transfer Planning

College of San Mateo can help students plan an educational program at CSM which will prepare them to transfer to the University of California, California State University or a private college or university to earn a bachelor's degree. Students are encouraged to meet regularly with a CSM counselor and use the resources of CSM's Transfer Services to develop an educational plan which will assure a smooth transition to the transfer institution of their choice. While completing transfer requirements, students may also want to earn units toward an Associate in Arts or Associate in Science degree at CSM. With careful planning, both objectives can be reached by taking essentially the same set of transferable courses.

Course Identification Numbering System (C-ID)

The Course Identification Numbering System (C-ID) is a statewide numbering system independent from numbers assigned to courses by local California community colleges. You can find C-ID approved course on the [ASSIST \(assist.org\)](https://assist.org) website by community college. A C-ID number next to a course signals that the course is comparable in content and scope to all courses with the same C-ID course number, regardless of their unique titles or local course numbers. The C-ID designation is used to identify comparable courses at different community colleges. However, courses with same C-ID numbers do not necessarily carry the same transfer articulation. Always use ASSIST to confirm how each college's courses will be accepted/applied at a CSU or UC campus.

The C-ID numbering system is useful for students attending more than one community college. It is also an important part of the Associate Degrees for Transfer (AA-T, AS-T). All AA/AS-T degrees include course requirements that are part of the C-ID system. As you review the chart below, be advised that courses are being added to the CSM C-ID list on an ongoing basis. For more information, meet with a College Counselor.

Transfer of Credit

Students planning to transfer can complete their freshman and sophomore level of transfer classes at College of San Mateo and transfer to the baccalaureate institution with junior standing. Students must complete a minimum of 60 transferable semester units in order to transfer as juniors. Typically, students must complete units that apply to an approved general education pattern and lower division major preparation as transfer preparation.

Associate Degree for Transfer Can Benefit Students Intending to Transfer to the CSU System

College of San Mateo offers associate degrees (AA-T and AS-T) designed to support transfer to the California State University system. Students who complete the requirements for an Associate Degree for Transfer are eligible for an associate degree AND meet minimum admissions requirements for junior standing at a California State University. Although earning an Associate Degree for Transfer does not guarantee a student admission to all California State University campuses or majors, it does secure priority admission consideration to his/her local CSU campus.

To enhance a student's competitiveness and success as a CSU applicant, in addition to completing the requirements for the associate degree for transfer, it is strongly recommended that students utilize the [Assist \(assist.org\)](http://assist.org) website to see if there are additional courses suggested or required for a particular major at a specific campus.

On page 104 find a list of current Associate Degrees for Transfer available at College of San Mateo. They are noted as "AA-T or AS-T" on the list.

CSM Transfer Services

Visit the [Transfer Services \(collegeofsanmateo.edu/transfer\)](http://collegeofsanmateo.edu/transfer) website. CSM's Transfer Services provides information and offers workshops on choosing a college, transfer admission requirements, completing transfer admission application forms and writing the application essay. Transfer Services staff can provide details about special Transfer Admission Guarantees that CSM has developed with a number of four-year UC and private institutions which can guarantee students transfer admission.

Students with a clear transfer objective stand the best chance of meeting requirements in a timely manner. They can make the best use of their time and course work by deciding on a transfer institution and major as soon as possible. Students unable to make these decisions when they enter College of San Mateo may follow a general

transfer pattern of courses while taking advantage of Transfer Services resources in making transfer plans.

Once students choose a major and the university to which they plan to transfer, they should use www.assist.org, an online student transfer information system, to see how courses completed at College of San Mateo are applied when transferring to a university. This website also lists courses required for majors. Transfer Services staff and CSM counselors can assist students in planning for transfer, and four-year university representatives often visit CSM to meet with students interested in transferring to their institutions. It is wise for students to consult the catalog of the university to which they plan to transfer to become familiar with specific transfer admission requirements. Many college and university catalogs are available for reference both in the Transfer Services Office and online. Students may also write directly to the admissions office of the institution to obtain an information bulletin which outlines requirements for admission as a transfer student.

Transfer Services is located with the Counseling Center in Building 10, Room 340.

Requirements for Transfer Students

A student can transfer from College of San Mateo to a four-year college or university as a junior without loss of time or credits by completing the following:

1. Lower Division Preparation for the Major These courses provide the necessary background to prepare the transfer student to enter the major as a junior. Use the Assist website for this information.
2. General Education Requirements (Sometimes called "Breadth Requirements") These are the courses required to obtain a bachelor's degree regardless of major. Courses in writing, critical thinking, sciences, humanities and social sciences are included in general education.
3. Electives Upon completion of major and general education requirements, elective courses can be taken to bring the total number of transferable units to the required 60 units for transfer to UC and CSU.

Students Request General Education Certification Prior to Transfer to a UC or CSU Campus

The UC and CSU systems ask community college transfer students to provide verification of completion of lower division general education requirements. To accomplish this, students must request the Admissions and Records Office (the request can be made on WebSMART) to send a

CSU GE or IGETC Certification with the final transcript to the transfer institution. This certification is used by the transfer destination, in addition to the official transcripts, to confirm full or partial completion of CSU GE or IGETC requirements.

Students who transfer without CSU GE or IGETC Certification will be required to meet the general education requirements of the specific UC or CSU campus to which they transfer. Meeting these local general education requirements requires taking additional general education courses after transfer.

Transfer Admission Procedures

Students should take the following steps to apply for admission as a transfer student to a four-year college or university:

1. Request an application from the Admissions Office of the transfer institution approximately one year in advance of planned transfer. Applications for the University of California and the California State University are available online at the following websites: [UC \(admission.universityofcalifornia.edu\)](http://admission.universityofcalifornia.edu) website [CSU \(calstate.edu/apply\)](http://calstate.edu/apply) website
2. Submit completed application during the specified filing period. Students are discouraged from sending them early as they will not be accepted before the initial filing date.
3. If an entrance exam (SAT, ACT) is required for transfer admission, register for the exam at least six months in advance of transfer.
4. Submit a request to the CSM Office of Admissions and Records to have a transcript of your academic record sent to the transfer institution at the time(s) specified by that institution. Transcripts must be requested well in advance of the date required. Four-year colleges and universities will also require transcripts of work completed at all other educational institutions.
5. After admitted to a CSU or UC campus, request a CSU GE or IGETC certification to be sent with your final transcript.

Transcript Evaluation Service

Students are strongly advised to use the transcript evaluation service to determine how course work from other colleges/universities can be incorporated into their transfer planning. Please visit our Transcript Evaluation Services page or in-person (College Center Building 10, Room 310; 574-6234) or visit the [District Transcript Evaluation \(smccd.edu/transeval\)](http://District Transcript Evaluation (smccd.edu/transeval)) webpage.

California State University

The California State University offers instruction to undergraduate and master's degree students in the liberal

arts and sciences, applied fields, and professions, including teaching. Nearly 1,500 degree programs in 240 subject areas are offered. CSU assigns high priority to California community college transfer students who have completed the first two years of their baccalaureate program, including those applying for impacted programs.

The California State University has twentythree campuses: Bakersfield, California Maritime Academy, Channel Islands, Chico, Dominguez Hills, Fresno, Fullerton, East Bay (Hayward), Humboldt, Long Beach, Los Angeles, Monterey Bay, Northridge, Pomona, Sacramento, San Bernardino, San Diego, San Francisco, San Jose, San Luis Obispo, San Marcos, Sonoma and Stanislaus.

University of California

The University of California offers bachelor's, master's and doctoral degree programs in a broad array of subject areas. Last year, more than 6,000 students transferred from California's community colleges to the University, and more than one-fifth of UC's bachelor degrees were awarded to students who started out at a community college. The University is encouraging even more community college students to take this step in the coming years.

The University of California has a long-established relationship with College of San Mateo and has developed several special programs to help community college students with the transfer process. The University's articulation agreements with CSM make it possible for prospective transfer students to select appropriate courses. Community college students receive priority consideration for transfer admission. The Intersegmental General Education Transfer Curriculum allows prospective transfer students to satisfy the lower division breadth/general education requirements of any UC campus before transferring.

While all of the campuses have similar requirements for undergraduate admission, they differ in size, enrollment, and in academic programs offered. In addition, the campuses vary in styles of campus life, with student populations reflecting a variety of cultures from the United States and abroad. The University of California includes nine general campuses: Berkeley, Davis, Irvine, Los Angeles, Merced, Riverside, San Diego, Santa Barbara, and Santa Cruz. A tenth campus in San Francisco offers graduate and professional programs in the health sciences.

California Independent Colleges and Universities

There are more than 300 privately supported (or independent) degree-granting colleges and universities in California. Independent institutions enroll about one-quarter of all students attending four-year colleges and universities in California. The most distinctive feature of California's accredited independent colleges and

universities is their diversity of character, academic emphasis, and programs. They include both religious and secular institutions, non-profit and profit-making institutions, and professional schools that offer only a single occupational specialty as well as universities offering a full array of bachelor's, master's, and doctoral degree programs.

When choosing from among the privately supported colleges and universities in California, you may wish to review the type of certification a particular institution has received. Note: In selecting a California independent college or university, students are advised to give first priority to those institutions which are fully accredited by the Western Association of Schools and Colleges. If you would like more information about the certification process as specified in California's Education Code, please contact the California Postsecondary Education Commission at (916) 445-1000.

CSM Courses Transferable to the California State University System (CSU)

The following is a list of courses designated by College of San Mateo Curriculum Committee as appropriate for baccalaureate credit. The courses are accepted by all California State Universities as applicable toward a baccalaureate degree.

Use the [ASSIST \(assist.org\)](https://assist.org) website as the most reliable and up-to-date resource to determine how course credit earned at College of San Mateo can be applied when transferred to the CSU system and individual colleges within the system. On the ASSIST website the following information is essential for transfer planning.

- Lists, by catalog year, of CSM courses that are transferable to CSU
- Lists, by catalog year, of CSM courses that can be applied to CSU General Education Certification.
- Lists, by catalog year, of CSM courses that can be applied to lower division major requirements for CSU campuses and majors
- Lists, by catalog year, of CSM to CSU course equivalencies
- Lists, by catalog year, of CSM courses that can be applied to meet the CSU graduation requirement for US History, Constitutions, and California State and Local government
- C-ID course designations for CSM

IMPORTANT: There are instances when a CSM course is approved for a CSU GE area or lower division major preparation but the same course at one of our sister colleges (Skyline College or Cañada College) is not approved and does not carry the same articulation. View the CSU information for the college in which you are enrolled in the course to confirm the articulation.

Intersegmental General Education Transfer Curriculum (IGETC)

Standards, Policies, and Procedures

Students are advised to use the information below in consultation with a community college counselor.

Completion of the IGETC will permit a student to transfer from a California Community College to a California State University or University of California campus without the need, after transfer, to take additional lowerdivision, general education courses to satisfy campus general education requirements. It is strongly recommended that students complete IGETC prior to transfer. Advantages of completing IGETC include more flexibility in class selection at the university and timely progress to degree completion. However, individual colleges or majors within a CSU or UC campus may not accept IGETC for meeting general education. A list of those UC colleges and majors can be found on the [UC \(admission.universityofcalifornia.edu\)](https://admission.universityofcalifornia.edu) website.

Students transferring to a CSU with a completed IGETC will still need to complete 9 semester units of upper division general education and may be held to other campus

specific graduation requirements outside of general education and major coursework.

Completion of IGETC is not an admissions requirement or admission guarantee for transfer, nor is it the only way to fulfill lower division general education requirements prior to transfer. For student applying only to the CSU system, the CSU GE pattern is a better choice. For the UC system, each school and college at every campus has its own set of requirements, accounting for more than 40 general education patterns within the UC system. Using IGETC is often the better option, especially for those applying to more than one UC campus or for students applying both to CSU and UC campuses. Engineering students and students completing majors that have high lower division unit requirements are advised to focus on completing the premajor requirements while meeting minimum admissions requirements and to speak with a community college counselor.

It is the student's responsibility to request IGETC Certification. A student may be IGETC certified if he/she has completed coursework at the California Community College(s) without regard to current enrollment status or number of units accrued at a CCC. The last CCC attended for a regular (fall or spring) semester/quarter provides the certification upon request.

Students who enroll at a UC or CSU campus, then leave and attend a community college, and subsequently return to a different UC or CSU campus may use IGETC. Students who initially enroll at a UC or CSU campus, then leave and attend a community college, and subsequently return to the same campus are considered "readmits" and cannot use IGETC. Questions should be directed to the specific UC or CSU campus.

Foreign courses may be applied to IGETC if the foreign institution has United States regional accreditation and if the certifying community college carefully evaluates coursework equivalency. All other foreign coursework cannot be applied to IGETC. However, IGETC allows eligible foreign coursework completed at a non-US institution to be applied to Area 6. College Board Advanced Placement Exams (AP) and International Baccalaureate Exams (IB) may be applied to IGETC as noted by the charts on the Advanced Placement Exams (AP) page and the International Baccalaureate Exams (IB) page.

A course must have a minimum unit value of 3 semester or 4 quarter units to meet IGETC requirements. A minimum "C" grade is required in each college course for IGETC. The [ASSIST \(assist.org\)](http://assist.org) website identifies how coursework completed at any California Community College is applied to IGETC certification. Courses from all other United States regionally accredited institutions are carefully reviewed for equivalency (course content, prerequisites, texts, units), and placed, if approved, in the same subject areas as those for the community college completing the certification. Usually, IGETC Area 1B is not met with courses completed outside

of the California Community College system since few courses meet the specific composition and critical thinking components unique to this requirement.

Full certification is defined as successfully completing all IGETC area courses required by the specific transfer system (UC or CSU). Partial certification is defined as completing all but two courses on the IGETC pattern. The student petitions for certification and the complete or partial certification is sent by the CCC to the UC or CSU. It is the responsibility of the UC or CSU campus to inform a student that has submitted a partial certified IGETC of the specific timelines, conditions, and courses needed to complete the IGETC. The UC or CSU is then responsible for verifying that the missing IGETC course(s) have been completed.

Area 6, Language Other Than English (LOTE), competence may be demonstrated through one of the following mechanisms and official documentation is required.

1. Satisfactory completion to two years of high school coursework of the same language other than English, with a grade of C or better in each course.
2. Completion of an coursework approved to meet competency listed on the community college IGETC pattern under area 6.
3. Satisfactory completion, with C grades or better, of two years of formal schooling at the sixth grade level or higher in an institution where the language of instruction is not English.
4. Satisfactory score on the SATII: Subject Test in languages other than English. Before May 1995 use the first score and if taken after May 1995 use the 2nd score:
Chinese with listening: 500/520
Hebrew (Modern): 500/470
Korean/Korean with listening: /500
French/French with listening: 500/540
Italian: 500/520
Latin: 500/530
German/German with listening: 500/510
Japanese with listening: 500/510
Spanish/Spanish with listening: 500/520
5. Satisfactory score, 3 or higher, in the College Board Advanced Placement examinations in languages other than English.
6. Satisfactory score, 5 or higher, in the International Baccalaureate Higher Level Examinations in language other than English.
7. Language other than English "O" level exam with grade of A, B, or C.
8. Language other than English International "A" Level exam with a score of 5, 6, or 7
9. Seventh and eighth grade courses with grades of C or higher MAY be considered if the courses are approved as comparable in content to those offered at the high school and the student begins the same language in high school at a higher level.

UC Transfer Admission Minimum Requirements

To be eligible for admission to UC as a transfer student, the following minimum criteria must be met.

1. Complete 60 units of UC transferable college credit with a GPA of at least 2.4 and no more than 14 units taken Pass/No Pass.
2. Complete two approved transferable college courses in English composition, 6 semester units.
3. Complete one approved transferable college course in mathematical concepts and quantitative reasoning, 3 semester units.
4. Complete four approved transferable college courses chosen from at least two of the following subject areas: the arts and humanities, the social and behavioral sciences, and the physical and biological sciences, 12 semester units.

Transfer Selection Criteria

When the number of applicants to a particular campus or major exceeds the number of available spaces, as is often the case, the campus has to choose among qualified students. In this case, the minimum requirements will not result in admissions, and the campus looks at "selection" criteria. Selection criteria includes completion of lower division major requirements, achieving a grade point average higher than 2.4 and that is competitive with other high achieving applicants, and completing lower division general education requirements. In addition, some colleges and majors have specific GPA requirements for certain courses, or other unique requirements associated with the college or major. Finally, using a process called comprehensive review, admission officers look beyond the required coursework and grades to evaluate applicants' academic achievements in light of opportunities available to them and the capacity each student demonstrates to contribute to the intellectual life of the campus. More information is usually available on the ASSIST website and the university website.

CSM Courses Transferable to the University of California System (UC)

Use the [ASSIST \(assist.org\)](https://assist.org) website as the most reliable and up-to-date resource to determine how course credit earned at College of San Mateo can be applied when transferred to the UC system and individual colleges within the system. The UC TCA will also note course and credit limitations. An example of a UC TCA limitation that is noted on the ASSIST website is "no credit is granted for Biology 100 or 110 if taken after Biology 230." On the ASSIST

website the following information is essential for transfer planning:

- Lists, by catalog year, of CSM courses that are transferable to UC
- Lists, by catalog year, of CSM courses that can be applied to IGETC (Intersegmental General Education Transfer Curriculum) for UC and CSU General Education Certification
- Lists, by catalog year, of CSM courses that can be applied to lower division major requirements for UC campuses and majors
- Lists, by catalog year, of CSM to UC course equivalencies

IMPORTANT: There are instances when a CSM course is approved for an IGETC area or lower division major preparation but the same course at one of our sister colleges (Skyline College or Cañada College) is not approved and does not carry the same articulation. View the UC information for the college in which you are enrolled in the course to confirm the articulation.

WHEN TO APPLY FOR ADMISSION TO THE UNIVERSITY OF CALIFORNIA AS A TRANSFER STUDENT

To ensure that you will be considered for admission to the UC campus you want to attend, you must file your online* application for admission during the appropriate filing period. You may apply to any number of the ten undergraduate campuses using a single application. For further transfer information, visit [Transfer Services \(collegeofsanmateo.edu/transfer\)](http://collegeofsanmateo.edu/transfer) website (College Center Building 10, Room 340; (650) 358-6839). For UC transfer information visit the [UC Admission Transfer \(admission.universityofcalifornia.edu/transfer\)](http://admission.universityofcalifornia.edu/transfer) website.

*Note: To apply for admission visit the [UC Admission Apply \(universityofcalifornia.edu/apply\)](http://universityofcalifornia.edu/apply) website.

CSU GE Advising

California State University General Education (CSU GE)

Transfer students should review the [ASSIST \(assist.org\)](http://assist.org) website for the most accurate list of approved CSU GE courses and for a list of lower division courses required for a major. In addition, use counseling services to review all transfer requirements—general education, major, units, campus/major selection criteria, and GPA, and to determine if an Associate Degree for Transfer/SB 1440 is suggested to improve transfer success. (See page 68 for more information about the Associate Degree for Transfer/SB1440.) Full CSU GE CERTIFICATION provides official recognition that the GE portion of transfer requirements has been completed and it permits students to transfer from College of San Mateo to any California State University campus without having to take additional lower-division general education courses after transfer. As the last step in the transfer process, students should request a CSU GE CERTIFICATION be sent with the final transcript to the transfer destination. The Office of Enrollment Services is responsible for transcripts and certifications. Students with coursework from other colleges or universities within the United States should use the CSM Transcript Evaluation service to determine if and how prior coursework can be applied to CSU GE certification.

To track the courses you have completed for certification, the [CSU GE Worksheet \(collegeofsanmateo.edu/forms/docs/counseling/CSUGE_Worksheet_19-20.pdf\)](http://collegeofsanmateo.edu/forms/docs/counseling/CSUGE_Worksheet_19-20.pdf) is available online or on pages 407-8 of the 2019-2020 Catalog PDF.

Use DegreeWorks to monitor progress to CSU GE completion

Within [WebSMART \(collegeofsanmateo.edu/websmart\)](http://collegeofsanmateo.edu/websmart) under Student Services, students can find DegreeWorks. DegreeWorks is a web-based tool to help students monitor progress toward multiple educational goals.

Important information regarding CSU GE

1. Request a CSU GE CERTIFICATION, through the Admissions and Records Office to be sent to your transfer destination with your final transcript.
2. Courses listed in more than one area can be used to satisfy only one area, except for courses listed for Area D and U.S. History, U.S. Constitution and California State and Local Government. Any courses used to meet the U.S. History, U.S. Constitution and California State and Local Government requirement can be also used to meet GE Area D or C2.
3. Completion of CSU GE does not guarantee admission to any CSU campus.
4. A maximum of 39 units of lower division general education units required by CSU can be completed

at College of San Mateo. Of the 39 units, a maximum of 30 can be certified in Areas B, C, D, and E.

5. Courses applied to meet area A and B4 must be completed with a grade of C or higher (C- grades are not acceptable).
6. Outside of Areas A and B4, up to 9 units of a grade of D can be applied to CSU GE. However, if the campus or major in which you wish to transfer is competitive or selective, grades of D could negatively affect your admissions.
7. Transfer students pursuing a high unit major that requires extensive lower-division major preparation may not be able to complete all lower division general education requirements prior to transfer. Speak with a counselor about course selections.
8. Coursework from other accredited colleges/universities, other than California community colleges, may be approved as long as the courses meet CSU standards. However, the Critical Thinking requirement (Area A3) is a course developed with collaboration from the CSU, UC, and CCC systems and, typically, out of state courses will not be considered equivalent.
9. Generally, CSU campuses urge transfer students to complete all lower division general education and pre-major courses prior to transfer. Use the [ASSIST \(assist.org\)](https://assist.org) and [CSU \(calstate.edu/apply\)](https://calstate.edu/apply) websites as resources.

IGETC Advising Form Information

Intersegmental General Education Transfer Curriculum (IGETC)

Transfer students should review the [ASSIST \(assist.org\)](https://assist.org) website for the most accurate list of approved IGETC courses and for a list of lower division course required for a major. In addition, use counseling services to review all transfer requirements –general education, major, units, campus/major selection criteria, and GPA. Full IGETC CERTIFICATION provides official recognition that the GE portion of transfer requirements has been completed and permits students to transfer from College of San Mateo to any California State University or University of California campus without having to take additional lower-division general education courses after transfer. As the last step in the transfer process, students should request an IGETC CERTIFICATION be sent with the final transcript to the transfer destination. The Office of Enrollment Services is responsible for transcripts and certifications. Students with coursework from other colleges or universities within the United States should use the CSM Transcript Evaluation service to determine if and how prior coursework can be applied to IGETC certification.

To track the courses you have completed for certification, the [IGETC Worksheet \(collegeofsanmateo.edu/forms/docs/counseling/IGETC_Worksheet_19-20.pdf\)](https://collegeofsanmateo.edu/forms/docs/counseling/IGETC_Worksheet_19-20.pdf) is available online or on pages 409-10 of the 2019-2020 Catalog PDF.

Use DegreeWorks to monitor progress to IGETC completion

Within [WebSMART \(collegeofsanmateo.edu/websmart\)](https://collegeofsanmateo.edu/websmart) under "Student Services," students can find DegreeWorks. DegreeWorks is a web-based tool to help students monitor progress to IGETC completion and other goals.

Important information regarding completing IGETC

1. The IGETC certification permits students to transfer from College of San Mateo to any campus of the California State University (CSU) or University of California (UC) systems without having to take additional lower-division general education after transfer.
2. Completion of the IGETC is not an admission requirement or guarantee for transfer to CSU or UC, nor is it the only way to fulfill lower-division general education requirements for CSU or UC prior to transfer. Engineering students and students completing majors with high lower division unit requirements are advised to focus on completing the pre-major requirements while meeting minimum admission requirements.
3. Courses listed in more than one area can be used to satisfy only one area unless noted otherwise.
4. All courses applied to IGETC must be completed with a grade of C or higher (C- grades are not acceptable).
5. Students who enroll at a UC or CSU campus, then leave and attend a community college, and subsequently return to a different UC or CSU campus MAY use IGETC.
6. Students who initially enroll at a UC campus, then leave and attend a community college, and subsequently return to the same campus are considered "readmits" by the UC. Such students cannot use the IGETC.
7. If the Language Other than English Requirement was satisfied in high school, the student's official high school transcript must be submitted prior to certification.
8. Coursework from other accredited colleges/universities, other than California community colleges, may be approved as long as the courses meet IGETC standards; the exception is Area 1B (Critical Thinking).
9. Be sure to request IGETC certification with your final transcripts to be sent to your choice of university or college.
10. The IGETC is not advisable for all transfer students.

- UC Berkeley - Haas School of Business and colleges of Engineering, Environmental Design and Chemistry have extensive prescribed major prerequisites and IGETC is not appropriate preparation for majors in these colleges.
- UC Los Angeles - The Henry Samueli School of Engineering and Applied Science does not accept IGETC.
- UC Riverside - The Marlan and Rosemary Bourns College of Engineering accepts completion of IGETC but additional breadth coursework may be required after enrollment. College of Natural/Agricultural Science does not accept IGETC.
- UC San Diego - Eleanor Roosevelt and Revelle Colleges accept IGETC but additional general education coursework will be required after transfer.
- UC Santa Cruz - Transfer students pursuing any major in the physical and biological sciences or the Jack Baskin School of Engineering should not follow IGETC as it will not provide them with lower division preparation for their majors.

Associate Degree Requirements

AA/AS Degree Requirements

The awarding of an associate degree is intended to represent more than an accumulation of units. It is to symbolize a successful attempt on the part of the college to lead students through patterns of learning experiences designed to develop certain capabilities and insights.

Among these are the ability to think and to communicate clearly and effectively both orally and in writing; to use mathematics; to understand the modes of inquiry of the major disciplines; to be aware of other cultures and times; to achieve insights gained through experience in thinking about ethical problems; and to develop the capacity for self-understanding. In addition to these accomplishments, the student shall possess sufficient depth in some field of knowledge to contribute to lifetime interest.

Graduation from College of San Mateo with the Associate in Arts or Science degree is based upon the completion of 60 units of lower-division college-level work. A student pursuing an associate degree must declare a major field of study. The major is comprised of specific courses within a discipline or related discipline as specified by the appropriate division and recorded in the college catalog. A list of College of San Mateo degree programs, with courses and units required for each major, can be found in the catalog. A minimum of 18 units must be completed in a major. Some majors require more than 18 units. Courses applied to the major may also be applied to meet general education requirements. A student must pass all required major courses with a grade of "C" or higher. Either 12 units or 50% of the units applied to the major, whichever is fewer, must be completed at College of San Mateo. A maximum of 12 units from courses in which the student has elected a Pass/No Pass option may be applied toward an associate degree. An application for the degree must be filed in the Office of Admissions and Records during the last semester of attendance (refer to calendar for the college year for deadline).

To track the courses you have completed for certification, the [Associate in Arts/Science Degree Requirements Worksheet](https://collegeofsanmateo.edu/forms/docs/counseling/AAAS_DegreeWorksheet_19-20.pdf) (collegeofsanmateo.edu/forms/docs/counseling/AAAS_DegreeWorksheet_19-20.pdf) is available online or on pages 411-12 of the 2019-2020 Catalog PDF.

Philosophy of General Education

Central to an associate degree, General Education is designed to introduce students to the variety of means through which people comprehend the modern world. It reflects the conviction of colleges that those who receive their degrees must possess in common certain basic principles, concepts and methodologies both unique to and shared by the various disciplines. College educated persons

must be able to use this knowledge when evaluating and appreciating the physical environment, the culture, and the society in which they live. Most importantly, General Education should lead to better self-understanding.

Student Catalog Rights

Graduation requirements are listed in the Catalog. Each catalog covers an academic year that reflects enrollment beginning with the fall term and includes subsequent spring and summer terms. Having "catalog rights" means students are held to the graduation requirements listed in the catalog at the time enrollment begins. Students may choose to use catalog rights for any subsequent year of continuous enrollment at Cañada College, College of San Mateo, and Skyline College. Catalog rights apply to enrollment in any of the San Mateo County Community College District colleges.

For the purpose of this policy, "continuous enrollment" means attending at least one term (fall, spring, summer) each academic year. Attendance is required through the fourth week of instruction for semester length classes or thirty percent (30%) of summer classes and semester classes that are shorter than the full semester.

Catalog rights gained at a college outside of the San Mateo Community College District are not applicable at Cañada College, College of San Mateo, or Skyline College.

Catalog rights cannot supersede any State or Federal Regulation or requirement in effect at the time of graduation.

Additional Associate Degrees and Certificates

A student may earn multiple associate degrees and certificates from College of San Mateo. Each additional degree and Certificate of Achievement will be posted to the student's academic record and the student will receive diplomas for each degree and Certificate of Achievement earned. For additional degrees and certificates any course used to meet the prescribed graduation requirements may count toward more than one degree and certificate. Courses used for one major may be used to meet requirements for additional majors. Courses used to meet the competency requirements and general education requirements for the first degree may be used to fulfill these requirements for additional degrees, provided the student has maintained "continuous enrollment" (see Graduation Requirements and Student Catalog Rights). If a break in enrollment occurs, a student must comply with the competency, general education, and major requirements in effect at the time the student resumes attendance or those in effect in subsequent years of the student's enrollment.

Students are strongly advised to use the transcript evaluation service to determine how course work from other colleges/universities can help them pursue an associate degree from College of San Mateo in addition to their bachelor degree. Please visit our Transcript Evaluation Services page or in-person (College Center Building 10, Room 310; 574-6234) or visit the [District Transcript Evaluation \(smccd.edu/transcript\)](http://smccd.edu/transcript) website.

Bachelor Degree to Associate Degree

A pathway to the associate degree for students who have already achieved a bachelor degree

Students who wish to pursue an associate degree at College of San Mateo and have already been awarded a bachelor degree from a regionally accredited college or university in the United States may be exempt from College of San Mateo local associate degree general education requirements. This pathway does not apply to Associate Degrees for Transfer (AA/AS-Ts). Students must still complete a minimum of 12 units in residence at College of San Mateo. For the major, at least 50% or 12 units (whichever is less) of courses applied to the major must be completed in residence at College of San Mateo. All other local requirements may be waived if the completed bachelor degree includes coursework that fulfills the Title 5 minimum requirements for the associate degree as noted below.

Title 5 Associate Degree Requirements

1. Minimum of 60 units of lower division degree applicable coursework
2. Completion of Freshman Composition (English 100 equivalent at CSM)
3. Completion of Intermediate Algebra or higher level math course (Math 120 or higher equivalent at CSM)
4. Completion of at least 12 units in residence at College of San Mateo
5. Completion of at least 12 units or 50% of the major, whichever is less, completed in residence at CSM.
6. Completion of 18 units of general education: 3 semester unit course in Natural Science; 3 semester unit course in Social and Behavioral Science, 3 semester unit course in Humanities; 6 semester units in Language and Rationality; one additional 3 unit course in the aforementioned areas.

Students are strongly advised to use the transcript evaluation service to determine how course work from other colleges/universities can help them earn multiple associate degrees and certificates from College of San Mateo. Please visit our Transcript Evaluation Services page or in-person (College Center Building

10, Room 310; 574-6234) or visit the [District Transcript Evaluation \(smccd.edu/transeval\)](http://smccd.edu/transeval) webpage.

Course Substitutions for Associate Degree and Certificate Requirements

Courses required to meet certificate programs and associate degrees are listed in the College Catalog. Course substitutions are not approved if the required courses or course options are available and offered on a regular or rotating basis. A course substitution would be appropriate if the student has catalog rights for an earlier catalog and the required course listed in the earlier catalog is no longer offered. For more information go to the [Counseling Forms \(collegeofsanmateo.edu/forms/counseling.asp\)](http://collegeofsanmateo.edu/forms/counseling.asp) webpage and view the Course Substitution Form.

Associate Degrees for Transfer (AA-T or AS-T) at College of San Mateo

As a result of the Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749), California community colleges now offer associate degrees for transfer to the California State University (CSU) system. These degrees are referred to as Associate in Arts for Transfer (AA-T) or Associate in Science for Transfer (AS-T). The degrees are designed to provide students with a clear educational planning pathway to a CSU major and baccalaureate degree. California community college students who are awarded an AA-T or AS-T degree are guaranteed admission to a California State University campus with junior standing and given priority admission consideration to their local CSU campus and to a program that is deemed similar to their AA-T or AS-T major. This priority does not guarantee admission to any specific majors or campuses within the CSM system. In addition to transfer priority, the SB 1440/AA/AS-T opportunity allows students who have been awarded an AA-T or AS-T the guarantee that, to complete their remaining requirements for the 120-unit baccalaureate degree, they need only to complete an additional selected 60 semester units of course work at the CSU.

Currently available AA/AS-T degrees are listed on [AA/AS Degree and the Certificate Programs page \(collegeofsanmateo.edu/forms/docs/counseling/AATAST_DegreeWorksheet_19-20.pdf\)](http://collegeofsanmateo.edu/forms/docs/counseling/AATAST_DegreeWorksheet_19-20.pdf).

To track the courses you have completed for certification, the [Associate in Arts/Science for Transfer Degree Requirements Worksheet \(collegeofsanmateo.edu/forms/docs/counseling/AATAST_DegreeWorksheet_19-20.pdf\)](http://collegeofsanmateo.edu/forms/docs/counseling/AATAST_DegreeWorksheet_19-20.pdf) is available online or on page 413 of the 2019-2020 Catalog PDF.

For more information about SB 1440 – Associate Degrees for Transfer go to the [California Community Colleges \(sb1440.org\)](https://www.sb1440.org) website.

Career and Technical Education

Career and Technical Education

Career and Technical Education programs are offered in many fields (visit AA/AS Degree and the Certificate Programs page for full list) for students planning to prepare for gainful employment. Advisory committees composed of representatives from the business and industrial community provide consultation to college faculty and staff.

Two-Year Career and Technical Programs: AA or AS Degree

Most two-year programs lead to an Associate in Arts or Associate in Science degree. Many of the units earned in career and technical programs are accepted by four-year colleges as meeting certain requirements.

Certificate Programs

Certificates are awarded upon successful completion of selected career and technical programs and upon application to the Office of Admissions and Records. Some certificates require less than two years of full-time study. To be eligible for a certificate, a student must pass all required certificate courses with a grade of C or higher, unless specified otherwise (see specific program) a maximum of 6 units from courses in which the student has elected a Pass/No Pass option may be applied toward a certificate. At least 50% of the units required for a certificate must be taken at College of San Mateo.

Certificate requirements for an individual student are those listed in the College of San Mateo Catalog of the year in which the student begins studies at CSM. Those requirements may be followed throughout the student's course of study. However, if a break in attendance occurs before the certificate is earned, the certificate requirements shall become those listed in the College Catalog which is current at the time studies are resumed.

Certificates may be earned through day or evening part-time or full-time enrollment.

Certificates of Achievement

The higher of the two levels of certificates, Certificates of Achievement, are awarded upon successful completion of 16 units or more in designated courses. These certificates appear on transcripts

Certificates of Specialization

Certificates of Specialization are awarded upon successful completion of designated courses (fewer than 16 units, not state approved) in a specific discipline. Some Certificates

of Specialization can be earned in eight- or sixteen-week accelerated programs that prepare students for entry-level positions. These certificates do not appear on transcripts.

Gainful Employment Disclosure Information

Final regulations published in the Federal Register on October 29, 2010, [75 FR 66665 and FR 66832], by the U.S. Department of Education, require all institutions that participate in the student financial assistance programs authorized under Title IV of the Higher Education Act of 1965, to report certain information about students who enrolled in Title IV-eligible educational programs that lead to gainful employment in a recognized occupation. College of San Mateo's report on educational programs leading to gainful employment is available on each Title IV-eligible educational program's webpage. For a full listing of programs, visit the [Degrees & Certificates \(collegeofsanmateo.edu/degrees\)](http://collegeofsanmateo.edu/degrees) website.

Program Planning and Enrollment Management

Students enrolling at College of San Mateo should plan a program of study that will meet their educational and career goals. All enrolled students have access to counseling services and should consult with a counselor early in the educational process for guidance and academic planning assistance. Students often have multiple goals and plan to complete a college certificate, an Associate degree, and/or transfer to a university to complete a Baccalaureate degree.

If in the course of enrollment at College of San Mateo, students find it advisable to change their program of study or educational goal, they may do so. These changes should be discussed with a counselor and students should be aware that any changes may result in extending the time necessary to fulfill the certificate or degree or transfer requirements. Ultimately, students maintain full responsibility for planning their educational programs and for their enrollment management.

Students are responsible to maintain current and accurate information in their [WebSMART \(collegeofsanmateo.edu/webSMART\)](http://collegeofsanmateo.edu/webSMART) accounts and update personal contact information, educational goal information, manage registration and enrollment, retrieve grades and placement test results, and monitor academic standing.

Transfer Opportunities: Subject Areas and Majors

Transfer Opportunities: Subject Areas and Majors

College of San Mateo enables students to complete lower-division preparation (i.e., the first two years of the baccalaureate degree) in the following subject areas and majors offered at California's public and private universities, including all campuses of the University of California (UC) and the California State University (CSU). Upon completion of lower division requirements, CSM students are eligible for transfer admission to colleges and universities that offer these programs and majors. The following is only a partial list. For more information about transfer majors, please visit the [Transfer Services \(collegeofsanmateo.edu/transfer\)](https://collegeofsanmateo.edu/transfer) website, the [California Postsecondary Education Commission \(cpec.ca.gov/CollegeGuide/CollegeGuide.asp\)](https://cpec.ca.gov/CollegeGuide/CollegeGuide.asp) website or the [ASSIST \(assist.org\)](https://assist.org) website.

University Transfer Program

Use [Assist \(assist.org\)](https://assist.org) to identify lower division major preparation for the California State University and the University of California systems. Transfer majors may be listed as Administration of Justice, Criminal Justice, Criminology, Law and Society, or other listings. For independent or out-of-state colleges and universities use

their catalogs to locate this information. Transfer Services can assist you to gather this information.

About the Program

The Administration of Justice Program prepares students for jobs in the field of criminal justice. The program at CSM is designed to educate students on the many aspects of justice administration – from the human, social and moral problems to the larger scope of justice systems.

Through the expertise of the faculty and the exposure to professional personnel from the criminal justice system, students can expect to be prepared for a career in various fields including criminal justice, law enforcement, corrections, social services, probation, and law.

The criminal justice system offers employment in various municipal, county and state agencies in California, to individuals who have the ability to work well with all types of people, observe details others might miss, and make sound decisions in times of crisis.

The two-year degree covers a broad range of information and professional skills in criminal law, corrections, and the American justice system. While this degree is intended for transfer, it also may lead to employment or advancement within the justice system. Students planning to transfer to a four-year university should complete the Associate Degree.

The Art major with an Art History emphasis is designed for students who wish to pursue the study of the visual arts in a social, political, philosophical and cultural context as a foundation for understanding human history and creativity. The study of art history develops a greater sensitivity to art-related issues, the ability to think critically about art and history, and to appreciate the artistic expression of varied cultures and civilizations. Completion of the AA degree in Art with an emphasis in Art History exposes students to the major stylistic periods of Western European, American and Asian Art & Architecture and provides a firm basis for continued study in the fields of art history.

Career Opportunities

Career opportunities include the following: college professor, K-12 teacher, arts administrator, museum or gallery curator, corporate art advisor, museum docent, slide librarian, consultant on historical period styles for film and TV production, museum conservator, historical conservationist, art critic or writer, tour guide, travel consultant, research assistant, and art dealer.

Program Learning Outcomes

Students completing this program will be able to:

1. Identify major monuments and movements in the history of art.
2. Identify and describe stylistic characteristics in order to place works of art in their historical and stylistic context.
3. Apply critical analysis to compare and contrast works of art.
4. Relate works of art to the societies in which they were created.
5. Critique in an original manner, using the appropriate language of art, the form and content of works of art.

General Education - certified completion of one of the following:

- California State University General Education-Breadth pattern (CSU GE Breadth),
- **OR**
- Intersegmental General Education Transfer Curriculum (IGETC/CSU) pattern

Elective courses: If applicable, additional courses to meet the minimum 60 CSU transferable units requirement.

Please refer to Associate Degree for Transfer (ADT) Requirements for more information.

AA-T Studio Art

The Associate in Arts for Transfer (AA-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T) are guaranteed admission to the CSU system, but not to a particular campus or major. This degree may not be the best option for students intending to transfer to a particular CSU campus or to university or college that is not part of the CSU system. Students should consult with a counselor when planning to complete the degree for more information on university admission and transfer requirements.

The Associate in Arts in Studio Arts for Transfer will prepare students for transfer into bachelor's degree programs in Studio Arts and similar majors. Students gain historical and contemporary perspectives on the creation of art, the ability to analyze and understand compositional structure, and hands-on skills working in a variety of media.

Art majors find employment in a variety of fields, which include advertising, manufacturing, industrial design, public relations, and communications. Experienced artists frequently specialize in a particular product or field such as fashion, industrial art, advertising, or story illustration.

Career Opportunities

Career opportunities include advertising manager, antique dealer, architect, art administrator, art therapist, art critic, art dealer, art historian, cartoonist, ceramicist, commercial ceramicist, community artist, computer artist, computer graphics illustrator, computer publisher, design consultant, curator, display designer/manager, fashion/floral/interior designer, educator, gallery director, graphic artist, illustrator, jewelry designer, layout artist, muralist, museum technician, painter, photographer, police artist, printmaker, set designer, sculptor, and visual information specialist.

Program Learning Outcomes

Students completing this program will be able to:

1. Exhibit visual literacy and critical thinking through communication, analysis, and reflection on artworks and the concepts and influences from which artworks originate.
2. Possess physical/technical skills within an art/design based medium to be used as tools for creative expression.

Major Requirements

Required Core Course: 15 units		Units

CA Astroimaging and Observatory Operation (AOOC)

Gainful employment information for this certificate can be found [online \(collegeofsanmateo.edu/gedi/docs/astr-ca-aoc.pdf\)](https://collegeofsanmateo.edu/gedi/docs/astr-ca-aoc.pdf).

At the heart of astronomy research are observatory operations and astroimaging techniques. Observatories all around the world are in need of technicians who can fulfill those tasks. Yet there are not many institutions that can provide the necessary training for such technicians. The College of San Mateo Astronomy Department, with its roll-off-roof observatory, containing a wide selection of refracting and reflecting telescopes, as well as various imaging instrumentation, provides the training for students, who would like to pursue such a career. The students' training is enriched by access to a well-equipped forty-foot domed, state-of-the-art planetarium, along with a dedicated faculty and staff, active in astronomical research. This program is designed to introduce the students to the operation of various telescopes and to the implementation of important astroimaging techniques such as spectroscopy and photometry, along with sophisticated software to process images. While the learning of the techniques is hands-on, the underlying principles are emphasized. Furthermore, this certificate program is designed such that students can, with a slight modification, apply the course

load of this program toward higher degrees in astronomy or astrophysics.

Career Opportunities

Most of the courses in this program are aligned with the requirements for transfer. In addition, upon completion of this program, the student is qualified to operate any observatory and to be employed to gather and analyze astronomical data for different institutions, or apply for a higher degree in astronomy.

Program Learning Outcomes

Students completing this program will be able to:

1. Operate and control various types of telescopes, such as refractors, reflectors, and Schmidt-Cassegrains.
2. Understand the basic physics and operation of various types of observatory equipment, including CCD cameras and spectrographs.
3. Use and understand the various image acquisition, analysis, and reduction programs.
4. Image, do photometry, and take the spectra of various celestial objects including planets, stars, nebulae, and galaxies.

About the Program

Career opportunities for those who major in the Biological Sciences and obtain a Bachelor's or advanced degree include a variety of interesting occupations related mainly to biology, agriculture or medicine. Biological professions include anatomist, aquatic biologist, bacteriologist, biologist, biotechnologist, botanist, cytogeneticist, cytologist, ecologist, embryologist, entomologist, geneticist, herpetologist, ichthyologist, mammalogist, marine biologist, microbiologist, molecular biologist, morphologist, mycologist, ornithologist, paleobotanist, paleozoologist, parasitologist, pathologist, pharmacologist, photobiologist, phycologist, physiologist, protozoologist, systematist, taxonomist, toxicologist, tropical biologist, virologist, wildlife biologist, and zoologist.

Many biologists are educators as well as scientists. Biologists are also employed as forensic scientists,

illustrators, museum specialists, naturalists, photographers, and science writers/editors. Agricultural professions include agricultural biologist, agrigeneticist, animal scientist, apiculturist, farmer/farm manager, field crop manager, fish and game warden, food technologist, foresters/forestry technicians, horticulturist, plant and animal breeder, plant and animal physiologist, plant quarantine/ pest control inspector, range scientist, and soil scientist/conservationist.

Medical professions include audiologist, chiropractor, coroner, dentist, exercise physiologist, health care administrator, medical laboratory technologist/technician, medical librarian, nurse, nutritionist, optometrist, pharmacist, physician, podiatrist, public/ environmental health specialist, sanitarian, speech pathologist, and veterinarian. Additional medical careers include specialists in sports medicine, and manual arts, music, occupational, physical, and recreational therapists.

AS Biology

The Biology AS degree satisfies requirements for students to transfer into bachelor's degree programs in most Biology majors at U. C. campuses. Students should be sure to check the UC website for an explanation of IGETC for STEM.

Program Learning Outcomes

Students completing this program will be able to:

1. Explain the scientific method and its applications, and use the scientific method in a laboratory setting.
2. Explain the principle of evolution as a fundamental process of all biology.
3. Describe how structure and function are related at all levels of life.
4. Demonstrate proficiency in basic lab skills and analysis.

Major Requirements

Required Core Courses: 24 units		Units
BIOL 210	General Zoology	5 units
BIOL 220	General Botany	5 units
BIOL 230	Introductory Cell Biology	4 units
CHEM 210	General Chemistry I	5 units
CHEM 220	General Chemistry II	5 units

Students with little or no high school preparation should complete BIOL 110, CHEM 192, MATH 110, and PHYS 100 prior to beginning major coursework.

Total Required Major Units: 24

And required General Education coursework and electives as needed to meet the minimum 60 units required for the Associate degree.

AS Biology: Pre-Nursing

The Biology degree in Pre-Nursing prepares students to transfer to a four-year program at a baccalaureate institution. Upon completion of a Bachelor of Science in Nursing, graduates choose from first level professional nursing staff positions in specializations which include community health, geriatrics, maternity, mental health, pediatrics, psychiatry, and surgery.

Note that for College of San Mateo's Nursing Program CHEM 410 is the specific chemistry prerequisite. Be sure to check the specific prerequisites for other Nursing Programs.

AS-T Nutrition and Dietetics

The AS-T major in Nutrition and Dietetics prepares students for transfer into bachelor's degree programs in Nutrition and Dietetics and similar areas. Completion of this AS-T meets minimum eligibility for transfer to the California State University system.

Career Opportunities

Careers opportunities in health clubs, hospital and clinics, public and private schools, government organizations, health and welfare agencies, health and welfare promotion organizations, businesses, industry, research facilities, and teaching, are available to graduates in the field of Nutrition and Dietetics.

Program Learning Outcomes

Students completing this program will be able to:

1. Explain the principles of nutrition and their effect on health.
2. Demonstrate a fundamental understanding of health behaviors on nutritional and health status.
3. Assess the impact of age, culture and gender on diet and nutrition.
4. Describe food preparation, preservation, serving, and storage techniques that prevent food poisoning.
5. Design meal plans based on current nutritional guidelines.
6. Interpret current nutrition research.

Major Requirements

Required Core Courses: 15 units		Units

AS Building Inspection

Building Inspection is a critical component in the construction and maintenance of residential, commercial, multi-unit and specialty buildings within California. Each area critical to the proper quality of construction, safety of operation and durability over an appropriate time, is separately inspected, tested and certified as compliant with the International Building Code.

The responsibilities of building inspectors are reflected in the importance of their role in ensuring the safety of inhabitants during earthquakes, floods, and other emergency situations. The safety of firefighters entering buildings is increased by compliance with the building code requirements for proper installation of fire sprinklers and other safety measures. Employment is primarily within city, county and state agencies with some opportunities with larger real estate or construction organizations and has remained steady during the last decade.

Career Opportunities

Typical of real estate/construction related occupations, building inspection has some ebb and flow with economic cycles. However, this specialty area does not suffer the extreme peaks and valleys of employment found in general for real estate related industries. The need for building inspection services is not limited to new construction. Rather it is in demand for the great majority of remodel or updating projects, for re-inspection of properties that fall under new regulations and support of code violation enforcement. The employers are predominately government agencies and private firms that contract to government agencies, where the work is in consistent demand and is closely tied to the work of fire marshals, emergency preparedness services, etc. A snapshot of the employment demand in five Bay area Counties reveals that there were 2,215 jobs in 2016 (nationally there were 88,977 jobs), with a projected increase in the Bay Area of 15% over the next 7 years. The median hourly earnings are \$42.18/hour. Our students are frequently hired into Building Inspection Departments in San Mateo County. The majority of our instructors graduated from the CSM program and are currently building inspectors in either San Mateo, San Francisco or Santa Clara counties.

Program Learning Outcomes

Students completing this program will be able to:

1. Describe and discuss building inspection standards and testing criteria to assure quality construction.
2. Explain the intent of various code requirements.
3. Identify and explain graphics and terms of structural design and engineering.

CS Commercial Building Inspection

Building Inspection is a critical component in the construction and maintenance of residential, commercial, multi-unit and specialty buildings within California. Each area critical to the proper quality of construction, safety of operation and durability over an appropriate time, is separately inspected, tested and certified as compliant with the International Building Code.

The responsibilities of building inspectors are reflected in the importance of their role in ensuring the safety of inhabitants during earthquakes, floods, and other emergency situations. The safety of firefighters entering buildings is increased by compliance with the building code requirements for proper installation of fire sprinklers and other safety measures. Employment is primarily within city, county and state agencies with some opportunities with larger real estate or construction organizations and has remained steady during the last decade.

Career Opportunities

Typical of real estate/construction related occupations, building inspection has some ebb and flow with economic cycles. However, this specialty area does not suffer the extreme peaks and valleys of employment found in general for real estate related industries. The need for building inspection services is not limited to new construction. Rather it is in demand for the great majority of remodel or updating projects, for re-inspection of properties that fall under new regulations and support of code violation enforcement. The employers are predominately government agencies and private firms that contract to government agencies, where the work is in consistent demand and is closely tied to the work of fire marshals, emergency preparedness services, etc. A snapshot of the employment demand in five Bay area Counties reveals that there were 2,215 jobs in 2016 (nationally there were 88,977 jobs), with a projected increase in the Bay Area of 15% over the next 7 years. The median hourly earnings are \$42.18/hour. Our students are frequently hired into Building Inspection Departments in San Mateo County. The majority of our instructors graduated from the CSM program and are currently building inspectors in either San Mateo, San Francisco or Santa Clara counties.

Program Learning Outcomes

Students completing this program will be able to:

1. Describe and discuss inspection standards for each of the critical areas of commercial and multi-unit structures in California.
2. Explain the intent of the code requirements for the green and sustainable practices and materials in California.

Requirements

Required Core Courses: 13.5 units		Units
BLDG 710	Advanced Building Inspection	4.5 units

CS Business Information Worker

The Business Information Worker Certificate of Specialization is a job readiness pathway for office workers whereby enrolled students learn a broad range of entry-level office skills and applications which promote success in a variety of business office environments.

Career Opportunities

Enrolled students are prepared in a broad range of entry-level office skills and applications which promote success in a variety of office environments/general business, commerce positions, and lead to gainful employment outcomes. This certification facilitates the upward mobility of lower-wage office workers, to higher-wage white collar positions, and helps address Bay Region under-supply of such workers.

Program Learning Outcomes

Students completing this program will be able to:

1. Communicate effectively in a business office environment.
2. Conduct administrative tasks using contemporary cloud applications for business and spreadsheets using MS Excel.

The Certificate Program in Entrepreneurship & Small Business Management delivers cutting-edge curriculum for entrepreneurs with an existing small business, or those seeking to launch and operate one. The certificate program covers all stages of small business development: the entrepreneurial mindset, idea generation, the feasibility analysis, pitching to investors, designing the organization, marketing strategies, picking a location, and operations management. The certificate program also provides access to guest entrepreneurs whom are experts in their fields, and counseling at CSM's on-campus, Small Business Development Center, which is sponsored by the Small Business Administration.

Career Opportunities

This program will position students to be managers, owners, partners, and/or independent contractors for small business across a wide-spectrum of markets.

Program Learning Outcomes

Students completing this program will be able to:

1. Identify market opportunities.
2. Develop a comprehensive business plan.

AS Chemistry

The Chemistry major prepares students to transfer to four-year institutions for continued study in the field of chemistry.

Career Opportunities

While an A.S. degree may be sufficient for an individual to secure employment as an environmental technician, laboratory technician, safety manager, sanitarian, or water-quality analyst, most careers in the field require a B.S. or advanced degree. Analytical chemist, biochemist, biotechnologist, dentist, educator, forensic specialist, environmental/ industrial health engineer, pharmacist, physician, research chemist, and veterinarian are some of the careers for which an Associate degree in Chemistry prepares a student who subsequently obtains a university degree in the field. Approximately two-thirds of all chemists work for manufacturing firms. Chemists are also employed with federal, state and local governments, such as the departments of Defense, Health and Human Resources, and Agriculture. Some chemists work for research organizations and educational institutions.

Program Learning Outcomes

Students completing this program will be able to:

1. Demonstrate preparedness to transfer to a 4 year institution
2. Effectively explain general chemistry and organic chemistry theories and concepts. (Effective Communication)
3. Perform quantitative analysis relating but not limited to graphical and numerical data obtained from laboratory experiments, and apply general chemistry and organic chemistry theories to solve problems. (Quantitative Skill)
4. Critically analyze and apply general chemistry and organic chemistry concepts. (Critical Thinking)

University Transfer Program

Use [Assist \(assist.org\)](https://assist.org) to identify lower division major preparation for Computer and Information Science for the California State University and the University of California systems. For independent or out-of-state colleges and universities use their catalogs to locate this information. Transfer Services can assist you to gather this information.

About the Program

Computer and Information Science offers extraordinary career opportunities to individuals who possess fluency in the English language, solid keyboarding skills, and a desire to work with computers on a daily basis. Students in the Computer and Information Science program at CSM

are trained primarily on PC microcomputers and receive the finest training and experience available in areas such as programming, data communications, applications development, network support, end-user support, and hardware/systems support. This training is intended to lead to employment in the computing industry or transfer to a baccalaureate institution for continued study in the field and to provide advanced study for computing professionals.

Career opportunities include applied scientist, communications technician, computer maintenance technician, computer operator, data base specialist, documentation specialist, information specialist, Local Area Network (LAN) administrator, PC specialist, programmer, software engineer, software technician, systems analyst, systems test engineer, technician support representative, and as sales personnel skilled in marketing methods for computer systems. While some students secure employment following completion of the A.S. degree or Certificate program, many transfer to four-year universities to complete a Bachelor's degree in a computer-related field.

AS Computer Science Applications and Development

The Computer Science Applications and Development program prepares CSM graduates for entry-level programming positions with companies of all sizes. Program emphasis is on cultivating computer professionals who are technically competent and work well with others.

Career Opportunities

Career opportunities exist in numerous businesses and industries. Typical entry-level positions include programmer, database developer, Web developer, front-end developer, quality assurance and systems testing, and frequently involve working on project teams.

Program Learning Outcomes

Students completing this program will be able to:

1. Create and debug code for given specifications and write appropriate documentation.
2. Demonstrate a comprehensive understanding of one or more computer programming languages.
3. Demonstrate proficiency in using data analysis and data management tools.
4. Demonstrate proficiency in using one or more internet programming languages to design and implement a web based program.

AS Web and Mobile Application Development

The A.S. degree in Web and Mobile Application Development provides students with the specialized knowledge that is essential in the development of Web and mobile computer applications. Students will study and gain experience with the languages and frameworks that are most commonly used in developing these applications. They will also learn fundamental principles of Web and mobile development so that they will be prepared to work with current and emerging technologies.

Career Opportunities

Career opportunities exist in numerous businesses and industries. Typical entry-level positions include front-end developer, back-end developer, database administrator, mobile application developer, programmer, Web developer, and software tester.

Program Learning Outcomes

Students completing this program will be able to:

1. Identify, describe and apply best practices of Web application development.
2. Create standards-compliant, accessible Web documents using HTML, HTML5, CSS and JavaScript.
3. Utilize a server-side scripting language and a database to create a dynamic website.
4. Develop Web and mobile applications for a variety of platforms and mobile devices.

The Computer Science Applications and Development program prepares CSM graduates for entry-level programming positions with companies of all sizes. Program emphasis is on cultivating computer professionals who are technically competent and work well with others.

Career Opportunities

Career opportunities exist in numerous businesses and industries. Typical entry-level positions include programmer, quality assurance and systems testing, and frequently involve working on project teams.

Program Learning Outcomes

Students completing this program will be able to:

1. Create and debug code for given specifications and write appropriate documentation.
2. Demonstrate a comprehensive understanding of one or more computer programming languages.
3. Demonstrate proficiency in using data analysis and data management tools.
4. Demonstrate proficiency in using one or more internet programming languages to design and implement a web based program.
5. Communicate effectively orally, in writing and in media.
6. Work collaboratively and ethically in teams on projects.

The Certificate of Achievement in Web and Mobile Application Development provides students with the specialized knowledge that is essential in the development of Web and mobile computer applications. Students will study and gain experience with the languages and frameworks that are most commonly used in developing these applications. They will also learn fundamental principles of Web and mobile development so that they

will be prepared to work with current and emerging technologies.

Career Opportunities

Career opportunities exist in numerous businesses and industries. Typical entry-level positions include front-end developer, mobile application developer, programmer, Web developer, and software tester.

Program Learning Outcomes

Students completing this program will be able to:

1. Identify, describe and apply best practices of Web application development.
2. Create standards-compliant, accessible Web documents using HTML, HTML5, CSS and JavaScript.
3. Utilize a server-side scripting language and a database to create a dynamic website.
4. Develop Web and mobile applications for a variety of platforms and mobile devices.

CS Data Science and Big Data

The Certificate of Specialization is designed to introduce students to Data Science and Big Data fundamentals.

Students will learn data warehousing architecture, data extraction, management, and load. They will learn to design, develop and administer SQL and NoSQL databases. They will also learn to develop database applications using various programming languages and statistical methods. They will be introduced to Big Data architecture, technologies and analytics. Other topics covered include Cloud computing, security management, machine learning, Agile methodology and Big Data tools. Students will learn to display data using graphics and data visualization.

Career Opportunities

Career opportunities exist in numerous businesses and industries. Typical entry-level positions include database administrator, database programmer, Big Data engineer, programmer, software developer.

Program Learning Outcomes

Students completing this program will be able to:

1. Design and implement SQL and NoSQL databases.
2. Design and develop a data warehouse, then query and manage it.
3. Use the R programming language for descriptive and inferential statistics.
4. Manage Big Data in single and distributed computing environments.
5. Display data using graphics and data visualization.

CS Database Programming

The Certificate of Specialization is designed to introduce students to database fundamentals. Students will learn to design, develop and administer SQL and NoSQL databases. They will also learn to develop database applications using various programming languages. Students will learn to extract data from several databases and transform it for

integration into a data warehouse, which can then be used for business intelligence.

Career Opportunities

This certificate prepares students for entry-level positions such as database developer, database manager, back-end developer, and programmer.

Program Learning Outcomes

Students completing this program will be able to:

1. Use SQL for database creation, manipulation and control.
2. Administer a database, with ability to backup, recover, and protect data.
3. Develop SQL and NoSQL desktop and cloud database solutions using Java, PHP, Python, or Ruby.
4. Design and develop a data warehouse using Oracle or MySQL.
5. Describe different forms of business intelligence that can be extracted from a data warehouse and how that intelligence can be applied toward business decision-making.

CS Internet of Things (IoT) Programming

The Certificate of Specialization in Internet of Things (IoT) Programming provides students with the basic knowledge for development of cloud-based mobile applications.

Students will study and gain experience with sensors and hardware, as well as client- and server-side languages most commonly used to develop IoT applications. They will also learn fundamental principles of IoT development in order to be prepared to work with current and emerging technologies.

Career Opportunities

Career opportunities exist in numerous businesses and industries. Typical entry-level positions include front-end developer, back-end developer, IoT programmer, and mobile developer.

Program Learning Outcomes

Students completing this program will be able to:

1. Identify, describe and apply best practices of IoT application development.
2. Write data acquisition code for sensors and other hardware.
3. Develop Web and mobile IoT applications for a variety of platforms and mobile devices.
4. Demonstrate an ability to work effectively and ethically on teams.

COSMETOLOGY

Meet with a CSM counselor to discuss how to achieve academic goals and to develop a comprehensive student educational plan (SEP).

AA Associate in Arts Degree Program

Cosmetology.....81 units

CA Certificate of Achievement

Cosmetology.....57 units

About the Program

The Cosmetology program at CSM is designed to give students the finest training and experience available, and to prepare them for qualification to take the California State Board of Barbering and Cosmetology examination for licensure as a cosmetologist. Through the expertise of a talented faculty and exposure to professional cosmetologists and salon owners, students can learn hair design, hair coloring, hair analysis, skin care, nail care, and aesthetic enhancement of the body.

Skilled cosmetologists find employment with full-service and specialty salons. Licensed cosmetologists also have the freedom to work either full or part-time, and employment opportunities are available without regard to gender or age. The employment outlook for cosmetologists is good, with positions presently outnumbering applicants.

Recommended high school preparation

Coursework in Art, Business Mathematics, Accounting, Psychology and Interpersonal Communication.

Qualifications for Cosmetology Licensing

State Law requires that applicants for licensing be at least 17 years of age, have completed the 10th grade or its equivalent, and completed a cosmetology course from a school approved by the board. Additional qualifications apply. Contact the [Cosmetology Department](#) for further information.

Cosmetology Applications

Cosmetology Program applications are accepted on a continuous basis. Applications are available in the department and online on the [Cosmetology](#) website. Applicants are required to attend a program specific orientation in addition to college orientation workshop. New classes start twice yearly in the fall and spring semesters.

Admissions priority is given to San Mateo Community College District residents.

When space is available, students with previous training may be eligible for admission to the Advanced Standing program in Cosmetology within a one-year period of withdrawal from a previous school and upon submission of State Board records to the Cosmetology Department.

No student who has completed more than 600 hours of approved training in another school will be admitted to the Advanced Standing program.

AA Cosmetology

The CSM Cosmetology program embraces a student-centered approach to collaborative team teaching and delivers current and comprehensive curriculum via modern technologies, individual training, group projects, and supervised practice on the public; linking theoretical knowledge to hands-on (practical) experiences. An exceptional faculty and staff deliver instruction on hair styling and cutting, chemical applications (hair color, curling, and straightening), nail, facial, and makeup services, specialty classes, and portfolio preparation culminating in a professional photo shoot.

Career Opportunities

Licensees may pursue a myriad of career opportunities including independent salon stylists, estheticians, nail technicians, salon and spa owners/managers, product inventors/educators, movie/television/runway/platform and print work artists, beauty bloggers, writers, and school educators. Emerging and experienced cosmetologists enjoy worldwide opportunities with licensing reciprocity and equivalency accepted in most states and countries. Work opportunities are not limited by demographic indicators such as age, gender, or education level.

Program Learning Outcomes

Students completing this program will be able to:

1. Graduates will articulate and demonstrate theoretical and practical (hands-on) discipline competency that will support entry-level job placement by successfully passing program benchmarks as assessed through earning the credentials required to sit for the state licensing exam.
2. Graduates will pass the National Interstate Council (NIC) California Board of Barbering and Cosmetology theoretical (written) section of the cosmetology licensing exam.
3. Graduates will pass the National Interstate Council (NIC) California Board of Barbering and Cosmetology practical (hands-on) section of the cosmetology licensing exam.

AS Associate in Science Degree Program

Dental Assisting..... 60 units

CA Certificate of Achievement

Dental Assisting..... 37.5 units

Recommended high school preparation

Coursework in Science, English, Psychology, and courses in Art that develop manual dexterity.

Requirements

Students are required to take the CSM English Placement Test prior to enrolling in the program. Any student who wants to become licensed by the State of California as a Registered Dental Assistant (RDA) must have a high school diploma or equivalent to qualify for the licensing exam.

Dental Assisting Applications

Dental Assisting Program applications will be accepted from February 1, thru March 15, 2018. Acceptance into the Dental Assisting Program requires students to be eligible for English 100, and have a minimum overall GPA of 2.0. Applications will be available [online \(collegeofsanmateo.edu/dentalassisting\)](http://collegeofsanmateo.edu/dentalassisting).

AS Dental Assisting

CSM's Dental Assisting program is a two semester program, accredited by the Commission on Dental Accreditation. The program provides a comprehensive education in clinical dental assisting as preparation to sit for both the State (Registered Dental Assistant) and National (Certified Dental Assisting) examinations. Clinical experience is arranged at the University of California San Francisco Schools of Dentistry, and in various dental offices in local area.

Career Opportunities

Registered Dental Assisting career opportunities are available in dental offices, private practice, and community clinics.

Program Learning Outcomes

Students completing this program will be able to:

1. Legally sit for the Registered Dental Assistant (RDA) licensing examination for the State of California.
2. Legally sit for the Certified Dental Assistant (CDA) licensing examination administered by the Dental Assisting National Board (DANB).

AA Digital Media: Broadcast and Electronic Media

The Broadcast and Electronic Media degree prepares students for entry level work as a media producer. This degree focuses on creating regular TV programming, writing, and producing video. Hands-on courses provide training in camera operation, news reporting, video editing and on-air talent, including voiceover and on-camera announcing.

Career Opportunities

CSM's Broadcast and Electronic Media program is helping to train the next generation of media makers, equipping them with technical skills, an ethical conscience, and an understanding of how media affects society. This 21st century program prepares students for a career in broadcasting through professional hands-on training. Students in Broadcast and Electronic Media can choose from three A.A. Degrees and four Certificates of Specialization, earn transfer credits, or just build their career skills. Students have the opportunity to explore a variety of possible career choices within the broadcasting industry: TV and video producing, directing, lighting, camera operation (in the studio and field), video editing,

scriptwriting, on-air talent, audio recording and mixing, and radio programming. Students can expect rigorous training and real world projects. TV training takes place in CSM's state-of-the-art TV studio, which is located inside a full-time broadcast station, KCSM-TV. Some classes produce programming that is broadcast on KCSM, so students work on TV shows that will air in a top-ten media market. Students enrolled in radio production will produce programming for a web-based college radio station.

Program Learning Outcomes

Students completing this program will be able to:

1. Produce television segments that serve target viewers
2. Identify possible effects of media productions on audiences

Major Requirements

Required Core Courses: 18 units

And required General Education coursework and electives as needed to meet the minimum 60 units required for the Associate degree.

AA Digital Media: Graphic Design

The Graphic Design associate's degree prepares students for entry-level work in the visual media industry; the degree also serves the needs of students planning to transfer to study Graphic Design at a four-year school. The curriculum includes basic visual literacy and visual communication skills, the complete software package necessary for employment or transfer, typography, graphic design theory and application, and several production classes that offer real-world hands-on learning experiences.

Career Opportunities

The skills that graphic designers possess transcend media boundaries. They may work in print or they may work in three-dimensional media such as environmental graphics, exhibit and display design, or signage. They may design for electronic media such as television, the web, or multimedia or they may create motion graphics and titling for film and video. They may work in information design and interface design or even type design. They may design packaging, books, magazines, and posters, all forms of advertising, corporate communications, corporate identity, environmental and retail design, web design, education design, or nonprofit design. Their creativity and skills are necessary wherever a message and an audience meet, regardless of the media.

Program Learning Outcomes

Students completing this program will be able to:

1. Synthesize visual solutions to graphic problems by integrating information and ideas.
2. Design and produce original solutions to graphic problems using technology and software central to the graphics industry effectively.
3. Analyze, compare and contrast the effectiveness of their own original design work and the work of others.

AA Digital Media: Mobile App and Web Design

The A.A. degree in Mobile App and Web Design will provide students with specialized knowledge that is essential to develop necessary foundation skills, master the tools and processes, and undergo industry standards production experiences. The program will provide students with a balance between aesthetic, practical design application and technical competency, including responsive and Mobile-first design. Upon completion of this program, students will be prepared for entry-level employment in the digital media industry.

Career Opportunities

Career opportunities exist in numerous businesses and industries. Typical entry-level positions include web designer, front-end designer, UI/UX designer, graphic designer, mobile app user experience associate, digital creative designer and visual designer.

Program Learning Outcomes

Students completing this program will be able to:

1. Demonstrate communication, management, and analytical skills.
2. Demonstrate proficiency with design concepts, theory, and principles relating to the design process and software tools of web and mobile app design.
3. Demonstrate the ability to work in teams effectively.
4. Employ theoretical knowledge, skills, and attitudes to real-world issues.
5. Apply critical thinking and creative problem-solving skills to a variety of web and mobile app design and production cases.

AS-T Film, Television, and Electronic Media

The Associate in Science in Film, TV, and Electronic Media for Transfer (AS-T) will prepare students for transfer into bachelor's degree programs in broadcast, film, TV, and similar majors.

The Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

Career opportunities include TV and video producing, directing, camera operation, video editing, script-writing, audio recording and mixing, and radio programming.

Career Opportunities

Career opportunities include TV and video producing, directing, camera operation, video editing, script-writing, audio recording and mixing, and radio programming.

Program Learning Outcomes

Students completing this program will be able to:

1. Produce television and video segments that serve target viewers
2. Identify possible effects of media productions on audiences
3. Demonstrate an understanding of the critical and technical language of film studies, including genres, narrative forms, cinematography, editing, and sound editing.

CA Digital Media: Graphic Production

Gainful employment information for this certificate can be found [online \(collegeofsanmateo.edu/gedi/docs/dgme-ca-graphicproduction.pdf\)](https://collegeofsanmateo.edu/gedi/docs/dgme-ca-graphicproduction.pdf).

The Graphic Production certificate prepares students for entry-level work in the visual media industry. The curriculum includes basic visual literacy and visual communication skills, the complete software package necessary for employment, typography, graphic design theory and application, and production classes that provide real-world hands-on learning experiences.

Graphic production is required in print media such as publishing, advertising and package design and in three-dimensional media such as environmental graphics, exhibit or display design, or signage. Graphic production is also a part of electronic media such as television, the web, or multimedia including motion graphics and titling for film and video.

Career Opportunities

Graphic Artist, Junior Graphic Designer, Production Artist, Entry Level Graphic Designer, Visual Artist.

Program Learning Outcomes

Students completing this program will be able to:

1. Create original graphic design / web design projects using comprehensive production and business techniques.
2. Create an original portfolio in order to pursue employment or college transfer opportunities.
3. Collaborate effectively with project team members and industry professionals.
4. Demonstrate a holistic understanding and practical ability to complete an industry standard graphic design/web design project from inception to completion.

CS Digital Media

The Certificate of Specialization provides students with a foundation in the digital design landscape, concepts and theoretical background in digital media. The program is designed to prepare students with the skills and industry experience they will need to enter the digital media world. Upon completion of this program, students will be prepared for entry-level employment in the digital media industry.

Career Opportunities

Career opportunities exist in numerous businesses and industries. Typical entry-level positions include digital and social media associate, social media content creator, digital engagement associate, and marketing and social media assistant.

Program Learning Outcomes

Students completing this program will be able to:

1. Identify and describe the digital media ecosystem.
2. Identify and differentiate different types of digital media while applying critical thinking and creative problem-solving skills.
3. Employ theoretical knowledge, skills, and attitudes to real world issues.
4. Demonstrate a conceptual foundation in the ethics of new media technology.

CS Digital Media: Broadcast and Electronic Media

The Certificate of Specialization in Broadcast and Electronic Media prepares students for transfer to a Bachelors program in Broadcasting or Digital Media, and includes articulated courses. This Certificate is also for any student wanting to develop the basic hands-on skills (or Career and Technical Education) required to work in broadcasting, audio, and video production.

Career opportunities include TV and video producing, directing, lighting, camera operation, video editing, audio recording and mixing.

Career Opportunities

Students who achieve this Certificate will have the necessary knowledge and skills to apply for jobs in media, such as TV and video production, camera operation, and audio engineering.

Program Learning Outcomes

Students completing this program will be able to:

1. Demonstrate studio camera operation in response to the most-common director's commands.
2. Provide examples of media's influence on society and culture.
3. Demonstrate proper microphone selection and set-up for studio and field recording.

AS CAD/Drafting Technology

Drafting is common to all manufacturing and construction activities. The drafter interprets the engineer's ideas, presenting them in the language of manufacturing and construction. Recognized as one of the finest Drafting programs in the state, CSM's instructors have recent industry experience and classrooms are equipped with the latest equipment, including computeraided drafting (CAD) stations.

Career Opportunities

A graduate of CSM's Drafting Technology program may select from several enviable opportunities. The graduate may immediately enter industry as a draftsman with the potential to become a designer or may opt to continue their education at a state university for a Bachelor's degree

in Industrial Technology, becoming eligible for technical management positions.

Program Learning Outcomes

Students completing this program will be able to:

1. Apply and integrate computer technology in the form of 2D and 3D CAD software applications to create drafting drawings, presentation graphics and 3D design image models for project solutions which are skills necessary for entry-level employment in the drafting industry.
2. Use engineering organization standards, technical vocabulary and industry conventions of working drawings for mechanical, structural, architectural and industrial project types.

Economics.....60 units

University Transfer Program

Use Assist to identify lower division major preparation for the California State University and the University of California systems. For independent or out-of-state colleges and universities use their catalogs to locate this information. Transfer Services can assist you to gather this information.

AA-T Economics

The Associate in Arts in Economics for Transfer will prepare students for transfer into bachelor's degree programs in economics and similar majors. Most careers in teaching, government, and large corporations deriving from the study

of Economics require a graduate degree in the field, while a Bachelor's degree in Economics generally qualifies the student for the same types of employment available to those who hold general business or liberal arts degrees. The Student Transfer Achievement Reform Act (Senate Bill 1440, now codified in California Education Code sections 66746-66749) guarantees admission to a California State University (CSU) campus for any community college student who completes an "associate degree for transfer," a newly established variation of the associate degrees traditionally offered at a California community college. The Associate in Arts for Transfer (AA-T) or the Associate in Science for Transfer (AS-T) is intended for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing these degrees (AA-T or AS-T) are guaranteed admission to the CSU system, but not to a particular campus or major.

Upon transferring students will be required to complete no more than 60 units to complete the bachelor's degree. This may not be the best option for students planning on transferring to a non-CSU institution. All students are encouraged to meet with a counselor to discuss the transfer options and requirements. Upon completion, students will have an understanding of the fundamental theories of microeconomics and macroeconomics, how to apply them to real-world scenarios and evaluate diverse viewpoints.

Career Opportunities

In addition to a career as an economist, those who possess advanced degrees choose from careers such as accountants, attorneys, auditors, computer systems engineers, credit analysts, financial planners, statisticians, and treasurers. Other fields in which economists are employed include arbitration, budget analysis, business/market analysis, business/economic forecasting, commodities, industrial relations, investment analysis, labor relations, manpower, transportation, international business, marketing, natural resources, and operations research.

Program Learning Outcomes

Students completing this program will be able to:

1. Understand concepts and theories related to Macroeconomics and Microeconomics.
2. Apply theory and models to real world scenarios.
3. Evaluate diverse viewpoints as related to economic topics.

Additional Program Information

The courses in this program are administered by College of San Mateo in conjunction with the appropriate joint apprenticeship training committees (JATC). Registration is limited to those students fulfilling the related requirements of the State of California as indentured apprentices. Apprentices are trained through the union and work throughout the five-year training program, assigned to job sites just as journeyman electricians are through the union hall.

Prerequisite: indenture in the Electrical Apprenticeship Program, approved by the California State Division of Apprenticeship Standards.

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

For more information, you can contact the San Mateo County Electrical JATC at (650) 591-5217 or smjatc617.org, or the [Apprenticeship Training Office](#) at CSM.

Coursework in Electronics, Science, Mathematics, English

About the Program

The Electronics Technology program at CSM prepares a student for entry-level employment as an electronics technician and, with additional General Education coursework, for transfer to a baccalaureate institution. Entry-level employment opportunities exist in many segments of the electronics industry in the greater Bay Area. Companies involved with circuit design and fabrication; computer construction, installation, and support; component manufacturing; high-technology transportation; aerospace systems; automated

process control; and consumer electronics all offer program graduates opportunities for entry-level employment.

Career opportunities in Electronics include work as an engineering aide, a technician, or a manager. These individuals are involved with design, manufacturing, sales, or service of a wide range of products. Electronics is one of the largest and fastest growing career fields in Northern California, with more significant growth expected over the next decade. Most Electronics Technology majors specialize in a particular area, such as communications systems, computer and digital systems, microwave, medical electronics, manufacturing, or precision instruments.

AS Industrial Electronics Technology

The Industrial Electronics Technology program at CSM prepares a student for entry-level employment as an electronics technician. Entry-level employment opportunities exist in many segments of the electronics industry in the greater Bay Area. Companies involved with circuit assembly and fabrication; installation, and support for food and pharmaceuticals processing, public utilities; component manufacturing; high-technology transportation; aerospace systems; automated process control; alternative energy and bio-tech all offer program graduates opportunities for entry-level employment.

Career Opportunities

Career opportunities in Electronics include work as an engineering aide, a technician, or a system operator. These individuals are involved with manufacturing, assembly, repair, upgrades, and service of a wide range of products or electrical systems. Electronics is the pathway to the future in Northern California, with increasing demands to modify and update the current infrastructure of the electrical generation and transmission capabilities, integration of alternative energy sources and future technical needs of society, job growth is expected over the next decade.

Program Learning Outcomes

Students completing this program will be able to:

1. Demonstrate basic and advanced electronic fundamentals.
2. Demonstrate the use and operation of test equipment (DVM's, Frequency Generators, Oscilloscopes) when analyzing both AC and DC circuits.
3. Understand power systems and power factor as it relates to AC power transmission and generation.
4. Demonstrate the ability to program and operate a programmable logic controller.

5. Demonstrate an understanding of environmental measurement and sensory read back data to control and operate power or mechanical systems.
6. Demonstrate and understand remote and direct Industrial data communications.
7. Demonstrate and utilize hydraulic, pneumatic and vacuum systems in an industrial setting.

Career Opportunities

Entry-level employment opportunities exist in many segments of the electronics industry in the greater Bay Area. Companies involved with circuit design and fabrication; computer construction, installation, and support; component manufacturing; high-technology transportation; aerospace systems; automated process control; and consumer electronics all offer program graduates opportunities for entry-level employment. Career opportunities in Electronics include work as an engineering aide, a technician, or a manager. These individuals are involved with design, manufacturing, sales, or service of a wide range of products. Electronics is one of the largest and fastest growing career fields in Northern California, with more significant growth expected over the next decade. Most Electronics Technology majors specialize in a particular area, such as communications systems, computer and digital systems, microwave, medical electronics, manufacturing, or precision instruments.

Program Learning Outcomes

Students completing this program will be able to:

1. Demonstrate basic and advanced electronic fundamentals.
2. Demonstrate the use and operation of test equipment (DVM's, Frequency Generators, Oscilloscopes) when analyzing both AC and DC circuits.
3. Understand power systems and power factor as it relates to AC power transmission and generation.
4. Demonstrate an understanding of environmental measurement and sensory read back data to control and operate.

CS Advanced Electrical Power Systems and Instrumentation

Gainful employment information for this certificate can be found [online \(collegeofsanmateo.edu/gedi/docs/elec-ca-advepsi.pdf\)](http://collegeofsanmateo.edu/gedi/docs/elec-ca-advepsi.pdf).

This advanced certificate adds to the skills accrued through the Certificate of Achievement in Electrical Power Systems and Instrumentation. It prepares students to advance their careers to a level with greater responsibility and demands a higher level of technical knowledge.

Career Opportunities

Our students in the current 19 unit certificate readily find employment in a variety of industries (e.g., utilities, transportation, aerospace, bio-tech, etc.) as electronics technicians. The demand for employees with this background has been consistent over the last 15 years and according to data from Economic Modeling Systems, Inc. the projected need for these skills remains strong through the next ten years. The program overall provides entry into positions as electronics technicians, maintenance technicians and other positions where calibration and instrumentation of devices for motor-controlled equipment comprise the critical skills/knowledge for employment. Activities in the work environment would include operation and maintenance of robots in manufacturing, precise control management in pharmaceutical manufacturing and control/delivery of electrical power across the utility owned grid and into homes and business. The skills in this certificate are at an advanced level and prepare students for a move to either a supervisory/lead position or one requiring they pass a high-level technical certification (employer administered) for their next assignment.

Program Learning Outcomes

Students completing this program will be able to:

1. Demonstrate the ability to design and maintain industrial communication systems.
2. Demonstrate the ability to calibrate transmitters, sensors, indicators, controllers and final control elements.
3. Demonstrate an understanding of the theory, construction, installation and operation of hydraulic, pneumatic and vacuum power systems in an automated controls environment.
4. Demonstrate an understanding of component parts of a Programmable Logic Controller, their function and the interrelationship of the two.

Requirements

Required Core Courses: 12 units

CS Fundamentals of Smart Building Systems

Program Learning Outcomes

Students completing this program will be able to:

1. Develop the skills and knowledge required for entry-level positions within the field of Smart Building Systems and related fields.
2. Describe the basics of electricity and electrical generation systems as applies to home and business applications.
3. Identify and describe the function of all components necessary to design both off-grid and grid-intertie photovoltaic and thermal solar energy systems.
4. Prepare a solar photovoltaic or thermal system plan for an intended site that will satisfy the energy needs of the site, including the incorporation of component inefficiencies and derating factors.
5. Describe the California rebate process and provisions as they apply to solar grid-interactive systems, either as a thermal or photovoltaic system.
6. Qualify to sit for the NABCEP entry level solar certification exam.

AS Engineering

Engineering is one of the largest professions in the United States, with over one million jobs in fields ranging from airplane design to pollution control. The three largest branches of engineering are electrical, mechanical and civil. All branches of engineering place a heavy emphasis on problem solving and mathematics. Engineering education focuses on teaching scientific and engineering concepts and their application to the creative and effective solution of problems.

Career Opportunities

Career opportunities for those who hold a Bachelor's or advanced degree include engineering positions in aerospace, agricultural, architectural, biomedical, chemical, civil, computer, electrical, industrial, materials, mechanical, and environmental nuclear fields. Most engineers work for manufacturing industries, while a smaller percentage work for federal, state and local government agencies or as private consultants. The remainder hold faculty positions at colleges and universities.

Program Learning Outcomes

Students completing this program will be able to:

1. Use math, science, and engineering concepts to identify, formulate, and solve engineering problems.
2. Use the techniques and tools of engineering at an elementary level to design a device, program, or process to meet specified requirements.
3. Communicate the results of design and analysis orally and through text and graphics.
4. Work effectively in teams.

Major Requirements

MATH 275	Ordinary Differential Equations	3 units
PHYS 270	Physics with Calculus III	4 units

Total Required Major Units: 19

And required General Education coursework and electives as needed to meet the minimum 60 units required for the Associate degree.

AS Engineering Technology: General

Engineering Technology is that part of the engineering field which blends scientific and engineering knowledge with technical skills in research, development and production. CSM offers the General Education, mathematics, science, engineering, and many of the technical courses required to meet lower division requirements in Engineering Technology and prepare the student for transfer to a baccalaureate institution for a degree in Engineering Technology. The Associate degree alone prepares students

for employment as engineering technicians, who work with or under the direction of engineers.

Career Opportunities

Career opportunities exist largely with manufacturers of electrical and electronic equipment, aircraft/aircraft parts, machinery, scientific instruments, chemical, motor vehicles, fabricated metal products, and primary metals. Non-manufacturing opportunities exist with engineering and architectural firms, research and testing facilities, and business services in which engineering work is done on a contract basis for organizations in other sectors of the economy. Additional opportunities for employment exist in the communications, utilities, and construction industries; and with federal, state and local government agencies.

Program Learning Outcomes

Students completing this program will be able to:

1. Identify, analyze, and solve technical problems in an area of specialization;
2. Conduct, analyze, and interpret experiments;
3. Work effectively in teams.

Major Requirements

Required Core Courses: 20 units		Units
ENGR 210	Engineering Graphics	4 units

AA English

The English major provides students with a broad-based foundation for transfer to baccalaureate institutions. English course work prepares individuals to succeed in many diverse fields such as advertising, business, communications, editing, film/video production, insurance, journalism, law, politics, medicine, public relations, teaching, and writing.

Career Opportunities

Career opportunities include advertising copy writer or manager, columnist/journalist, editor, educator, freelance writer, information specialist, lexicographer, librarian, media planner, novelist, poet, public relations officer, publisher, radio/television announcer, reporter, researcher, technical writer, and writing consultant. Additional career opportunities include business administrator, civil servant, clergy member, foreign service officer, fund raiser, insurance examiner, legislative assistant, and program developer.

Program Learning Outcomes

Students completing this program will be able to:

1. Analyze and respond critically to literary and expository texts.
2. Demonstrate knowledge of a variety of authors, literary genres, and literary devices.

Major Requirements

AA Ethnic Studies

The multicultural emphasis of the Ethnic Studies program has attracted many persons currently employed in public school systems, social services and human relations, as well as professionals whose jobs involve interpersonal situations with multiracial groups.

Career Opportunities

Students who transfer and complete and Bachelor's degree in Ethnic Studies can pursue careers in the arts, business, city planning, creative writing, education at all levels, international relations, journalism, law, medicine, politics, psychology, public health, research, and social work. In addition, Ethnic Studies courses allow public school teachers the opportunity to meet California State requirements in ethnic education.

Program Learning Outcomes

Students completing this program will be able to:

1. Describe the historical development and contributions of various ethnic groups to the United States and to California in particular.
2. Analyze the role in the political process played by various ethnic groups in the United States and in California particularly.
3. Discuss public policies involving various ethnic groups in the United States and in California particularly.

The Critical Pacific Islands & Oceania Studies Certificate of Achievement is an 18-20 unit certificate that introduces students to a critical analysis of Pacific peoples and cultures in the U.S. diaspora and beyond. Privileging the voices of native Pacific Islanders, the interdisciplinary curriculum explores historical and contemporary topics such as colonization, militarization, social movements, and immigration, through the use of academic and community-based scholarship. All required courses are University of California (UC) and California State University (CSU)-transferable and meet College of San Mateo General Education (GE) area requirements. Although the certificate is ideal for those whose careers involve working with native Pacific Islanders and other communities of color such as service providers, health practitioners, law enforcement, researchers, teachers, and other professionals, the primary goal is to encourage students to further their educational aspirations through the completion of an associate's degree and successful transfer to a four-year university.

Career Opportunities

Non-profit organizations, teacher, athletic coach, counselor, social services, law enforcement, public health, marine biology, oceanography, and government.

Program Learning Outcomes

Students completing this program will be able to:

1. Critically evaluate behavioral, social, and indigenous theories and methodologies used in the study of Pacific Islander communities in relation to their cultural, economic, educational, health, immigration, political, and social conditions.
2. Compare and contrast the expression of the ocean aesthetic across Pacific Islander cultural practices including architecture, arts, dance, film, language, literature, music, poetry, sports, and theater.
3. Apply critical and analytical skills through problem-solving techniques and study strategies in preparation for educational and career outcomes.
4. Demonstrate effective communication through listening, reading, writing, and speaking to strengthen individual, community, and public engagement
5. Assess the expression of the ocean across Pacific Islander communities through film, media, digital stories, and cinema in shaping social and cultural issues important to Oceania.

About the Program

The Fire Technology program prepares students to meet the high standards necessary in pursuing a career in the fire service as a firefighter, or a member of related fire protection services such as emergency medical technician.

Students who wish to concentrate on meeting the basic requirements for entry-level employment are advised to complete FIRE 793 and FIRE 796. Many of the fire agencies in California require completion of this training to meet minimum requirements for employment as a firefighter.

Students will develop entry-level expertise in the areas of fire suppression, fire prevention, training and administration. Opportunities also exist with private industry safety programs, insurance companies and fire equipment manufacturing firms.

The Fire Technology field offers enhanced opportunities for employment to students who have completed CSM's program.

Through the expertise of the faculty and the exposure to professional fire service personnel, students can expect to be trained in the latest theories and techniques of fire technology, firefighting skills and emergency medical training.

AS Fire Technology

Students who wish to concentrate on meeting the basic requirements for entry-level employment are advised to complete FIRE 793 and FIRE 797. Fire agencies in California require completion of this training to meet minimum requirements for employment as a firefighter. However, many agencies are beginning to require an Associate degree for entry-level positions.

Students will develop entry-level expertise in the areas of fire suppression, fire prevention, training and administration. Opportunities also exist with private industry safety programs, insurance companies, and fire equipment manufacturing firms.

CA Fire Technology

Gainful employment information for this certificate can be found [online \(collegeofsanmateo.edu/gedi/docs/fire-ca-firetechnology.pdf\)](http://collegeofsanmateo.edu/gedi/docs/fire-ca-firetechnology.pdf).

Students who wish to concentrate on meeting the basic requirements for entry-level employment are advised to complete FIRE 793 and FIRE 797. Fire agencies in California require completion of this training to meet minimum requirements for employment as a firefighter. However, many agencies are beginning to require an Associate degree for entry-level positions.

Students will develop entry-level expertise in the areas of fire suppression, fire prevention, training and administration. Opportunities also exist with private industry safety programs, insurance companies, and fire equipment manufacturing firms.

The Fire Technology field offers enhanced opportunities for employment to students who have completed CSM's program. Through the expertise of the faculty and the exposure to professional fire service personnel, students can expect to be trained in the latest theories and techniques of fire technology, firefighting skills, and emergency medical training.

Career Opportunities

The Fire Technology program prepares students to meet the high standards necessary in pursuing a career in the fire service as a firefighter, or a member of related fire protection services such as emergency medical technician.

Program Learning Outcomes

Students completing this program will be able to:

1. Identify and discuss the concepts and theories related to the fire service including its history

and development, fire prevention techniques and fire protection equipment, fire behavior and chemistry, building construction considerations, and firefighter safety.

2. Recognize the tools and equipment used in the fire service, and demonstrate their safe and proper use.
3. Explain and demonstrate the importance of developing interpersonal and communication skills necessary to function within the fire service and society at large.
4. Describe and demonstrate the value and necessity of ethics, integrity, and professionalism in the fire service.

Requirements

Required Core Courses: 21 - 23 units

Units

FIRE 715	Principles of Emergency Services	3 units
FIRE 720	Fire Prevention	3 units
FIRE 730	Fire Behavior and Combustion	3 units
FIRE 740	Building Construction for Fire Protection	3 units
FIRE 745	Fire Protection Systems	3 units
FIRE 748	Firefighter Safety & Survival	3 units
Plus, completion of the General Education English requirement as outlined in Section C (2) of the Associate in Arts/Science Degree Requirements.		3 - 5 units

Required Selective Courses: 12-14 units from the following courses:

About the Program

An Associate degree in Geological Science prepares the student for transfer to a baccalaureate institution for a four-year degree in Geology. While some jobs are available for technicians with Associate degrees in Geological Science, a Bachelor's degree in Geology is a minimum requirement for employment in exploratory geology, minerals management, and engineering.

Approximately 40% of geologists work for oil and gas companies, either in service or exploration. Some work for mining and quarrying companies, while others work as consultants or are self-employed. Government agencies provide employment opportunities with the Bureau of Mines, U.S. Geologic Survey, and Bureau of Reclamation. Specific career opportunities include engineering geologist, environmental geologist, geochemist, geology assistant, geophysicist, hydrologist, mining geologist, marine geologist, oceanographer, paleontologist, petroleum geologist, petrologist, seismologist, soils technician, teacher/professor, volcanologist, and waste management geologist.

AA-T History

The Associate in Arts in History for Transfer degree prepares students for transfer into bachelor's degree programs in History and similar programs at a CSU campus and guarantees admission to the CSU system. History course work in general is helpful to the student who intends to eventually pursue graduate studies in such diverse fields as history, education, and law. Most career opportunities associated with this discipline require the minimum of a B.A. degree. Some business firms and government agencies seek persons with a broad overview and perspective of historical phases and processes of change.

Career Opportunities

In addition to a career as a historian, career possibilities include anthropologist, antique dealer, archivist, attorney, book dealer, correspondent, customs inspector, college administrator/professor, foreign service officer, fund raiser, librarian, museum curator/technician, news editor, researcher/ research analyst, theologian/clergy member, title examiner, and writer.

Program Learning Outcomes

Students completing this program will be able to:

1. Evaluate the evidence, ideas, and models needed to perceive how people(s) have related to each other in specific historical contexts and over discrete periods of time.
2. Read, write, and speak critically, mastering how to make informed historical judgments based on existing evidence.

AA Dance

The Associate of Arts Degree (AA) in Dance is designed for students planning to transfer to a four-year university to major or minor in dance. A comprehensive dance education will develop skills required to create, perform, communicate and understand dance. These skills are acquired through the study of modern dance, ballet technique, jazz technique, performance, as well as production, dance appreciation, music appreciation, and composition.

Career Opportunities

Employment opportunities in the field are numerous and include areas such as: 1. Performance: Dance or performance artist 2. Education: Dance instructor, dance studio owner, somatic educator (i.e., Yoga, Pilates, Alexander Technique, Feldenkrais) 3. Administration/Management: Artistic director, rehearsal director, dance company manager, arts administration/management 4. Dance Medicine: Dance and physical therapist, dance kinesiology 5. Specializations: Choreographer, dance notator, dance critic, dance historian, dance researcher

Program Learning Outcomes

Students completing this program will be able to:

1. Demonstrate a working knowledge of production techniques, including backstage, and show management.
2. Compose a dance demonstrating knowledge of the choreography process.
3. Demonstrate an understanding and appreciation for the principal historical, theoretical, and critical approaches to dance as a performing art.
4. Demonstrate the skills required to perform at a proficient level in a variety of dance styles including ballet, jazz, modern.

AA Kinesiology

Careers in the discipline of Kinesiology are broad and include such areas as teaching, coaching, Sports Management/Marketing, Sports Journalism, Exercise Science, Occupational Therapy, Athletic Training, Physicians Assistant, and various careers in the Fitness Industry. Students intending to earn a Bachelor's Degree in Kinesiology should consult early with a counselor and the current catalogue of the college/university in which they plan to transfer. Specific requirements vary; however four-year institutions usually require that students complete a core of basic sciences and Kinesiology courses as well as general education requirements prior to transfer.

Career Opportunities

Athletic Trainer, Coach, Teacher, Occupational Therapist, Registered Nurse, Sports Information Director, Sports journalist, Sports Marketing, Strength and Conditioning Coach, Physician Assistant, Massage Therapist, Exercise Physiologist, Nutritionist, Respiration Therapist, Fitness Instructor, Epidemiologist, Biomechanist, Athletic Administrator, Aquatics Director, Adapted Physical Activity, Recreational Therapist, Sports Director, Cardiac Rehabilitation Specialist.

Program Learning Outcomes

Students completing this program will be able to:

1. Identify career opportunities offered in Kinesiology and distinguish the basic educational requirements for various fields.
2. Demonstrate an understanding of various scientific principles in the academic study of Kinesiology.
3. Identify and demonstrate the skills or strategies utilized in various movement-based activity courses.

AA-T Kinesiology

Kinesiology is an academic area of study concerned with the art and science of human movement. The Kinesiology Program offers students an opportunity to enrich their education with emphasis on improved individual physical well-being and prepares students for transfer to bachelor's degree programs in Kinesiology, Exercise Science, Physical Education, Physical Therapy, Athletic Training, Coaching and Fitness Management. Students may obtain an AA-T in Kinesiology and optimize preparation for advanced degrees in Kinesiology at four-year institutions.

Career Opportunities

Typical employment opportunities in the field are in the areas of coaching, personal or group training, fitness instruction, fitness specialists, physical therapy assistants, recreation, as well as managerial positions in athletics and recreation centers.

Program Learning Outcomes

Students completing this program will be able to:

1. Demonstrate a working knowledge of body mechanics as it relates to physical activity, fitness and health.
2. Explain the impact of physical activity and inactivity on fitness and health.

CA Specialized Pilates Instructor

Gainful employment information for this certificate can be found [online \(collegeofsanmateo.edu/gedi/docs/kine-ca-spec-pilates-inst.pdf\)](http://collegeofsanmateo.edu/gedi/docs/kine-ca-spec-pilates-inst.pdf).

Pilates is a mind-body method of exercise using a floor mat and variety of equipment to improve ones strength, flexibility, agility and performance. Pilates increases core strength and teaches body awareness, good posture and efficient movement patterns. The Specialized Pilates Instructor Certificate prepares students to teach at a health club, fitness center, privately owned studio, or as an independent contractor. The program includes instruction in the technique, pedagogy, history and theory behind Pilates. Students procure personal sessions, observation hours, and student teaching hours in each of the program's core courses. In addition, students choose 2-3 elective courses to create an individualized program that suits their career goals.

Career Opportunities

The goal of the Certificate of Achievement in Pilates is to provide training to prepare students for a career in fitness and/or Pilates. The program is also focused on providing continuing education for professionals already working in the fields of fitness, health, kinesiology, physical therapy, sports medicine/athletic training, and massage. Pilates develops students physically as well as academically. The Pilates Certificate program includes instruction in the technique, pedagogy, history and theory behind Pilates. Students procure personal sessions, observation hours, and student teaching hours in each of the program's core courses. Upon completion of the certificate program, students will be prepared to teach at a health club, fitness center, privately owned studio, or as an independent contractor.

Program Learning Outcomes

Students completing this program will be able to:

1. Demonstrate a holistic understanding of particular area(s) of specialization and how it/they can be applied to one's teaching.
2. Plan and teach a safe and effective Pilates mixed-apparatus class

CS Yoga Teacher Training - 300 Hour

The Yoga Teacher Training - 300 hour certificate (YTT-300) is an advanced study of yoga practice, technique, teaching methodology, anatomy, philosophy and ethics. It is intended for students who are already a Registered Yoga Teacher with 200 hours of training (RYT-200). Students who complete the 300-hour training in addition to completing a Registered Yoga School 200 Hour Training (RYS-200) training AND teach for 100 hours after the completion of the 200-hour training may register to become a Registered Yoga Teacher with 500 hours of training (RYT 500).

The YTT-300 advanced training is designed to build upon and deepen the student's understanding of topics taught

in the 200-hour certificate. It prepares students to teach principles and techniques of yoga that are more advanced, detailed, and subtle. This training enables them to teach with greater skill than could reasonably be expected of a RYT-200. Focus is placed upon teaching flow-based yoga, choreographing flow-based yoga sequences, teaching from an anatomically sound point of view, developing a strong personal practice, articulating an educational layer while teaching yoga asana classes, and finding stillness through restorative yoga.

This certificate program is intended to fulfill the requirements of the Yoga Alliance 300-hour Yoga Teacher Training. Yoga Alliance is the nationally recognized organization that regulates yoga teaching standards. Students who complete their training at CSM may register online with Yoga Alliance upon fulfillment of their certificate.

Career Opportunities

Upon completion of the Yoga Teacher Training 300 hour certificate, graduates will be prepared to teach beginning, intermediate and advanced level yoga classes. Specialization in creative flow-based yoga, anatomically-based yoga, restorative yoga, and yoga pedagogy. Graduates will also gain a broad knowledge of teaching theories, yoga philosophy, and anatomical sciences, thus making them coveted employees at yoga studios, health clubs, corporate yoga ventures, and other locations that offer yoga classes.

Program Learning Outcomes

Students completing this program will be able to:

1. Demonstrate advanced competence in teaching flow-based yoga classes.
2. Demonstrate advanced competence in teaching restorative yoga classes.
3. Demonstrate a deep understanding of human anatomy and kinesiology as it relates to yoga and fitness.
4. Demonstrate the ability to educate students about anatomy and yoga philosophy while teaching a hatha yoga class.
5. Demonstrate the ability to incorporate pedagogical theories into hatha yoga classes.
6. Demonstrate expertise in a yoga topic of their choosing.

Use [Assist \(assist.org\)](https://assist.org) to identify lower division major preparation for the California State University and the University of California systems. For independent or out-of-state colleges and universities use their catalogs to locate this information. Transfer Services can assist you to gather this information.

About the Program

This program is designed for individuals working at the supervisory level and for those interested in supervisory positions. An advisory committee composed of representatives from various types of businesses and industrial organizations has assisted the College staff in the development of the program.

Career opportunities for those with supervisory and management training should improve dramatically in the years ahead. Employers in virtually every field will be seeking individuals with formal training in organization and management for supervisory, mid-level, and top management positions. Specific management opportunities include administrative assistant, bank trust officer, branch manager, chief executive officer, claims adjuster, department/division manager, employment interviewer, first-line supervisor, inventory manager, management consultant, information systems consultant, management trainee, office manager, operations manager, plant manager, president, production controller, project manager, shift supervisor, small business owner/manager, and store manager. Some of these careers require a Bachelor's or advanced degree. The program provides readily usable skills for the student who earns an Associate degree, as well as a base for those who intend to transfer to baccalaureate institutions.

AA Business Management

Management is an essential function of every business. Accordingly, there are a substantial number and wide variety of management positions ranging from first-line supervisor and store manager to division manager and chief executive officer. Managers need to have technical knowledge as well as interpersonal, communication and conceptual skills. They spend much of their time making business planning and operational decisions as well as delegating specialized tasks and responsibilities to subordinates. This course provides the fundamental skills and knowledge required to obtain and successfully retain a management role at organizations in various industries and of various sizes.

Career Opportunities

Career opportunities for those with supervisory and management training should improve dramatically in the years ahead. Employers in virtually every field will be seeking individuals with formal training in organization and management for supervisory, mid-level, and top management positions. CS Facility Management

The Facility Management Certificate of Achievement provides an overview of information that is vital to running an efficient facility. This program provides a comprehensive understanding of how to design and manage facilities, from concept to installation, to long-term efficient use, maintaining cost-effectiveness and operations at peak performance levels.

Career Opportunities

A career pathways survey (based on 100 employers surveyed) on current recruitment showed demand for facility management office and administration; financial; housekeeping/janitorial; construction and extraction; mechanics, installers, and repairers; landscaping grounds keeping; production and operations; transportation; and, material moving. There were some 790 job postings in 2016. Enrolled students are prepared in a broad range of entry-level and mid-management facility management positions. This certification facilitates the upward mobility of lower-wage facility workers to higher-wage positions, and helps address the regional under-supply of such workers. Average facility manager for the Bay Area is \$91,000.

Program Learning Outcomes

Students completing this program will be able to:

1. Effectively maintain an organization's buildings and equipment.
2. Effectively manage and lead employees by communicating, solving problems, and making decisions.

About the Program

Mathematics provides the foundation for studying engineering; the biological, physical and health sciences; economics; business; computer science; statistics; and many other fields. A major in mathematics itself opens

up job opportunities in numerous fields, as mathematical problemsolving skills are widely applicable.

The Mathematics major may be used as a basis for professional careers which include accountant, actuary, appraiser, assessor, auditor, banker, biometrician, budget analyst, casualty rater, controller, computer programmer, data processing manager, demographer, econometrician, educator at all levels, engineering analyst, epidemiologist, financial analyst/planner, insurance agent/broker, loan officer, management trainee, market research analyst, mathematician, securities trader, statistician, surveyor, and systems analyst.

Additional professional areas for which a degree in Mathematics prepares individuals are the aircraft and space industries, architectural and surveying services, civil service, communications, and science, including work in high technology industries such as research and development laboratories.

About the Program

The College of San Mateo provides a creative environment where every student may become enriched through an active association with the art of music and a faculty who are active in the music profession. The Music Department at College of San Mateo places strong emphasis upon performance as well as composition in both traditional and electronic media. At the same time, the department offers the general student enhanced understanding and appreciation of all forms of music. Through this two-fold approach, the department's purpose becomes clear: to promote excellence in all aspects of music performance and academic course work, to provide basic preparation for careers in music, and to promote interest in all music and artistic endeavors at the College and in the Bay Area community.

Career opportunities include accompanist; arranger; composer; conductor; critic; band, orchestra or recording musician; lyricist, performing instrumentalist or vocalist; music director (radio station); private music instructor; music producer; music publisher; music therapist; night-club/restaurant entertainer; recording engineer; and teacher/professor. Additional career possibilities include choir director, music librarian, music minister, piano tuner, professional manager, recreation specialist, and soloist.

AA Electronic Music

The Electronic Music major combines the areas of music, electronics and computer science, with a primary emphasis on music. The Electronic Music major is designed for students who intend to transfer to baccalaureate institutions; however, upon completion of the Associate degree in this discipline, many individuals start their own electronic music studios, where they record music for videos, films, or individual artists, as well as compose their own music on electronic instruments. Completion of a Bachelor's degree in Electronic Music expands career opportunities to include performer, producer, recording engineer, and sound engineer. Software companies also hire Electronic Music graduates to develop and test new electronic equipment ranging from synthesizers to software packages.

Career Opportunities

Career opportunities include performer, producer, recording engineer, sound designer and sound engineer.

Program Learning Outcomes

Students completing this program will be able to:

1. Compose, produce, record and mix original electronic music pieces using various electronic music technologies and techniques.
2. Design original sounds using analog synthesis, digital synthesis and sampling.
3. Create and synchronize original sound effects, Foley, music and dialogue to visuals.
4. Analyze the compositional elements, production qualities and musical aesthetics of their own works and the works of other electronic musicians, producers and composers.

AA Music

The College of San Mateo provides a creative environment where every student may become enriched through an active association with the art of music and a faculty who are active in the music profession. The Music Department at College of San Mateo places strong emphasis upon performance as well as composition in both traditional and electronic media. At the same time, the department offers the general student enhanced understanding and appreciation of all forms of music. Through this two-fold approach, the department's purpose becomes clear: to promote excellence in all aspects of music performance and academic course work, to provide basic preparation for careers in music, and to promote interest in all music and artistic endeavors at the College and in the Bay Area community.

Career Opportunities

Career opportunities include accompanist; arranger; composer; conductor; critic; band, orchestra or recording musician; lyricist, performing instrumentalist or vocalist; music director (radio station); private music instructor; music producer; music publisher; music therapist; night-club/restaurant entertainer; recording engineer; and teacher/professor. Additional career possibilities include choir director, music librarian, music minister, piano tuner, professional manager, recreation specialist, and soloist.

Program Learning Outcomes

Students completing this program will be able to:

1. Demonstrate proficiency in aural skills such as sight-singing, rhythmic execution, harmonic, melodic and rhythmic dictation.
2. Perform advanced analysis on the melodic, harmonic and formal components of written music from the common practice period.
3. Create derivative and/or original music in 4-voice chorale style consistent with common practice period voice leading norms.
4. Demonstrate basic proficiency in keyboard skills including scales, basic chord progressions, sight-reading and repertoire appropriate to graduating first year piano students.
5. Demonstrate proficiency on an instrument or voice that enables self-expression and musical communication.

AA-T Music

The College of San Mateo Music Department provides a creative environment where every student may become enriched through an active association with the art of music and a faculty who are active in the music profession. The Music Department places strong emphasis upon performance as well as harmony, ear training, and composition, thus providing students with a strong musical foundation.

The Associate in Arts in Music for Transfer offers students the opportunity to attain the basic skills and knowledge required for further undergraduate study and careers in music. It is intended to provide an expedited path for transfer into the CSU system for students who plan to complete a bachelor's degree in a similar major at a CSU campus. Students completing an Associate in Arts in Music for Transfer are guaranteed admission to the CSU system, but not to a particular campus or major.

Students transferring to a CSU campus that accepts the Associate in Arts in Music for Transfer will be required to complete no more than 60 units after transfer to earn a bachelor's degree. This degree may not be the best option for students intending to transfer to a particular CSU campus, or a college or university that is not part of the CSU system, or those who do not intend to transfer. Students should consult with a College of San Mateo counselor when planning to complete the degree for further information on university admissions and transfer requirements.

To earn an AA-T degree, students must meet the following requirements:

1. Complete a minimum of 60 CSU transferable units;

2. Earn a minimum grade point average (GPA) of at least a 2.0 in all CSU transferable coursework;
3. Complete a minimum of 18 units in an "AA-T" major. Note: All courses in the major must be completed with a grade of "C" or better. A "P" (Pass) grade is not an acceptable grade for the courses in the major.
4. Completion of the California State University General Education-Breadth (CSU GE Breadth) or the Intersegmental General Education Curriculum (IGETC) pattern.

Career Opportunities

Career opportunities include: accompanist; arranger; composer; conductor; critic; band, orchestra or recording musician; lyricist; performing instrumentalist; music director; private music instructor; music producer; music publisher; music therapist; recording engineer; and teacher/professor. Additional career possibilities include choir director, music librarian, music minister, piano tuner, professional manager, recreation specialist, and soloist.

Program Learning Outcomes

Students completing this program will be able to:

1. Gain basic technical proficiency and demonstrate artistic growth in musical performance on a given instrument and/or voice in both a solo and ensemble context, enabling self expression and musical communication.
2. Demonstrate practical knowledge of the underlying structures of voice leading and harmony throughout the common practice period in western music through written composition and analysis.
3. Demonstrate fluency in audiation such as sight singing, rhythmic execution, and harmonic, melodic and rhythmic dictation.

CA Electronic Music

Gainful employment information for this certificate can be found [online \(collegeofsanmateo.edu/gedi/docs/mus-ca-electronicmusic.pdf\)](http://collegeofsanmateo.edu/gedi/docs/mus-ca-electronicmusic.pdf).

The Electronic Music Program combines the areas of music, electronics and computer science, with a primary emphasis on music. The Electronic Music Certificate is designed for students who intend to start their own electronic music studios where they may record music for videos, films, or individual artists, as well as compose and produce their own music on electronic instruments. Completion of a Certificate in Electronic Music expands career opportunities to include performer, producer, recording engineer, sound designer and sound engineer.

Career Opportunities

Career opportunities include performer, producer, recording engineer, sound designer and sound engineer.

Program Learning Outcomes

Students completing this program will be able to:

1. Compose, produce, record and mix original electronic music pieces using various electronic music technologies and techniques.
2. Design original sounds using analog synthesis, digital synthesis and sampling.
3. Create and synchronize original sound effects, Foley, music and dialogue to visuals.
4. Analyze the compositional elements, production qualities and musical aesthetics of their own works and the works of other electronic musicians, producers and composers.

Nursing Program Admission Requirements

Go to the [CSM Nursing Program \(collegeofsanmateo.edu/nursing\)](http://collegeofsanmateo.edu/nursing) website for the current admissions information. At this site print the Nursing Program Information Sheet and the Nursing Articulation Grid for detailed information about admissions requirements and processes. You may also contact the Nursing Department, (650) 574-6218.

AS Nursing

The College of San Mateo Nursing Program provides students with opportunities for learning at the College, local hospitals, and related health agencies. Clinical practice begins early in the first semester. Upon graduation, the candidate receives an Associate in Science degree and is eligible to take the National Council Licensing Exam (NCLEX). The graduate is also eligible to transfer to a four-year nursing program.

Career Opportunities

Career opportunities are available in hospitals, physician's offices, clinics, labs, nursing and personal care facilities, public health and other government agencies, educational services, health and allied services, outpatient care facilities. Many nurses specialize in areas such as cardiac care, geriatrics, intensive care, obstetrics, pediatrics, and surgery. Specific career opportunities include nursing administrator, clinic nurse, critical care nurse, emergency department nurse, flight nurse, home health nurse, hospital staff nurse, industrial nurse, medical researcher, nurse anesthetist, nurse midwife, nurse practitioner, office nurse, public health nurse, school nurse, and teacher/educator.

Program Learning Outcomes

Students completing this program will be able to:

1. Apply nursing methods, protocols and procedures to appropriate care situations
2. Use the nursing process, which emphasizes critical thinking, independent judgment and continual evaluation as a means to determine nursing activities
3. Utilize theory and knowledge from nursing, the physical/behavioral sciences and the humanities in providing nursing care
4. Identify and assess the healthcare needs of patients/clients using the tools/framework appropriate to the clinical setting
5. Document and evaluate the outcome of nursing and other interventions and communicate to team members
6. Prioritize care-delivery on an ongoing basis
7. Work in partnership with patients, clients, and caregivers

8. Engage in and disengage from therapeutic relationships through the use of effective interpersonal and counseling skills
9. Provide compassionate, culturally sensitive care to clients in a variety of settings
10. Adhere to the ANA Code of Ethics for nurses, treating patients as unique whole individuals with specific needs, desires, and abilities
11. Describe current legal and professional standards for nurses in relation to common clinical problems
12. Practice in a manner that respects patient confidentiality and adheres to HIPAA
13. Appraise own professional performance accurately. Evaluate their professional learning needs and take steps to meet them

AA-T Philosophy

Philosophy is a disciplined reflection on the human condition. It can be an analysis and criticism of ideas and statements, or an attempt to synthesize all experience and knowledge, or an exploration of the meaning of life and how best to live it. Critical thinking is developed while examining peoples' responses to fundamental questions. This degree prepares students for transfer to the CSU system for further study in philosophy.

Career Opportunities

Philosophy is the ultimate "transferable work skill." With its emphasis on reason and argumentation, philosophy is an excellent preparation for a post-baccalaureate career in law, religion, business, international diplomacy, social work, medical management or writing as well as post-graduate education.

Program Learning Outcomes

Students completing this program will be able to:

1. Analyze social science concepts and theories

Physical Science..... 60 units

AS Physical Science

The A.S. degree in Physical Science provides students with a breadth of understanding of the physical sciences, in addition to a depth of knowledge in the specialized fields of astronomy, chemistry, geology, and physics. The program is designed to prepare students for transfer to baccalaureate institutions as majors in Physical Science or related science disciplines.

Career Opportunities

Career opportunities include astronomer, chemist, geographer, geologist, geophysicist, meteorologist, oceanographer, and physicist. Physical scientists are employed by government agencies and the chemical, computer, construction, drug, food, industrial electronics, manufacturing and petroleum industries. Additional career opportunities exist in energy management, mineral exploration and land-use planning.

Program Learning Outcomes

Students completing this program will be able to:

1. Analyze relationships between force, mass, and motion of objects.
2. Explain the significant role of energy in understanding the structure of matter and the universe. Differentiate between various forms of energy and the roles they play in motion and

transformations of matter (physical, chemical and nuclear).

3. Proficiently use scientific terms in describing phenomena.
4. Perform quantitative analysis relating graphical and numerical data obtained from laboratory experiments to test hypotheses and verify physical concepts, principles and laws.

About the Program

The A.S. degree in Physics is designed to prepare students for transfer to baccalaureate institutions as Physics or other science majors. Physics is also an accepted pre-medical field of study. A large percentage of Physics majors select employment with universities as researchers and/or professors. Private industry employs approximately two-thirds of all non-academic physicists in companies manufacturing aircraft and missiles, chemicals, electrical equipment, and scientific equipment. Government, hospitals, and commercial research laboratories also employ Physics graduates. Specific careers include aerodynamist, airplane navigator, air pollution operating specialist, ballistics expert, educator, electrical or mechanical engineer, electrician, hydrologist, industrial hygienist, and electrical, laser, mechanical or optics physicist.

AS Physics

The A.S. degree in Physics is designed to prepare students for transfer to baccalaureate institutions as Physics or other science majors. Physics is also an accepted pre-medical field of study.

Career Opportunities

A large percentage of Physics majors select employment with universities as researchers and/or professors. Private industry employs approximately two-thirds of all non-academic physicists in companies manufacturing aircraft and missiles, chemicals, electrical equipment, and scientific equipment. Government, hospitals, and commercial research laboratories also employ Physics graduates. Specific careers include aerodynamist, airplane navigator, air pollution operating specialist, ballistics expert, educator, electrical or mechanical engineer, electrician, hydrologist, industrial hygienist, and electrical, laser, mechanical or optics physicist.

Program Learning Outcomes

Students completing this program will be able to:

1. Students will be able to apply the Laws of Physics to real-world problems.

- Students will be able to collect and analyze data to verify physical principles.
- Students will be prepared for upper division course at a 4-year college.

Major Requirements

Required Core Courses: 12 units		Units
PHYS 250	Physics with Calculus I	4 units
PHYS 260	Physics with Calculus II	4 units
PHYS 270	Physics with Calculus III	4 units

Required Selective Courses: 6 units selected from the following courses:		Units
CHEM 210	General Chemistry I	5 units
CHEM 220	General Chemistry II	5 units
CHEM 231	Organic Chemistry I	5 units
CHEM 232	Organic Chemistry II	5 units
CIS 255	(CS1) Programming Methods: Java	4 units
CIS 278	(CS1) Programming Methods: C++	4 units
MATH 200	Elementary Probability and Statistics	4 units
MATH 251	Calculus with Analytic Geometry I	5 units
MATH 252	Calculus with Analytic Geometry II	5 units
MATH 253	Calculus with Analytic Geometry III	5 units
MATH 270	Linear Algebra	3 units
MATH 275	Ordinary Differential Equations	3 units

Total Required Major Units: 18

And required General Education coursework and electives as needed to meet the minimum 60 units required for the Associate degree.

AA-T Political Science

The Associate in Arts in Political Science for Transfer degree (AA-T) prepares students for transfer into bachelor's degree programs in Political Science and similar programs at a CSU campus and guarantees admission to the CSU system. Political Science coursework in general is helpful to the student who intends to eventually pursue graduate studies in such diverse fields as political science, education, journalism, business and law.

Career Opportunities

Career opportunities associated with this discipline require the minimum of a B.A. degree. Some business firms and government agencies seek persons with a broad overview and perspective of the operation of government. In addition to a career as a political scientist, career possibilities include employment with the federal, state and local governments; law; business; international organizations; nonprofit associations and organizations; campaign management

and polling; journalism; pre-collegiate education; electoral politics; research; and university and college teaching.

Program Learning Outcomes

Students completing this program will be able to:

1. Effectively communicate the impact of state and non-state actors on the development and implementation of policy.
2. Critically analyze political theories and ideologies.
3. Discuss the impact of ethnic, cultural and economic diversity on political issues and policy.

POST (California Commission on Peace Officers Standards and Training)

Job opportunities within the law enforcement field require certification by POST of a candidate's work preparation. Reserve officers are hired by local law enforcement agencies only after completing a POST-certified program such as that offered by College of San Mateo. For regular police officer positions, the hiring agency might choose to hire the individual and then pay for his/her training. College of San Mateo's Administration of Justice program is oriented to comply directly with POST certification standards, placing our program graduates in an advantageous position when applying for jobs in the law enforcement field.

Upon successful completion of each of the following courses, students will receive a certification of course completion from the Administration of Justice department.

Technical Preparation - CTE Transitions

CTE Transitions (Career and Technical Education Transitions) is a coordinated program between the three colleges in the San Mateo County Community College District and the San Mateo County High Schools, the San Mateo County Office of Education ROP, and other [technical training programs \(www.smccd.edu/ctetransitions\)](http://www.smccd.edu/ctetransitions). The program gives students and their families a chance to identify technical careers and the pathways of study at the colleges that will need to be followed to prepare for those careers.

CTE Transitions students can begin their pathway of study while in high school of SMCOE ROP by taking an articulated (mutually agreed upon) class or classes, that, when completed, will give them both high school credit and college credit (no college fees). If they are still in high school and wish to take the next class in the pathway of study, they can do so by enrolling in the Concurrent Enrollment Program. If they have graduated, they can simply enroll in the next class when they enroll at the college. All technical pathways are listed in the college catalog and known to the college counselors.

Emergency Medical Technician

FIRE 797, an eleven unit course, prepares students to take the National Registry Examination. Successfully passing the exam provides the student with National Registry certification as an EMT. This course is required as a prerequisite for the Fire Academy, as well as for student who want to continue on to a paramedic training program.

For more information about the Fire Technology program, including the Fire Academy and Emergency Medical Technician courses, visit the [CSM Fire Website \(collegeofsanmateo.edu/fire/\)](http://collegeofsanmateo.edu/fire/).

Firefighter I Academy

FIRE 793 is an Accredited Regional Training Program (ARTP) certified by California Office of the State Fire Marshal. Completion of this course, and the required experience component, leads to Firefighter I certification from State Fire Training.

For more information about the Fire Technology program, including the Fire Academy and Emergency Medical Technician courses, visit the [CSM Fire Website \(collegeofsanmateo.edu/fire\)](http://collegeofsanmateo.edu/fire)

Educational Opportunities at other San Mateo County Community Colleges

College of San Mateo is part of the San Mateo County Community College District which also operates Cañada College in Redwood City and Skyline College in San Bruno. In addition to offering comprehensive general education, vocational, transfer, and remedial programs, each college has a number of special offerings which can be found within each of their respective catalogs. Please visit the catalog pages for both [Cañada \(catalog.canadacollege.edu\)](http://catalog.canadacollege.edu) and [Skyline \(catalog.skylinecollege.edu\)](http://catalog.skylinecollege.edu) for additional information.

Course Numbering and Special Courses

The course numbering system in use at College of San Mateo as part of the San Mateo County Community College District categorizes courses according to the following:

- **100-599** Courses generally transferable to a four-year college or university.
- **600-699** Courses varying in content and which are usually transferable.
- **700-799** Courses that are part of a specific occupational program and which are not generally regarded as transferable.
- **800-899** Courses that are non-transferable

From time to time, a department may offer a course which is experimental in nature, and covers a special topic. Because such courses are never exactly the same, you will not find them described in the catalog. They are, however, regular credit courses of the College.

The following experimental/selected topics credit courses may be offered in all instructional programs as approved by the Curriculum Committee. See class schedule for current semester offerings.

680-689 Selected Topics (Degree/Certificate Applicable, CSU Transferable)

Units: 0.5-3; Hours/semester: By Arrangement. Selected topics not covered by regular catalog offerings. Course content and unit credit are determined by the appropriate division in relation to community/student need and available staff. These courses may be offered as lecture or lab classes. See semester class schedule for particular offerings.

690 Special Projects

Units: 1-3; Hours/semester: 48-162 lab hours by arrangement. Grade Option; Prerequisite: 3.0 G.P.A. in subject field. Independent study in a specific field or topic, directed by an instructor and supervised by the Division Dean. Students are eligible to request approval of a special project only after successfully completing at least two college level courses in the subject field. (Note: Students normally may receive credit for only one special project per semester.) Units apply toward AA/AS degree or certificate. CSU Transferable.

680 and 690 courses may be transferable to UC, contingent upon a review of the course outline by a UC campus after transfer. Maximum credit allowed in Selected Topics and Special Projects is 3 units per term, with 6 units total in any or all subject areas combined.

879 Selected Topics (Degree/Certificate Applicable, Non-Transferable)

Units: 0.5-3; Hours/semester: By Arrangement. Selected topics not covered by regular catalog offerings. Course content and unit credit are determined by the appropriate division in relation to community/student need and available staff. These courses may be offered as lecture or lab classes. See semester class schedule for particular offerings. Not designed for transfer credit. Units apply toward AA/AS degree or certificate.

880 Other Selected Topics (Non-Degree/Non-Certificate Applicable, Non-Transferable)

Units: 0.5-3; Hours/semester: By Arrangement. Selected topics not covered by regular catalog offerings. Course content and unit credit are determined by the appropriate division in relation to community/student need and available staff. These courses may be offered as lecture or lab classes. See semester class schedule for particular offerings. Not designed for transfer credit. Units do not apply toward AA/AS degree nor certificate.

ADMJ 100 INTRODUCTION TO THE CRIMINAL JUSTICE SYSTEM

This course examines the evolution of the principles and approaches used by the justice system and the changing forces which have shaped them. Students are introduced to the origins and development of criminal law, legal processes, and sentencing and incarceration policies. Discussion points will include components and characteristics of the criminal justice system, theoretical explanations of crime, responses to and measurement of crime, and current challenges to the system. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 100 or 105

AA/AS Degree Requirements: Area E5b, E5d

Transfer Credit: CSU (CSU GE Area D), UC (IGETC Area 4)

C-ID: AJ 110

ADMJ 102 PRINCIPLES AND PROCEDURES OF THE CRIMINAL JUSTICE SYSTEM

This course examines due process in criminal proceedings from pre-arrest through trial and appeal utilizing statutory law and state and constitutional law precedents. Discussion points will examine the components of the criminal justice system and their roles and responsibilities. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Completion of or concurrent enrollment in ADMJ 100 and eligibility for ENGL 100 or 105

Transfer Credit: CSU, UC

C-ID: AJ 200

ADMJ 104 CONCEPTS OF CRIMINAL LAW

This course will introduce students to the general elements and classifications of crimes against persons, property, morals and public welfare using case law and case studies. Discussion points will also include common and statutory law, the nature of acceptable evidence, prosecution and defense decision making, criminal culpability and defenses to crimes. *Letter Grade Only. Degree Credit.*

ADMJ 771 PC832 ARREST AND CONTROL TRAINING

Arrest, search and seizure; theory and practical application of related laws. Students must meet performance objectives upon completion of course. Course is certified by Commission on Peace Officer Standards and Training (P.O.S.T.) as required under Penal Code 832.6 (a) (1). P.O.S.T. requires strict attendance to mandated training hours. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Admission to ADMJ 771

ADMJ 775 PC 832 FIREARMS TRAINING

Handgun familiarization; safety; care, cleaning and storage; shooting principles; firearms range qualifications.

Firearms used in this course are those typically used by law enforcement. Firearms and materials will be supplied in class. Range fees required. Fingerprint packets will be mailed to registered students only. Please allow 5-6 weeks for DOJ clearance. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 0.5

Hours/semester: Lecture; 24-27 Lab

Prerequisites: Completion of application with all required documents.

ADMJ 780 REGULAR BASIC COURSE MODULE III

First level of training in the Regular Basic Course - Modular Format as prescribed by the California Commission on Peace Officer Standards and Training (POST). Includes PC832 certification. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 7

Hours/semester: 80-90 Lecture; 96-108 Lab; 160-180 Homework

Prerequisites: Department of Justice fingerprint clearance; Physical Clearance and Limitation Report; Valid California Driver License; and Admission into ADMJ 780.

ADMJ 781 REGULAR BASIC COURSE MODULE II

Second level of training in the Regular Basic Course - Modular Format as prescribed by the California Commission on Peace Officer Standards and Training (POST). *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 9.5

Hours/semester: 128-144 Lecture; 72-81 Lab; 256-288 Homework

Prerequisites: ADMJ 780 with a minimum grade of P, or the equivalent training from a POST-certified presenter within the preceding 12 months; Department of Justice fingerprint clearance; Physical Clearance and Limitation Report; Valid California Driver License; and Admission into ADMJ 781.

Administration of Justice - Public Safety Training

College of San Mateo is a member of the South Bay Regional Public Safety Training Consortium. The Consortium is funded by member colleges to provide vocational specific training which may require special facilities, special training conditions, or is presented outside of the regular schedule of college classes.

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.
If you have questions, see your counselor.

South Bay is our regional Police Academy and Dispatcher Academy presenter, and offers other in-service training courses. Although open to the public, some of these courses are intended to serve those already employed in a variety of Public Safety careers. Perspective students must meet the pre-requisites listed in the course description.

The application and registration process is completed at the South Bay Regional Public Safety Training Consortium Center, which is located on the Coyote Valley campus of Gavilan College. Course numbers will be assigned as needed, and Consortium titles will be used. Course curriculum adheres to Title V requirements, as well as the specifications of the associated regulating agencies.

For more information about the courses available, including requirements and schedules, please visit the [South Bay](#) website or call (408) 229-4299.

AJPS 107 BASIC POLICE ACADEMY

This course is certified by the Commission on Peace Officer Standards and Training (POST) and meets the statutory basic training requirements for California Peace Officers. The course follows the instructional framework, minimum hour and content requirements established by POST. The course meets requirements for employed peace officer students, however is open to those students who meet and satisfy entry requirements including written examination, physical fitness examination, DOJ fingerprint clearance and medical clearance. This course requires significant time commitments and outside course work including uniform preparation, homework assignments and equipment maintenance. This course requires additional fees. *Letter Grade Only. Degree Credit.*

Units: 22

Hours/semester: 444-499.5 Lecture; 444-499.5 Lab; 888-999 Homework

Prerequisites: Completion of application with all required documents. Pass the POST Entry-Level Law Enforcement Test Battery (PELETB); Pass a Physical Agility Test; Department of Justice fingerprint clearance; Physical Clearance and Limitation Report; and Valid California Driver License.

Anthropology

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

ANTH 110 CULTURAL ANTHROPOLOGY

This course explores how anthropologists study and compare human culture. Cultural anthropologists seek to understand the broad arc of human experience focusing on a set of central issues: how people around the world

make their living (subsistence patterns); how they organize themselves socially, politically and economically; how they communicate; how they relate to each other through family and kinship ties; what they believe about the world (belief systems); how they express themselves creatively (expressive culture); how they make distinctions among themselves such as through applying gender, racial and ethnic identity labels; how they have shaped and been shaped by social inequalities such as colonialism; and how they navigate culture change and processes of globalization that affect us all. Ethnographic case studies highlight these similarities and differences, and introduce students to how anthropologists do their work, employ professional anthropological research ethics and apply their perspectives and skills to understand humans around the globe. *Grade Option (Letter Grade or Pass/No Pass). ARCH 120 ARCHITECTURE + DESIGN DRAWING I: DRAWING AND VISUAL THINKING

This course presents the basic techniques of hand drawing as an essential method and skill of design exploration, visual thinking, and design communication. Studio work involves observation and freehand drawing of objects, architecture and environmental settings exploring techniques of line, tone, and their combination using soft pencil, conte/charcoal and pen/ink. Topics include proportion, visual composition, principles of observed perspective, and orthographic drawing conventions such as plan, section and elevation, and Parallel drawing. Introduction to digital media to create 3-D model. Graphic supplies will be required. (Fall only) *Letter Grade Only. Degree Credit.*

ARCH 140 ARCHITECTURE + DESIGN DRAWING II: DESIGN COMMUNICATION

Basic techniques used in the graphic communication of architects and environmental designers. Develops the student's ability to visualize and graphically express forms and spaces in two and three dimensions. Use of orthographic, parallel, and perspective drawing in both black/white and color media. Introduction of digital media to create 3-D model. Use of essential principles of pictorial space, methods of delineation, and mixed media techniques. Graphic supplies required. (Spring only) *Letter Grade Only. Degree Credit.*

ARCH 146 INTRODUCTION TO ADVANCED 3D DIGITAL MODELING

This course provides the beginning architecture student with an elementary exposure to the use of advanced digital

3D modeling software currently being widely utilized by architecture & design students at the university level. At the present time this software is "Rhino 3D". This skill is necessary and critical in order to further our students' effectiveness and facility with the process of designing, thus increasing their transfer success. Students will use a free downloadable student version of the software to complete homework assignments. *Letter Grade Only. Degree Credit.*

ARCH 210 DESIGN I: INTRODUCTION TO ARCHITECTURE, ENVIRONMENTAL DESIGN, AND THE DESIGN PROCESS

An introduction to architectural and environmental design with emphasis on critical two and three dimensional thinking utilizing visual, graphic, written, and three-dimensional analysis. Explores principles and relationships of form and space with people and place, scale, proportion, order, contrast, balance, and unity. Design exercises allow students to explore and manipulate ordering elements in architecture, essential principles of architectural form including order, shelter, enclosure, light, texture, place, solids/voids, hierarchy and circulation/movement. The relationship and value of the design process and design decisions on human existence is interwoven through the semester's work. Includes introduction of exemplar buildings and environments including significant movements and theories in design and architecture history as well as indigenous cultures. Studio design exercises provide an introductory exposure to the means of design communication and craft, including verbal, written, hand graphic and three-dimensional object model building skills. Graphic supplies required. A materials fee in the amount shown in the Schedule of Classes is payable upon registration. *Letter Grade Only. Degree Credit.*

needs and constraints. Design opportunities, lectures, and discussion include the presentation, development, and analysis of elemental architectural solutions and topics. Introduction of fundamental principles and opportunities in the design of elementary three dimensional architectural solutions and the making of buildings in response to specific program needs within defined constraints. Design exercises explore the development of building forms, circulation/movement, experiential quality of space, site analysis and the materiality of building solutions within the context of the problem solving process. Graphic processes and visual analysis combined with model building and freehand drawings and digital media are used for a more critical approach to problem solution and developed graphic expression. Design process issues, setting design goals and objectives and the creation of spatial settings for human use are critically investigated. Graphic supplies will be required. ARCH 225 MAKING ARCHITECTURE: BUILDING METHODS, MATERIALS & DESIGN BUILD 1

Introduction to the terminology, principles, and materials of construction and building components within the context of the design & build process in architecture. Emphasis on the origin, history, nature and application of both traditional and emergent materials and processes in building construction. Includes discussion of sustainable materials and methods in construction and fundamental principles of stability and form in buildings. Term project is a student team or individual design-build project. Additional supplies and fees may be required. *Letter Grade Only. Degree Credit.*

Continued study of the art and crafts of ceramics. During this course the student will learn advanced-intermediate hand-building clay construction. Methods of ornamentation, glazing, firing will be demonstrated and

utilized, including low fire. Extra supplies may be required. A materials fee as shown in the Schedule of Classes is payable upon registration. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 32-36 Lecture; 48-54 Lab; 64-72 Homework

Recommended: ART 400.3

Transfer Credit: CSU, UC

ART 401 THREE-DIMENSIONAL DESIGN

Introduction to the concepts, applications, and historical references related to three-dimensional design and spatial composition, including the study of the elements and organizing principles of design as they apply to three-dimensional space and form. Development of a visual vocabulary for creative expression through lecture presentations and use of appropriate materials for non-representational three-dimensional studio projects. A materials fee as shown in the Schedule of Classes is payable upon registration. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 24-27 Lecture; 72-81 Lab; 48-54 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400.

ART 412 CERAMICS II

Continuation of Ceramics I and an introduction to the chemistry of glazing and the firing process of ceramics. During this course the student will learn the techniques of loading and unloading kilns and glaze making. Students will have the opportunity to construct a large number of projects of their own choosing. We have many different firings to experiment with, including low fire, stoneware, salt and Raku. Extra supplies may be required. A materials fee as shown in the Schedule of Classes is payable upon registration. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

American Sign Language

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

ASL 100 AMERICAN SIGN LANGUAGE I

A beginning course designed to introduce students to the visual-gestural richness of American Sign Language as it is used within the Deaf culture. Introduces students to ASL's basic structure and vocabulary while developing students' expressive skills and understanding of fingerspelling and basic conversational strategies. Provides an introduction to the Deaf community and culture. Equivalent to two years of high school ASL. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 5

Hours/semester: 80-90 Lecture; 160-180 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400.

AA/AS Degree Requirements: Area E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 6A)

ASL 110 AMERICAN SIGN LANGUAGE II

A continuation of ASL 100, designed to enhance proficiency in ASL usage. The course further develops conversational skills with an increased emphasis on visual receptive and expressive skills required for learning advanced vocabulary, grammar, non-manual behaviors, and fingerspelling. Creates awareness of Deaf culture through the study of the history of ASL, the cultural dynamics of the Deaf community, and the cultural customs of communication. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 5

Hours/semester: 80-90 Lecture; 160-180 Homework

Prerequisites: ASL 100

Astronomy

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.

If you have questions, see your counselor.

ASTR 100 INTRODUCTION TO ASTRONOMY

General survey course in astronomy, in which students will study the sun, planets, their moons, and other minor bodies of the solar system. Students will also study extrasolar planets, stars, black holes, dark matter/dark energy and cosmology. Emphasis is on conceptual understanding of the universe. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. MATH 110

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B1), UC (IGETC Area 5A)

ASTR 101 ASTRONOMY LABORATORY

Constellation identification, understanding of right ascension and declination, and basic astronomical measurements of our moon, planets, and stars. Occasional telescopic observations using CSM's observatory. With ASTR 100, ASTR 115, or ASTR 125, satisfies lab requirements for UC and California State Universities. Extra supplies may be required. *Letter Grade Only. Degree Credit.*

Units: 1

Hours/semester: 48-54 Lab

Prerequisites: MATH 110 and completion of or concurrent enrollment in, ASTR 100 or ASTR 115 or ASTR 125 .

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B3), UC (IGETC Area 5C)

ASTR 103 OBSERVATIONAL ASTRONOMY LAB

Offered as an alternative to Astronomy 101. Students observe the moon, planets, and various star clusters, using CSM observatory 's telescopes. They will have the opportunity to image planets and observe stellar spectra, using the department's CCD cameras and Rainbow Optics eyepiece spectroscope. Use of the department's planetarium projector assists students in becoming familiar with the sky. Focus is on observational techniques. Extra supplies may be required. *Letter Grade Only. Degree Credit.*

Units: 1

Hours/semester: 48-54 Lab

Prerequisites: MATH 110 and completion of or concurrent enrollment in ASTR 100, ASTR 115 or ASTR 125

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B3), UC (IGETC Area 5C)

ASTR 115 THE SOLAR SYSTEM

Study of the sun, planets, their moons, asteroids, and comets, as well as the age and formation of the solar system. Also covers the history of astronomy and the contributions of various cultures to astronomy. Emphasizes the connection between Newton's Laws and the conservation of energy to Kepler's laws of planetary motion. Discusses the results of interplanetary space probes and the discovery of extrasolar planets. Focuses on conceptual understanding of the solar system. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. MATH 110

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B1), UC (IGETC Area 5A)

ASTR 125 STARS, GALAXIES, AND COSMOLOGY

Study the sun, other stars, Milky Way galaxy, other galaxies and their evolution, black holes, quasars, dark matter, and the foundations of cosmology. Students will become familiar with the basic tenets of general relativity and its application to black holes. The concept regarding stars as the primary producers of energy in the universe as well as the chemicals necessary for life, is emphasized. Focus is on conceptual understanding of stars, galaxies, and the rudiments of cosmology. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B1), UC (IGETC Area 5A)

ASTR 200 INTRODUCTION TO ASTROPHYSICS

Designed for students who want to take a course more advanced than the introductory survey courses in astronomy. This course covers the fundamentals of photometry, spectroscopy, and stellar astrophysics. Topics include study of pulsating and cataclysmic variable stars, contact binaries, and galactic cannibalism. Emphasis is on a thorough understanding of basic astrophysics. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Completion of or concurrent enrollment in PHYS 220 or PHYS 270. Completion of or concurrent enrollment in ASTR 125.

AA/AS Degree Requirements: Area E5a

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.

ASTR 203 ASTROIMAGING TECHNIQUES

Hands on learning of various imaging techniques including astrophotography of galaxies and nebulae, spectroscopy, and photometry. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 32-36 Lecture; 96-108 Lab; 64-72 Homework

Prerequisites: ASTR 103

Transfer Credit: CSU

ASTR 204 APPLICATION OF ASTROIMAGING TECHNIQUES

Application of techniques learned in ASTR 203 to gather data about celestial bodies. Topics investigated will include the use of spectroscopy to determine stellar composition and photometry to verify times of ingress and egress of transiting extrasolar planets. In addition, observatory control fundamentals will be emphasized and planned imaging runs will be an important component. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 32-36 Lecture; 96-108 Lab; 64-72 Homework

Biology

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

BIOL 100 INTRODUCTION TO THE LIFE SCIENCES

Fundamental principles of life. The awareness of plant and animal interrelations and interdependencies. Examines the human role in the world of living things in relation to contemporary problems. One or more field trips may be required. (Intended for non-science majors with no previous experience in the biological sciences.) *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. And any READ 400 level course.

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B2), UC (IGETC Area 5B)

BIOL 102 ENVIRONMENTAL SCIENCE AND CONSERVATION

Introduction to environmental issues from a scientific perspective, focusing on physical, chemical, and biological processes within the Earth system, the interaction between humans and these processes, and the role of science in finding sustainable solutions. Topics include ecological principles, biodiversity, climate change, sustainability, renewable and non-renewable energy, water resources, air and water pollution, and solid waste management. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. And completion of or concurrent enrollment in any READ 400 level course.

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B2), UC (IGETC Area 5B)

BIOL 110 GENERAL PRINCIPLES OF BIOLOGY

Study of the principles of the biological sciences, including methods of scientific inquiry and experimental design. Includes origin and evolution of life, cellular makeup of living things, cellular metabolism including photosynthesis and respiration, genetics, ecology, life cycles, and natural history. One or more field trips may be required. Extra supplies may be required. A materials fee in the amount shown in the Schedule of Classes is payable upon registration. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

BIOL 130 HUMAN BIOLOGY

Introductory study of human anatomy and physiology. Includes development, genetics, evolution and ecology. Recommended especially for students interested in Allied Health Fields. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. Completion or concurrent enrollment in any READ 400 level course.

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B2), UC (IGETC Area 5B)

BIOL 132 HUMAN BIOLOGY LABORATORY

Introductory laboratory exercises concerning human anatomy and physiology and utilizing the scientific method, analysis of data and drawing appropriate conclusions. This course is a supplement to BIOL 130, Human Biology. Recommended especially for students interested in the Allied Health Fields. *Letter Grade Only. Degree Credit.*

Units: 1

Hours/semester: 48-54 Lab

Prerequisites: Completion of or concurrent enrollment in BIOL 130.

Recommended: Any READ 400 level course.

CHIN 211 COLLOQUIAL CHINESE I, ELEMENTARY

A beginning conversational Mandarin Chinese course. Extensive oral training in Mandarin. Emphasis on practical vocabulary, pronunciation and idiomatic usage, with sufficient grammar to give flexibility to the spoken language. The Pinyin phonetic system is used to represent the sounds in Mandarin, and substitute for characters in writing. Designed for students who wish to acquire basic skills of spoken Mandarin Chinese. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Computer and Information Science

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

CIS 110 INTRODUCTION TO COMPUTER AND INFORMATION SCIENCE

Introduction to computers and information science. Includes computer terminology, computer hardware and software, networks, common operating systems, data representation, telecommunications, Internet access and security issues, computer ethics, and beginning computer programming concepts, and an introduction to research processes and methods through online tools and sources. Topics are motivated by current issues and events. Discussions include examination of such issues as privacy, intellectual property, and cloud computing. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400.

AA/AS Degree Requirements: Area C3; Area E2c, E5d

Transfer Credit: CSU, UC

C-ID: ITIS 120

CIS 111 INTRODUCTION TO WEB PROGRAMMING

This course provides an introduction to the World Wide Web and Web programming. Basic HTML and CSS will be introduced, as well as client-side scripting in JavaScript using variables, functions, and objects. Introduces programming with HTML, CSS, JavaScript, and the DOM (Document Object Model). Server-side scripting languages such as ASP, JSP, Python, Perl and/or PHP will be demonstrated. Introduces Web 2.0 topics, such as Ajax, Web Services, and HTML5. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400.

Transfer Credit: CSU, UC

CIS 113 RUBY PROGRAMMING

Comprehensive course in Ruby, an open-source dynamic object-oriented scripting language. Covers variables, arrays and hashes, methods and procs, classes, objects, and writing server-side Ruby scripts for the Web. Also covered are exception handling, regular expressions, I/O objects, and modules. An introduction to SQL and the MySQL database, and advanced topics such as Model-View-Controller architecture and agile Web application development with the Ruby on Rails framework. Intended for students with previous programming experience. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. Completion of CIS 111 or CIS 254.

Transfer Credit: CSU, UC

CIS 114 JAVASCRIPT/AJAX PROGRAMMING

Study of the JavaScript programming language. Provides an overview of HTML5 and CSS, client-side programming, variables, arrays, functions, closures, event handlers, objects, form validation, cookies, and the DOM. Introduces Ajax (Asynchronous JavaScript and XML) technologies, design patterns, server-side programming, RSS, JSON, open-source libraries, and advanced topics such as ECMAScript versions, security, performance, and Web services. Intended for students with previous programming experience. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. Completion of CIS 111 or CIS 254.

Transfer Credit: CSU, UC

CIS 117 PYTHON PROGRAMMING

Comprehensive course in Python, an open-source dynamic object-oriented scripting language. Covers variables, arrays, lists, tuples, dictionaries, functions, methods, classes, objects, and writing server-side Python scripts for the Web. Also covered are exception handling, regular expressions, and modules. An introduction to SQL and the MySQL database, and advanced topics such as Model-View-Controller architecture and Web application development with the Django framework. Intended for students with previous programming experience. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. Completion of CIS 111 or CIS 254.

Transfer Credit: CSU, UC

CIS 121 UNIX/LINUX

Introduction to the UNIX/Linux operating system. Includes a brief introduction to operating systems and UNIX history. Covers UNIX file systems, common shell features including I/O redirection, piping, command substitution, and simple job control. Introduces shell-specific facilities, including use of environmental and local variables, and common UNIX utilities. Also includes advanced topics such as shell scripting, communications, and system administration. Intended for students with previous programming experience. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. Completion of CIS 110.

CIS 127 HTML5 AND CSS

Introduction to HTML5 and CSS (Cascading Style Sheets). Covers CSS3, HTML5 elements, HTML5 APIs, forms, audio and video, offline applications, Canvas drawing and animation, communication APIs, Web Sockets, and Web Workers. Introduces HTML5 Geolocation, local and session storage, the Web SQL Database, and advanced topics such as mobile web applications, performance analysis, browser issues, and developer tools. Intended for students with previous programming experience. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. Completion of CIS 111 or CIS 254.

CIS 129 FRAMEWORKS/SERVER-SIDE JAVASCRIPT

Introduction to JavaScript frameworks. Provides an overview of MVC (Model-View-Controller), MVP (Model-View-Presenter) and MVVM (Model-View-ViewModel) design patterns. Server-side JavaScript programming with package managers will be introduced. Also covered are REST (REpresentational State Transfer) Web Services and APIs used to obtain and process data in XML or JSON format. Overview of JavaScript templating engines for Web applications. Various open-source libraries for DOM manipulation, GUI, visualization and testing will be introduced. Intended for students with previous programming experience. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. Completion of CIS 111.

CIS 132 INTRODUCTION TO DATABASES

This course covers database design and the use of database management systems. It includes an introduction to the relational model, relational algebra, and SQL. It also covers XML data including DTDs and XML Schema for validation, and an introduction to the query and transformation languages XPath, XQuery, and XSLT. The course includes relational design principles based on dependencies and normal forms. Additional database topics introduced are indexes, views, transactions, authorization, integrity constraints, triggers, on-line analytical processing (OLAP), and emerging NoSQL (Not only SQL) databases for cloud and desktop computing. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400.

Transfer Credit: CSU, UC

CIS 133 NOSQL DATABASES

Introduction to non-relational (NoSQL) data models, such as Key-Value, Document, Column, Graph and Object-Oriented database models. Advantages and disadvantages of the different data architecture patterns will be discussed. Hands-on experience with a representative sample of open-source NoSQL databases will be provided. The rapid and efficient processing of data sets with a focus on performance, reliability, and agility will be covered. Big Data, distributed and cloud computing concepts will be introduced. Intended for students with previous programming experience. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: CIS 254, completion of or concurrent enrollment in CIS 132.

Transfer Credit: CSU, UC

CIS 135 ANDROID PROGRAMMING

Introduction to the architecture, API and techniques used to create robust, high-performance applications for Android mobile devices. An overview of the most common tools and techniques for writing Android applications. Other topics include user interfaces, local storage, maps, multimedia, content providers, sensors, and user events. Storage strategies for persistent information are introduced, including the use of SQLite database features. Introduction to Kotlin programming. Intended for students with previous Java programming experience. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. CIS 254

CIS 138 INTERNET OF THINGS

Introduction to the emerging platform called the Internet of Things – wherein billions of devices communicate with each other and “the cloud”. Exploration of the convergence of multiple disciplines leading to modern Smartphones. Learn how information from physical devices in the real world gets communicated to Smartphone processors. Make informed design decisions about sampling frequencies and bit-width requirements for various kinds of sensors. Gain expertise to affect the real world with actuators such as stepper motors and LEDs, and generate notifications. Learn to interface common sensors and actuators to hardware. Develop software to acquire sensory data, process the data and actuate stepper motors, LEDs, etc. for use in mobile-enabled products. Apply analog-to-digital and digital-to-analog conversion concepts. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. CIS 111, CIS 254

CIS 140 R PROGRAMMING FOR BIG DATA

Introduction to the field of Big Data, its concepts and technologies, as well as R programming. Students will explore the roles of a data scientist in terms of network architecture, data analytics and predictive analysis. Fundamental questions of data science and scenarios appropriate for each will be discussed. Differentiation among raw data, clean data, and tidy data; and tools to convert data to/from these formats will be covered. Effective management of large data in single and distributed computing environments, including managing data redundancy and failures, will be covered. Testing, correlation, clustering, and data visualization will be introduced. Intended for students with previous

programming experience. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. Completion of CIS 254.

Transfer Credit: CSU, UC

CIS 145 INTRODUCTION TO DEVOPS

Introduction to the most common DevOps patterns used to develop, deploy and maintain applications. Covers the core principles of the DevOps methodology and examines a number of use cases applicable to startup, small-medium business, and enterprise development scenarios. Tools for configuration and deployment will be used, as well as common techniques for configuring and deploying systems. Also covered are operations, monitoring, testing, security, and Cloud features. Intended for students with previous programming experience. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. CIS 117 and CIS 121

Transfer Credit: CSU, UC

CIS 151 COMPUTER NETWORKING

Introduction to networks and digital communications with a focus on Internet protocols: Application layer architectures (client/server, peer-to-peer) and protocols (HTTP-web, SMTP-mail, etc.), Transport layer operation: (reliable transport, congestion and flow control, UDP, TCP); Network layer operation - (routing, addressing, IPv4 and IPv6), Data Link layer operation (error detection/correction, access control, Ethernet, 802.11, PPP), Layer 2/3 protocols (ATM and MPLS); selected current topics such as: security, multimedia protocols, Quality of Service, mobility, wireless networking, emerging protocols, network management. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. CIS 110 or work experience in the IT field.

DGME 111 DREAMWEAVER FUNDAMENTALS

This introductory course is designed to provide an overview of Adobe Dreamweaver CC tools and techniques. Adobe Dreamweaver CC is a powerful web development tool for creating, publishing, and managing websites and mobile content. Students will learn fundamental concepts, tools, and site management. Assignments require the use of Adobe Creative Cloud® outside of class hours. Software: Adobe Creative Cloud® *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 0.5

Hours/semester: 8-9 Lecture; 16-18 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400.

Transfer Credit: CSU

DGME 112 TV STUDIO PRODUCTION

This is a hands-on TV studio production course. Students work together in a team as they are trained to operate a fully equipped professional digital TV studio and control room. Students receive rigorous broadcast training in camera operation, microphone set-up and audio engineering, lighting, floor directing, video switching, directing, and teleprompter operation. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 40-45 Lecture; 24-27 Lab; 80-90 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400.

Transfer Credit: CSU

DGME 113 DIGITAL VIDEO PRODUCTION

Students will acquire the skills necessary to make professional level video productions, which may be used in documentaries, music videos, TV productions, commercials, news reports, and digital films. Covers video field production from planning and scripting, through shooting and editing. Students learn on-location production techniques and technologies, such as shooting to edit. Hands-on training allows students to develop skills in camera operation, audio, and lighting. Includes digital video editing using common software like Final Cut Pro or Premiere. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 40-45 Lecture; 24-27 Lab; 80-90 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400.

Transfer Credit: CSU

DGME 118 DIGITAL AUDIO PRODUCTION

Students get hands-on experience in audio production and the basic operation of professional audio equipment. Covers basic microphone techniques, recording in the studio and field, and broadcast production. Students will gain a practical understanding of digital audio recording, mixing, and editing. Includes an introduction to digital audio editing software. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 40-45 Lecture; 24-27 Lab; 80-90 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400.

Transfer Credit: CSU

DGME 119 RADIO PRODUCTION LAB

Students in this hands-on audio lab course will produce radio programming with a community-interest focus that will air on CSM's streaming radio station K-DOG in accordance with FCC standards. Students may also serve as radio station staff and be invited to submit projects for broadcast on Jazz91FM (KCSM). *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 40-45 Lecture; 24-27 Lab; 80-90 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. DGME 118, MUS. 290

Transfer Credit: CSU

DGME 122 LIVE SOUND

Students in this course will learn principles and techniques of sound reinforcement, including live sound history, theory, and technology with an emphasis on the technical manipulation of acoustics. Includes the latest networked audio systems, hands-on live sound operations for venues such as corporate conferences, theaters, and concerts. These are career skills for employment as an audio engineer or AV Equipment Technician. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 40-45 Lecture; 24-27 Lab; 80-90 Homework

Prerequisites: DGME 118

C-ID: CMUS 120X

DGME 128 ON-AIR TALENT

Practical speaking experience in announcing for radio and TV. Students will learn to research, write, and present information to a diverse audience. Students practice speaking techniques in news, demonstration, interviews, and voiceovers. Basic microphone and TV performance techniques included. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3**Hours/semester:** 40-45 Lecture; 24-27 Lab; 80-90 Homework**Recommended:** Eligibility for ENGL 838 or ENGL 848 or ESL 400.**AA/AS Degree Requirements:** Area E2b**Transfer Credit:** CSU**DGME 133 RADIO PRODUCTION LAB II**

A continuation of DGME 119 Radio Production Lab. Students gain experience with more complex radio programming and production projects in the context of community-interest radio. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 2**Hours/semester:** 16-18 Lecture; 48-54 Lab; 32-36 Homework**Prerequisites:** DGME 119**Transfer Credit:** CSU**DGME 143 MOTION GRAPHICS**

Students will learn how to create motion graphics and special effects to enhance media productions and communicate information. Students will use common software applications to design motion graphics for TV and multimedia. Lessons include key-framing to create motion, and the use of luminance or key effects, such as green screen. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3**Hours/semester:** 40-45 Lecture; 24-27 Lab; 80-90 Homework**Recommended:** Eligibility for ENGL 838 or ENGL 848 or ESL 400.**Transfer Credit:** CSU**DGME 164 USER INTERFACE/USER EXPERIENCE DESIGN**

Covers the fundamentals of user-centered interface design concepts and practices for web, mobile devices, and other applications. Students gain an understanding of how users interact with an interface and be introduced to the concepts of usability, interface associations and aesthetics, and the user experience. Basic knowledge of Adobe Illustrator and Photoshop is required. Software: Adobe Creative Cloud® *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3**Hours/semester:** 40-45 Lecture; 24-27 Lab; 80-90 Homework**Recommended:** Eligibility for ENGL 838 or ENGL 848 or ESL 400. DGME 211 and DGME 110**Transfer Credit:** CSU, UC**DGME 165 INTRODUCTION TO DIGITAL ANIMATION**

A project-based course exploring both traditional and digital animation techniques through the use of 2D digital animation. Other topics include implementation of successful graphic user interface solutions for web design and stand-alone applications using the scripting capabilities. Some familiarity with Adobe Illustrator is presumed. Software: Adobe Creative Cloud® *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3**Hours/semester:** 40-45 Lecture; 24-27 Lab; 80-90 Homework**Recommended:** Eligibility for ENGL 838 or ENGL 848 or ESL 400. DGME 211 or equivalent.**Transfer Credit:** CSU**DGME 166 WEB AUTHORING: ACTIONSCRIPT**

This course will cover advanced ActionScript programming. Students will learn the basics of scripting in Flash to work more efficiently in a production environment and bring their ActionScript skills to a viable level to work in a professional team. Students will learn several different scripting methods and techniques in order to adapt to multiple working environments. Students will learn how to create and control content with ActionScript to make dynamic projects that can respond uniquely to a user's input. Software: Adobe Creative Cloud® *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Transfer Credit: CSU (CSU GE Area C1), UC (IGETC Area 3A)

DGME 216 INTERMEDIATE GRAPHIC DESIGN

Students express content and meaning in visual terms while exploring and applying design principles to a variety of practical design projects. Emphasis on branding, corporate identity design and self-promotion. Covers production techniques, and a strategic approach to the design problem solving process, including the role of the designer and working with various types of clients. A materials fee as shown in the Schedule of Classes is payable upon registration. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 40-45 Lecture; 24-27 Lab; 80-90 Homework

Prerequisites: DGME 103 or DGME 211

Transfer Credit: CSU, UC

DGME 220 TYPOGRAPHY

Study letterforms and understand fundamental typographic principles with an emphasis on the vocabulary of the typographic form and its relationship to message and purpose. Covers in a practical and useful manner, typographic history, anatomy, classification, legibility, choosing and mixing typefaces, and type as an expressive medium. Classroom theory is applied to practical typographic problems. A materials fee as shown in the Schedule of Classes is payable upon request. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 40-45 Lecture; 24-27 Lab; 80-90 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400.

DGME 250 INTERNSHIP

Acquire real-world experience working in industry and build qualifications for entry-level jobs. Students prepare for, identify, and complete an internship based on their own professional interests and career goals under the direction of a faculty advisor. A materials fee as shown in the Schedule of Classes is payable upon registration. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Securing an internship in the industry requires a well developed digital media portfolio. For this reason, it's recommended that students seeking a web internship, complete the following courses: DGME 167, DGME 168 and DGME 169. For this reason, it's recommended that students seeking a graphic design internship, complete the following courses: DGME 103, DGME 211, and either DGME 220 or DGME 230. For this reason, it's recommended that students seeking a broadcast/multimedia internship, complete the following courses: DGME 112, DGME 113 and DGME 118.

Hours/semester: 24-27 Lab

DSKL 822 STUDY SMART SKILLS

Strategies to improve academic performance for students struggling with reading, writing, and/or math: Multi-sensory study strategies geared to students' individual learning profiles. Hands-on activities and group work. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 1

Hours/semester: 16-18 Lecture; 32-36 Homework

DSKL 827 ASSISTIVE TECHNOLOGY: SMARTPEN

Designed primarily for students with disabilities. This course provides in-depth instruction about the various features of the Smartpen and ways to apply notetaking strategies when using the Smartpen. Students will also learn how to transfer recorded notes from the Smartpen to the computer-based software and how to review and organize notes in this software application. NOTE: Students who enroll in this class with a Smartpen identified as an accommodation will have access to a Smartpen for a one-month loan through the Disabled Students Programs and Services (DSPS) for the duration of this class. Other students will need to provide their own Smartpen. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 0.5

Hours/semester: 8-9 Lecture; 16-18 Homework

DSKL 829 ASSISTIVE TECHNOLOGY - TEXT-TO-SPEECH PROGRAM

Designed primarily for students with disabilities; provides training in the use of a text-to-speech program, which supports students' learning styles and/or physical needs in the area of reading and studying their textbooks. Students will learn how to use this assistive technology tool as an accommodation for reading and studying electronic versions of their textbooks and completing tests/exams from concurrent subject area classes. No previous computer experience is required. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 0.5

Hours/semester: 8-9 Lecture; 16-18 Homework

Economics

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

ECON 100 PRINCIPLES OF MACROECONOMICS

The American economy: price system; the role of business, labor and government; the money and banking system; trends of national income and factors in its determination; problems and policies for stabilization and growth. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for MATH 120 or completion of Math 190.

ELEC 144 SOLAR ENERGY FUNDAMENTALS

This course covers the fundamentals of solar energy production, including both thermal and photovoltaic technologies. Included will be an overview of applicable electrical principles, load analysis, evaluation of the solar resource, system sizing principles, and coverage of the components included in off-grid and grid interactive systems. The lab section provides hands-on experience in building and testing solar based systems. Information will also be provided on the California rebate process and installer certification requirements for residential-based solar energy systems. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Transfer Credit: CSU

ELEC 231 BASIC APPLIED ELECTRONICS MATHEMATICS

Basic principles: algebra, trigonometry, logarithms, graphing, and scientific calculator use as applied to DC/AC circuits. *Letter Grade Only. Degree Credit.*

Units: 2

Hours/semester: 32-36 Lecture; 64-72 Homework

Prerequisites: Eligibility for or completion of MATH 110 or MATH 111.

Transfer Credit: CSU

ELEC 232 ADVANCED ELECTRONICS MATHEMATICS

In depth study of algebra, trigonometry, logarithms and graphing as applied to amplifier, oscillator and microwave circuits. *Letter Grade Only. Degree Credit.*

Units: 1

Hours/semester: 16-18 Lecture; 32-36 Homework

Prerequisites: ELEC 231

Transfer Credit: CSU

ELEC 405 TRANSFORMERS AND ROTATING MACHINERY

This course deals with the electrical equipment used to produce rotary energy. Four main topics are included: three-phase power, transformers, generators, and motors. Device characteristics, operating theory, system interconnection, and basic control devices are covered. Troubleshooting and logical circuit tracing are emphasized. *Letter Grade Only. Degree Credit.*

Units: 2

Hours/semester: 24-27 Lecture; 24-27 Lab; 48-54 Homework

Prerequisites: Completion of or concurrent enrollment in ELEC 112.

switching, forward/reverse switching, and speed control systems. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: ELEC 111 and ELEC 405 and completion of or concurrent enrollment in ELEC 112.

Transfer Credit: CSU

ELEC 422 INTRODUCTION TO PROGRAMMABLE LOGIC CONTROLLERS

Review of the component parts of a programmable logic controller and their function and their interrelationship. Examines PLC input/output systems and requirements. Covers ladder logic programming using basic I/O instructions, logic instructions, timers, counters, comparison, and math functions in-depth. Also introduces sequence of PLC operation, hardware installation, troubleshooting, and industrial applications of PLCs. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: ELEC 421 or equivalent experience.

Transfer Credit: CSU

ELEC 424 HYDRAULIC, PNEUMATIC AND VACUUM POWER SYSTEMS

Theory, construction, installation, and operation of hydraulic, pneumatic, and vacuum power systems in an automated controls environment. Investigates various types of devices, including those that produce linear and rotary power, check valves, flow valves, and electrical activators. The various fundamental laws of physical science that govern fluid flow are also reviewed with respect to operation and troubleshooting. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: ELEC 422

Transfer Credit: CSU

ELEC 441 SENSORS AND DATA TRANSMISSION SYSTEMS

A practical course in industrial measurement of temperature, flow, pressure, and level focusing on their physical basis and fundamental laws. Application

concepts in industrial instrumentation systems, sensor troubleshooting, and factors with influence sensor and system accuracy, performance, and calibration are described while stressing basic sensor theory of operation, faults, and calibration. A materials fee as shown in the Schedule of Classes is payable upon registration. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: ELEC 111, completion of or concurrent enrollment in ELEC 112.

Transfer Credit: CSU

ELEC 442 ELECTRONIC AND PNEUMATIC PROCESS CONTROL SYSTEMS

A practical course in industrial electronic and industrial pneumatic control systems. Calibration theory, a review of transmitter calibration, electronic systems, pneumatic systems, controller operation, control loop theory, PID, loop tuning, and control loop troubleshooting are stressed. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: ELEC 441

Transfer Credit: CSU

ELEC 445 INDUSTRIAL DATA COMMUNICATIONS SYSTEMS

A practical course in industrial data communication starting from the basics. This course demonstrates how to design and maintain industrial communications systems in an industrial production environment. *Letter Grade Only. Degree Credit.*

Units: 4

ELEL 741 ELECTRICAL APPRENTICESHIP I

First half of year one of a five-year Electrical Apprenticeship Program. Industry and program overview, work environment and basic skills, wire construction and insulation, conduit bending and trigonometric functions, material overview, drafting/blueprint reading. *Letter Grade Only. Degree Credit.*

Units: 3.5

Hours/semester: 32-36 Lecture; 72-81 Lab; 64-72 Homework

Prerequisites: Indenture in the Electrical Apprenticeship Inside Wireman Program, approved by the California State Division of Apprenticeship Standards.

ELEL 742 ELECTRICAL APPRENTICESHIP II

Second half of year one of a five-year Electrical Apprenticeship Program. Electrical theory and its application on series circuits, parallel circuits and combination circuits; introduction to the National Electrical Code (NEC). *Letter Grade Only. Degree Credit.*

Units: 3.5

Hours/semester: 32-36 Lecture; 72-81 Lab; 64-72 Homework

Prerequisites: Indenture in the Electrical Apprenticeship Inside Wireman Program, approved by the California State Division of Apprenticeship Standards.

ELEL 743 ELECTRICAL APPRENTICESHIP III

First half of year two of a five-year Electrical Apprenticeship Program. Electrical test instruments, NEC Code books skills, direct current (DC), generators, drafting and blueprints, conduit bending and fabrication for commercial installation. *Letter Grade Only. Degree Credit.*

Units: 3.5

Hours/semester: 32-36 Lecture; 72-81 Lab; 64-72 Homework

Prerequisites: Indenture in the Electrical Apprenticeship Inside Wireman Program, approved by the California State Division of Apprenticeship Standards.

ELEL 744 ELECTRICAL APPRENTICESHIP IV

Second half of year two of a five-year Electrical Apprenticeship Program. AC circuits, RLC circuits, power factor, electrical transformers, building/structure conductors. *Letter Grade Only. Degree Credit.*

Units: 3.5

Hours/semester: 32-36 Lecture; 72-81 Lab; 64-72 Homework

Prerequisites: Indenture in the Electrical Apprenticeship Inside Wireman Program, approved by the California State Division of Apprenticeship Standards.

ELEL 745 ELECTRICAL APPRENTICESHIP V

First half of year three of a five-year Electrical Apprenticeship Program. Electrical safety-related work practices, blueprints, semi-conductor use, transistors, electronic applications in the construction electrical industry. *Letter Grade Only. Degree Credit.*

Units: 3.5

Hours/semester: 32-36 Lecture; 72-81 Lab; 64-72 Homework

Prerequisites: Indenture in the Electrical Apprenticeship Inside Wireman Program, approved by the California State Division of Apprenticeship Standards.

ELEL 746 ELECTRICAL APPRENTICESHIP VI

Second half of year three of a five-year Electrical Apprenticeship Program. Grounding and bonding, grounding electrode system, ground faults and short circuits, grounding and bonding equipment, three-phase transformers, overcurrents. *Letter Grade Only. Degree Credit.*

Units: 3.5

Hours/semester: 32-36 Lecture; 72-81 Lab; 64-72 Homework

Prerequisites: Indenture in the Electrical Apprenticeship Inside Wireman Program, approved by the California State Division of Apprenticeship Standards.

ELEL 747 ELECTRICAL APPRENTICESHIP VII

First half of year four of a five-year Electrical Apprenticeship Program. Motors, motor control devices, motor control diagrams. *Letter Grade Only. Degree Credit.*

Units: 3.5

Hours/semester: 32-36 Lecture; 72-81 Lab; 64-72 Homework

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.
If you have questions, see your counselor.

Prerequisites: Indenture in the Electrical Apprenticeship Inside Wireman Program, approved by the California State Division of Apprenticeship Standards.

ELEL 748 ELECTRICAL APPRENTICESHIP VIII

Second half of year four of a five-year Electrical Apprenticeship Program. Programmable logic controllers, controller fundamentals, ladder programming, NEC for electrical equipment. *Letter Grade Only. Degree Credit.*

Units: 3.5

Hours/semester: 32-36 Lecture; 72-81 Lab; 64-72 Homework

Prerequisites: Indenture in the Electrical Apprenticeship Inside Wireman Program, approved by the California State Division of Apprenticeship Standards.

ELEL 749 ELECTRICAL APPRENTICESHIP IX

First half of year five of a five-year Electrical Apprenticeship Program. Fire alarm systems, security systems, structured cabling system, generated power and distribution. *Letter Grade Only. Degree Credit.*

Units: 3.5

Hours/semester: 32-36 Lecture; 72-81 Lab; 64-72 Homework

Prerequisites: Indenture in the Electrical Apprenticeship Inside Wireman Program, approved by the California State Division of Apprenticeship Standards.

ELEL 750 ELECTRICAL APPRENTICESHIP X

Second half of year five of a five-year Electrical Apprenticeship Program. Power distribution systems, high voltage testing, automation networks, preparation for general electricians' certification, electrical project supervision. *Letter Grade Only. Degree Credit.*

Units: 3.5

Hours/semester: 32-36 Lecture; 72-81 Lab; 64-72 Homework

Prerequisites: Indenture in the Electrical Apprenticeship Inside Wireman Program, approved by the California State Division of Apprenticeship Standards.

English

High school transcripts are now being used to help determine proper placement of students into English 100 and other English courses. Students transferring to College of San Mateo with credit in college English can use their

transcripts to assist with placement. Students who feel that their high school or college transcripts do not reflect their current abilities should inquire about alternative placement measures. Regardless of placement, students who would prefer to receive extra support in reading and writing skills in their first semester of college composition should enroll in English 105.

The following English courses are credit bearing but not degree applicable, which means that the units count for the purpose of financial aid but not toward the AA/AS degree: 828, 850, 875.

The English Program

The English program consists of transfer and non-transfer courses in composition, film, language, literature, reading, and speech communication. Entering students should enroll first in one of the following courses in composition:

Transfer Courses	Non-Transfer Courses
English 100 ESL 400	English 828, 838, 848 ESL 826, 827 or 828

The English requirement for the A.A./A.S. degree may be completed with additional units chosen from the following courses:

Transfer Courses	Non-Transfer Courses
English 110, 165 Communication 110, 130, 140, 170, 171	English 875 Communication 855

Note that English 100 with a grade of C or higher is the prerequisite for English 110, English 165, and for all transfer-level literature courses.

For those students who do not place into ENGL 100 on the placement tests, the following course options satisfy the prerequisite for ENGL 100 (all must be completed with a grade of C or higher): ENGL 838 or 848; or ESL 400.

For those students who do not place into ENGL 838 or 848 on the placement test, the following course options satisfy the prerequisite for ENGL 838 or 848 (all must be completed with a grade of C or higher): ENGL 828; or ESL 400; or ENGL 826 and READ 826.

Reading courses may be taken concurrently with any of the other courses in the English and Literature program.

Other English/Literature transfer courses are those numbered below 800; other English/Literature Non-Transfer courses are those numbered 800 or above.

The following English courses are pass-bearing but not degree-applicable, which means that the units count for the purpose of financial aid but not toward the A.A./A.S. degree: 828, 850, 875.

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.
If you have questions, see your counselor.

ENGL 100 COMPOSITION AND READING

College reading and writing based on the study of primarily nonfiction materials. Students write a minimum of 8,000 words; writing emphasizes expository forms. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 16-18 TBA; 80-90 Homework

Prerequisites: ENGL 838 or ENGL 848 or ESL 400 OR appropriate skill level indicated by the English placement tests.

AA/AS Degree Requirements: Area C2, C3; Area E2a, E2b, E2c

Transfer Credit: CSU (CSU GE Area A2 or A3), UC (IGETC Area 1A)

C-ID: ENGL 100, ENGL 110

ENGL 105 INTENSIVE COMPOSITION AND READING

Intensive college reading and writing based on the study of primarily nonfiction materials. Students write a minimum of 8,000 words; writing emphasizes expository forms. *Letter Grade Only. Degree Credit.*

Units: 5

Hours/semester: 80-90 Lecture; 16-18 TBA; 144-162 Homework

Prerequisites: ENGL 838 or ENGL 848 or ESL 400 OR appropriate skill level indicated by the English placement tests.

AA/AS Degree Requirements: Area C2, C3; Area E2a, E2b, E2c

Transfer Credit: CSU (CSU GE Area A2), UC (IGETC Area 1A)

C-ID: ENGL 100, ENGL 110

ENGL 110 COMPOSITION, LITERATURE, AND CRITICAL THINKING

This course is designed to introduce students to the major imaginative genres of poetry, drama, and fiction. Students will write a minimum of eight thousand words of finished prose, employing methods of literary analysis and demonstrating skill in critical thinking. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 16-18 TBA; 80-90 Homework

Prerequisites: ENGL 100 or 105.

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area A2 or A3 or C2), UC (IGETC Area 1B or 3B).

C-ID: ENGL 120, ENGL 115

ENGL 161 CREATIVE WRITING I

The craft of writing short fiction and poetry. Students write a minimum of two short stories and a complete poetry project. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105.

AA/AS Degree Requirements: Area E2b

Transfer Credit: CSU (CSU GE Area C2), UC

C-ID: ENGL 200, ENGL-CW 100

ENGL 162 CREATIVE WRITING II

Further instruction in the writing of fiction and/or poetry. Students plan and complete an extensive creative writing project through agreement with the instructor. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: ENGL 161

AA/AS Degree Requirements: Area E2b

Transfer Credit: CSU (CSU GE Area C2), UC

ENGL 163 CREATIVE WRITING III

Instruction in the writing of fiction or poetry for advanced students, with an emphasis on longer works. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: ENGL 162

AA/AS Degree Requirements: Area E2b

Transfer Credit: CSU (CSU GE Area C2), UC

ENGL 165 COMPOSITION, ARGUMENT, AND CRITICAL THINKING

This course is designed to introduce students to logical and rhetorical tools for analyzing, evaluating and mounting persuasive arguments. Students will write a minimum of eight thousand words of finished prose, employing methods of logical analysis and demonstrating skill in critical thinking. *Letter Grade Only. Degree Credit.*

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.
If you have questions, see your counselor.

Units: 3

Hours/semester: 48-54 Lecture; 16-18 TBA; 80-90 Homework

Prerequisites: ENGL 100 or 105.

AA/AS Degree Requirements: Area E2b, E2c

Transfer Credit: CSU (CSU GE Area A3), UC (IGETC Area 1B)

C-ID: ENGL 105, ENGL 115

ENGL 828 BASIC COMPOSITION AND READING

Practice in composition and reading based on the study of essays and other reading material. Composition of short essays, with focused work on reading, paragraph development, and sentence structure. *Letter Grade Only. Units do not apply toward AA/AS degree.*

Units: 5

Hours/semester: 80-90 Lecture; 16-18 TBA; 144-162 Homework

Recommended: Appropriate skill level indicated by the English placement tests.

ENGL 838 INTENSIVE INTRODUCTION TO COMPOSITION AND READING

Intensive practice in reading, writing, listening, speaking, and thinking to develop and refine composition proficiency. Includes intensive instruction in reading comprehension and vocabulary development, elements of the essay, and composing techniques necessary for college writing (writing from source materials, analytical reading, and English usage and mechanics). Designed mainly to prepare students to meet competency standards required for entrance into English 100. *Letter Grade Only. Degree Credit.*

Units: 5

Hours/semester: 80-90 Lecture; 16-18 TBA; 144-162 Homework

Prerequisites: Appropriate skill level indicated by the English placement tests; or ENGL 828; or ESL 400 or ENGL 826 and READ 826 (or eligibility for READ 836 or 400-level reading course).

AA/AS Degree Requirements: Area E2a

ENGL 848 INTRODUCTION TO COMPOSITION AND READING

Practice in reading, writing, listening, speaking, and thinking to develop and refine composition proficiency. Includes instruction in reading comprehension and vocabulary development, elements of the essay, and composing techniques necessary for college writing (writing from

source materials, analytical reading, and English usage and mechanics). Designed mainly to prepare students to meet competency standards required for entrance into English 100. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 64-72 Lecture; 16-18 TBA; 112-126 Homework

Prerequisites: Appropriate skill level indicated by the English placement tests; or ENGL 828; or ESL 400 or ENGL 826 and READ 826 (or eligibility for READ 836 or 400-level reading course).

AA/AS Degree Requirements: Area E2a

ENGL 850 INDIVIDUAL WRITING INSTRUCTION

For all students wishing to improve their writing. Includes individual appointments with a faculty member who will help the student identify problems and develop content. Some writing areas that might receive attention are organization, development, and mechanics although help will be tailored to the specific needs of the student. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 0.5 - 3

Hours/semester: 24-162 Lab

ENGL 875 ENGLISH GRAMMAR

Comprehensive review of English grammar, including topics such as syntax, agreement, verb tenses, precision, coordination and subordination, the absolute phrase, the elliptical clause, and punctuation and graphics. *Grade Option (Letter Grade or Pass/No Pass). Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Engineering

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

ENGR 100 INTRODUCTION TO ENGINEERING

Introduction to the engineering profession, courses of study and resources for engineering students, engineering design and analysis, software tools, ethics in engineering. Individual and group work; oral and written presentations. Some assignments may require use of campus computer facilities outside of class hours. *Letter Grade Only. Degree Credit.*

Units: 3

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.
If you have questions, see your counselor.

Hours/semester: 32-36 Lecture; 48-54 Lab; 64-72 Homework

Prerequisites: MATH 130

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400.

AA/AS Degree Requirements: Area E5d

Transfer Credit: CSU, UC

C-ID: ENGR 110

ENGR 130 INTRODUCTION TO DRONE-BASED SCIENCE AND ENGINEERING

This course gives students a hands-on introduction to drones, their science and engineering, and their use as tools for the collection of scientific data. Students learn design, fabrication, and programming through the construction and/or modification of drones equipped with scientific instrumentation. Students also learn techniques for flying drones legally and ethically for data acquisition, and for analysis and reporting of scientific data collected by drones. Students will use skills typically covered in many elementary algebra courses. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 32-36 Lecture; 48-54 Lab; 64-72 Homework

AA/AS Degree Requirements: Area E2c, E5a

Transfer Credit: CSU, UC

ENGR 210 ENGINEERING GRAPHICS

Introduction to graphical communication and design for engineers. The engineering design process, visualization, sketching, orthographic projection, formal engineering drawings, descriptive geometry, manufacturing processes, dimensioning and tolerancing practices. Use of Computer-Aided Design (CAD) software to support engineering design. Students complete weekly homework assignments and group design projects that develop sketching, design, and 2-D and 3-D CAD skills. Assignments may require the use of CAD software outside of class hours (Spring only.) *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: MATH 130

Transfer Credit: CSU, UC

C-ID: ENGR 150

ENGR 215 COMPUTATIONAL METHODS FOR ENGINEERS AND SCIENTISTS

Introduction to problem solving, programming, and computational methods using the MATLAB programming environment. Procedural programming, recursion, sorting, object-oriented representations, and data structures. Plotting and data visualization, introduction to statistical analysis of data, systems of linear equations, numerical methods. Applications in engineering, mathematics, and the sciences. Assignments may require the use of MATLAB software outside of class hours. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 32-36 Lecture; 48-54 Lab; 64-72 Homework

Prerequisites: MATH 251

Transfer Credit: CSU, UC

C-ID: ENGR 220

ENGR 230 ENGINEERING STATICS

The study of systems in equilibrium. Plane and space force-moment systems, equivalent systems, free body diagrams; equilibrium problems involving structures, machines, distributed force systems, friction; shear and moment diagrams, moment of inertia, energy methods. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: PHYS 250 and MATH 252

Transfer Credit: CSU, UC

C-ID: ENGR 130

ENGR 260 CIRCUITS AND DEVICES

Introduction to circuits. Natural and forced response, network theorems, characteristics and circuit models of electronic devices including transistors and diodes. Laboratory assignments include both hardware techniques and computer-aided analysis. (Spring only) *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: PHYS 260, and completion of or concurrent enrollment in MATH 275.

Transfer Credit: CSU, UC

C-ID: ENGR 260L

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.
If you have questions, see your counselor.

ENGR 270 MATERIALS SCIENCE

Application of basic principles of physics and chemistry to the engineering properties of materials with emphasis on the relationship between atomic- and micro-structure and the mechanical and electrical properties of metals, concrete, polymers, ceramics, and semiconducting materials. The effect of heat, stress, imperfections, and chemical environment on material properties. Selection of materials to meet engineering design criteria. Acquisition, analysis, and presentation of experimental data. (Spring only) *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: CHEM 210, PHYS 250

Transfer Credit: CSU, UC

C-ID: ENGR 140B

English Second Language

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

ESL 400 COMPOSITION FOR MULTILINGUAL STUDENTS

Intensive practice in the writing of expository essays based on the analysis of complex pieces of writing, both fiction and non-fiction. Students are expected to conform to the conventions of standard English by demonstrating an ability to use proper punctuation, mechanics, sentence structure, and grammar. They should employ a variety of sentence patterns. *Letter Grade Only. Degree Credit.*

Units: 5

Hours/semester: 80-90 Lecture; 16-18 TBA; 144-162 Homework

Prerequisites: ESL 828 or appropriate skill level indicated by the ESL placement test.

Recommended: ESL 858 or appropriate skill level as indicated by the ESL placement test and concurrent enrollment in READ 830.

AA/AS Degree Requirements: Area E2a, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

ESL 810 PHONICS FOR MULTILINGUAL SPEAKERS

Introduction to basic speech sounds and practice in phonetic techniques for pronouncing, reading, and spelling unknown words. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 16-18 TBA; 80-90 Homework

Recommended: Students are strongly advised to concurrently enroll in ESL 845 or a higher level conversation course, ESL 855 or higher level reading course, and ESL 825 or a higher level writing course.

ESL 826 WRITING FOR MULTILINGUAL STUDENTS II

Introduces multilingual students of English to beginning writing in the form of a connected series of simple sentences on topics of daily life. Continues the study of English sentence types, imperatives, four basic verb tenses, modals, contractions, special verbs, count/no-count nouns, plurals, articles, adverbs, correct word order, punctuation, and spelling. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 5

Hours/semester: 80-90 Lecture; 160-180 Homework

Recommended: Appropriate skill level as indicated by placement tests. It is recommended that students enroll concurrently in ESL 856 or higher course and ESL 846 or higher course.

ESL 827 WRITING FOR MULTILINGUAL STUDENTS III

Practice in writing organized, well-developed academic paragraphs and introduction to writing a basic essay. Work on intermediate-level grammar structures: form, meaning, and use. *Grade Option (Letter Grade or Pass/No Pass). Units do not apply toward AA/AS degree.*

Units: 5

Hours/semester: 80-90 Lecture; 160-180 Homework

Recommended: ESL 826 or appropriate skill level as indicated by placement test. It is recommended that students enroll concurrently in ESL 857, ESL 858, or READ 830, and ESL 847 or higher course.

ESL 828 WRITING FOR MULTILINGUAL STUDENTS IV

Practice in writing organized and well-developed paragraphs and essays to develop composition skills. Work on high-intermediate-level grammar structures and editing within the context of the student's own work. *Letter Grade Only. Units do not apply toward AA/AS degree.*

Units: 5

Hours/semester: 80-90 Lecture; 160-180 Homework

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.
If you have questions, see your counselor.

Recommended: ESL 827 or appropriate skill level indicated by placement tests. Completion of ESL 857 or higher-level reading course or appropriate skill level indicated by placement tests. Students are strongly advised to enroll concurrently in ESL 858 or higher-level reading course and ESL 848 or higher-level communication studies course.

ESL 846 LISTENING AND SPEAKING II

Practice in low-intermediate level listening and speaking skills on a variety of personal and academic topics. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 16-18 TBA; 80-90 Homework

Recommended: Students are strongly advised to enroll concurrently in ESL 826 or higher course and ESL 856 or higher course. Appropriate skill level as indicated by placement test. Appropriate skill level as indicated by placement test.

ESL 847 LISTENING AND SPEAKING III

Practice in high-intermediate level listening and speaking skills on a variety of personal and academic topics. *Grade Option (Letter Grade or Pass/No Pass). Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 16-18 TBA; 80-90 Homework

Recommended: ESL 846 or appropriate skill level as indicated by placement tests. Students are strongly advised to enroll concurrently in ESL 827 or higher course and ESL 857 or higher course.

ESL 848 LISTENING AND SPEAKING IV

Advanced practice in speaking, listening, and the use of idiomatic expressions on a range of academic and informal topics. *Grade Option (Letter Grade or Pass/No Pass). Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 16-18 TBA; 80-90 Homework

Recommended: ESL 847 or appropriate skill level as indicated by placement tests. Students are strongly advised to enroll concurrently in ESL 828 or higher course and ESL 858 or higher course.

ESL 849 LISTENING AND SPEAKING WORKSHOP

For native speakers of languages other than English who want to improve their speaking and listening skills. Includes individual appointments, conversation circle activities, pronunciation practice and listening practice. Some areas that might receive attention are listening skills, note-taking skills, pronunciation, word choice, and specific grammar problems, although instruction will be tailored to the specific needs of each student. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 0.5

Hours/semester: 24-27 Lab

ESL 856 READING FOR MULTILINGUAL STUDENTS II

Designed to emphasize low-intermediate vocabulary and comprehension skills (context clues, subject, main ideas, supporting details, and inferences) and build general background knowledge. It is recommended that students enroll concurrently in ESL 826 or higher-level writing course and ESL 846 or higher-level conversation course. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 16-18 TBA; 80-90 Homework

Recommended: Appropriate skill level as indicated by Reading Placement tests. Students are strongly advised to enroll concurrently in ESL 826 or higher-level writing course and ESL 846 or higher-level conversation course.

ESL 857 READING FOR MULTILINGUAL STUDENTS III

Emphasizes high-intermediate vocabulary and comprehension skills (context clues, main idea/supporting details, critical reading) and introduces multilingual students to the study of fiction. It is recommended that students enroll concurrently in ESL 827 or higher writing course and ESL 847 or higher-level conversation course. *Grade Option (Letter Grade or Pass/No Pass). Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 16-18 TBA; 80-90 Homework

Recommended: ESL 856 or appropriate skill level as indicated by Reading Placement tests. Students are strongly advised to enroll concurrently in ESL 827 or higher-level writing course and ESL 847 or higher-level conversation course.

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.
If you have questions, see your counselor.

ESL 858 READING FOR MULTILINGUAL STUDENTS IV

Designed to strengthen vocabulary and comprehension skills, develop critical thinking skills, and increase world/cultural knowledge through the reading of high-intermediate works of fiction and/or non-fiction. *Grade Option (Letter Grade or Pass/No Pass). Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: ESL 857 or placement into ESL 858. ESL 827 or higher level writing course and ESL 847 or higher level Listening and Speaking course. Students are strongly advised to enroll concurrently in ESL 828 or higher level writing course, ESL 848

ESL 887 PRONUNCIATION OF ENGLISH CONSONANTS AND VOWELS

Designed to enable non-native speakers of English to improve their pronunciation. The class focuses on reducing misunderstandings and reducing non-native accents with an emphasis on the proper pronunciation of American English vowels, vowel length, consonants, consonant clusters and grammatical word endings. It also introduces various sound/spelling (phonics) patterns. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ESL 847

ESL 888 PRONUNCIATION OF ENGLISH STRESS, RHYTHM AND INTONATION

Designed to enable non-native speakers of English to improve their pronunciation. The class focuses on reducing misunderstandings and reducing non-native accents with an emphasis on word stress, rhythm, focus, intonation, and linking and blending. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ESL 847

ESL 895 READING IMPROVEMENT FOR MULTILINGUAL STUDENTS

Improve reading skills. Practice methods of increasing comprehension and vocabulary to meet specific student needs. May include internet or computer-assisted assignments. Uses self-paced programs based on individual

diagnostic test results to meet specific student needs. Designed for multilingual students all levels of English language development. Open entry/open exit. Students may enroll any time through the tenth week of the semester. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 0.5

Hours/semester: 24-27 Lab

ESL 897 INTERMEDIATE VOCABULARY FOR MULTILINGUAL STUDENTS

A self-paced course designed to help multilingual students of English build their vocabulary skills through a words-in-context approach. Students will use textbooks and computer programs to study intermediate-level words. Designed for intermediate-level ESL students. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 0.5 or 1

Hours/semester: 24-54 Lab

ESL 898 COMPREHENSIVE GRAMMAR REVIEW FOR MULTILINGUAL STUDENTS

A maintenance course designed specifically for new and continuing multilingual students. Review of grammatical structures which are generally problematic for multilingual students of ESL, including verb tenses, subject verb agreement, articles, singular plural agreement, some clauses and prepositions. Practice of these structures through written and oral exercises and in short compositions. Review of strategies for finding and correcting these errors in students' own writing. *Grade Option (Letter Grade or Pass/No Pass). Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: ESL 827 or appropriate skill level as indicated by placement tests. Eligibility for ESL 828

ESL 907 INDEPENDENT WRITING STUDY-INTERMEDIATE ESL

For speakers of languages other than English having difficulty with their writing. Includes independent work and individual appointments with a faculty member who will help students improve in paragraph writing, including correcting intermediate-level grammar errors. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 0.5 or 1

Hours/semester: 24-54 Lab

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.
If you have questions, see your counselor.

Recommended: Eligibility for ESL 827

ESL 908 INDEPENDENT WRITING STUDY- ADVANCED ESL

For speakers of languages other than English having difficulty with their writing. Includes independent work and individual appointments with a faculty member who will help students improve in essay writing, including correcting advanced-level grammar errors. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 0.5 or 1

Hours/semester: 24-54 Lab

Recommended: Eligibility for ESL 828

Ethnic Studies

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

ETHN 101 LATIN AMERICAN AND INDIGENOUS PEOPLES HISTORY AND CULTURE

Study of the historical and cultural presence of Native Americans/Indians and Latino[a] Americans in the United States. We will study the general background of two of America's oldest ethnic groups and examine issues that show racial and ethnic stereotypes as well as how these images create an ethnic identity. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400. Completion of or concurrent enrollment in any READ 400 level course.

AA/AS Degree Requirements: Area E1, E5b

ETHN 108 RETHINKING RACE, GENDER, AND NATION

This course introduces students to the theoretical, methodological, and substantive foundations of Ethnic Studies. Through a re-examination of U.S. history, students will develop an understanding of the relationships between racial formation and the production of social and economic inequality. Readings will focus on the interrelated processes of settler-colonial land expropriation, chattel slavery, multiple forms of migration, overseas imperial expansion, inter- and intra-national circulations of economic value, and the historical development of the U.S. settler legal regime. We will pay particular attention to the ways in which race and ethnicity have been historically co-constituted with other socially-constructed identities, such as gender, sexuality, class, and citizenship. *Letter Grade Only. ETHN 109 BORDERS AND CROSSINGS

The second in a two-semester introduction to Ethnic Studies, this course examines how U.S. processes of racial formation and gendering are related to multiple transnational circulations – circulations of commodities, bodies, labor, capital, knowledge, and culture. We interrogate the material and ideological work of borders – particularly nation-state borders, but also the borders and boundaries of racial and ethnic categories, gendered and sexualized identities, languages, forms of labor, and disciplinary categories of knowledge. We also explore the many ways in which such borders are variously resisted, contested, transgressed, transcended, and transformed over time. *Letter Grade Only. Degree Credit.*

Fire Technology

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

Fire Technology - Public Safety Training Courses

In-service training courses offered for fire personnel through the Public Safety Training Consortium. Course numbers will be assigned as needed, and Consortium titles will be used. The curriculum for each course offered adheres to Title V requirements.

College of San Mateo is a member of the South Bay Regional Public Safety Training Consortium. The Consortium is funded by member colleges to provide vocational specific training which may require special facilities, special training conditions, or is presented outside of the regular schedule of college classes.

South Bay offers in-service training courses, including State Fire Training certified classes. Although open to the public, the majority of these courses are intended to serve those already employed in a variety of Public Safety careers.

The application and registration process is completed at the South Bay Regional Public Safety Training Consortium Center located near the Evergreen Valley College campus. The curriculum for each course offered adheres to State of California Title 5 requirements.

For more information about the courses available, including requirements and schedules, please visit the [South Bay](#) website or call (408) 270-6458.

Kinesiology, Athletics, and Dance

Kinesiology, Athletics, and Dance courses are offered under the following disciplines: Adapted Physical Education, Aquatics, Dance, Fitness, Individual Sports, Kinesiology, Physical Education Theory, Team Sports and Varsity Sports.

Kinesiology is the 5th most sought after degree in the CSU system. Curriculum in the division has been developed to meet the broad interests of students in general activity courses addressing the Associates Degree requirement. These activity courses range from Adaptive Physical Education to cardiovascular conditioning, resistance training, yoga, Pilates, team sports, individual sports, dance, and Intercollegiate Athletics. Additionally, the division offers courses and programs designed for students seeking a certificate to enter the workforce; Yoga Teacher Training and Pilates Instructor Training, as well as many certificates and degrees. Lecture courses for students intending to transfer and major in Kinesiology at the four-year university level are also available.

The majority of activity courses offered by the San Mateo County Community College District are now leveled to show progression from the most fundamental (level 1) to the most advanced (level 4). Course levels can be identified by a .1, .2, .3, or .4 system or by the course title. Course levels may be scheduled simultaneously. Students are advised to enroll initially at the fundamental level (.1) regardless of previous experience and be placed at the appropriate level based on instructor assessment. Adapted Physical Education and intercollegiate sports related courses are not affected by the repeatability legislation.

To understand the repeatability legislation, please refer to the [Course Families](#) page.

LCTR 698 SUPERVISED TUTORING/ACADEMIC ASSISTANCE

Under the supervision of Learning Center staff, students receive academic assistance such as tutoring or digital supplemental support in areas of academic need. Students receive support or tutoring by tutors who have demonstrated competence in a specific subject, skill and/or discipline and who have successfully completed a tutor training course. *No Grade Awarded (Non-Credit Course). Units do not apply toward AA/AS degree.*

Units: 0

Corequisites: concurrent enrollment in a course in which tutorial/academic assistance is being provided.

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.
If you have questions, see your counselor.

Library Studies

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

LIBR 100 INTRODUCTION TO LIBRARY RESEARCH

An introduction to library resources and research. Provides a practical, hands-on introduction to library research. Topics covered include formulating and refining a research question, library organization, using reference materials, searching the online catalog and databases, avoiding plagiarism, and citing sources. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 1

Hours/semester: 16-18 Lecture; 32-36 Homework

AA/AS Degree Requirements: Area C3; Area E5d

Transfer Credit: CSU, UC

Literature

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

LIT. 101 TWENTIETH-CENTURY LITERATURE

Study of a representative selection of twentieth-century fiction, poetry, and drama. Authors may include T.S. Eliot, Pablo Neruda, Vladimir Nabokov, Samuel Beckett, Virginia Woolf, Gabriel Garcia Marquez, Sylvia Plath, Eugene O'Neill, Toni Morrison, among others. Emphasis on innovations of the century's major writers within the context of literary and cultural movements. Lectures, discussions, and related reading. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

LIT. 105 THE BIBLE AS LITERATURE

Selected texts from the Old and New Testaments and from the Apocrypha. Lectures, discussions, related readings, quizzes, and project. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

LIT. 113 THE NOVEL

Study of a representative selection of novels of the 19th, 20th and 21st Centuries and of various aspects of literary criticism. Authors may include Jane Austen, Charlotte and Emily Bronte, Thomas Hardy, Henry James, William Faulkner, Gabriel Garcia Marquez, among others. Lectures, discussions, and related reading. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

LIT. 115 THE SHORT POEM IN ENGLISH: A SURVEY

The study of major short poems in English from Chaucer up to the present time, with an emphasis on different critical approaches, historical context, and literary appreciation. Lectures, discussions, and related reading. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

LIT. 150 CRIME AND DETECTIVE FICTION

Study of representative works from the genres of detective and crime fiction, with an emphasis on their influence on English language literature and thought and on a broad range of creative media. Reading, discussion, and analysis. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

LIT. 151 SHAKESPEARE

Study of representative plays and poems, with an emphasis on Shakespeare's poetic and dramatic skills and his understanding of human nature. Reading and discussion. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.

If you have questions, see your counselor.

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

LIT. 154 INTRODUCTION TO LGBT LITERATURE

Study of representative works by LGBTQ+ authors in addition to exploring themes relevant to the LGBTQ+ community and allies. Authors may include E.M. Forster, Rita Mae Brown, Adrienne Rich, Michelle Tea, David Henry Hwang, E. Lynn Harris, W.H. Auden, James Merrill, among others. Reading, discussion, critical analysis. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

LIT. 155 COMICS AND THE GRAPHIC NOVEL

Study of representative works from the genre of comics and graphic novels with an emphasis on the unique tools inherent to the genre, their influence on English language literature, and thought and on a broad range of creative media. Reading, discussion, and analysis. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

LIT. 156 SCIENCE FICTION AND FANTASY LITERATURE

Study of representative works from the genres of Science Fiction and Fantasy, examining their roots, twentieth-century rise, and contemporary status. Focus is on how the genres interact with mythology, philosophy, and a broad range of creative media both present and past. Reading, discussion, and analysis. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

LIT. 201 AMERICAN LITERATURE I

Study of American Literature from the European conquest of the Americas through the 1870s with a focus on the major authors from the 18th and 19th centuries. Lectures, discussions, and reading of primary and secondary works. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

C-ID: ENGL 130

LIT. 202 AMERICAN LITERATURE II

Study of American Literature from the end of the U. S. Civil War in 1865 through the modern day. Lectures, discussions, and recorded readings. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

C-ID: ENGL 135

LIT. 220 INTRODUCTION TO WORLD LITERATURE

Study of World Literature and texts (poetry, prose, drama and film) from antiquity to the present with a focus on major authors representing literary traditions world-wide. Lectures, discussions, and recorded readings. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

C-ID: ENGL 140 (ENGL/LIT 180)

LIT. 221 WORLD LITERATURE FROM 1600

Comparative study of selected works, in translation and in English, of literature from around the world, including Africa, Asia, Europe, the Middle East, the Pacific Islands, and other areas, from the mid or late seventeenth century to the present. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.
If you have questions, see your counselor.

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

C-ID: ENGL 145 (ENGL/LIT 185)

LIT. 231 SURVEY OF ENGLISH LITERATURE I

Study of the typical works of major English writers from Chaucer to the end of the 18th Century. Lectures, discussions, and readings. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

C-ID: ENGL 160, ENGL/LIT 160

LIT. 232 SURVEY OF ENGLISH LITERATURE II

Study of the typical works of major English writers of the 19th and 20th century. Lectures, discussions, and readings. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

C-ID: ENGL 165

LIT. 251 WOMEN IN LITERATURE

Examination of the artistic, social, political, and cultural concerns and interests of women as expressed through literature written by women. Reading and discussion. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

LIT. 266 AFRICAN AMERICAN LITERATURE

Study of representative works from the genre of African American literature, with an emphasis on English language literature and thought and on a broad range of creative media. Reading, discussion, and analysis. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Eligibility for ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2b, E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

LIT. 430 GREEK MYTHOLOGY AND CLASSICAL LITERATURE

Survey of major deities and heroes, recurring mythological themes, and relationships between people and deities in ancient Greece and Rome. Reading, discussion, and analysis. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Mathematics

(Also see Business 115)

The Transfer Math Sequence you choose will depend on your major and your transfer destination. See a counselor for more information.

Multiple measures, including high school transcripts, are now being used to help determine proper placement of students into Mathematics courses. Students transferring to College of San Mateo with credit in college Mathematics can use their transcripts to assist with placement.

Prerequisites are listed in the descriptions of Mathematics courses in the catalog and the web schedule. Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses. Prerequisites may be met by showing proof of satisfactory completion of an equivalent course at a post-secondary institution.

MATH 110 ELEMENTARY ALGEBRA

A study of elementary algebra including introduction to: signed number operations, order of operations, linear equations and inequalities in one and two variables, systems of linear equations, exponents, polynomial operations, factoring, rational expressions and equations, roots, radicals and radical equations, and quadratic equations. *Letter Grade Only. Units do not apply toward AA/AS degree.*

Units: 5

Hours/semester: 80-90 Lecture; 160-180 Homework

Prerequisites: Appropriate score on the College Placement Test or MATH 811 or MATH 802

Recommended: Concurrent enrollment in READ 830.

MATH 111 ELEMENTARY ALGEBRA I

First half of a study of elementary algebra including introduction to: signed number operations, order of operations, linear equations and inequalities in one and two variables, systems of linear equations, exponents. *Letter Grade Only. Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: Appropriate score on the College Placement Test or MATH 811 or MATH 802

Recommended: Concurrent enrollment in READ 830.

MATH 112 ELEMENTARY ALGEBRA II

Second half of a study of elementary algebra including introductions to: exponents, polynomial operations, factoring, rational expressions and equations, roots, radicals and radical equations and quadratic equations. *Letter Grade Only. Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: MATH 111

Recommended: Concurrent enrollment in READ 830.

MATH 115 GEOMETRY

Study of the properties of plane and solid figures, using formal logic and the real number system. *Letter Grade Only. Degree Credit.*

Units: 5

Hours/semester: 80-90 Lecture; 160-180 Homework

Prerequisites: MATH 110 or 112 or appropriate score on the College Placement Test.

MATH 120 INTERMEDIATE ALGEBRA

A comprehensive review of elementary algebra with certain topics studied in greater depth. Extension of fundamental algebraic concepts and operations, problem solving and applications, linear, quadratic, rational, and radical equations, equations in two variables, graphs, systems of equations, complex numbers, exponential and logarithmic functions, sequences and series. *Letter Grade Only. Degree Credit.*

Units: 5

Hours/semester: 80-90 Lecture; 160-180 Homework

Prerequisites: MATH 110 or MATH 112 or appropriate score on the College Placement Test.

Recommended: Eligibility for READ 400 or an equivalent level of reading proficiency.

AA/AS Degree Requirements: Area C1; Area E2c

MATH 122 INTERMEDIATE ALGEBRA I

First half of MATH 120, a comprehensive review of elementary algebra with certain topics studied in greater depth. Extension of fundamental algebraic concepts and

operations, problem solving and applications, linear, quadratic, rational and radical equations, equations in two variables, graphs, systems of equations, complex numbers, exponential and logarithmic functions, sequences and series. MATH 122 and 123 together are equal to MATH 120. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: MATH 110 or MATH 112 or higher or appropriate score on the College Placement Test.

Recommended: MATH 115 and READ 830

MATH 123 INTERMEDIATE ALGEBRA II

Covers the second half of MATH 120 - a comprehensive review of elementary algebra with certain topics studied in greater depth. Extension of fundamental algebraic concepts and operations; problem solving and applications; linear, quadratic, rational, and radical equations; equations in two variables; graphs; systems of equations; complex numbers; review of exponential and logarithmic functions; sequences and series. Math 122 and 123 together are equivalent to Math 120. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: MATH 122

Recommended: MATH 115 and READ 830

AA/AS Degree Requirements: Area C1; Area E2c

MATH 125 ELEMENTARY FINITE MATHEMATICS

An introduction to finite mathematics, including linear functions, systems of linear equations and inequalities, matrices, linear programming, mathematics of finance, sets and Venn diagrams, combinatorial techniques and an introduction to probability. Applications in business, economics and social sciences. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: MATH 120 or MATH 123 or appropriate score on the College Placement Test.

Recommended: READ 400 or an equivalent level of reading proficiency.

AA/AS Degree Requirements: Area C1; Area E2c

Transfer Credit: CSU (CSU GE Area B4), UC (IGETC Area 2A)

C-ID: MATH 130

MATH 130 ANALYTICAL TRIGONOMETRY

Trigonometric functions of real numbers and angles, their graphs and periodicity; reduction formulas; functions of multiple angles; identities and equations; radian measure; inverse functions; and solution of triangles. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 64-72 Lecture; 128-144 Homework

Prerequisites: MATH 120 or MATH 123 or appropriate score on the College Placement Test.

Recommended: MATH 115 and completion of or concurrent enrollment in any READ 400 level course.

AA/AS Degree Requirements: Area C1; Area E2c

Transfer Credit: CSU (CSU GE Area B4)

MATH 145 LIBERAL ARTS MATHEMATICS

An examination of important concepts of mathematics and of mathematics as a tool for decision making. Topics and applications may include aspects of the history of mathematics, problem solving, counting methods, elementary number theory, sets, Euclidean and non-Euclidean geometry, Platonic solids, topology and logic. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: MATH 120 or MATH 123 or appropriate score on the College Placement Test.

Recommended: READ 400 or an equivalent level of reading proficiency.

AA/AS Degree Requirements: Area C1, C3; Area E2c

Transfer Credit: CSU (CSU GE Area B4), UC (IGETC Area 2A)

MATH 190 PATH TO STATISTICS

This accelerated course prepares students for transfer-level Statistics. It covers core concepts from elementary algebra, intermediate algebra, and descriptive statistics. Topics include ratios, rates, and proportional reasoning; arithmetic reasoning using fractions, decimals and percents; evaluating expressions, solving equations, analyzing algebraic forms to understand statistical measures; use of linear, quadratic, absolute value, exponential, and logarithmic functions to model bivariate data; graphical and numerical descriptive statistics for quantitative and categorical data. This course is designed for students who intend to take transfer level statistics and no other transfer level mathematics, physics or chemistry. Note: This course is NOT intended for students who plan to take courses in science, computer information science, engineering, math,

as well as business and other non-STEM majors. Please see your counselor. *Letter Grade Only. Degree Credit.*

Units: 6

Hours/semester: 96-108 Lecture; 192-216 Homework

Prerequisites: MATH 811 or appropriate score on District math placement test and other measures as appropriate.

AA/AS Degree Requirements: Area C1; Area E2c

MATH 200 ELEMENTARY PROBABILITY AND STATISTICS

Representation and interpretation of data, use and misuse of statistics, graphical display of distributions, measures of central tendency and dispersion, probability, sampling distributions, statistical inference (including ANOVA), contingency tables, regression and correlation. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 64-72 Lecture; 128-144 Homework

Prerequisites: MATH 120 or MATH 123 or MATH 190 or appropriate score on the College Placement Test.

Recommended: Eligibility for READ 400 or an equivalent level of reading proficiency. Eligibility for ENGL 100 or ENGL 105.

AA/AS Degree Requirements: Area C1; Area E2c

Transfer Credit: CSU (CSU GE Area B4), UC (IGETC Area 2A)

C-ID: MATH 110

MATH 222 PRECALCULUS

Study of more advanced algebra including the theory of equations, complex numbers, logarithmic and exponential functions, sequences and series, review of trigonometry and topics of analytic geometry, polar coordinates. *Letter Grade Only. Degree Credit.*

Units: 5

Hours/semester: 80-90 Lecture; 160-180 Homework

Prerequisites: MATH 130 or appropriate score on the College Placement Test.

Recommended: READ 400 or an equivalent level of reading proficiency.

AA/AS Degree Requirements: Area C1; Area E2c

Transfer Credit: CSU (CSU GE Area B4), UC (IGETC Area 2A)

C-ID: MATH 155

MATH 225 PATH TO CALCULUS

Equivalent to MATH 130 and 222. This course combines the topics of Trigonometry and Pre-Calculus and is designed to

fulfill the requirements of both courses as a prerequisite for MATH 251. Topics include a study of functions, function families, their properties and transformations, compositions, inverses and combinations, complex numbers, and vectors. Function families include linear, trigonometric, logarithmic, exponential, polynomial, power, and rational. Multiple representations of functions are emphasized. *Letter Grade Only. Degree Credit.*

Units: 6

Hours/semester: 96-108 Lecture; 192-216 Homework

Prerequisites: MATH 120 or Math 123 or appropriate score on the District math placement test and other measures.

AA/AS Degree Requirements: Area C1; Area E2c

Transfer Credit: CSU (CSU GE Area B4), UC (IGETC Area 2A)

MATH 241 APPLIED CALCULUS I

Selected topics from analytic geometry, plus basic techniques of differential and integral calculus. (This sequence may not be substituted for the MATH 251 sequence for mathematics, physics or engineering majors.) *Letter Grade Only. Degree Credit.*

Units: 5

Hours/semester: 80-90 Lecture; 160-180 Homework

Prerequisites: MATH 120 or MATH 123 or appropriate score on the College Placement Test and other measures as appropriate.

Recommended: Eligibility for READ 400 or an equivalent level of reading proficiency.

AA/AS Degree Requirements: Area C1; Area E2c

Transfer Credit: CSU (CSU GE Area B4), UC* (IGETC Area 2A)

C-ID: MATH 140

MATH 242 APPLIED CALCULUS II

Further work in differentiation and integration, trigonometric functions, calculus of functions of several variables, and selected topics from differential equations. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: MATH 130 and MATH 241

Recommended: Eligibility for READ 400 or equivalent level of reading proficiency.

Transfer Credit: CSU (CSU GE Area B4), UC* (IGETC Area 2A)

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.

If you have questions, see your counselor.

MATH 251 CALCULUS WITH ANALYTIC GEOMETRY I

Study of limits, continuity, the derivative, and its applications, and the definite integral. *Letter Grade Only. Degree Credit.*

Units: 5

Hours/semester: 80-90 Lecture; 160-180 Homework

Prerequisites: MATH 222 or Math 225 or appropriate score on the College Placement Test or other measures.

Recommended: Eligibility for READ 400 or an equivalent level of reading proficiency.

AA/AS Degree Requirements: Area C1; Area E2c

Transfer Credit: CSU (CSU GE Area B4), UC* (IGETC Area 2A)

C-ID: MATH 210

MATH 252 CALCULUS WITH ANALYTIC GEOMETRY II

Study of the Fundamental Theorem of Calculus, techniques of integration, applications of the definite integral, exponential, logarithmic and hyperbolic functions, polar coordinates, conic sections infinite series, Taylor series, and Taylor's formula. *Letter Grade Only. Degree Credit.*

Units: 5

Hours/semester: 80-90 Lecture; 160-180 Homework

Prerequisites: MATH 251

Recommended: READ 400 or an equivalent level of reading proficiency.

Transfer Credit: CSU (CSU GE Area B4), UC* (IGETC Area 2A)

C-ID: MATH 220

MATH 253 CALCULUS WITH ANALYTIC GEOMETRY III

Study of the calculus of functions of several independent variables, partial derivatives, vectors and vector calculus to include Green's theorem, Stokes' theorem, and the divergence theorem. *Letter Grade Only. Degree Credit.*

Units: 5

Hours/semester: 80-90 Lecture; 160-180 Homework

Prerequisites: MATH 252

Recommended: Eligibility for READ 400 or an equivalent level of reading proficiency.

Transfer Credit: CSU (CSU GE Area B4), UC* (IGETC Area 2A)

C-ID: MATH 230

MATH 268 DISCRETE MATHEMATICS

Covers topics in discrete mathematics with particular emphasis on applications to computer science. Includes logic, sets, functions and relations, mathematical induction, recursion, Boolean algebra, elementary number theory, and probability. Extra supplies may be required. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 64-72 Lecture; 128-144 Homework

Prerequisites: MATH 251

Recommended: Any READ 400 level course.

Transfer Credit: CSU (CSU GE Area B4), UC (IGETC Area 2A)

C-ID: MATH 160

MATH 270 LINEAR ALGEBRA

Vectors and matrices applied to linear equations and linear transformations; real and inner product spaces. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Prerequisites: MATH 252

Recommended: Completion of or concurrent enrollment in any READ 400 level course.

MATH 800 JUST-IN-TIME SUPPORT FOR ELEMENTARY PROBABILITY AND STATISTICS

A review of the core prerequisite skills, competencies, and concepts needed in statistics. Intended for students who are concurrently enrolled in MATH 200, Elementary Probability and Statistics, at College of San Mateo. Topics include concepts from arithmetic, pre-algebra, elementary and intermediate algebra, and descriptive statistics that are needed to understand the basics of college-level statistics. Concepts are taught through the context of descriptive data analysis. Additional emphasis is placed on solving and graphing linear equations and modeling with linear functions. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 2

Hours/semester: 32-36 Lecture; 64-72 Homework

Prerequisites: Appropriate score on the College Placement Test or other multiple measures assessment.

Corequisites: MATH 200

MATH 811 ARITHMETIC REVIEW WITH PRE ALGEBRA

Basic arithmetic involving whole numbers, signed numbers, fractions, decimals, and percents; estimation, number sense, order of operation, area and volume and other applications. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 32-36 Lecture; 48-54 Lab; 64-72 Homework

Recommended: ENGL 828 or ESL 828

MATH 820 JUST-IN-TIME SUPPORT FOR INTERMEDIATE ALGEBRA

A review of the core prerequisite skills, competencies, and concepts for intermediate algebra. Intended for students who are concurrently enrolled in MATH 120, Intermediate Algebra, at College of San Mateo. Review topics include: computational skills developed in pre-

algebra, the vocabulary of algebra, translation from English to algebra, and evaluation of literal expressions and functions. Topics covered in more depth include: solving and graphing linear equations and inequalities in one and two variables, solving and graphing systems of equations in two variables, factoring, algebraic operations on polynomial and rational expressions, solving quadratics using factoring, and rational equations. Recommended for students with little or no recent knowledge of algebra. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Corequisites: MATH 120

MATH 825 JUST-IN-TIME SUPPORT FOR PATH TO CALCULUS

A review of the core prerequisite skills, competencies, and concepts needed in pre-calculus. Intended for majors in science, technology, engineering, and mathematics who are concurrently enrolled in MATH 225, Path to Calculus, at College of San Mateo. Topics include: a review of computational skills developed in intermediate algebra, factoring, operations on rational and radical expressions, absolute value equations and inequalities, exponential and logarithmic expressions and equations, functions including composition and inverses, an in-depth focus on quadratic functions, and a review of topics from geometry. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 2

Hours/semester: 32-36 Lecture; 64-72 Homework

Corequisites: MATH 225

MATH 830 JUST-IN-TIME SUPPORT FOR ANALYTICAL TRIGONOMETRY

A review of the core prerequisite skills, competencies, and concepts needed in trigonometry. Intended for students who are concurrently enrolled in MATH 130, Analytical Trigonometry, at College of San Mateo and have a Math placement below transfer-level. *Pass/No Pass Only. Units do not apply toward AA/AS degree.*

Units: 1

Hours/semester: 16-18 Lecture; 32-36 Homework

MUS. 111 MUSICIANSHIP I

Develop practical musicianship skills through the study of basic rhythmic, melodic, harmonic, and metric material. Emphasis is on training the ear through aural and performance based activities such as sight singing, dictation (melodic, rhythmic and harmonic) and basic keyboard exercises. Concurrent enrollment in Mus. 131 is strongly recommended for music majors. *Letter Grade Only. Degree Credit.*

Units: 1

Hours/semester: 48-54 Lab

Prerequisites: MUS. 100 or MUS. 301 or MUS. 371 or MUS. 401, or equivalent. Students who feel they meet the prerequisite through prior experience should complete a short assessment of basic music skills in the assessment center (Bldg. 10-370. See also <http://collegeofsanmateo.edu/assessment>.)

Transfer Credit: CSU, UC

C-ID: MUS 125

MUS. 112 MUSICIANSHIP II

Incorporates and builds on concepts introduced in MUS. 111. Further development of ear training and sight singing skills. Topics include: sight singing of triads and seventh chords, second-layer subdivision, and harmonic dictation of diatonic progressions. *Letter Grade Only. Degree Credit.*

Units: 1

Hours/semester: 48-54 Lab

Prerequisites: MUS. 111

Transfer Credit: CSU, UC

C-ID: MUS 135

MUS. 113 MUSICIANSHIP III

Incorporates and builds on concepts introduced in MUS. 112. Further development of ear training and sight singing skills. Topics include: triplets/duplets, syncopations, chromatic alterations, and modulation to closely-related keys. *Letter Grade Only. Degree Credit.*

Students practice skills and receive faculty feedback and evaluation, engage in study sessions with peer tutors, demonstrate competency assessment and receive faculty evaluation, complete clinical or skills laboratory make-up assignments, and learn effective skills in a group setting. Focus is on skills and concepts related to NURS

211 Introduction to Nursing and NURS 212 Concepts of Homeostasis in Nursing. *Pass/No Pass Only. Degree Credit.*

Units: 0.5

Hours/semester: 24-27 Lab

Prerequisites: Previous or concurrent enrollment in NURS 211 and/or NURS 212.

NURS 817 OPEN LAB FOR NURSING 221/222

Students practice skills and receive faculty feedback and evaluation, engage in study sessions with peer tutors, demonstrate competency assessment and receive faculty evaluation, complete clinical or skills laboratory make-up assignments, and learn effective skills in a group setting. Focus is on skills and concepts related to NURS 221 Pediatric Nursing and NURS 222 Maternity Nursing. *Pass/No Pass Only. Degree Credit.*

Units: 0.5

Hours/semester: 24-27 Lab

Prerequisites: Previous or concurrent enrollment in NURS 221 and/or NURS 222.

NURS 818 OPEN LAB FOR NURSING 231/232

Students practice skills and receive faculty feedback and evaluation, engage in study sessions with peer tutors, demonstrate competency assessment and receive faculty evaluation, complete clinical or skills laboratory make-up assignments, and learn effective skills in a group setting. Focus is on skills and concepts related to NURS 231 Psychiatric and NURS 232 Medical Surgical Nursing. *Pass/No Pass Only. Degree Credit.*

Units: 0.5

Hours/semester: 24-27 Lab

Prerequisites: Previous or concurrent enrollment in NURS 231 and/or NURS 232.

NURS 819 OPEN LAB FOR NURSING 241/242

Students practice skills and receive faculty feedback and evaluation, engage in study sessions with peer tutors, demonstrate competency assessment and receive faculty evaluation, complete clinical or skills laboratory make-up assignments, and learn effective skills in a group setting. Focus is on skills and concepts related to NURS 241 Advanced Medical-Surgical Nursing and NURS 242 Leadership/Management in Nursing. *Pass/No Pass Only. Degree Credit.*

Units: 0.5

Hours/semester: 24-27 Lab

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.

Oceanography

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

OCEN 100 OCEANOGRAPHY

Introduction to marine geology, chemistry, and biology. Includes the hydrologic cycle and properties of sea water and marine organisms; currents, waves, tides, coastal processes, and ecology of the ocean; continental drift; and sea-floor spreading. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400.

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B1 or B2), UC (IGETC Area 5A)

Paleontology

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

PALN 110 GENERAL PALEONTOLOGY

The origin and evolution of the planet and life on earth through the past 4.6 billion years. Includes the study of fossils, rocks, geologic time, dating methods, evolution by natural selection, modern and ancient ecosystems, plate tectonics, speciation and mass extinction. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 838 or ENGL 848 or ESL 400.

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B1 or B2), UC (IGETC Area 5A or 5B)

C-ID: GEOL 110

PALN 111 PALEONTOLOGY LABORATORY/FIELD STUDIES

Optional introductory paleontology laboratory course designed to be taken concurrently with or following PALN 110. Laboratory exercises in dating methods, fossil

preservation, rock, fossil and ecosystem identification and interpretation, stratigraphic correlation, natural selection and extinction processes, fossil collection and preparation. Field trips to depositional/ecological environments and fossil sites required. *Letter Grade Only. Degree Credit.*

Units: 1

Hours/semester: 48-54 Lab

Prerequisites: Completion of or concurrent enrollment in PALN 110.

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B3), UC (IGETC Area 5C)

C-ID: GEOL 110L

Philosophy

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

PHIL 100 INTRODUCTION TO PHILOSOPHY

Introductory survey of philosophical questions about the nature of reality; the prospects for human knowledge; and moral, political, and religious issues. Intended to help students clarify their own thinking about such questions through learning and discussing how philosophers have dealt with them. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 100 or ENGL 105.

AA/AS Degree Requirements: Area E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

C-ID: PHIL 100

PHIL 103 CRITICAL THINKING

Designed to develop critical thinking. Presents techniques for analyzing arguments used in political rhetoric, advertisements, editorials, scientific claims, and social commentary. Develops the ability to create and refine written arguments. Includes inductive and deductive arguments, the validity and consistency of arguments, the relationship between evidence and conclusions, and the use of arguments in science. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 100 or ENGL 105 and READ 400.

AA/AS Degree Requirements: Area E2c

Transfer Credit: CSU (CSU GE Area A3), UC

PHIL 160 HISTORY OF ANCIENT PHILOSOPHY

This course addresses ancient philosophy with emphasis on the development of Greek philosophy from the Pre-Socratics through Aristotle and may also include Hellenistic, Roman, medieval or non-western thinkers. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

C-ID: PHIL 130

PHIL 175 HISTORY OF MODERN PHILOSOPHY

This course addresses 16th through 18th century philosophy with emphasis on broad epistemological and/or metaphysical developments of empiricism and rationalism in philosophical thought from Descartes to Kant and may include approximate precursors and successors. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: ENGL 100 or ENGL 105

AA/AS Degree Requirements: Area E2c, E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

C-ID: PHIL 140

PHIL 200 INTRODUCTION TO LOGIC

This course introduces some principles of valid reasoning with emphasis on proof systems for propositional and predicate logic. Includes translation of English sentences into a symbolic language, patterns and techniques of deductive and inductive inference, and basic probability theory. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 100 or ENGL 105.

AA/AS Degree Requirements: Area E2c

Transfer Credit: CSU (CSU GE Area A3), UC

C-ID: PHIL 110

PHIL 244 INTRODUCTION TO ETHICS: CONTEMPORARY SOCIAL AND MORAL ISSUES

This course examines the concept of morality and values, representative ethical theories and includes their

applications to contemporary social and moral issues. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 100 or ENGL 105.

AA/AS Degree Requirements: Area E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

C-ID: PHIL 120

PHIL 300 INTRODUCTION TO WORLD RELIGIONS

Survey of major contemporary Eastern and Western religions. Includes theories, practices, history, and leaders of each religion studied. Emphasizes the similarities underlying the differences between various religions. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 100 or ENGL 105. Completion of or concurrent enrollment in any READ 400 level course.

AA/AS Degree Requirements: Area E5c

Transfer Credit: CSU (CSU GE Area C2), UC (IGETC Area 3B)

Physical Education Theory

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

P.E. 101 THEORY OF BASEBALL

Concepts of modern baseball are explored including: strategy, coaching techniques, history, game rules and umpiring; developmental drills, theory of strength and conditioning programs and fundamentals of coaching youth baseball. This is NOT an activity class. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Transfer Credit: CSU, UC*

P.E. 102 THEORY OF OFFENSIVE FOOTBALL

Current concepts of offense are examined using game footage, practices, and computer assisted analysis. Concepts are examined and applied to attack opponent's offensive strategies. Strategy, techniques, game rules, developmental drills, strength and conditioning programs are covered. This is NOT an activity class. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Courses marked with a (*) are transferable with unit limitations as specified in assist.org.

PHYS 130 INTRODUCTION TO DRONE-BASED SCIENCE AND ENGINEERING

This course gives students a hands-on introduction to drones, their science and engineering, and their use as tools for the collection of scientific data. Students learn design, fabrication, and programming through the construction and/or modification of drones equipped with scientific instrumentation. Students also learn techniques for flying drones legally and ethically for data acquisition, and for analysis and reporting of scientific data collected by drones. Students will use skills typically covered in many elementary algebra courses. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 32-36 Lecture; 48-54 Lab; 64-72 Homework

AA/AS Degree Requirements: Area E2c, E5a

Transfer Credit: CSU, UC

PHYS 150 PREPARATION FOR PHYSICS

Review and development of algebra and trigonometry skills required for physics, including vector addition problems. Development of laboratory skills and problem solving skills and application of those skills to kinematics and Newton's Laws of Motion. Designed for students planning to take PHYS 210 or 250. *Grade Option (Letter Grade or Pass/No Pass). Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: Completion of or concurrent enrollment in MATH 130 or appropriate score on the College Placement Test.

PHYS 210 GENERAL PHYSICS I

First course in a two semester non-calculus-based physics sequence. Topics covered include: Kinematics, Newton's Laws of Motion, Work and Energy, Momentum, Rotational Motion, Mechanical Equilibrium with Skeletal/Muscular Applications, Fluids, Thermodynamics, Oscillations, Waves and Sound. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: MATH 130

Recommended: PHYS 150

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B1 and B3), UC (IGETC Area 5A and 5C)

C-ID: PHYS 105, PHYS 100S (PHYS 210 & PHYS 220)

PHYS 211 GENERAL PHYSICS I-CALCULUS SUPPLEMENT

Application of calculus to topics in PHYS 210. Primarily intended for majors requiring one year of calculus-based physics. *Letter Grade Only. Degree Credit.*

Units: 1

Hours/semester: 16-18 Lecture; 32-36 Homework

Prerequisites: Completion of or concurrent enrollment in MATH 242 or MATH 252; Completion of or concurrent enrollment in PHYS 210.

Transfer Credit: CSU, UC

PHYS 220 GENERAL PHYSICS II

Second semester of a two-semester sequence for students majoring in biological and other non-physical sciences. Topics covered include electricity and magnetism, light, and modern physics. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: PHYS 210

Application of calculus to topics in Physics 220. Primarily intended for majors requiring one year of calculus-based physics. *Letter Grade Only. Degree Credit.*

Units: 1

Hours/semester: 16-18 Lecture; 32-36 Homework

Prerequisites: Completion of or concurrent enrollment in MATH 242 or MATH 252 and completion of or concurrent enrollment in PHYS 220.

Transfer Credit: CSU, UC

PHYS 250 PHYSICS WITH CALCULUS I

First semester in a three semester calculus-based physics sequence covering mechanics, wave motion, and special relativity. Intended primarily for students majoring in the physical sciences or engineering. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: Completion of or concurrent enrollment in MATH 252.

Recommended: PHYS 150 or equivalent

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B1 and B3), UC (IGETC Area 5A and 5C)

C-ID: PHYS 205, PHYS 200S (PHYS 250 & 260 & 270)

PHYS 260 PHYSICS WITH CALCULUS II

Second semester in a three-semester sequence for students majoring in the Physical Sciences and Engineering. Topics covered are electricity and magnetism including AC and DC circuits. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: PHYS 250, and completion of or concurrent enrollment in MATH 253.

AA/AS Degree Requirements: Area E5a

Transfer Credit: CSU (CSU GE Area B1 and B3), UC (IGETC Area 5A and 5C)

C-ID: PHYS 210, PHYS 200S (PHYS 250 & 260 & 270)

PHYS 270 PHYSICS WITH CALCULUS III

Third semester in a three-semester sequence for students majoring in the Physical Sciences and Engineering. Topics covered are thermodynamics, geometric and physical optics, and modern physics. *Letter Grade Only. Degree Credit.*

Units: 4

Hours/semester: 48-54 Lecture; 48-54 Lab; 96-108 Homework

Prerequisites: PHYS 250, and completion of or concurrent enrollment in MATH 253.

C-ID: PHYS 215, PHYS 200S (PHYS 250 & 260 & 270)

PHYS 271 QUANTUM MECHANICS SUPPLEMENT

This course will further explore introductory quantum mechanics for students considering majoring in Physics, Chemistry, or certain fields of Engineering. *Letter Grade Only. Degree Credit.*

Units: 1

Hours/semester: 16-18 Lecture; 32-36 Homework

Prerequisites: PHYS 260 and completion of or concurrent enrollment in, PHYS 270 and completion of or concurrent enrollment in MATH 275 and completion of or concurrent enrollment in, MATH 270

Transfer Credit: CSU, UC

Political Science

Unless otherwise indicated, a grade of C or higher is required for all prerequisite courses.

PLSC 100 INTRODUCTION TO POLITICAL SCIENCE

An introduction to political science designed to familiarize students with basic political concepts, political ideologies, political systems, and subfields within political science. *Letter Grade Only. Degree Credit.*

Units: 3

Hours/semester: 48-54 Lecture; 96-108 Homework

Recommended: Eligibility for ENGL 100 or ENGL 105, and completion of, or concurrent enrollment in, any READ 400-level course.

Parking Regulations

Parking Permit Requirements

All persons driving motor vehicles (except motorcycles) on to campus and utilizing the parking facilities during regular class hours (Monday-Friday, 7 am–10 pm), including final examinations, are required to obtain and display a parking permit on their vehicle. A parking permit is not required for students riding motorcycles and parking must be in designated Motorcycle Parking in Marie Curie Lot 5. Student parking permits are available for \$52 each for the fall and spring semesters (Fall/ Spring Permit \$94) and \$27 for the summer session. Parking permits for students with California College Promise Grant (CCPG) waivers are \$30 per semester (fall or spring) and \$25 for the summer session.

Lost or Stolen Parking Permits

If a permit is lost or stolen, replacements are available at full price.

Purchasing Parking Permits

Students may purchase parking permits only online using [WebSMART \(collegeofsanmateo.edu/websmart\)](http://collegeofsanmateo.edu/websmart). Permits may be ordered and paid for online and mailed to the student's residence. Students may also order a permit online from computers located on the third floor of Building 10 (Admissions and Records Office and Business Office) and then pay for the permit and pick it up in the Cashier's Office. See [Semester Parking Permit \(collegeofsanmateo.edu/parking/parkingpermits.asp\)](http://collegeofsanmateo.edu/parking/parkingpermits.asp) for more information. Students also have the option of purchasing daily parking permits from the permit machines located in Beethoven Lots 2B, 2E, and in Galileo Lot 6A. Permits are transferable from vehicle to vehicle. Students may obtain permits in person at the [Cashiers Office](#). Daily parking permits (\$3) are available from machines designated on the campus map.

Displaying Student Parking Permits

Permits must be displayed in the vehicle with the number visible from the exterior of the vehicle. They may be either affixed on the inside lower left of the windshield (above the steering wheel) or affixed to a plastic hanger suspended from the inside rear view mirror. Plastic permit hangers may be obtained from the Bookstore for \$1 plus tax. Permits may be used on multiple vehicles.

Vehicles with improperly displayed permits will be subject to citation. It is the permit holder's responsibility to properly display the permit in the vehicle and to notify CSM's

Department of Public Safety promptly if the permit is lost or stolen.

Daily parking permits are available for purchase for \$3 each from permit dispensers in Beethoven Lots 2B, 2E, and in Galileo Lot 6A. Daily permits are valid in all lots where, and when, students are authorized to park. These permits must be displayed face up on the dashboard.

Semester parking permits and daily parking permits are valid on all three campuses of the District (College of San Mateo, Skyline College and Cañada College).

A grace period allowing for the purchase of permits will be in effect during the first two weeks of the spring and fall semesters and the first week of the summer session in student lots only. All staff parking lots are strictly enforced. The grace period pertains only to student permits with all other parking regulations enforced at all times in all parking lots and roadways.

Disabled Parking

Blue Handicapped parking spaces have been provided in Lots 2, 3, 4, 5, 6, 8, 11 and 12 (see Campus Map). A vehicle must have and display a valid California State Disabled Person Placard (issued by DMV) to park. Disability Parking spaces are regulated under California Vehicle Code Section 22511.5 Disabled Parking Authorized Parking Zones. No student, staff, daily, patron or visitor parking permit required when displaying a valid CA DP placard.

Visitor Parking

Visitors to campus may park for up to 40 minutes in Marie Curie Lot 5B, Forum Lot 8, and Olympian Lot 12. No student parking will be allowed at anytime. Visitors may also park in a student lot after purchasing and displaying in the vehicle (face up on dashboard) a \$3 daily permit. Parking permit machines are located in Beethoven Lots 2B, 2E, and in Galileo Lot 6A. For the location of the parking lots please see a campus [map \(collegeofsanmateo.edu/map\)](http://collegeofsanmateo.edu/map). No visitor parking permit required when displaying a valid CA DP placard.

San Mateo Athletic Club Parking

Special parking permits issued by the San Mateo Athletic Club (SMAC) are required at all times for parking in designated areas in Beethoven Lot 2 (SMAC Patron parking has a 3-hour limit). All other permits are not valid. For more information, call 378-7373 or visit the [San Mateo Athletic Club \(smccd.edu/sanmateoathleticclub\)](http://smccd.edu/sanmateoathleticclub) website.

Electric Vehicle Charging Stations

Parking in the EV charging stations is limited solely to electric vehicles that are actively charging with a maximum time limit of 4 hours per vehicle. (No parking permit is needed as long as the above conditions are met)

Any vehicle parked in an EV space and is not an electric vehicle, not charging, or is left past the 4-hour maximum limit will be subject to a citation.

Traffic and Parking Regulations

The speed limit on the campus is 15 mph.

Parking is permitted only on blacktop surfaces in specifically marked parking spaces. Parking on unpaved areas, in roadways, in crosshatched areas, in marked end zones, in areas posted as no parking zones or in any unauthorized area is prohibited. Vehicles backed into diagonal parking spaces can create a hazard when exiting and will be subject to citation.

No student parking is permitted in the designated "Employee of the Month" parking spaces. These spots are reserved for authorized staff only and unauthorized vehicles may be ticketed.

Driving or parking within the inner campus is prohibited.

The campus is open daily from 7 am to 10 pm.

Stopped or standing vehicles on sidewalks, roadways or restricted areas will be subject to citation.

Skateboards and Bicycles

The riding of skateboards on campus is prohibited by SMCCCD regulations. Bicycles may be operated on campus. The California Vehicle Code prohibits the operation of bicycles on sidewalks.

Public Transit

SamTrans operates three bus routes to the college: Route 250 (San Mateo downtown and Caltrain), Route 260 (San Carlos Caltrain, Redwood Shores & Belmont) and Route 294 (Half Moon Bay). All buses have wheelchair lifts and accommodate two to four bikes. Route 250 provides weekday service until 10:25 pm. Routing information is available by calling 1-800-660-4BUS or visiting samtrans.com and caltrain.com. Printed schedules and maps are also available at the Center for Student Life and Leadership Development in Building 17.

One-day Permits: \$3 per day. Valid only during class hours from 7 am to 10 pm. Permit machines indicated by **D** on the map: Hilsdale Lot 1, Beethoven Lot 2, Galileo Lot 6, and Stadium Lot 11

Visitor Parking: Visitors to campus may park free for the first 40 minutes in visitor parking areas in Marie Curie Lot 5, Forum Lot 8, and Olympian Lot 12. Visitors must purchase a daily permit (\$3 per day) for time beyond 40 minutes at the permit machines located in the lots (indicated by **V** on the map). Permits must be displayed face-up on the dashboard. No student parking allowed in visitor lots.

Student Parking: Hilsdale Lots 1A–D, Beethoven Lot 2, Galileo Lots 6, Bulldog Lots 9, 9B, 9C, 9D or Stadium Lot 11

Staff Parking: Beethoven Lot 2B, DaVinci Lot 3, Socrates Lot 4, Marie Curie Lot 5A, 5B, Edison Lot 7, Bulldog Lot 9A, Sandbox Lot 10, Olympian Lot 12

Restricted Parking: Hilsdale Lot 1E & 1F

Disabled Parking: Valid CA Disabled Person placard only. No student, staff, daily, patron or visitor parking permit required when displaying a valid CA DP placard.

Motorcycle Parking: Locations indicated by **M** on map: Marie Curie Lot 5, Galileo Lot 6D

Electric Vehicle Charging Stations (120 volt): Locations indicated by **EV** on map, DaVinci Lot 3, Marie Curie Lot 5

Rideshare (Lyft/Uber) Dropoff: Olympian Lot 12

Some courses appear in more than one CSU GE AREA but can be applied to only one area.

		C	IP
- To apply AP, IB, or CLEP Exam Results to CSU GE use the charts in the CSM Catalog. C = Completed; IP = In Progress - ALWAYS use www.assist.org for the most accurate list of approved CSU GE courses and lower division major course requirements for transfer. - If you have completed coursework outside of the San Mateo County Community College District, submit a Transcript Evaluation Request (available in WebSMART) to determine if any of the coursework can be applied to CSU GE certification. - IMPORTANT! There are instances when a CSM course is approved for CSU GE but the same course at Skyline or Cañada is NOT approved for CSU GE (or visa versa). Use ASSIST!! On ASSIST view the CSU GE list for <u>the college</u> in which you are enrolled in the course to confirm CSU GE applicability.

CSU ADVISING FORM

CALIFORNIA STATE UNIVERSITY GENERAL EDUCATION (CSU GE) 2019-2020

Due to periodic revision of transfer requirements, use www.assist.org for the most current CSU GE info.

Directions to students:

1. You must request an official **CSU GE Certification** to be sent with your final transcripts to your transfer destination in your last term of enrollment at CSM prior to transfer. Failure to do so may affect your transfer.
2. Use **DEGREE WORKS AUDIT** to identify how courses completed at CSM, Skyline, or Cañada are applied to CSU GE
3. **IMPORTANT!!** There are instances where a course at CSM is approved for CSU GE but the same course at Skyline or Canada is NOT approved for CSU GE (or visa versa). Use www.ASSIST.com and select the COLLEGE where you are taking the course to determine if that the course (at that college) is approved for GE!
4. **IMPORTANT!!** If you plan to complete your transfer requirements at CSM and have completed courses at other colleges or universities in the United States you must have an OFFICIAL transcript evaluation via the SMCCCD Transcript Evaluation Service. For more information go to www.smccd.edu/transeval. You can submit a REQUEST for an official transcript evaluation in your WebSMART .

Important information regarding CSU GE

1. Courses listed in more than one area can be used to satisfy only one area, **except** courses completed to meet the U.S. History, U.S. Constitution and California State and Local Government requirement may also be applied to a GE area.
2. Completion of CSU GE does not guarantee admission to any CSU campus.
3. A maximum of 39/40 units of lower division general education units required by CSU can be completed at College of San Mateo. Of the 39/40 units, a maximum of 30/31 can be certified in Areas B, C, D, and E.
4. Courses applied to meet areas A1, A2, A3, and B4 must be completed with a grade of C- or higher. Outside of Areas A and B4, it is up to the specific CSU campus to determine if they will accept a grade of D for CSU GE. However, if the campus or major in which you wish to transfer is competitive or selective, grades of D could negatively affect your admissions.
5. Transfer students pursuing a high unit major that requires extensive lower-division major preparation may not be able to complete all lower division general education requirements prior to transfer. Speak with a counselor about course selections.
6. Students who have completed coursework at colleges or universities outside of the San Mateo County Community College District but within the United States should use the SMCCCD Transcript Evaluation Service (www.smccd.edu/transeval) within the first semester of attendance to determine how prior coursework can be applied to CSU GE certification. You can find all California Community College transfer course information on www.assist.org.
7. PASS ALONG policy: CSM can certify coursework completed at another California community college, or at an independent institution that participates in certifying GE coursework to the CSU, or at a CSU campus, only if the courses are on the approved certification list at the college when and where they were completed. Coursework from other accredited colleges/universities that do not have established articulation with the CSU system may be approved as long as the courses meet CSU GE standards. However, the Critical Thinking requirement (Area A3) is a course developed with collaboration from the CSU, UC, and CCC systems and, typically, out of state courses will not be considered equivalent.
8. CSU campuses urge transfer students to complete all lower division general education and pre-major courses prior to transfer. Use www.assist.org and www.csumentor.edu as resources.
9. **BE ADVISED—what you don't know WILL HURT you! It is your responsibility to do necessary transfer research!** To successfully transfer be sure to use Transfer Services, attend "how to transfer" workshops, and meet with a counselor to develop an educational plan for your SPECIFIC transfer destination and major!

IGETC ADVISING FORM

INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC) 2019-2020 EDITION

Due to periodic revision of transfer requirements, use www.assist.org for the most current IGETC info.

1. You must request an official IGETC Certification to be sent with your final transcripts to your transfer destination in your last term of enrollment at CSM. Failure to do so will affect your transfer admissions status.
2. Use DEGREE WORKS in WebSmart to view how courses completed are applied to IGETC requirements.
3. **IMPORTANT!** There are instances when a course at CSM is approved for IGETC but THE SAME COURSE at SKYLINE or CAÑADA is not approved for IGETC (or visa versa). Remember to look at the IGETC list for the college at which you are enrolled in the class to confirm IGETC applicability.
4. If you request IGETC Certification at CSM and have completed courses at colleges outside of the San Mateo College District, you must have your transcripts officially evaluation by the SMCCCD Transcript Evaluation Service. For more information go to www.smccd.edu/transeval .

Important information regarding completing IGETC

1. It is **IMPORTANT** that you request a IGETC Certification to be sent with your final transcript to your transfer destination. Make this request through your WebSMART under "Transcripts." IGETC Certification permits students to transfer from College of San Mateo to any campus of the California State University (CSU) or University of California (UC) systems without having to take additional lower-division general education after transfer.
2. Completion of IGETC is not an admission requirement or guarantee for transfer to CSU or UC, nor is it the only way to fulfill lower-division general education requirements for CSU or UC prior to transfer. Engineering students and students completing majors with high lower division unit requirements are advised to focus on completing the pre-major requirements while meeting minimum admission requirements.
3. Courses listed in more than one area can be used to satisfy only one area unless noted otherwise.
4. **All courses applied to IGETC must be completed with a grade of C or higher (C- grades are not acceptable).**
5. Students who enroll at a UC or CSU campus, then leave and attend a community college, and subsequently return to a different UC or CSU campus MAY use IGETC.
6. Students who initially enroll at a UC campus, then leave and attend a community college, and subsequently return to the same campus are considered "readmits" by the UC and CANNOT use the IGETC.
7. If the Language Other than English Requirement was satisfied in high school, the student's official high school transcript must be submitted to the Admissions and Records Office prior to certification.
8. **Students who have completed coursework at colleges or universities outside the San Mateo County Community College District but within the United States should use the CSM Transcript Evaluation Service within the first semester of attendance to determine how prior coursework can be applied to IGETC certification. (www.smccd.edu/transeval)**
9. Coursework from other accredited colleges/universities, other than California community colleges, may be approved as long as the courses meet IGETC standards; the **exception is Area 1B (Critical Thinking).**
10. The IGETC is not advisable for all transfer students.
 - UC Berkeley - Haas School of Business and colleges of Engineering, Environmental Design and Chemistry have extensive prescribed major prerequisites and IGETC is not appropriate preparation for majors in these colleges.
 - UC Los Angeles - The Henry Samueli School of Engineering and Applied Science does not accept IGETC.
 - UC Riverside - The Marlan and Rosemary Bourns College of Engineering accepts completion of IGETC but additional breadth coursework may be required after enrollment at Bourns.
 - UC San Diego - Eleanor Roosevelt and Revelle Colleges do not accept IGETC.
 - UC Santa Cruz - Transfer students pursuing any major in the physical and biological sciences or the Jack Baskin School of Engineering should not follow IGETC as it will not provide them with lower division preparation for their majors.

ASSOCIATE DEGREE IN ARTS (AA)/SCIENCE (AS) - GENERAL EDUCATION WORKSHEET

for 2019-2020 CATALOG RIGHTS (page 1 of 2 pages updated June 24, 2019)

Catalog Rights: Having “catalog rights” means a student is held to the course requirements listed in the CSM catalog at the time enrollment begins as long as the student maintains continuous enrollment. A student may choose to use catalog rights for any subsequent year of continuous enrollment at CSM or Cañada or Skyline. Continuous enrollment means attending at least one term (fall, spring or summer) each academic year. If a student discontinues enrollment and restarts then catalog rights begin with the new enrollment.

Name: _____ **Date:** _____ **CSM G#:** _____

Important information for students!

1. If you plan to transfer to a California State University campus, ask about the Associate Degrees for Transfer (AA-T or AS-T).
2. Beginning with 2019-2020 catalog rights, for an associate degree you may choose to use the local GE pattern outlined below OR the California State University General Education pattern (CSU GE), OR the Intersegmental General Education Transfer Curriculum for UC pattern (IGETC/UC), OR the Intersegmental General Education for CSU pattern (IGETC/CSU).
3. If you have completed coursework at colleges/universities outside of the San Mateo County Community College District you must request an OFFICIAL TRANSCRIPT EVALUATION within the first semester of attendance to determine how prior coursework can be applied to AA/AS degrees, AA-T and AS-T degrees, CSUGE, and IGETC requirements. For more information go to www.smccd.edu/transeval.
4. For a course to meet AA/AS general education degree requirements, the course must have been completed at the time it was approved and appeared on the AA/AS Degree General Education Requirements worksheet or the CSU/GE, IGETC/UC or IGETC/CSU worksheet.

A – RESIDENCE

A minimum of 60 degree applicable units is required. At least 12 units must be completed in residence at College of San Mateo. (Also, see residence information listed under the MAJOR.)

B – SCHOLARSHIP

A minimum grade point average of 2.0 is required in all degree applicable coursework. A grade of C or higher in all courses applied to the major is required. Some subgroups of coursework may require a grade of C or higher or a 2.0 minimum cumulative grade point average.

C – COMPETENCY REQUIREMENTS

C1: MATH/QUANTITATIVE REASONING – MATH 120 INTERMEDIATE ALGEBRA.

This competency may be satisfied with any of the following.

- A. Completion of a course with a grade of “C” or higher: MATH 120, MATH 123 or Math 190, or a course with a MATH 120 or MATH 190 prerequisite.
- B. Score of 3, 4 or 5 on College Board Advanced Placement Tests (AP) in Calculus AB or Calculus BC or Statistics.
- C. Score of 4 or higher on International Baccalaureate Exam (IB) in Mathematics HL.
- D. Score of 23 or higher on ACT for Math or 550 or higher on SAT Math or 50 or higher on CSU ELM test.
- E. Grade of “C” or higher in a college course equivalent to MATH 120 taken outside of SMCCCD** or in a college course with a prerequisite of college intermediate algebra or higher.**

C2: ENGLISH – ENGLISH 100 or 105

This competency may be satisfied with any of the following.

- A. Completion with a grade of “C” or higher ENGLISH 100 or ENGLISH 105.
- B. Receive a score of 3, 4 or 5 on one of the following College Board Advanced Placement Tests (AP) – English Language and Composition or English Literature and Composition.
- C. Received a grade of “C” or higher in a college course equivalent to ENGLISH 100/105 completed outside of SMCCCD**

C3: INFORMATION COMPETENCY

This competency may be satisfied with any of the following.

- A. Complete ENGL 100 or 105 completed at CSM or Skyline in Fall 2015 or later with a grade of “C” or higher.
- B. Complete with a grade of “C” or “P” in any of the following CSM courses: LIBR 100, CIS 110, DGME 100, 102, MATH 145, COUN 129, NURS 242 or in LSCI 100 at Skyline or LIBR 100 at Cañada.
- C. Receive a score of 70 percent or higher on the CSM Information Competency Proficiency Exam. Go to website collegeofsanmateo.edu/library for more information.
- D. Receive a grade of C or higher in an equivalent course taken outside of SMCCCD that meets CSM standards for information competency. Use the Information Competency Equivalency Petition that can be found on the CSM Library website.

**Courses taken outside SMCCCD must be completed at a college/university within the United States with CSM approved accreditation. For C1 and C2 seek approval through the Official Transcript Evaluation Service (www.smccd.edu/transeval).

D – MAJOR Major course requirements are a minimum of 18 units. Use the CSM Catalog to find courses required for each major. Either 12 units or 50% of the units applied to the major, whichever is fewer, must be completed in residence at CSM. A grade of “C” or higher is required for each course applied to the major. Courses applied to the major may also meet GE requirements if applicable.

The College of San Mateo Associate Degree for Transfer general education requirements are listed below. The Associate Degree for Transfer is different from other college associate degrees in that only the major, CSU GE or IGETC/CSU, and a minimum of 60 CSU transferable units are needed to complete the degree. No additional requirements can be imposed by the local college or district.

A – UNITS and RESIDENCE

- At least 60 CSU transferable units including required major courses and CSU GE or IGETC for CSU.
- At least 12 units must be completed in residence at College of San Mateo

B – SCHOLARSHIP

- A minimum grade of “C” is required for all courses applied to the major.
- An overall grade point average of 2.0 or higher is required.

D – MAJOR COURSE REQUIREMENTS

- Use the College of San Mateo Catalog to find the list of major courses required for the AA-T or AS-T.
- Courses applied to the major may also be applied to general education requirements if applicable.

E – GENERAL EDUCATION REQUIREMENTS

- Select ONE of the patterns below, the CSU GE pattern or the IGETC/CSU pattern

OPTION 1 - CSU GE	OPTION 2 - IGETC for CSU
